**\*--Part 2 MPP-Dairy Automated System**

**Section 1 General Information About the MPP-Dairy System**

**11 General Information**

**A Introduction**

This part provides information and procedure for accessing and updating the web-based MPP-Dairy System.

**B Purpose of the MPP-Dairy System**

The MPP-Dairy System is designed to record the following information for dairy operations applying for MPP-Dairy benefits:

- production history
- contract and annual coverage election
- collection of administrative fees and premiums.--\*

## 12 Accessing the MPP-Dairy System

### A Overview

The MPP-Dairy System is a web-based system that includes processes for:

- production history
- contract and annual coverage election
- collection of administrative fees and premiums.

New dairy operations have up to 90 calendar days from when the operation first begins to market milk to register for coverage under MPP-Dairy.

Existing dairy operations shall enroll for coverage during the MPP-Dairy enrollment period.

See 1-MPP for MPP-Dairy policy and provisions.

### B Accessing MPP-Dairy System

This table provides steps to access the MPP-Dairy System.

**\*--22 Production History Data Migration (Continued)****D Modifications to Migrated Production History Data**

Migrated production history data can only be modified by authorized National Office users. If it is determined that the migrated data is **not** accurate, County Offices shall submit the following to the State Office:

- CCC-781
- CCC-782
- remittance information from NRRS
- narrative explanation as to why the migrated production history should be modified.

After reviewing the documentation submitted by County Offices, State Offices shall:

- deny the request for modification if the documentation does **not** support the modification
- forward the documentation, along with the State Office concurrence, to DAFP, PECD, Program Delivery Branch by e-mail to request a change to the web-based production history data.--\*

## 23 Establishing Production History for Dairy Operations

### A Establishing Production History for a Dairy Operation

## \*--27 New Dairy Operation Monthly Production and Herd Size

### A Monthly Production and Herd Size

The Production History Screen, “Monthly Production” and “Herd Size” sections will be displayed for new dairy operations.

The number of months displayed for monthly production is determined based on full months from the time the dairy operation began marketing milk.

for example, if the dairy operation began marketing milk on March 15, 2015, and the current system date is May 21, 2015, April is the only month available for monthly milk marketings. If the dairy operation does **not** have at least 1 full month of monthly milk marketings, an entry is **not** allowed for the monthly production. The herd size can be entered, or the dairy operation may choose to wait until they have 1 full month of monthly milk marketings to report.

Users shall:

- enter the monthly production as a whole number for each month displayed
- Note:** “0” may be entered for months without monthly production.
- enter the number of dairy cows as a whole number, **excluding** heifers not yet fresh
- enter the monthly production and/or number of dairy cows
- CLICK “**Save and Continue**” after confirming the entries are correct.--\*

## 29 Production History Signature (Continued)

### B Producer Signature

Producers with interest in the dairy operation have the ability to establish production history and sign CCC-781.

Sole submission of CCC-781 to determine the production history for a dairy operation does **not** register that production history or the dairy operation in MPP-Dairy.

See 1-MPP, paragraph 35 for additional information on producers filing CCC-781.

\*--The number of signatures required provides the ability to display multiple producer signature rows on CCC-781.

Users select:

- “No”, if only 1 producer signature is required on CCC-781; if “No” is selected only 1 producer signature row will be displayed on CCC-781
- “Yes”, if more than 1 producer signature is required on CCC-781, and enter the number of signatures required:
  - as a whole number
  - greater than 1
  - less than 251.

The number of producer signature rows displayed on CCC-781 will be based on the entry for the number of signatures required.--\*

Users shall enter the producer signature date based as the latest date signed by a producer on CCC-781.

The producer signature date may be entered using the calendar icon or in any of the following formats:

- “mm/dd/yyyy”
- “mmddyy”
- “mmddyyyy”.

**29 Production History Signature (Continued)****C COC Determination**

COC or authorized designee shall provide a COC determination based on the information provided on CCC-781. Users shall:

- update COC determination to “Approve” or “Disapprove” based on the determination provided by COC or designee
- enter COC determination date as the date entered on CCC-781.

The COC determination date may be entered using the calendar icon or in any of the following formats:

- “mm/dd/yyyy”
- “mmddyy”
- “mmddyyyy”.

## 30 Revising Production History

### A MPP-Dairy Production History Revisions

\*--The MPP-Dairy System provides the ability to revise the MPP-Dairy production history to:

- correct the production history during open enrollment or within 90 calendar days for a new dairy operation
- perform farm and/or tract transfers/relocations, including updates from MIDAS Farm Records for farms and tracts
- perform successor-in-interest to a new dairy operation
- perform mergers for multiple dairy operations.--\*

\* \* \*

### B Revising Production History for Corrections

Users may revise a dairy operation production history as described in subparagraph A. Perform the following steps to revise a dairy operation production history.

Step	Action
1	Perform the steps in subparagraph 21 A.
2	CLICK “radio button” next to the dairy operation, farm, and tract for which user wants to revise the production history.
3	CLICK “ <b>Revise</b> ”.
4	Revise Production History Screen will be displayed.

## 30 Revising Production History (Continued)

**B Revising Production History for Corrections (Continued)**

The following table provides the options available in the MPP-Dairy system.

Button	Description
Edit	<p>Displays the Production History Summary Page for the selected dairy operation to correct the production history data according to subparagraph A.</p> <p>Users can click “Save and Continue” or “Back” to navigate through the MPP production history screens to perform the revision.</p> <p>If production history data is updated for the dairy operation, the status will update to “Initiated” and a new producer certification and COC determination are required.</p> <p><b>*--Note:</b> Users shall <b>not</b> select the “Edit” button after COC approval of established production history. If the production history established is incorrect, County Office users shall contact their State specialist for assistance. State specialists shall contact PECD through SharePoint and submit the same documentation required in subparagraph 22 D.--*</p>
Transfer	Displays the Select Transfer To Page with a list of the available farms and tracts for the selected dairy operation to perform a farm and/or tract transfer according to subparagraph 33.
Merge	Displays the Merger Production History Page to search for dairy operations to include in the merger according to paragraph 35.
Succession	Displays the SCIMS Search Page to select the succeeding dairy operation to perform a successor-in-interest according to paragraph 34.
Back	Returns to the Production History Search Results page.
Cancel	Returns to the MPP Main Menu.

**31 Production History Rollover****A Production History Rollover Information**

Established production history shall automatically rollover each year.

The annual production history increase (bump) will automatically be applied to the established production history in the new year for dairy operations, if all of the following conditions are met:

- MPP production history established is COC approved
- contract and annual election registered for the previous year (producer signed and COC approved)
- has paid the administrative fee and premium for the previous year.

After production history is established for a dairy operation in a previous year, the production history information does **not** need to be manually updated in the subsequent new MPP year.

See 1-MPP, paragraph 23 for the annual production history increase.

**\*--32 Production History Review Required**

**A Introduction**

When a dairy operation is associated with a farm or tract, the MPP-Dairy system will automatically receive notification if any of the following actions occur in the MIDAS/Farm Records System:

- farm transfer
- farm reconstitution
- tract reconstitution
- dairy operation is deleted as the operator, owner or other tenant on the farm and/or tract.

Once the dairy operation/farm/tract receives notification of the update from MIDAS/Farm Records, the dairy operation status will be updated to “Review Required”.--\*

## \*--32 Production History Review Required (Continued)

**B Review Required Option**

Users shall select the “Review Required” link on the MPP Main Menu to review dairy operations that were updated in MIDAS/Farm Records. If the “Review Required” link is not displayed, there are no dairy operations to review.

**Note:** If a user administers multiple State and County Offices, the review required State and county drop down list will only display for State and County Offices that actually have dairy operation(s) with a “Review Required” status.

--\*

**\*--32 Production History Review Required (Continued)****E Review Required - Transfer**

The dairy operation status will be updated to “Review Required” when a dairy operation is associated with a farm or tract and any of the following actions occur in the MIDAS/Farm Records System:

- farm transfer
- farm reconstitution
- tract reconstitution.

Users shall perform the steps in paragraph 33 to update a dairy operation to the new farm and/or tract.

**Note:** If a dairy operation is being leased or rented and is listed on the Review Required Page because of a farm and tract change in MIDAS/Farm Records, then the production history can transfer to the applicable farm and tract.

