- Adriana Hurtado

### Next County Committee

Meeting: October 9 at 9:00 am

## USDA NOTIFIES PRODUCERS ON ACREAGE HISTORY AND YIELDS

Written notifications from USDA are underway to farmers that provide updates on their current base acres, yields and 2009-2012 planting history.

Please cross check the letter from USDA with your farm records. If the information is correct, no further action is needed at this time, but if our letter is incomplete or incorrect, contact your local FSA office as soon as possible.

Verifying the accuracy of data on a farm's acreage history is a required early step for enrolling in the upcoming Agriculture Risk Coverage (ARC) program and the Price Loss Coverage (PLC) program. Later this summer, farmers and ranchers will have an opportunity to update their crop yield information and reallocate base acres.

By mid-winter all producers on a farm will be required to make a one-time, unanimous and irrevocable election between price protection and county revenue protection or individual revenue protection for 2014-2018 crop years. Producers can expect to sign contracts for ARC or PLC for the 2014 and 2015 crop years in the spring of 2015.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (includes short grain rice and temperate japonica rice), safflower seed, sesame, soybeans, sunflower seed, and wheat. Upland cotton is no longer a covered commodity.

Visit [www.fsa.usda.gov](http://www.fsa.usda.gov) or the local FSA office for information about FSA and the 2014 Farm Bill programs.

## MARGIN PROTECTION PROGRAM FOR DAIRY PRODUCERS

---

The 2014 Farm Bill authorized the Margin Protection Program (MPP-Dairy) for dairy producers. The new, voluntary risk management program replaces the Milk Income Loss Contract (MILC) program which expires on Sept. 30, 2014.

MPP-Dairy offers protection to dairy producers when the difference (the margin) between the all-milk price and national average feed cost falls below a certain producer selected amount.

Eligible producers may purchase coverage for their dairy operation by paying an annual administrative fee of \$100 and a premium, as applicable, for higher levels of coverage. Producers in the dairy operation will have to select a desired coverage level ranging from \$4.00 to \$8.00, in \$0.50 increments and a desired coverage percentage level ranging from 25 to 90 percent, in 5 percent increments. Producers will also have to decide whether or not to participate in the MPP-Dairy Program or the Livestock Gross Margin program administered by the Risk Management Agency (RMA), but they will not be allowed to participate in both.

A decision tool will be made available in the fall of 2014 to help producers make coverage level decisions. Enrollment will also begin this fall. Dairy operators will establish their production history during signup. Verification of the production records will be required. The regulations for MPP-dairy are still being developed. Additional information will be provided as it becomes available.

## USDA REMINDS FARMERS OF 2014 FARM BILL CONSERVATION COMPLIANCE CHANGES

Changes mandated through the 2014 Farm Bill require producers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 form must be on file with the FSA. Since many FSA and Natural Resource Conservation (NRCS) programs have this requirement, most producers should already have an AD-1026 on file. If producers have not filed, they must do so by June 1, 2015.

When a farmer completes the AD-1026, FSA and NRCS staff will outline any additional actions that may be required for compliance with the provisions. The Risk Management Agency, through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: [www.fsa.usda.gov](http://www.fsa.usda.gov). USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA

Service Center for information. A listing of service center locations is available at [www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/](http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/).

## DISASTER ASSISTANCE FOR 2012 FROST OR FREEZE FRUIT CROP LOSSES ANNOUNCED

Producers who experienced losses to bush or tree fruit crops due to frost or freeze during the 2012 crop year may be eligible for assistance through the Noninsured Crop Disaster Assistance Program (NAP). The program, authorized by the 2014 Farm Bill, provides supplemental NAP payments to eligible producers.

Farmers who did not have access to crop insurance and are in primary and adjacent counties that received a Secretarial disaster designation because of frost or freeze in 2012 are eligible for NAP assistance. Losses due to weather damage or other adverse natural occurrences may also qualify for program assistance.

***NAP enrollment begins July 22, 2014. Applications must be submitted to FSA county offices by Sept. 22, 2014.***

To expedite applications, producers who experienced losses are encouraged to collect records documenting these losses in preparation for sign-up. Producers also are encouraged to contact their FSA county office to schedule an appointment. Limited resource, socially disadvantaged, and beginning producers are eligible for premium reductions and also may be eligible for fee reductions.

Interested producers can view the 2012 NAP Coverage for Frost, Freeze or Weather Related Fruit Losses Fact Sheet at <http://go.usa.gov/5kSQ>, or visit a local FSA office. To find out if land is located in an eligible frost/freeze county, visit <http://go.usa.gov/53rz>.

---

## FOREIGN BUYERS NOTIFICATION

The Agricultural Foreign Investment Disclosure Act (AFIDA) requires all foreign owners of U.S. agricultural land to report their holdings to the Secretary of Agriculture. The Farm Service Agency administers this program for USDA.

All individuals who are not U.S. citizens, and have purchased or sold agricultural land in the county are required to report the transaction to FSA with 90 days of the closing. Failure to submit the AFIDA form (FSA-153) could result in civil penalties of up to 25 percent of the fair market value of the property. County government offices, Realtors, attorneys and others involved in real estate transactions are reminded to notify foreign investors of these reporting requirements.

---

## PREVENTING FRAUD

The Farm Service Agency supports the Risk Management Agency in the prevention of fraud, waste and abuse of the Federal Crop Insurance Program. FSA has been, and will continue to, assist RMA and insurance providers by monitoring crop conditions throughout the growing season. FSA will continue to refer all suspected cases of fraud, waste and abuse directly to RMA.

Producers can report suspected cases to the FSA office, RMA, or the Office of the Inspector General.
