Lacefield	Edna
Hunton	Donny
McKinney	Elsa
Mora	

**Next County Committee
Meeting: January 9 at 9:00**

NEW COUNTY COMMITTEE ELECTION BALLOTS TO BE MAILED

The County Committee Election ballots that were mailed to producers on Nov. 4 were incorrectly printed with the producer's name and address on the back of the ballot. County committee elections must use a secret ballot so the misprinted ballots cannot be used. Please destroy or recycle the misprinted ballot. If you have already voted, your ballot will be destroyed unopened.

New ballots will be mailed to producers on December 20, 2013. These ballots will indicate that they are the corrected ballot in several places, including on the outside of the mailing, on the ballot and on the outside of the return envelope.

The corrected ballot must be returned to the Kern County FSA Office or postmarked by January 17, 2014. All newly elected county committee members will take office February 18, 2014. All county committee members whose term expires on Dec. 31, 2013, will have their term extended to January 31, 2014.

County committee members are an important component of the operations of FSA and provide a link between the agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity price support programs; conservation programs; incentive indemnity and disaster programs for some commodities;

am

emergency programs and eligibility. FSA committees operate within official regulations designed to carry out federal laws.

To be an eligible voter, farmers and ranchers must participate or cooperate in an FSA program. A person who is not of legal voting age, but supervises and conducts the farming operations of an entire farm may also be eligible to vote.

2014 ACREAGE REPORTING DATES

Producers now have until January 15, 2014, to report crops that have a November 15, 2013, or December 15, 2013, reporting deadline without paying a late-file fee. Crops under this waiver include wheat and native and improved grasses intended for grazing or haying. The Risk Management Agency (RMA) did not grant a waiver so producers need to consult their crop insurance agent for deadlines for insured crops.

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit the Kern County FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Name County:

December 15, 2013: Perennial Forage all uses, Fall Potatoes

January 2, 2014: Honey*

January 15, 2014: Avacados, Blueberries, Grapefruit, Lemons, Mandarins, Minneola Tangelos, Navel Oranges, Orlando Oranges, Sweet Oranges, Valencia Oranges, Sugar Beets (planted 9/1/13-12/13/13), Strawberries

March 15, 2014: Wheat, Barley, Oats, Alfalfa Seed, Almonds, Apples, Cherries, Figs, Fresh Apricots, Fresh Freestone Peaches, Fresh Nectarines, Pears, Plums, Processing Apricots, Processing Cling Peaches, Processing Freestone Peaches, Prunes, Walnuts

May 15, 2014: Spring Potatoes, Grapes & Table Grapes

May 31, 2014: Nursery*

June 15, 2014: Forage Seeding

July 15, 2014: Spring Alfalfa Seed, Corn, Cotton, Dry Beans, Fresh Market Tomatoes, Grain Sorghum, Mint, Onions, Safflower, Tomatoes, and all other crops and land uses

July 31, 2014: Raisins

September 30, 2014: Value Loss Crops, Aquaculture, Christmas Trees, Floraculture, etc.*

November 15, 2014: Apiculture, PRF (Crop Insurance Only)

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

Additionally, producers can purchase both NAP and RMA coverage for 2014 annual forage crops.

Late file fees will be assessed for 2013 crops reported after September 15, 2013, and 2014 crops reported after January 15, 2014.

For questions regarding crop certification and crop loss reports, please contact the Kern County FSA office at (661) 336-0967.

FSA ADVISES PRODUCERS TO ANTICIPATE PAYMENT REDUCTIONS DUE TO MANDATED SEQUESTER

USDA's Farm Service Agency (FSA) is reminding farmers and ranchers who participate in FSA programs to plan accordingly in FY2014 for automatic spending reductions known as sequestration. The Budget Control Act of 2011 (BCA) mandates that federal agencies implement automatic, annual reductions to discretionary and mandatory spending limits. For mandatory programs, the sequestration rate for FY2014 is 7.2%.

Conservation Reserve Program payments are specifically exempt by statute from sequestration, thus these payments will not be reduced.

These sequester percentages reflect current law estimates; however with the continuing budget uncertainty, Congress still may adjust the exact percentage reduction. Today's announcement intends to help producers plan for the impact of sequestration cuts in FY2014.