**F Review Required – Successor-In-Interest**

The dairy operation status will be updated to “Review Required” when a dairy operation is deleted as the operator, owner or other tenant on the farm and/or tract.

Users shall perform the steps in paragraph 34 to update the dairy operation succession-in-interest.

**Note:** If the dairy operation should not have been deleted as the operator, owner or other tenant, the appropriate action should be taken in MIDAS/Farm Records.--\*

**\*--33 Production History Transfer/Relocation****A Introduction**

The MPP-Dairy System provides the ability to revise the MPP-Dairy production history to perform a farm and/or tract transfer/relocation.

The transfer/relocation process is required if:

- the dairy operation relocates to a different facility
- a farm reconstitution is approved in MIDAS CRM FRS where the dairy operation is currently located
- a tract reconstitution is approved in MIDAS CRM FRS where the dairy operation is currently located
- a farm transfer is approved in MIDAS CRM FRS where the dairy operation is currently located.

For policy and procedure on farm and/or tract transfers/relocations, see 1-MPP, Part 3.

**B Revising Production History for Farm Transfers**

Users may revise a dairy operation production history according to subparagraph A. Perform the following steps to revise a dairy operation production history for a farm and/or tract transfer/relocation.

<b>Step</b>	<b>Action</b>
1	Perform the steps in subparagraph 30 B.
2	Confirm the dairy operation, farm and tract displayed is the correct dairy operation to perform the farm and/or tract transfer.
3	CLICK "Transfer".
4	Select Transfer To Screen will be displayed.

**C Selecting Farm and Tract to Transfer To**

When a dairy operation is selected and the “Transfer” option is clicked, the Select Transfer To Screen will be displayed to select the farm and tract to transfer the operation to.

The screen will be displayed with all available farms and tracts the dairy operation is associated with that do **not** have production history data recorded.

Users shall perform the following steps to initiate the farm and/or tract transfer:

- CLICK “Select” next to the State, County, Farm and Tract for the farm and/or tract transfer
- CLICK “Continue” to initiate the farm and/or tract transfer.

**\*--34 Production History Successor-In-Interest****A Introduction**

The MPP-Dairy System provides the ability to revise the MPP-Dairy production history to perform a successor-in-interest.

The successor-in-interest process is required if the dairy operation transfers ownership to a new dairy operation.

For policy and procedure on successor-in-interest, see 1-MPP, paragraph 52.

**B Revising Production History for Successor-In-Interest**

Users may revise a dairy operation production history according to subparagraph A. Perform the following steps to revise a dairy operation production history for a successor-in-interest.

<b>Step</b>	<b>Action</b>
1	Perform the steps in subparagraph 30 B.
2	Confirm the dairy operation, farm and tract displayed is the correct dairy operation to perform the successor-in-interest.
3	CLICK "Succession".
4	The SCIMS Customer Search Screen will be displayed.
5	Select the successor using the SCIMS Customer Search Screens.
6	Succession Production History Succession Review Screen will be displayed.

--\*

**\*--34 Production History Successor-In-Interest (Continued)****C Review Succession**

When a dairy operation is selected and the “Succession” option is clicked, the SCIMS Customer Search Screen will be displayed to select the successor-in-interest for the dairy operation. When a customer is selected through the SCIMS Customer Search Screen, the Succession Production History Succession Review Screen will be displayed.

The screen will be displayed with the original (From) dairy operation and successor-in-interest (To) dairy operation.

Users shall:

- verify the “From” dairy operation customer
- verify the “To” dairy operation customer
- CLICK “Accept” to continue the successor-in-interest process.

Once “Accept” is clicked, the dairy operation will be in a “Pending Succession” status.

**Note:** The successor-in-interest dairy operation must be associated with the farm and/or tract as an owner, operator or other tenant in MIDAS/FRS.

The following table provides descriptions of the available options on the Succession Review Screen.

Button	Description
Accept	Continues to the Production History Signature Screen to enter the effective date of succession, producer signature date and COC determination.
Reject	Cancels the pending successor-in-interest for the dairy operation.
Back	Returns to the Revise Production History Screen.
Cancel	Returns to the MPP Main Menu.

**E Pending Succession**

After the review succession is accepted, the Producer Signature Screen will be displayed. If the effective date of succession, producer signature and COC determination are not entered, the dairy operation will remain in a pending succession status.

Dairy operations that are in a pending succession status will be displayed on the Production History Search and Contract Screen as:

- “Succession To” for the dairy operation, State, county, farm and tract the dairy operation is succeeding to
- “Succession From” for the previous dairy operation, State, county, farm and tract the dairy operation is succeeding from.

The following is an example of dairy operations on the Production History Search Screen when they are in a pending “Succession To” or “Succession From” status.

**F Cancelling Successor-In-Interest**

Users have the ability to cancel a dairy operation in “Pending Succession” status by selecting the “Reject” option on the Succession Production History Succession Review Screen.

Canceling the succession will remove the “Succession To” and “Succession From” status for the dairy operations.

**G Approving Successor-In-Interest**

Users in the State and county the dairy operation is being succeeded to have the ability to approve the dairy operation by selecting the “Accept” option on the Succession Production History Succession Review Screen.

After accepting the succession the Production History Signature Screen will be displayed to record the:

- effective date of succession
- number of signatures required for producer signature
- producer signature date
- COC determination
- COC determination date.

The effective date shall be either of the following:

- date the last producer signature was obtained
- postmark date if the CCC-781 was submitted by mail.

The successor-in-interest is not complete until COC approval.--\*

**\*--35 Production History Merger****A Introduction**

The MPP-Dairy System provides the ability to revise the MPP-Dairy production history to perform a merger of multiple dairy operations.

The merger process is required if multiple dairy operations merge together to form one dairy operation.

For policy and procedure on mergers, see 1-MPP, paragraph 28.

**Note:** Mergers must be completed during the enrollment period.

**Exception:** The 2016 coverage year will allow mergers to be recorded after January 1, 2016, because of the late release of software. However, the actual merger must have been completed manually during the enrollment period.

**B Revising Production History for Merger**

Users may revise a dairy operation production history according to subparagraph A. Perform the following steps to revise a dairy operation production history for a merger.

<b>Step</b>	<b>Action</b>
1	Perform the steps in subparagraph 30 B.
2	Confirm the dairy operation, farm and tract displayed is the correct dairy operation to perform the merger.
3	CLICK "Merge".
4	The Merger Production History Merger Screen will be displayed.

**Note:** If a collection was recorded for the dairy operation in the coverage year for the merger, the collection must be cancelled before performing the merger. See paragraph 123 for cancelling a collection.--\*

**\*--35 Production History Merger (Continued)****C Selecting Dairy Operations to Merge**

When a dairy operation is selected and the “Merge” option is clicked, the Merger Production History Merger Screen will be displayed to select additional dairy operations to include in the merger.

The screen will be displayed with the dairy operation selected on the Production History Screen with options to select other dairy operations to include in the merger.

Users shall perform either of the following actions to add dairy operations to include in the merger:

- CLICK “Search” to search for dairy operations using the SCIMS search page
- enter the dairy operation number and CLICK “Add” to add a dairy operation.

Multiple dairy operations can be added to the list to include in the merger.

Once the dairy operations have been selected, CLICK “Continue” to proceed with the merger.

The following table provides descriptions of the available options on the Succession Review Screen.

<b>Button</b>	<b>Description</b>

**\*--35 Production History Merger (Continued)****H Canceling a Merger**

Users have the ability to cancel a dairy operation in pending merger status by selecting the “Reject” option on the Merger Production History Merger Result/ Merger Participants Screen or Production History Signature Screen.

Canceling the merger will remove the “Merger to” and “Merger From” status for the dairy operations.

**I Approving Merger**

Users in the State and county the dairy operation is being merged to have the ability to approve the dairy operation by selecting the “Accept” option on the Merger Production History Merger Result and Merger Participants Screen.

After accepting the merger the Production History Signature Screen will be displayed to record the:

- effective date of merger
- number of signatures required for producer signature
- producer signature date
- COC determination
- COC determination date.

The effective date will default to 1 day before the MPP coverage year begins and cannot be changed by the user. Mergers must be completed during the enrollment period for the applicable coverage year.

**Exception:** For the 2016 coverage year only, the system will allow mergers to be recorded after the enrollment period ended. However, County Offices are reminded that the merger must have been initiated during the enrollment period.

