FmHA AN NO. 2498 (1924)

March 16, 1992

SUBJECT: Code Tables for the ORACLE Version of the Automated
Farm and Home Plan

TO: State Directors, District Directors, County
Supervisors

ATTN: State Farm and Home Plan Coordinators

PURPOSE/INTENDED OUTCOME:

The ORACLE Version of the Automated Farm and Home Plan (FHP) contains code tables listing county codes, key practice codes and local product codes. This Administrative Notice (AN) provides guidance on the use of the tables and provides additional local product codes.

COMPARISON TO PREVIOUS AN:

No previous AN has been issued on this subject.

IMPLEMENTATION RESPONSIBILITIES:

Each office will enter the county names and codes for the counties in its area. A default State and county can be selected so the State and county code fields on the Enter or Select Borrower Screen will be prefilled.

The State FHP Coordinators, with assistance from the State Farmer Programs Staff, will develop a numbering system for the key practices that have been established in the State. The numbering system should group like practices together with room for later additions. If a key practice description exceeds 50 characters, a brief description should be used with a reference to an attachment. Then use the attachment to provide a complete description of the practice. The codes and descriptions for the key practices will be distributed to the field offices by the IRM on electronic media.

EXPIRATION DATE:
February 28, 1993

FILING INSTRUCTIONS:
Preceding FmHA
Instruction 1924-B

Farmers Home Administration is an Equal Opportunity Lender.
Complaints of discrimination should be sent to:
Secretary of Agriculture, Washington, D.C. 20250

The following corrections must be made to the local product code tables that were distributed with the FHP:

1. Delete Straw under Rice, 112-01.
2. Correct 173-10 under Tree Nuts to read Filberts instead of Fiberts.
3. Correct 271-99 under Fur-Bearing Animals to read Other Fur-Bearing Animals-See Memo instead of Other Fur-Fearing Animals-See Memo.

Attached is a list of additional local products and codes to enter into the system. Field offices will only need to enter those commodities that are grown in their particular area. Remember, only the National Office can assign local product codes to commodities not already listed.

County Offices with questions regarding entering or deleting codes and descriptions within the FHP system should contact their District Coach or State FHP coordinator. State FHP coordinators with additional questions can contact Steven Rubin, Senior Loan Officer, Program Development Staff at 202-690-4003 or FTS 690-4003.

This AN may not be revised and reissued by State Directors without prior approval by the Assistant Administrator, Farmer Programs, unless modification is necessary to comply with State law.

LA VERNE AUSMAN
Administrator

Attachment

Sent by Time Delay option to States on 3/18/92 at 4:00pm; to Districts on 3/19/92 at 7:30am; and to Counties on 3/19/92 at 9:30 am by GSS. The State Director should notify other personnel as appropriate.
