FSA Office for questions  
specific to your operation or  
county.

### **Enrollment Period for ARC and PLC Safety-Net Programs Closes Sept. 30**

Eligible producers are reminded that enrollment in the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs for 2014 and 2015 ends Sept. 30, 2015.

The new programs, established by the 2014 Farm Bill, trigger financial protections for agricultural producers when market forces cause substantial drops in crop prices or revenues. More than 1.76 million farmers have elected ARC or PLC. Previously, 1.7 million producers had enrolled to receive direct payments (the program replaced with ARC and PLC by the 2014 Farm Bill). This means more farms have elected ARC or PLC than previously enrolled under previously administered programs.

Nationwide, 96 percent of soybean farms, 91 percent of corn farms, and 66 percent of wheat farms elected ARC. 99 percent of long grain rice farms, 99 percent of peanut farms, and 94 percent of medium grain rice farms elected PLC. For data about other crops and state-by-state program election results go to

[www.fsa.usda.gov/arc-plc](http://www.fsa.usda.gov/arc-plc).

Covered commodities under ARC and PLC include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

For more information please contact your local FSA office <http://offices.usda.gov>.

# USDA Announces Conservation Incentives for Working Grass, Range and Pasture Lands

Beginning Sept. 1, farmers and ranchers can apply for financial assistance to help conserve working grasslands, rangeland and pastureland while maintaining the areas as livestock grazing lands.

The initiative is part of the voluntary Conservation Reserve Program (CRP), a federally funded program that for 30 years has assisted agricultural producers with the cost of restoring, enhancing and protecting certain grasses, shrubs and trees to improve water quality, prevent soil erosion and reduce loss of wildlife habitat. In return, the U.S. Department of Agriculture (USDA) provides participants with rental payments and cost-share assistance. CRP has helped farmers and ranchers prevent more than 8 billion tons of soil from eroding, reduce nitrogen and phosphorous runoff relative to cropland by 95 and 85 percent respectively, and even sequester 43 million tons of greenhouse gases annually, equal to taking 8 million cars off the road.

The CRP-Grasslands initiative will provide participants who establish long-term, resource-conserving covers with annual rental payments up to 75 percent of the grazing value of the land. Cost-share assistance also is available for up to 50 percent of the covers and other practices, such as cross fencing to support rotational grazing or improving pasture cover to benefit pollinators or other wildlife. Participants may still conduct common grazing practices, produce hay, mow, or harvest for seed production, conduct fire rehabilitation, and construct firebreaks and fences.

With the publication of the CRP regulation today, the Farm Service Agency will accept applications on an ongoing basis beginning Sept. 1, 2015, with those applications scored against published ranking criteria, and approved based on the competitiveness of the offer. The ranking period will occur at least once per year and be announced at least 30 days prior to its start. The end of the first ranking period will be Nov. 20, 2015.

To learn more about participating in CRP-Grasslands or SAFE, visit [www.fsa.usda.gov/crp](http://www.fsa.usda.gov/crp) or consult with the local Farm Service Agency county office. To locate a nearby Farm Service Agency office, visit <http://offices.usda.gov>. To learn more about the 30th anniversary of CRP, visit [www.fsa.usda.gov/CRPis30](http://www.fsa.usda.gov/CRPis30) or follow on Twitter using #CRPis30.

## Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

### Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

## **Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)**

The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from October 1, 2014 to September 30, 2015 must file:

- A notice of loss the earlier of 30 calendar days of when the loss is apparent or by November 2, 2015
- An application for payment by November 2, 2015

The Farm Bill caps ELAP disaster funding at \$20 million per federal fiscal year.

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet
- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at [www.fsa.usda.gov/factsheets](http://www.fsa.usda.gov/factsheets).

---

## **Maintaining the Quality of Farm-Stored Loan Grain**

Bins are ideally designed to hold a level volume of grain. When bins are overfilled and grain is heaped up, airflow is hindered and the chance of spoilage increases.

Producers who take out marketing assistance loans and use the farm-stored grain as collateral should remember that they are responsible for maintaining the quality of the grain through the term of the loan.