The merger is not complete until COC approves.--\*

The following is an example of CCC-781 for a dairy operation establishing production history.

<b>CCC-781</b> (06-10-16)		U.S. DEPARTMENT OF AGRICULTURE Commodity Credit Corporation		(See Page 2 for Privacy Act and Paperwork Reduction Act Statements)							
<b>MARGIN PROTECTION PROGRAM FOR DAIRY PRODUCERS (MPP-DAIRY) PRODUCTION HISTORY ESTABLISHMENT</b>		<b>For County Office Use Only</b>									
		1. Type of Action:		Initial Establishment							
		2. Admin State Name:		California							
		3. Admin County Name:		Merced							
		4A. Farm Number:		8671							
		4B. Tract Number:		102823							
		5. Dairy Operation Number:		123532057							
<b>PART A - GENERAL INFORMATION</b>											
6A. Dairy Operation Name ANY FAMILY DAIRY											
6B. Is the dairy operation facility being leased or rented? If "YES," and this is not the initial establishment of the production history for the dairy operation, complete Part C.							YES				
6C. Effective Date of Production History Establishment											
<b>PART B - ANNUAL PRODUCTION HISTORY</b>											
7. Did the dairy operation produce and commercially market milk as of February 7, 2013? If "YES," enter the total production history for the dairy operation for each applicable year in Item 8, and then proceed to Part D. However, if the response to Item 6B is "YES" and this is not the initial establishment of the production history for the dairy operation, select "NO" in response to this question. If "NO," proceed to Part C.							YES				
8. Enter the total marketings for the dairy operation for each applicable calendar year below:											
2011:		12,300,000 lbs.		2012:		2,500,000 lbs.		2013:		5,000,000 lbs.	
<b>PART C - NEW DAIRY OPERATION PRODUCTION HISTORY</b>											
9. What date did the dairy operation first begin to market milk?											
Complete Option I and/or Option II to determine the highest marketings that may be used to establish the production history.											
<b>Option I</b> Actual production history as adjusted by the seasonal index.											
10. Enter the actual milk marketings for each month the dairy has been in operation beginning with the first full month of production as indicated in Item 9. For months with no production enter "0". If you are a seasonal dairy producing operation, meaning, your dairy operation customarily operates only a specific number of months annually, check here: <input type="checkbox"/> If this box is checked, indicate the number of months your seasonal dairy operation will produce milk on an annual basis: _____ months											
Month	Year	Marketings	Index	Month	Year	Marketings	Index	Month	Year	Marketings	Index
Jan		0 lbs.	0	May		0 lbs.	0	Sep		0 lbs.	0
Feb		0 lbs.	0	Jun		0 lbs.	0	Oct		0 lbs.	0
Mar		0 lbs.	0	Jul		0 lbs.	0	Nov		0 lbs.	0
Apr		0 lbs.	0	Aug		0 lbs.	0	Dec		0 lbs.	0
11. Calculate and enter annual production history by using the sum of available full month milk marketings above divided by the sum of the seasonal index percentages for the applicable months. Or, if this is a seasonal dairy, as indicated by a check in the box in Item 10, calculate and enter annual production history by using the sum of available full month milk marketings above divided by the sum of the index percentages, dividing the result by 12, and multiplying the result by the number of months indicated in Item 10.										<b>For County Office Use Only</b> lbs.	
<b>Option II</b> The annual production history will be based on the herd size of the participating dairy operation relative to the national rolling herd average data published by USDA.											
12. Enter the current number of dairy cows in the dairy operation, including dry cows (excludes heifers not yet fresh):										<b>For County Office Use Only</b>	
13. National annual milk production per cow (use NASS data as published for applicable calendar year):										lbs.	
14. Calculate annual production history by multiplying Item 12 and Item 13 and enter amount:										<b>For County Office Use Only</b> lbs.

(through 2-130)

**Section 3 Contract and Annual Coverage Election****70 Recording Contract and Annual Coverage Election****A Introduction**

Contract and annual coverage election shall be recorded for dairy operations that choose to participate in MPP-Dairy.

Dairy operations that register for MPP-Dairy annual coverage election are required to apply for annual coverage election in subsequent years during the registration coverage election period for the duration of MPP-Dairy.

Dairy operations that registered for contract and annual coverage election in 2014 and/or 2015 and were updated to the workbook by County Office users will **not** be migrated into the MPP-Dairy System, “Dairy Contract and Annual Coverage Election” section.

County Office users shall not record 2015 contracts in the MPP-Dairy automated system.

Production history information was migrated from the workbook and the production history information will roll forward each year as described in subparagraph 31 A.

**\*--Note:** County Offices shall contact their State Office if a contract is recorded incorrectly.--\*

See 1-MPP, Part 4 for MPP-Dairy registration and annual coverage election policy and provision.

Step	Action
1	Perform the steps in subparagraph 71 A.
2	CLICK “radio button” next to the dairy operation, farm, and tract for which user wants to create contract for annual coverage election.
3	CLICK “ <b>New Contract</b> ”.
4	Contracts Screen with “General Information” section will be displayed.

### B Contracts Screen With General Information

The Contracts Screen with “General Information” section provides “Yes” or “No” options to the following questions.

- “Does the Dairy Operation currently produce and commercially market milk?”

\* \* \*

- “Do all dairy producers in the operation make contributions (including land, labor, management, equipment, or capital) to the dairy operation, which are at least commensurate with their shares of the proceeds of the operation?”
- “Do any of the producers collectively have more than a 50% interest in both this dairy operation and another dairy operation that is covered under MPP-Dairy?”
- “Does the dairy operation currently have a policy under RMA’s Livestock Gross Margin for Dairy Program (LGM-Dairy)?”

**Note:** If the dairy operation indicated they currently have a policy under LGM-Dairy, a month and year is required for the last month and year of target marketings insured under LGM-Dairy Policy, in the “mm/yyyy” format.

A response is required to each question.

CLICK “**Save and Continue**” after selecting a response to each question.

See 1-MPP, Part 4 for determining the appropriate response to each question according to policy and provision.

**\*--73.5 Designating Milk Handler**

**A Milk Handler Designation**

The MPP-Dairy web-based system allows dairy operations to designate that a milk handler will remit premium payments on behalf of a dairy operation that elects buy-up coverage for the 2017 MPP coverage year and subsequent years.

See 1-MPP for additional information on the milk handler designation.

**B Milk Handler Information Screen**

The Milk Handler Information Screen is displayed after the coverage election is selected and before the premium calculation summary when completing a dairy operation's MPP contract.

**Note:** This screen is only displayed for those dairy operations electing buy-up coverage.

County Offices shall:

- record either of the following responses to the question “Will the outstanding premium balance be submitted to FSA through the Dairy Operation’s Milk Handler?”:
  - “Yes” if the dairy operation wishes to designate a milk handler to remit premium payments on their behalf
  - “No” if the dairy operation does not wish to designate a milk handler to remit premium payments
- if “Yes” is selected indicating the dairy operation is designating their milk handler to remit premium payments, select the milk handler from the drop down list displayed.

If the milk handler is not listed in the drop down list, the milk handler has not registered to participate. County Offices shall advise the dairy operation to contact the milk handler.--\*

## \*--77 Collecting and Remitting Fees (Continued)

**F Remittance Fees Processed by NRRS**

NRRS will process the fees remitted for the dairy operation. When NRRS receives the request to process fees, the status will be updated to 1 of the following.

Status	Description
"Unscheduled"	Remittance has been created, but is <b>not</b> on a schedule of deposit.
"In Process"	Remittance is in the process of being placed on a schedule of deposit.
"Scheduled"	Remittance is on a schedule of deposit, but <b>not</b> verified.
"Verified"	Remittance is on a verified schedule of deposit.
"Active Verified"	Remittance is on a verified schedule of deposit and has been activated to allow receipts to be cancelled.
"Dishonored"	Remittance was returned to NRRS as unfunded.  <b>Note:</b> If the remittance fee is returned as "Dishonored" and included the administrative fee and the dairy operation previously received a COC determination, the status will be reset to "Producer Certified", because COC or designee <b>cannot</b> provide a COC determination until administrative fees are paid-in-full.
"Cancelled"	Remittance was cancelled by the user.

