FmHA AN No. 1041 (1992)

June 13, 1984

SUBJECT: Farmer Program Information System (FARMS)

TO: All State Directors, Farmer Program Chiefs, District  
Directors, County Supervisors, and Director, Finance Office

As you were advised in the Electronic Mail to all State Directors dated  
October 6, 1983, FARMS will be continued in Fiscal Year 1984.

Information will be submitted for each insured initial and subsequent OL,  
FO, SW and EM loan closed during FY 1984. Also, initial loan information  
will be submitted for each insured FY 1984 subsequent loan when the  
initial loan was closed prior to October 1, 1983, and the initial loan  
information was not submitted in FY 1983. Information for subsequent  
loans closed prior to FY 1984 will not be needed.

Please submit the required information as loans are closed or as the loan  
status changes. On a regular basis, the National Office will provide a  
list of borrowers to State and County Offices for which additional  
initial loan information is needed for subsequent loans in FY 1984.

Mail information to:

MISDD/FmHA, USDA  
14th Independence Avenue, S.W.  
Washington, D.C. 20250  
ATTN: PMIS Branch

Instructions for preparing the information are contained in the attached  
FARMS USERS GUIDE.

Please note the following:

1. Additional information will be collected for loan status codes.  
Whenever the current status of a closed-loan changes, complete  
the Borrower ID No., and elements 1 and 2 of computer input  
Set 4, circle the action, modify and submit the set to the  
National Office at the address indicated above. See Section V  
of the FARMS USERS GUIDE. Please be sure to send in Set 4 for  
each change in loan status indicated in Section V.

EXPIRATION DATE: May 31, 1985

FILING INSTRUCTION: Preceding  
FmHA Instruction 1992-B

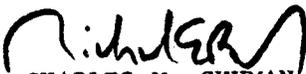

Farmers Home Administration is an Equal Opportunity Lender.  
Complaints of discrimination should be sent to:  
Secretary of Agriculture, Washington, D.C. 20250

2. Computer input Set 8 will have to be completed for borrowers using the coordinated financial statement or other systems (FINPACK - Minnesota).
3. As in FY 1983, the following FmHA Forms will not be sent to the Finance Office:
  - (a) Form FmHA 443-12, "Farm Ownership and Individual Soil and Water Fund Analysis".
  - (b) Form FmHA 1941-7, "OL and Other Credit Analysis."
  - (c) Form FmHA 492-19, "Characteristics of Approved Applicants."
4. An emergency loan for actual losses made after September 28, 1983 that exceeds \$100,000 will require two complete sets of forms due to the two interest rates used.
5. Form 405-4 is no longer required. Computer input set "Loan Status Tracking Set (#4) must be submitted for each loan sent in. (See Section II-1) of the FARM USERS GUIDE).

The computer will generate turn around forms for errors or omissions which will be mailed to the county offices. Please make the necessary corrections and return the forms to the National Office. (See FARMS USERS GUIDE for interpretation of computer requests.) Periodic reports will be distributed on the type and number of errors made. Data submitted to the FARMS System will be verified against the Finance Office Accounting System to ensure all loans are reported for all offices.

In order for this information to be of value and of use to the Agency it must be accurate and complete for all the required loans.

We appreciate your cooperation in this matter.

The Farmer Program Information System is a program information management improvement and is predicated upon a base of "characteristic" type information. The system provides formatted reports and graphic output on average net-worth, type of farming enterprise, age, size of loan, and how funds are used. This information may be of use to the County Supervisors in determining the caliber of loans they are making compared to other areas of their state.

In the past, numerous lenders were paying too much attention to financial statements and not enough attention to cash flow. The elements which we include from the "Coordinated Financial Statement" will help to show cash flow and thus indicate a borrowers repayment capabilities.

Various elements such as age, net worth at loan approval, new or existing borrower, and standard industrial classification codes could be linked to delinquency rates. If the majority of delinquencies were in a particular classification, it would suggest that a much closer scrutiny in loan processing and supervision is needed for that group of borrowers.

The system will begin to collect characteristic data on borrowers for each insured initial and subsequent OL, FO, SW and EM loan closed during FY83 and also initial loans closed prior to October 1, 1982 if the subsequent loan was closed during FY83. The initial loan is necessary for comparing the beginning farmer against the established farmer in regards to assets, debts, gross income and debt repayment. In subsequent fiscal years, the initial loan need be submitted only if it was never entered previously.

This guide will acquaint an individual with the procedures necessary to create a borrower record, make modifications to the record, and to use the generated reports for managerial decisions.

SECTION II                      FORMS AND COMPUTER SETS REQUIRED

County Supervisors may either submit a package of photocopied forms and computer input set #4 sequenced in the order as shown below or fill out and submit the computer input sets. If photocopying, please ensure that the items shown in the heavily outlined boxes on each of the forms are fully and accurately completed before photocopying each of the forms. These items reflect the mandatory input items for computer entry and will be computer edited for errors and omissions. The required input forms needed for completion of this project are:

<u>FORM NO.</u>	<u>FORM DESCRIPTION</u>	-----INITIAL-----				---SUBSEQUENT---

On computer input set 4 circle "INSERT" at the top of the page. Do not complete any items which do not have underscores on the set, the system will complete these items.

