DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

November 20, 2006.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *oira_submission@omb.eop.gov* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Animal Plant and Health Inspection Service

Title: Irradiation Phytosanitary Treatment for Fresh Fruits and Vegetables.

OMB Control Number: 0579-0155.

Summary of Collection: The Plant Protection Act (7 U.S.C. 7701-7772) authorizes the Secretary of Agriculture to regulate the importation of plants, plant products, and other articles to prevent the introduction of injurious plant pests and noxious weeds. Regulations in 7 CFR part 305 provide for the use of irradiation as a phytosanitary treatment for certain fruits and vegetables imported in the United States. The irradiation treatment provides protection against 11 species of fruit flies and mango seed weevil.

Need and Use of the Information: The Animal and Plant Health Inspection Service (APHIS) will collect information using a compliance agreement, 30-day notification, labeling requirements, dosimetry recordings, requests for dosimetry device approval, recordkeeping, requests for facility approval. Without the collection of this information, APHIS would have no practical way of determining that any given commodity had actually been irradiated.

Description of Respondents: Business or other for profit; individuals or households; farms.

Number of Respondents: 25.

Frequency of Responses: Recordkeeping; reporting: On occasion.

Total Burden Hours: 760.

Animal and Plant Health Inspection Service

Title: Federal Plant Pest and Noxious Weeds Regulations.

OMB Control Number: 0579-0054.

Summary of Collection: The Plant Protection and Quarantine Program of the Animal and Plant Health Inspection Service (APHIS), United States Department of Agriculture is responsible for preventing plant pests and noxious weeds from entering the United States, preventing the spread of pests and weeds not widely distributed in the United States, and eradicating those imported pests and weeds when eradication is feasible. APHIS will collect information using several forms.

Need and Use of the Information: APHIS will collect information to evaluate the risk associated with the proposed movement of plant pest, noxious weeds, and soil. APHIS will also collect information to monitor operations at facility to ensure permit conditions are being met. The information is used to determine whether a permit can be issued, and also to develop risk-mitigating conditions for the proposed movement. If the information were not collected, APHIS ability to protect the United States from a plant pest or noxious weed incursion would be significantly compromised.

Description of Respondents: Business or other for-profit; individuals or households; Federal Government; State, Local or Tribal Government.

Number of Respondents: 55,816.

Frequency of Responses: Recordkeeping; reporting: On occasion.

Total Burden Hours: 48,435.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Food and Nutrition Service

Agency Information Collection Activities: Proposed Collection; Comment Request: Food Stamp Program: State Issuance and Participation Estimates—Form FNS-388

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Food and Nutrition Service (FNS) is publishing for public comment a summary of a proposed information collection. The proposed collection is a revision of a collection currently approved under OMB No. 0584-0081 for the Food Stamp Program for the form FNS-388, State Issuance and Participation Estimates.

DATES: Comments on this notice must be received by January 26, 2007 to be assured of consideration.

ADDRESSES: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Send comments and requests for copies of this information collection to Barbara Hallman, Chief, State Administration Branch, Food Stamp Program, Food and Nutrition Service, USDA, 3101 Park Center Drive, Alexandria, VA 22302. Copies of the estimate of the information collection can be obtained by contacting Ms. Hallman.

All comments will be summarized and included in the request for Office of

Management and Budget approval of the information collection. All comments will become a matter of public record.

FOR FURTHER INFORMATION CONTACT: Barbara Hallman at (703) 305-2383.

SUPPLEMENTARY INFORMATION: *Title:* Form FNS-388, State Issuance and Participation Estimates.

OMB Number: 0584-0081.

Expiration Date: 1/31/2007.

Type of Request: Revision of a currently approved information collection.

Abstract: Section 18(b) of the Food Stamp Act, (the Act) 7 U.S.C. 2027(b), limits the value of allotments paid to food stamp households to an amount not in excess of the appropriation for the fiscal year. If allotments in any fiscal year would exceed the appropriation, the Secretary of Agriculture is required to direct State agencies to reduce the value of food stamp allotments to the extent necessary to stay within appropriated funding limits. Timely State monthly issuance estimates are necessary for FNS to ensure that it remains within the appropriation. The estimates will also have a direct effect upon the manner in which allotments would be reduced if necessary. While benefit reductions have never been ordered in the past under Section 18(b) nor are they anticipated based on current data, the Department must continue to monitor actual program costs against the appropriation.

Section 11(e)(12) of the Food Stamp Act, 7 U.S.C. 2020 (e)(12), requires that the State Plan of Operations provide for the submission of reports required by the Secretary of Agriculture. State agencies are required to report on a monthly basis on the FNS-388, State Issuance and Participation Estimates, estimated or actual issuance and participation data for the current month and previous month, and actual participation data for the second preceding month. The FNS-388 report provides the necessary data for an early warning system to enable the Department to monitor actual and estimated costs for all benefit types against the appropriation.

State agencies in general only submit one Statewide FNS-388 per month which covers benefits from their electronic benefit transfer (EBT) system. The exception is that State agencies which choose to operate an approved alternative issuance demonstration project such as a cash-out system submit a separate report for each additional type of issuance system. There has been a small increase in these issuance demonstration and operation projects since the last information collection submission.