**\*--C Bulk COC Approval**

A bulk “COC Approval” option is available to COC-approve multiple contracts at the same time.

Users may select to COC-approve multiple contracts at the same time by clicking the “Approve Contracts” link on the Contract Search Results Screen.

When the “Approve Contracts” link is selected, the Approve Contracts Screen will be displayed to select contracts that are in a “Producer Certified” status and are ready for COC approval.

**Note:** Not all Contracts can be selected for COC approval.

If validation errors exist, the screen will be displayed with “Review Errors” to remind the County Office to review potential issues on the contract.

If the dairy operation was involved in a transferred or successor-in-interest, the dairy operation cannot be selected for COC approval.

Approve multiple contracts according to the following table.

Step	Action
1	Perform the steps in subparagraph 71 A.
2	CLICK the “Approve Contracts” link.
3	The Approve Contracts Screen will be displayed.
4	Enter the COC approval date.

## 88 Dissolution Refund/Balance Due

### A Overview

When the contract dissolution approval data is recorded in the MPP-Dairy web-based system, the premium balance due will be recalculated based on the election by the dairy operation to either continue or terminate coverage.

**Note:** The premium balance due can be determined by accessing the Contract Collection Screen.

### B Handling Premium Balances and Refunds

Regardless of whether the dairy operation elects to continue or terminate coverage, the system will automatically update the premium balance due. This table describes the action that shall be taken based on the option elected.

IF the dairy operation elects...	AND the premium balance due is...	THEN...
to continue coverage	\$0	no additional action is required.
	greater than \$0	<ul style="list-style-type: none"> <li>no additional action is required by the County Office</li> <li>the dairy operation is required to pay the balance by September 1 of the applicable coverage year.</li> </ul>

CCC-782 (11-25-14)						Page 2	
PART F - CERTIFICATION AND SIGNATURES							
<p>This Contract to participate in the Margin Protection Program (MPP-Dairy) for dairy producers is entered into between the CCC and the undersigned producers in the dairy operation identified above. The undersigned producer or producers may hereafter collectively be referred to as "the Participant." The Participant agrees to comply with the terms and conditions contained in this Contract including the Appendix to this Contract, CCC-782 Appendix, entitled "Appendix to Form CCC-782 Margin Protection Program" (referred to as "Appendix"). By signing this contract the Participant agrees to participate in the Margin Protection Program for the stipulated contract period from the date the Contract is executed by the CCC. As such, the participant will be legally obligated to pay the annual administrative fee for the duration of the MPP-Dairy program and all associated premiums for buy-up coverage elected by the participant. The participant also agrees to the coverage threshold and coverage level percentage elected above for the applicable calendar year of coverage and further understands that a coverage election must be made annually on form CCC-782 for the duration of the MPP-Dairy program during the open election periods designated by the CCC. By signing below, the Participant (1) agrees to the established production history in Part D; (2) acknowledges receipt of the CCC-782 Appendix, and agrees to abide by the terms and conditions contained therein; and (3) agrees to comply with the regulations governing the applicable program eligibility. This program or activity will be conducted on a nondiscriminatory basis without regard to race, color, religion, national origin, age, sex, marital status, or disability. The terms and conditions of this contract are contained in this form CCC-782 and in the CCC-782 Appendix and any addendum thereto. The Participant also agrees to not receive benefits under the Livestock Gross Margin program for dairy while participating in the Margin Protection Program for dairy producers. Payments under the MPP-Dairy program may be reduced by a certain percentage due to a sequester order required by Congress and issued pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985. Should a payment reduction be necessary, FSA will reduce the payment by the required amount. <b>BY SIGNING THIS CONTRACT, PRODUCERS ACKNOWLEDGE THAT A PRODUCTION HISTORY ESTABLISHMENT FORM CCC-781 WAS COMPLETED BY AN AUTHORIZED REPRESENTATIVE OF THE DAIRY OPERATION ABOVE AND ACKNOWLEDGE THAT THE PRODUCTION HISTORY ESTABLISHED AND ENTERED ABOVE WILL BE USED FOR THE DURATION OF THE PROGRAM IN ACCORDANCE WITH REGULATIONS AT 7 CFR PART 1430, SUBPART C.</b></p>

**B Collection and Remittance Information**

See paragraph 77 for information on:

- collection history
- remitting administrative fee and/or premium.

**C Printing Collection History Information**

Future enhancement will provide options to print information on:

- remaining balance due
- amount paid
- collection history
- remittance information.

Currently users can provide the dairy operation a screen shot of the Contracts Screen with “Collection History” and “Remittance Information” sections until enhancements are provided.

## \*--123 Modifying or Canceling a Collection

**A Overview**

Users have the ability to cancel collections with the following status:

- unscheduled
- active/verified.

Administrative fee and premium collections may need to be canceled when:

- remittance information was entered incorrectly
- the dairy operation revised the contract during open enrollment and change their coverage level.

The following is an example of the Contract Collection Screen section with the option to “Cancel” administrative fee and premiums:

**\*--123 Modifying or Canceling a Collection (Continued)****B Canceling a Collection**

To cancel a remittance, users shall ensure that the remittance is in “unscheduled” or “active\_verified” status in NRRS.

**Note:** If a remittance is in a status other than “unscheduled” or “active-verified”, action must be taken in NRRS to change the status to “active-verified” or “unscheduled”, as applicable, before the collection can be canceled. No refund will be processed for cancellations of “unscheduled” remittances. Canceling a remittance in "active-verified" status will result in an out-of-balance on the remittance, which can be applied to another program, by creating a new receipt, or the balance can be refunded through NRRS as "REFREP". Once the remittance is back in balance (that is, has a zero outstanding amount), the remittance must be de-activated to complete the correction process. It is highly recommended that the activation and de-activation of the receipt be done on the same day.

Perform the following steps to cancel the collection in MPP:

Step	Action
1	Ensure the remittance is “unscheduled” or “active-verified” in NRRS.
2	Perform the steps in subparagraph 121 A.
3	Select the applicable dairy operation and CLICK “Collections”.
4	The Contract Collection and Remittance Screen will be displayed for the selected dairy operation.
5	CLICK the “Cancel” link next to the applicable collection.
6	The screen will refresh with the status of the applicable collection updated to “Canceled”.
7	CLICK “Back” or “Cancel” button to exit the Dairy Operation Collection and Remittance Screen.

**C Modifying a Collection**

To modify a collection, users shall:

- cancel the collection, according to subparagraph B
- re-enter the remittance using the correct information, according to paragraph 77.

**Note:** There is currently no other modification functionality. A remittance can only be corrected by canceling and re-entering.--\*

## Part 3 MPP-Dairy Payment Provisions

### Section 1 General Payment Provisions

#### 161 General Payment Provisions for Web-Based MPP-Dairy Payments

##### A Introduction

The MPP-Dairy payment process is an automated process that determines:

- whether the producer is eligible to receive payment
- the payment amount that can be sent to NPS for disbursement
- the overpayment amount that will be updated to the Pending Overpayment Report.

##### B Frequency of Payment Processing

MPP-Dairy payments are processed nightly for the following:

- \*--payment amounts recorded through the 2015 MPP-Dairy payment process during the workday
- newly approved or changed 2016 MPP-Dairy applications--\*
- any payment on the Nonpayment Report to determine whether the condition previously preventing the payment has been corrected.

##### C Obtaining FSA-325

FSA-325 shall be completed, according to 1-CM, paragraph 779 by individuals or entities requesting payment **earned** by a producer who has died, disappeared, or been declared incompetent subsequent to applying for MPP-Dairy benefits. Payment shall be issued to the individuals or entities requesting payment using the deceased, incompetent, or disappeared producer's ID number.

**\*--Note:** If CCC-781 or CCC-782 has been filed by the producer, a revised CCC-781 or CCC-782 is not required when payments are issued under a deceased, incompetent, or disappeared producer's ID number.--\*

##### D Administrative Offset

MPP-Dairy payments are subject to administrative offset provisions.

##### E Assignments

A producer entitled to an MPP-Dairy payment may assign payments according to 63-FI.

**161 General Payment Provisions for Web-Based MPP-Dairy Payments (Continued)****F Bankruptcy**

Bankruptcy status does **not** exclude a producer from requesting MPP-Dairy benefits.