If the computer input sets are used in lieu of photocopying the FmHA forms from the docket, complete input sets 1, 3, 4 and 5, and either set 6 or 7 as appropriate, and either set 2 or 8 for financial information. Circle action INSERT on the upper right portion of the input set. The input sets are as follows:

### SECTION III INSTRUCTIONS FOR PREPARATION OF COMPUTER INPUT SETS

Commencing with FY 83, county supervisors are instructed to prepare a package of forms for each insured initial OL, FO, SW and EM loan closed during FY83 and also initial loans closed prior to October 1, 1982 if the subsequent loan was closed during FY83. Each such package should consist of legible photocopies of the forms mentioned in Section II or of the Computer Sets 1 thru 8 as appropriate. Combinations of the above loans to the same borrower will require multiple photocopies of some of these forms, such as, applicable parts of Forms FmHA 405-4 or 1905-4, FmHA 410-1 and FmHA 431-2. Offices that do not have the appropriate forms of the proper revision date as indicated in Section II or offices that are using Coordinated Financial Statements for Agriculture (CFSA) or other systems (FINPACK-Minnesota) should use the computer input sets. The information for computer input set 8 will be obtained from the appropriate CFSA or FINPACK forms.

Each separate package of forms should be stapled together in the sequence shown below before submission. It is not necessary to do any further sorting of the packages by initial or subsequent categories or by type of loan categories.

All of the above material for each of the loan closing actions occurring during FY 1983 is to be prepared and submitted within 10 calendar days of the closing.

The CROSS REFERENCE LIST specifies where on a given FmHA form to obtain borrower information and where on the computer input set to insert that information. There are five columns on the CROSS REFERENCE LIST labeled FORM, ELEMENT NUMBER, FIELD, GOING TO SET and ITEM. They are defined as follows:

FORM - the completed FmHA form in a borrower case file from which information will be taken.

ELEMENT NUMBER - the number of the item on the FORM from which information will be taken. Depending on the FORM, the ELEMENT NUMBER will be either the Forms Manual Insert (as on FMI 440-57) number which is in parentheses or the actual FORM item number (as on FMI 443-12). If a given line on the CROSS REFERENCE LIST does not contain an ELEMENT NUMBER, obtain the data by locating the FIELD\* description of the FORM.

\*FIELD - The description of the data being taken from the FORM.

GOING TO SET - the number of the computer input set where the data will be entered.

ITEM - the item number in the input set where the information taken from the FORM will be entered.

EXAMPLE NUMBER 1

Locate the first 443-12 in the FORM column on the CROSS REFERENCE LIST. Notice there is no ELEMENT NUMBER. The way to locate the information is to look for the FIELD description on 443-12. The FIELD description in this example is "ACRES TO BE PURCHASED." The data located here on a given borrower's 443-12 will be GOING TO SET #6, ITEM 20. There it will be entered in ink pen.

EXAMPLE NUMBER 2

Locate Form 443-12, ELEMENT NUMBER 7 on the CROSS REFERENCE LIST. Refer to FmHA 443-12 attached and locate ELEMENT NUMBER 7; the "OPTION PRICE" information will be taken from here and entered on computer input set #6, ITEM 10.

MISSING INFORMATION/FORMS

In locating needed information in a case file (docket), there will be instances where the particular form is missing or incomplete. If the item on the input form is missing, leave the item on the set blank. If the form is missing, fill out the sets as indicated in the Cross Reference List.

Forms FmHA 440-57 and FmHA 1940-1 (rev 5-12-81) are mandatory in establishing a record. If FmHA 440-57 is missing, complete Set #4; if FmHA 1940-1 is missing, complete Set #1 and Set #5.

The borrower is identified by the case number or borrower-id. It is important that these two fields are filled out. Right justify and zero fill to the left the county code, identification number, type of assistance and loan number on all sets.

CASE NUMBER/BORROWER-ID

Sets 1 and 2 are identified by CASE NUMBER

Case No. AA BBB CCCCCCCC

AA is the 2-digit numeric state code  
BBB is the 3-digit numeric county code  
CCCCCCCC borrower identification number

Sets 3 thru 7 are identified by the BORROWER-ID

Borrower-id AA BBB CCCCCCCC D EEE FF

AA is the 2-digit numeric state code  
BBB is the 3-digit numeric county code  
CCCCCCCC borrower identification number  
D Initial/Subsequent loan  
EEE Type of Assistance  
FF Loan number

SECTION V      LOAN STATUS CODE INFORMATION

Whenever the current status of a closed-loan changes, complete the BORROWER ID NO., and elements 1 and 2 of set 4, circle action modify and submit the set to the National Office. A list of the current statuses can be found below.