---

## Enrollment for 2016 Dairy Margin Protection Program Ends September 30

Dairy farmers are reminded that the enrollment deadline for the [Margin Protection Program](#) for coverage in 2016 is Sep. 30. The voluntary program, established by the 2014 Farm Bill, provides financial assistance to participating dairy operations when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the farmer.

The Margin Protection Program gives participating dairy producers the flexibility to select coverage levels best suited for their operation. Enrollment began July 1 and ends on Sept. 30, 2015, for coverage in 2016. Participating farmers will remain in the program through 2018 and pay a \$100 administrative fee each year. Producers also have the option of selecting a different coverage level during open enrollment each year. Margin Protection Program payments are based on an operation's historical production. An operation's historical production will increase by 2.61 percent in 2016 if the operation participated in 2015, providing a stronger safety net.

USDA also has an online resource available to help dairy producers decide which level of coverage will provide them with the strongest safety net under a variety of conditions. The enhanced Web tool, available at [www.dairymarkets.org/mpp/](http://www.dairymarkets.org/mpp/), allows dairy farmers to quickly and easily combine their unique operation data and other key variables to calculate their coverage needs based on price projections. Producers can also review historical data or estimate future coverage based on data projections. The secure site can be accessed via computer, mobile phone, or tablet, 24 hours a day, seven days a week.

Dairy operations enrolling in the program must meet conservation compliance provisions. Producers participating in the Risk Management Agency's Livestock Gross Margin (LGM) insurance program may register for the Margin Protection Program, but this new margin program will only begin once their LGM insurance coverage has ended. Producers must also submit form CCC-782 for 2016, confirming their Margin Protection Program coverage level selection, to the local Farm Service Agency (FSA) office. If electing higher coverage for 2016, dairy producers can either pay the premium in full at the time of enrollment or pay a minimum of 25 percent of the premium by Feb. 1, 2016.

For more information, visit FSA online at [www.fsa.usda.gov/dairy](http://www.fsa.usda.gov/dairy) for more information, or stop by a local FSA office to learn more about the Margin Protection Program. To find a local FSA office in your area, visit <http://offices.usda.gov>.

---

## Unauthorized Disposition of Grain

If loan grain has been disposed of through feeding, selling or any other form of disposal without prior written authorization from the county office staff, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer's name will be placed on a loan violation list for a two-year period. Always call before you haul any grain under loan.

---

## Dates to Remember

09/30/2015 Registration Period for MPP-Dairy Coverage Year 2016 Ends

09/30/2015 Final Date to Enroll for 2014 and 2015 ARC/PLC Programs

11/02/2015 Final date to Submit a Notice of Loss and an Application of Payment for ELAP for 2015 Program Year

11/15/2015 Acreage Reporting Deadline for Perennial Forages

11/20/2015 Ranking Period Ends for CRP-Grasslands Initiative

---

## Direct Loans

FSA offers direct farm ownership and direct farm operating Loans to producers who want to establish, maintain or strengthen their farm or ranch. FSA loan officers process, approve and service direct loans.

Direct farm operating loans can be used to purchase livestock and feed, farm equipment, fuel, farm chemicals, insurance and other costs including family living expenses. Operating loans can also be used to finance minor improvements or repairs to buildings and to refinance some farm-related debts, excluding real estate.

Direct farm ownership loans can be used to purchase farmland, enlarge an existing farm, construct and repair buildings, and to make farm improvements.

The maximum loan amount for both direct farm ownership and operating loans is \$300,000 and a down payment is not required. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your local FSA office for more information or to apply for a direct farm ownership or operating loan.

---

## Selected Interest Rates for September 2015

Direct Farm Operating Loans - 2.625%

Direct Farm Ownership Loans - 4.00%

Direct Farm Ownership Loans — Down Payment, Beginning Farmer or Rancher - 1.50%

Direct Farm Ownership Loans — Joint Financing - 2.50%

Emergency Loans - 3.625%

Farm Storage Facility Loans (7 years) - 2.00%

Commodity Loans 1996-Present - 1.375%