**Note:** Contact the OGC Regional Attorney for guidance on issuing MPP-Dairy payments on all bankruptcy cases.

**G Payments Less Than \$1**

MPP-Dairy payment processes will:

- issue payments that round to at least \$1
- **not** issue payments less than 50 cents.

**H Payment Due Date**

See 61-FI for general guidance to determine payment due dates for various programs. The MPP-Dairy payment system sends the current system date to NPS as the payment due date. The system **cannot** determine the payment due date because of numerous factors.

County Offices shall manually determine the payment due date by determining the later of the following:

- the date producer filed CCC-782
- the date producer filed payment eligibility documentation, including the following:
  - AD-1026
  - CCC-902
- if the producer is an entity or joint operation, the date members filed the requisite payment eligibility documentation
- the date software was available to process the payment
- \*--availability of all data required to determine a payment amount.--\*

If the payment is **not** issued within 30 calendar days after the later of the dates in this subparagraph, then prompt payment interest is payable to the producer. County Offices shall follow provisions in 61-FI for issuing the interest payment.

**161 General Payment Provisions for Web-Based MPP-Dairy Payments (Continued)****\*--I General Payment Policy**

See 9-CM, Part 2 for general payment policy for the following:

- eligible ID types and business types
- payment eligibility
- joint operations and entities
- general provisions for overpayments.

**J Submitting Payment Problems**

If there is an issue with an MPP-Dairy payment, then the State Office specialist should update the applicable information to the payment problem SharePoint web site at [https://sharepoint.fsa.usda.net/mgr/dafp/PECD/Payment\\_Issues/default.aspx](https://sharepoint.fsa.usda.net/mgr/dafp/PECD/Payment_Issues/default.aspx).

**K Providing State Office Access to the Payment Problem SharePoint Site**

State Office specialists should request access to the payment problem SharePoint web site by:

- e-mailing a request to Stacy Carroll at [stacy.carroll@wdc.usda.gov](mailto:stacy.carroll@wdc.usda.gov)
- providing the specific program areas of responsibility.--\*

## 162 Payment Eligibility

**A Determining Payment Eligibility**

The payment process reads the web-based eligibility system for the applicable year to determine whether a producer or member of a joint operation is eligible to be paid. If the producer or member is ineligible to be paid, then the individual or entity will be listed on the Nonpayment Report with the applicable message. Eligibility values must be updated before the producer or member can be paid.

**\*--Note:** Eligibility determinations/certifications should accurately reflect COC determinations and producer certifications, as applicable.--\*

**B Eligibility Values**

The following table identifies web-based eligibility determinations applicable to MPP-Dairy and how the system will use the web-based subsidiary eligibility data for payment processing.

\*--If a producer has multiple invalid subsidiary eligibility conditions, only the highest priority in eligible condition will be printed on the Nonpayment Report.--\*

<b>Eligibility Determination</b>	<b>Value</b>	<b>Eligible for MPP-Dairy Payment</b>

**162 Payment Eligibility (Continued)****C Eligibility Conditions Priority**

If a producer has multiple invalid subsidiary eligibility conditions, only the highest priority ineligible condition will be printed on the Nonpayment Report. The following is the priority of conditions.

<b>Priority</b>	<b>Condition</b>
1	FCIC Fraud
2	Conservation Compliance
3	Controlled Substance
4	AD-1026
5	Foreign Person

**163 Funds Control****\*--A eFunds Allotment**

For 2015 MPP-Dairy, allotments will be provided to each County Office through the--\* funds control process. Specific allotments will be determined by the National Office based on information uploaded using the MPP workbook.

State Offices will have read-only access to eFund allocations to County Offices. If additional funds are required, County Offices shall contact the appropriate State Office specialist. State Offices shall contact the National Office to request additional allotments by sending an e-mail with the program year and amount to **all** of the following:

- **stacy.carroll@wdc.usda.gov**
- **danielle.cooke@wdc.usda.gov**
- **alison.groenwoldt@wdc.usda.gov**
- **tracey.smith@wdc.usda.gov.**

**163 Funds Control (Continued)****\*--B 2016 and Future Funds Control Process**

MPP-Dairy payments use the obligation process through the eFunds accounting process, which controls funding allotments by program year, monitors program spending, and halts program disbursements when the funding allocation has been exhausted. The funding is reserved through the obligation process at a summary level using estimated amounts.

The funds for MPP-Dairy payments will be controlled at the National level. If adequate funding is not available, those producers who cannot be paid will be listed on the Failed Obligations/Insufficient Funds Report in the Common Payment Reports System.

**C eFunds Access**

Funding for MPP-Dairy is established with the accounting code XXMPPD - 8025. The XX identifies the program year of the payment.

For 2016 and future, the funding will be maintained at the National level and will **not** be allotted to individual counties; therefore, State Office specialists will **not** need access to these program funds.--\*

**164-174 (Reserved)**

## \*--Section 2 2015 MPP-Dairy Payments

## 175 Overview

**A Supporting Files for Integrated Payment Processing**

The 2015 MPP-Dairy payment process is a web-based integrated process that reads a wide--\* range of information from other program determinations and values to determine whether a payment should be issued, the amount of the gross payment, reductions, and net payment amount. For payments to be calculated correctly, all supporting files must be updated correctly, including the following.

<b>Type of Information</b>	<b>How Information Is Used for Payment Processing</b>	<b>Source</b>
MPP-Dairy Gross Payment Report	Includes the gross payment amount by payment period with outstanding premium amounts. Additional information will be provided when the report is distributed.	National Office
Payment Eligibility Information	To determine whether the producer and members of a joint operation or entity are eligible for payment for the applicable program year.	Web-Based Eligibility System
General Name and Address Information	To determine the producer's business type and general name and address information.	SCIMS
Entity and Joint Operation Information	To determine the members, shares, and values for the following: <ul style="list-style-type: none"> <li>• member contribution value</li> <li>• substantive change value</li> <li>• members and member's share of the following: <ul style="list-style-type: none"> <li>• general partnership</li> <li>• joint ventures</li> <li>• entities.</li> </ul> </li> </ul>	Business File
Combined Producer Information	To determine whether the producer or members of entities or joint operations are combined with other producers to ensure that the payment limitation is controlled properly.	Web-Based Combined Producer System
Financial-Related Information	Calculated payment information is provided to NPS. Determined overpayment amount is updated to the Pending Overpayment Report and, if applicable, transferred to NRRS.	NPS or NRRS

## 175 Overview (Continued)

**B Actions To Be Completed Before Issuing Payments**

COC, CED, or designee shall ensure that the following actions are completed **before** issuing payments.

<b>Step</b>	<b>Action</b>
1	Ensure that the State Office received the approved MPP-Dairy Gross Payment Report from the National Office.
2	Ensure that the County Office received the approved MPP-Dairy Gross Payment Report from the State Office.
3	Ensure that Business Partner data is updated for the producer and each member of a joint operation or entity, including the following: <ul style="list-style-type: none"> <li>• customer's name</li> <li>• citizenship country and resident alien status, if applicable</li> <li>• TIN</li> <li>• address.</li> </ul>
4	Ensure that AD-1026 is on file for the applicable year for producers seeking benefits and that the eligibility information is recorded in the web-based eligibility system.
5	Ensure that all eligibility certifications and determinations have been recorded in the web-based eligibility system according to 3-PL (Rev. 1).
6	Ensure that the Business File is updated according to 3-PL (Rev. 1).
7	Ensure that sufficient funds have been allocated to the administrative State and county.
8	Ensure that all assignment and joint payees have been updated in Financial Services if CCC-36, CCC-37, or both are filed.
9	Ensure that the gross payment amounts provided in the approved MPP-Dairy Gross Payment Report is recorded in the web-based MPP-Dairy payment software according to paragraph 180.

**\*--176 Web-Based MPP-Dairy Application****A Overview**

Because an automated application process is **not** available, the amounts calculated through the MPP-Dairy Gross Payment Report **must** be recorded in the web-based MPP-Dairy application.

**B Accessing the MPP-Dairy Main Menu**

To access the MPP-Dairy Main Menu, go to FSA's Applications Intranet web site at **<http://fsaintranet.sc.egov.usda.gov/fsa/applications.asp>**. From the FSA Intranet Screen, under "FSA Applications", "Applications Directory", CLICK "G-O". The FSA Intranet Screen will be redisplayed with applications with names starting with G to O. CLICK "**Margin Protection Program (MPP-Dairy)**".