If a loan is closed and nothing further has been done to it, code 360 in element 2 of set 4 for the current status and the date the loan was closed will be coded in element 1 of set 4. If a loan is paid-in-full-on-schedule, code 501 in element 2 of set 4 for the current status and the date the loan was paid-in-full will be coded in element 1 of set 4. If payment on loan was due on January 1, 1983 and the payment was not made, code 401 in element 2 of set 4 for the current status and 01/01/83 will be coded in element 1 of set 4 since that was the date payment was actually due.

A coded annotation must be inserted at the bottom left side of page 1 of Form FmHA 431-2; or, sets 2 or 8 must have the Case No., calendar year and element 4 (SIC Code) completed to reflect the primary farming enterprise being conducted. This will be done by inserting the appropriate four digit Standard Industrial Classification Code described below which best describes the primary farming enterprise being conducted. Use page 2 of FmHA Form 431-2 or Budget Sheets C-2, C-4 and C-5 of the CFS, or the Crop Plan and Livestock Plan and the examples following the SIC code description to determine the SIC code.

SECTION VIII REPORT OUTPUT DESCRIPTIONS

LIST OF FARMS REPORTS

The following is a list of FARM reports which will be produced on a yearly basis. The calculations used for creating the reports can be found in the various appendices as noted. The report number can be identified as follows:

Report Number AAAAA-BCCDDEEE

- AAAAA is the five digit number "RC800" assigned by the Finance Office
- B is either a "S" indicating a state report, or a "C" indicating a county report
- CC is the type of report; for example "OL" for Operating Loan Program, "FO" for Farm Ownership, "EM" for Emergency Loan and "SW" for Soil and Water Loan Program.
- DD is the report number assigned by the National Office
- EEE is whether the report is "LR" limited resource, "NLR" non-limited resource or blank for a combination of limited resource and non-limited resource.

The second to the last line on the printout is another error that was detected in the update run. The three digits on the left (151) indicates an error as it appears in the FARM ERROR MESSAGES, Section IV in the Users Guide. The next number (1), indicates that the error is in element 1 (DATE OF CURRENT STATUS). The error description is the third field on this line. This error states that a non-numeric current-status-date was present or no current-status-date was present. The date the loan entered the status as it appears in element 2 should be the date of current status and be inserted in element 1. For example, if the loan was closed on April 7, 1982, then 360 should be inserted in element 2 and 04/07/82 should be inserted in element 1; or if the loan was due on Mar 24, 1983 and payment was not made, 410 should be inserted in element 2 and 03/24/83 should be inserted in element 1.

The last line on the printout is another error that was detected in the update run. The three digits on the left (158) indicates an error as it appears in the FARM ERROR MESSAGES, Section IV in the Users Guide. The next number (11), indicates that the error is in element 11 (CLOSED INDICATOR). The error description is the third field on this line. (It is usually an abbreviation of the error as listed in the FARM ERROR MESSAGES.) This error states that the system does not know if development is still required on the loan or if the the loan purpose is in operation. For example, if the loan was intended solely to purchase feed for the livestock and the feed was purchased, then the loan is in operation and a "O" would be inserted in element 11; or if the loan was for building a fence and the fence is not completed, then development is still required against the loan and a "D" would be inserted in element 11.

Element 12 (FINAL DISPOSITION) is being changed to "C".

All of the changes made should be made in red pen; this high-lights the changes to the data entry clerk.

RC800-C

The sets as shown above is an example of how the data-entered information will be returned to the counties for review.

In example 1, the data above the rule (----+----1----+----2) shows the data as it was taken from the requested forms. The information below the rule indicates if it was an insert or modify record and the transaction record number. It also shows the data as it appears on the master file. If there were any edit errors, they would appear below the transaction record printout. Even though there were no errors detected on this example, various changes are being made.

1. Circle "modify" in the circle action block since changes are being made to the record. Make all changes to the record in red pen.
2. Element 24 (NON-FARM INCOME), is being changed from spaces to 45,000.
3. Element 25 (CASH FAMILY LIVING EXPENSES), is being changed from spaces to 15,000.
4. Element 26 (CASH CARRY-OVER), is being changed from \$15,000 to spaces.
5. Element 27 (INTEREST), is being changed from spaces to 20,000.
6. Element 29 (AMOUNT DUE THIS YEAR), is being changed from \$9,000 to 92,070.

In example 2, the data above the rule (----+----1----+----2) shows the data as it was taken from the requested forms. The information below the rule indicates if it was an insert or modify record and the transaction record number. It also shows the data as it appears on the master file. The last three lines of print are errors that were detected in the update run. The three digits on the left of the first line (150) indicates an error as it appears in the FARM ERROR MESSAGES, Section IV in the Users Guide. The next number (2), indicates that the error is in element 2 (CURRENT STATUS). The error description is the third field on this line. (It is usually an abbreviation of the error as listed in the FARM ERROR MESSAGES.) This error states that an incorrect status was present or no status was present and it needs one. Refer to the statuses as listed in the FARMS TRACKING SYSTEM LOAN STATUS CODES, Appendix A of the Users Guide and insert the correct status, in red, in element 2.