At this time, FSA is required to implement the sequester reductions. Due to the expiration of the Farm Bill on September 30, FSA does not have the flexibility to cover these payment reductions in the same manner as in FY13. FSA will provide notification as early as practicable on the specific payment reductions.

For information about FSA programs, visit your county USDA Service Center or go to www.fsa.usda.gov/.

FSA ANNOUNCES THE RESUMPTION OF 2013 CROP

COMMODITY LOAN DISBURSEMENTS

The Farm Service Agency has resumed processing and disbursement of 2013 crop commodity loans. Crop year 2013 commodity loan-making was suspended Oct. 1, 2013, to make changes necessary to accommodate the automatic funding reductions known as sequester.

The commodity loan programs provide interim financing to producers for agricultural commodities stored after harvest and then sold throughout the year. Producers requesting 2013 crop commodity loans on their harvested commodities now will have a 5.1 percent reduction to the loan amount upon its disbursement, due to the sequestration. Commodity loans issued by marketing associations and loan servicing agents are also subject to the sequestration reduction.

The commodity loan programs provide interim financing to producers for agricultural commodities stored after harvest and then sold throughout the year. Producers requesting 2013 crop commodity loans on their harvested commodities now will have a 5.1 percent reduction to the loan amount upon its disbursement, due to the sequestration. Commodity loans issued by marketing associations and loan servicing agents are also subject to the sequestration reduction.

During the period that loan-making was suspended, producers were still able to submit loan applications to their county FSA offices, marketing associations and loan servicing agents. The processing and disbursement of these applications will begin immediately.

For further information about commodity marketing loans, farmers may contact their local FSA office or go online to www.fsa.usda.gov.

INCREASED GUARANTEED LOAN LIMIT

The Farm Service Agency maximum loan limit for the Guaranteed Loan Program has increased to \$1,355,000 effective Oct. 1, 2013. The limit is adjusted annually based on data compiled by the National Agricultural Statistics Service.

The lending limit is adjusted every year according to an inflation index. The maximum combined guaranteed and direct farm loan indebtedness will also increase to \$1,655,000.

As a reminder, the one-time loan origination fee charged on FSA guaranteed Farm Ownership and operating loans is 1.5 percent of the guaranteed portion of the loan.

Producers should contact their local FSA Office with questions about farm loans.

LDPS FOR UNSHORN LAMB PELTS

Eligible producers have until Jan. 31, 2014, to apply for Loan Deficiency Payments (LDP) for unshorn pelts produced during the 2013 crop year.

Eligible producers must have beneficial interest in the pelts, owned the lamb for at least 30 calendar days before the date of slaughter and sell the unshorn lamb for immediate slaughter. Producers must also comply with wetland conservation and highly erodible land conservation provisions on all lands they operate or have interest in.

To qualify for payment, pelts must have been produced by an eligible producer from live unshorn lambs of domestic origin in the United States.

MICROLOAN PROGRAM

The Farm Service Agency (FSA) developed the Microloan (ML) program to better serve the unique financial operating needs of beginning, niche and small family farm operations.

FSA offers applicants a Microloan designed to help farmers with credit needs of \$35,000 or less. The loan features a streamlined application process built to fit the needs of new and smaller producers. This loan program will also be useful to specialty crop producers and operators of community supported agriculture (CSA).

Eligible applicants can apply for a maximum amount of \$35,000 to pay for initial start-up expenses such as hoop houses to extend the growing season, essential tools, irrigation and annual expenses such as seed, fertilizer, utilities, land rents, marketing, and distribution expenses. As financing needs increase, applicants can apply for a regular operating loan up to the maximum amount of \$300,000 or obtain financing from a commercial lender under FSA's Guaranteed Loan Program.

Individuals who are interested in applying for a microloan or would like to discuss other farm loan programs available should contact their local FSA office to set up an appointment with a loan official.

BEGINNING FARMER LOANS

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- § Has operated a farm for not more than 10 years
- § Will materially and substantially participate in the operation of the farm
- § Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- § Does not own a farm in excess of 30 percent of the county's median size.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit www.fsa.usda.gov.

LOANS FOR THE SOCIALLY DISADVANTAGED

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

USDA is an equal opportunity provider and employer.