**Note:** Internet Explorer shall be used when accessing the MPP-Dairy.--\*

Users will be prompted to login through the USDA eAuthentication Login Screen. CLICK "**Login with LincPass (PIV)**" or enter user ID and password and CLICK "**Login**".

The Select an Administrative State/County Screen will be displayed.

**177 Select an Administrative State/County Screen****A Overview**

When a user has logged in through eAuthentication, the Select an Administrative State/County Screen will be displayed.

**B Recording Payment Data**

MPP-Dairy payments will be entered based on the administrative State and county location.

The Select an Administrative State/County Screen allows users to select the administrative State and county for processing.

**C Example of Select an Administrative State/County Screen**

The following is an example of the Select an Administrative State/County Screen.

The screenshot shows the 'Select an Administrative State/County' screen. At the top, there is a USDA logo and the text 'United States Department of Agriculture'. Below this, it says 'Farm Service Agency' and 'Margin Protection Program for Dairy Producers (MPP Dairy)'. A navigation bar contains links: 'MPP Dairy Home', 'About FSA', 'Help', 'Contact Us', 'Exit MPP Dairy', and 'Logout of eAuth'. On the left, there is a 'MPP Dairy Menu' with options: 'Welcome Lisa Davis', 'Role: County User', and 'Payments'. The main heading is 'Select an Administrative State/County'. Below this, it says 'Year: 2015'. The instruction 'Select Administrative State/Countries' is followed by a 'State-County:' label and a drop-down menu showing 'Kansas-Johnson'. A 'Continue' button is below the menu. At the bottom left, it says 'Screen ID: CPS-WEB011' and 'Last Modified: SelectStateCounty.jsp'. At the bottom right, there is a 'Back to Top ^' link.

**D Action**

User shall use the drop-down menu to select the applicable administrative State and county. CLICK "Continue". The MPP-Dairy Main Menu will be displayed.

## 178 MPP-Dairy Main Menu

## 182 Modifying or Deleting Previously Recorded MPP-Dairy Payment Data

### A Introduction

Previously entered payment amounts can be modified or deleted from the MPP-Dairy Main Menu using the “Modify/Delete a Calculated Payment” option.

### B Effect on Previously Processed Payments

Modifying or deleting previously recorded payment amounts impacts previously processed payments in different ways depending on whether the original payment was sent to NPS and certified and signed. This table describes how a previously recorded payment is affected when the amounts are modified or deleted.

IF previously recorded payment amounts are...	AND previously recorded payment amounts were...	AND the payment in NPS was...	THEN the...
modified	not sent to NPS because of a nonpayment condition		system will trigger the payment to reprocess the payment transaction.
	sent to NPS	certified and signed	system will retrigger the payment to reprocess to determine whether the producer is overpaid or underpaid. A transaction will be sent to NPS or the Pending Overpayment Report, as applicable.
		either of the following: <ul style="list-style-type: none"> <li>• <b>not</b> certified</li> <li>• certified, but <b>not</b> signed</li> </ul>	<ul style="list-style-type: none"> <li>• original amount in NPS will be canceled and the system will retrigger the payment to reprocess</li> <li>• new payment amount will be listed in NPS for certification and signature, provided all eligibility requirements are met.</li> </ul>

## 186 Handling Overpayments

### A Introduction

The MPP-Dairy payment process is an integrated process that reads data from many systems to determine whether payments issued to a producer were earned in-full or in-part. These systems include the following:

- subsidiary system including data about eligibility, combined producer, and Business File
- SCIMS.

If something changes in any of these systems, the MPP-Dairy payment process is automatically triggered to recalculate the payment. The producer is overpaid if the information that has been changed results in the current calculated amount to be less than the amount originally paid to the producer.

### B Determined Overpayments

For any overpayment amount calculated as \$1 or greater, the system will update the applicable information to the Pending Overpayment Report. See 9-CM, paragraph 65 for information on the Pending Overpayment Report.

**Warning:** Because the system is integrated with other systems, it is critical that County Offices do **not** make unnecessary changes to producer information that could cause an overpayment to be computed. County Offices are required to update the system properly, but removing or deleting data to “trigger” the system to function could worsen the situation.

### C Handling Debts Less Than \$100

County Offices shall follow 58-FI for handling receivables less than \$100.

### D Debt Basis Codes

The system automatically assigns the debt basis code to the receivable when it is updated to the Pending Overpayment Report. The following are the debt basis codes used for MPP-Dairy payments.

<b>IF the reason the payment entity and/or member is overpaid is because of...</b>	<b>THEN the discovery and/or debt basis code is:</b>
payment eligibility because of fraud	10-423.
payment eligibility, except fraud	10-427.

## 186 Handling Overpayments (Continued)

**E Charging Interest**

Interest shall be charged on receivables from the date the original payment was disbursed if COC determines the producer is ineligible because of the following reasons:

- producer signed to information on CCC-781 or CCC-782 that is subsequently determined inaccurate
- producer erroneously or fraudulently represented any act affecting a payment eligibility determination, including the following:
  - certification to AGI provisions
  - violation of conservation compliance provisions
  - violation of controlled substance provisions
- producer knowingly adopted a scheme or device that tended to defeat the purposes of MPP-Dairy.

Interest shall **not** be charged from date of disbursement if:

- overpayment resulted based on revised information that the producer would **not** have had reason to know was invalid
- National, State, or County Office erred
- producer voluntarily refunds the payment that was issued and COC has **not** determined that the producer is ineligible.

**Notes:** Software does **not** currently support charging interest from the date of disbursement. Any receivable established is sent to NRRS with the current system date. If the receivable is **not** repaid within 30 calendar days from the date the initial notification letter is issued, interest will start accruing from the date the receivable was established.

If COC determines that the producer is ineligible and interest should be charged from the date of disbursement:

- County Offices shall contact their State Office for assistance
- State Offices shall contact OBF for guidance.

## 187 MPP-Dairy Payment Process

**A Introduction**

The MPP-Dairy payment process is an automated process that determines:

- whether the producer is eligible to receive payment
- the amount that can be sent to NPS for disbursement.

**B Frequency of Payment Processing**

MPP-Dairy payments are processed nightly for the following:

- payment amounts recorded during the workday
- any payment on the Nonpayment Report to determine whether the condition preventing the payment has been corrected.

**Note:** One payment amount will be sent to NPS.

**C Step-by-Step Overview of MPP-Dairy Payment Process**

The following is a step-by-step overview of the MPP-Dairy payment process.

Step	Action		
1	Payment process is triggered.		
2	System determines the producer level payment amount recorded.		
	<b>IF the amount is...</b>	<b>AND a payment...</b>	<b>THEN...</b>
	greater than \$0		continue to step 3 for the applicable amount recorded.
3	\$0	was <b>not</b> previously issued	the payment process is discontinued for the applicable payment amount.
	System reads SCIMS to obtain information for the payment entity.		
	<b>IF the payment entity is...</b>	<b>AND the resident alien field is...</b>	<b>THEN...</b>
	an individual	<ul style="list-style-type: none"> <li>• “Unknown” or “N/A”</li> <li>• “Yes”</li> </ul>	continue to step 4.
		“No”	the payment entity is <b>not</b> eligible for payment.
	any business type other than individual		continue to step 4.

## 187 MPP-Dairy Payment Process (Continued)

## C Step-by-Step Overview of MPP-Dairy Payment Process (Continued)

Step	Action	
4	System determines whether there is an MPP-Dairy payment for the payment entity in NPS.	
	<b>IF a payment...</b>	<b>THEN...</b>
	has <b>not</b> already been sent to NPS for the payment entity	continue to step 5.
	<ul style="list-style-type: none"> <li>has been sent to NPS for the payment entity</li> <li>is signed</li> </ul>	
5	<ul style="list-style-type: none"> <li>has been sent to NPS for the payment entity</li> <li>is <b>not</b> signed</li> </ul>	<ul style="list-style-type: none"> <li>the payment in NPS is canceled and the new payment transaction is processed</li> </ul>
		<ul style="list-style-type: none"> <li>continue to step 5.</li> </ul>
5	For joint operations and entities, the system retrieves member data from Business File.	
6	System checks the web-based subsidiary eligibility data for the applicable program year to determine whether the payment entity and members, if applicable, are eligible to receive payment.	
	<b>IF the payment entity is...</b>	<b>AND...</b>
	an individual	the payment entity is eligible to receive payment
		the payment entity is <b>not</b> eligible to receive payment
	an entity or joint operation	the payment entity is eligible to receive payment
		at least 1 member is eligible to receive payment
		the payment entity is <b>not</b> eligible to receive payment
		the payment entity is eligible to receive payment
		1 or more of the members are ineligible to receive payment

## 187 MPP-Dairy Payment Process (Continued)

## C Step-by-Step Overview of MPP-Dairy Payment Process (Continued)

Step	Action	
7	Payment history data is updated and the transaction is completed.	
	<b>IF the payment amount is...</b>	<b>THEN the...</b>
	\$0	process is discontinued and the payment entity is listed on the Nonpayment Report.
	greater than \$0	payment amount shall be sent to NPS for disbursement.
	negative	overpayment amount shall be updated to the Pending Overpayment Report.

## 188 MPP-Dairy Payment Reports

## A Displaying or Printing MPP-Dairy Payment Reports

MPP-Dairy Payment Reports are available to provide information about each payment or nonpayment. Most of the payment reports have information that is common between program areas; therefore information about these reports is in 9-CM. The MPP-Dairy Payment History Report – Detail has program-specific data; therefore, information for this report is in this handbook.

MPP-Dairy Payment Report information is available according to the following.

Report Name	Type of Data	Reference
Submitted Payments Report	Live	9-CM, paragraph 63
Submitted Overpayments Report	Live	9-CM, paragraph 64
Pending Overpayment Report	Live	9-CM, paragraph 65
<b>Note:</b> The Pending Overpayment Report is accessed through the Pending Overpayment Summary Report according to 9-CM, paragraph 64.5.		
Nonpayment/Reduction Report	Report Database	9-CM, paragraph 66
Insufficient Funds Report	Live	9-CM, paragraph 67
Payment History Report – Summary	Report Database	9-CM, paragraph 69

**Note:** See 9-CM, paragraph 52 for complete instructions on accessing the Common Payment Report System.

**189 Payment History Report – Detail****A Background**

The Payment History Report – Detail is a report that provides detailed information about an MPP-Dairy payment.

**B Payment History Report – Detail Description**

The following information will be displayed and/or printed on the Payment History Report – Detail.

<b>Field</b>	<b>Description</b>
Program Year	Program year selected by the user.
Program Name	Margin Protection Program for Dairy Producers
State	Full name of the State selected by the user.
County	Full name of the county selected by the user.
Producer Name	Name from SCIMS as follows: <ul style="list-style-type: none"> <li>• for individuals: last name, middle name, first name, and suffix</li> <li>• for businesses: business name.</li> </ul>
Date (Report)	Date the report is generated by the user.
Date (Payment)	Date the payment was processed and sent to NPS or the date the overpayment transaction was processed and sent to NRRS.
State/County	State and county code associated with the applicable transaction record.
Payment Entity/Member Name	The “Payment Entity/Member Name” field will provide payment entity or member name information if the MPP-Dairy Payment History Report – Detail is generated for: <ul style="list-style-type: none"> <li>• an entity or joint operation where amounts were attributed to members</li> <li>• a member to show the payment entity through whom the amount was attributed.</li> </ul>
Payment ID Number	Unique number that ties the program history data to the NPS history data.
Business Type	Business type of the producer and/or member.

**190 General Provisions for Canceling Payments****A Canceling Payments**

After payment processing has been completed, County Offices shall review the NPS payment worklist to ensure that the correct payments have been generated. The user should complete the following if an error is determined:

- **not** sign the payment in NPS
- correct the condition causing the incorrect payment or overpayment.

**Notes:** User intervention is **not** allowed for the cancellation process. If the condition causing the incorrect payment is corrected, the system will automatically cancel the unsigned payment and recalculate the payment amount due.

If the payment amount is determined to be incorrect and the payment has been signed in the NPS system, the payment can no longer be canceled. The producer will be underpaid or overpaid once the condition causing the incorrect payment has been corrected.

**191 General Provisions for Overpayments****A Overview**

Overpayments will be determined during the MPP-Dairy payment calculation process and will be updated to the Pending Overpayment Report. See 9-CM, paragraph 65 for information on the Pending Overpayment Report.

**B Overpayment Due Dates**

Overpayments can occur for a number of reasons and County Offices are required to take necessary action to collect overpayments. The following table provides situations that may cause overpayment and the overpayment due dates.

<b>Time of Determination</b>	<b>Situation</b>	<b>Overpayment Due Date</b>
Any time.	Payment was issued to the wrong producer.	Immediately.
After an entry affecting the payment amount is changed on either of the following: <ul style="list-style-type: none"> <li>• CCC-781</li> <li>• CCC-782.</li> </ul>	Payment was issued and later something occurred that changed the amount in the MPP-Dairy Gross Payment Report.	
After producer misrepresentation is determined.	Producer received an MPP-Dairy payment and COC determines that the producer misrepresented their interest.	
After an eligibility value changes that makes the producer ineligible for payment.	Producer's eligibility value changed making the producer ineligible for payment.	
Anytime either of the following are canceled: <ul style="list-style-type: none"> <li>• CCC-781</li> <li>• CCC-782.</li> </ul>	CCC-781 or CCC-782 was canceled after payments were issued to the producer.

**\*--Section 3 2016 and Future Years MPP-Dairy Payments**

**199 General Provisions**

**A Introduction**

This part contains the following:

- general provisions applicable to MPP-Dairy payments
- provisions for processing MPP-Dairy payments and overpayments
- information about the following common payment reports:
  - Submitted Payments Report
  - Submitted Overpayments Report
  - Pending Overpayment Summary Report
  - Pending Overpayment Report
  - Nonpayment/Reduction Report
  - Failed Obligations / Insufficient Funds Report
  - Payments Computed to Zero Report
  - Payment History Report - Summary
  - Payment History Report - Detail.

**B Processing Payments**

Payments shall be issued as soon as **all** of the following conditions exist:

- MPP-Dairy payment software is available
- producer has provided all required program documentation
- CCC-781 and/or CCC-782 is approved
- program regulations are published
- all data required to determine the payment amount is available.--\*

**\*--200 MPP-Dairy Payments****A Supporting Files for Integrated Payment Processing**

The MPP-Dairy payment process is a web-based integrated process that uses a wide range of information and other program determinations and values to determine whether a payment should be issued and the amount of gross payment, applicable reductions, and the net payment amount. For payments to be calculated correctly, all supporting files must be updated correctly, including **all** the following.

<b>Type of Information</b>	<b>How Information Is Used for Payment Processing</b>	<b>Source</b>
CCC-781 Data	The information from CCC-781 is used to establish the production history to determine the MPP-Dairy payment amount for the producer.	Web-Based MPP-Dairy Contract System
CCC-782 Data	The information from CCC-782 is used to compute the MPP-Dairy payment amount for the producer.	Web-Based MPP-Dairy Contract System
Payment Eligibility Information	Used to determine whether the producer and/or member of a joint operation is eligible for payment for the year in which CCC-782 was filed.	Web-Based Eligibility System
General Name and Address Information	Used to determine the producer's business type and general name and address information.	Business Partner/ SCIMS
Entity and Joint Operation Information	Used to determine the following for the year in which CCC-782 was filed for members and member's share of the following: <ul style="list-style-type: none"> <li>• entities</li> <li>• general partnerships</li> <li>• joint ventures.</li> </ul>	Business File
Financial Related Information	<ul style="list-style-type: none"> <li>• Calculated payment information is provided to NPS.</li> <li>• Determined overpayment amount may be provided to NRRS.</li> </ul>	NPS or NRRS

**\*--200 MPP-Dairy Payments (Continued)****B Prerequisites for Payments**

Certain actions must be completed to ensure that the producer is eligible for payment. The following table provides actions that must be completed to issue proper payments. COC, CED, or designee shall ensure that the actions are completed.

<b>Step</b>	<b>Action</b>
1	Ensure that CCC-782 has been approved and that the approval date has been recorded in the system according to paragraph 40.
2	Ensure that the applicable CCC-902 is on file and the foreign person determination is completed according to 5-PL for the applicable year for producers and members of joint operations seeking benefits.
3	Ensure that all other applicable eligibility determinations have been updated according to the determinations made by COC for producers and members of joint operations. See 5-PL.
4	Ensure that joint operation and entity ownership structure information is updated in Business File for the applicable year. See 3-PL (Rev. 2).
5	Ensure that all assignments and joint payees have been updated in NPS if CCC-36, CCC-37, or both were filed for MPP-Dairy.

**C ID and Business Type Eligibility**

The following table provides the ID numbers and business types that are eligible for MPP-Dairy payments.

<b>SCIMS Business Code</b>	<b>Business Type and/or Description</b>
<b>Social Security Numbers With the Following Business Types</b>	
00	Individual
07	Trust-Revocable
22	LLC
<b>Employer ID Numbers With the Following Business Types</b>

**\*--201 Payment Processing****A Computing Payment and Overpayment Amounts**

The MPP-Dairy payment process is an integrated process that reads a wide range of files to:

- determine whether a payment should be issued or if an overpayment has occurred
- calculate the following:
  - gross payment amount
  - reduction amounts
  - net payment amount
  - overpayment amount.

The following table describes the high level system processing sequence to calculate MPP-Dairy payments for producers.

<b>Step</b>	<b>Action</b>
1	Payment is triggered according to subparagraph B.
2	Determine whether there is an unsigned payment for the dairy operation in NPS, and if so, cancel the payment in NPS.
3	Determine the gross payment amount for each producer in the dairy operation.
4	Determine whether the producer is an entity or joint operation, and if so, obtain member information from Business File, if applicable.
5	Determine whether the producer and/or members are eligible for payment.
6	Provide the following to direct attribution for each producer in the dairy operation: <ul style="list-style-type: none"> <li>• gross payment amount</li> <li>• reason, if producer is ineligible because of subsidiary eligibility provisions.</li> </ul>
7	Direct attribution will determine the following: <ul style="list-style-type: none"> <li>• reduction amounts</li> <li>• net payment or overpayment amount</li> <li>• reasons for nonpayments or overpayments.</li> </ul>
8	Provide the payment amount to NPS, or update the overpayment amount to the Pending Overpayment Report.
9	Update applicable information to the Common Payment Reports. See 9-CM, Part 5 for information about the Common Payment Reports.

--\*

**\*--201 Payment Processing (Continued)****B Triggering Payments**

Payment will be triggered through events that occur throughout the system. As a result, processing will be behind the scenes. Calculations and determinations will occur during the evening and nighttime hours without user intervention. The following table provides trigger types and descriptions.

<b>Trigger Type</b>	<b>Description</b>
Initial	<p>When the average actual dairy production margin for a consecutive 2-month period is less than the coverage level threshold selected by the participating dairy operation, a process will automatically run to determine all CCC-782's that are approved for payment within that margin. This will initiate the process described in subparagraph A and does <b>not</b> require any County Office user interaction.</p> <ul style="list-style-type: none"> <li>• Payments will be sent to NPS for certification and signature.</li> <li>• Overpayment will be updated to the Pending Overpayment Report.</li> </ul>
Primary	<p>Once the initial payments are triggered, subsequent payments will be initiated when the:</p> <ul style="list-style-type: none"> <li>• status changes on CCC-782 for MPP-Dairy</li> <li>• average actual dairy production margin for a consecutive 2-month period is determined.</li> </ul>
Secondary	<p>Payments that cannot be issued during any payment process are sent to the Nonpayment Register. If a condition causing the producer to be on the Nonpayment Register is corrected, the payment will be triggered to reprocess to determine whether the payment can be issued.</p>
Tertiary	<p>The payment system will periodically recalculate all payments when changes occur in external systems, such as SCIMS/BP and Subsidiary.</p>

--\*

**\*--201 Payment Processing (Continued)****C Sequestering MPP-Dairy Payments**

The Balanced Budget and Emergency Deficit Control Act of 1985, as amended by the Budget Control Act of 2011, requires a reduction in payments, also known as a sequester. Whether a payment is sequestered or not depends on when the funding was “obligated”. Obligations are a behind-the-scenes process where the funding is reserved based on what the total possible expenditures of the program will be or the value of the contract or application when it is approved.

Applying sequestration is the last step in the payment process after all reductions have been applied, and before the payment amount is sent to NPS. The:

- payment amount times the sequestration percentage equals the sequestration reduction amount

**Note:** The resulting payment amount is the MPP-Dairy payment amount sent to NPS.

- amount is applied at the payment entity level
- amount is not attributed to members.

**Note:** The sequestration reduction amount will be displayed on the Payment History Report.

**D Sequestration Percentage**

The sequestration percentage is provided in the following table.

Program Year	Sequestration Percentage
2016	6.8

--\*

**\*--201 Payment Processing (Continued)****E Common Payment Reports and Sequestered Payments**

If the payments for a program year are sequestered, the disclaimers on the various common payment reports will have additional wording and the payment amounts on the common payment reports will either be before or after sequestration was applied. See 9-CM for additional information on the common payment reports.

The following table provides specific information about each report.

**Note:** Because the sequestration reduction is applied at the payment entity level, the amount displayed on the various common payment reports that are attributed or reduced for members of the entity or joint operation may not add up to the payment amount for the payment entity.

<b>Report</b>	<b>Sequestration Reduction Displayed on Report</b>	<b>Name of Payment Field</b>	<b>Amount Displayed Before or After Sequestration Applied</b>

**\*--204 General Provisions for Canceling Payments****A Canceling Payments**

After payment processing has been completed, County Offices shall review the NPS payment worklist to ensure that the correct payments have been generated. The user should complete the following if an error is determined:

- payment should **not** be signed in NPS
- condition causing the incorrect payment should be corrected.

**Notes:** User intervention is not allowed for the cancellation process.

If the:

- condition causing the incorrect payment is corrected, the system will automatically cancel the unsigned payment in NPS and recalculate the payment amount due
- payment amount is determined to be incorrect and the payment has been signed in the NPS system, the payment can no longer be canceled. The producer will be underpaid or overpaid once the condition causing the incorrect payment has been corrected.--\*

**\*--205 Collecting Overpayments****A Introduction**

Overpayment amounts will be determined by dairy operation and producer. Overpayments can occur for a number of reasons and County Offices are required to take necessary action to collect overpayments.

**B Pending Overpayments**

Overpayments will be determined during the MPP-Dairy payment calculation process. Overpayment information will be updated to the Pending Overpayment Report according to 9-CM, paragraph 65. The overpayment will remain on the Pending Overpayment Report for 20 workdays to allow time for correcting the condition that caused the overpayment. If the overpayment is a legitimate debt, then the overpayment should be transferred to NRRS immediately.

**C Overpayments and Due Dates**

The following table lists:

- situations that may cause an overpayment
- overpayment due dates.

<b>Time of Determination</b>	<b>Situation</b>	<b>Overpayment Due Date</b>
Any time.	Payment was issued for the wrong producer.	Immediately
After something affecting the payment amount is changed on CCC-782.	The payment was issued and later something affecting the payment amount changes on CCC-782.	Immediately
After producer misrepresentation is determined.	Producer received a payment and COC determines that the producer misrepresented their interest on CCC-782.	Immediately
After an eligibility value changes that make the producer ineligible for payment.	Producer's eligibility value changes that makes the producer ineligible for payment.	Immediately
Any time CCC-782 is canceled.	CCC-782 was canceled after payments were issued to the producer.	Immediately.

--\*

**\*--206 Charging Interest****A Introduction**

Program interest shall be charged on all MPP-Dairy overpayments to producers who become ineligible after the producer's application was approved and the payment was issued.

**B Ineligible Producers**

A producer is considered ineligible if:

- COC determines that the producer:
  - erroneously or fraudulently represented any act affecting a determination
  - knowingly adopted a scheme or device that tends to defeat the purposes of the program
  - misrepresented their interest and subsequently received an MPP-Dairy payment
- conservation compliance provisions are violated
- controlled substance provisions are **not** met.

Interest for ineligible producers shall be charged from the date of disbursement.

**Note:** See 64-FI for additional information for updating the receivable to include program interest data.

**C When Not to Charge Interest**

Interest will not be charged if the producer:

- is determined to be eligible
- returns the Treasury check without being cashed
- refunds the payment voluntarily.--\*
