### Louisiana Farm Service Agency

3737 Government Street  
Alexandria, LA 71302

Phone: 318-473-7721

[www.fsa.usda.gov/la](http://www.fsa.usda.gov/la)

**State Executive Director:**  
Craig A. McCain

**Next State Committee Meeting:** To be determined

Please contact your local FSA Office for questions specific to your operation or parish.

**USDA Service Centers will be closed on Monday, May 30 in observance of Memorial Day**

### Message from Craig A. McCain, FSA State Executive Director

If the old adage April showers bring May flowers is true, May will be exceedingly beautiful and in full bloom as rainfall has continued throughout the month of April and recent storms are again testing drainage systems as water levels rise. The forecast for early May seems favorable at this point and we certainly hope it continues. Even as producers strive to manage this difficult Spring season, FSA wants to remind you of the need to timely file acreage reports and to provide you with information on new opportunities as it relates to Farm Stored Facility Loans.

Please contact your local Farm Service Agency office for more details on this or other FSA programs or loan opportunities.

---

### Double-Cropping

Each year, state committees will review and approve or disapprove county committee

recommended changes or additions to specific combinations of crops.

Double-cropping is approved when the two specific crops have the capability to be planted and carried to maturity for the intended use, as reported by the producer, on the same acreage within a crop year under normal growing conditions. The specific combination of crops recommended by the county committee must be approved by the state committee.

Double cropping is approved in Louisiana on a statewide basis. Contact your local FSA Office for a list of approved double-cropping combinations.

A crop following a cover crop terminated according to termination guidelines is approved double cropping and these combinations do not have to be approved by the state committee.

## **USDA Offers New Loans for Portable Farm Storage and Handling Equipment**

*Portable Equipment Can Help Producers, including Small-Scale and Local Farmers, Get Products to Market Quickly*

USDA's Farm Service Agency (FSA) will provide a new financing option to help farmers purchase portable storage and handling equipment. The loans, which now include a smaller microloan option with lower down payments, are designed to help producers, including new, small and mid-sized producers, grow their businesses and markets.

The program also offers a new "microloan" option, which allows applicants seeking less than \$50,000 to qualify for a reduced down payment of five percent and no requirement to provide three years of production history. Farms and ranches of all sizes are eligible. The microloan option is expected to be of particular benefit to smaller farms and ranches, and specialty crop producers who may not have access to commercial storage or on-farm storage after harvest. These producers can invest in equipment like conveyers, scales or refrigeration units and trucks that can store commodities before delivering them to markets. Producers do not need to demonstrate the lack of commercial credit availability to apply.

Earlier this year, FSA significantly expanded the list of commodities eligible for Farm Storage Facility Loan. Eligible commodities now include aquaculture; floriculture; fruits (including nuts) and vegetables; corn, grain sorghum, rice, oilseeds, oats, wheat, triticale, spelt, buckwheat, lentils, chickpeas, dry peas sugar, peanuts, barley, rye, hay, honey, hops, maple sap, unprocessed meat and poultry, eggs, milk, cheese, butter, yogurt and renewable biomass. FSFL microloans can also be used to finance wash and pack equipment used post-harvest, before a commodity is placed in cold storage.

To learn more about Farm Storage Facility Loans, visit [www.fsa.usda.gov/pricesupport](http://www.fsa.usda.gov/pricesupport) or contact a local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

# Report Livestock Losses

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2016, eligible losses must occur on or after Jan. 1, 2016, and before Dec. 31, 2016. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 30 calendar days after the end of the calendar year for which benefits are requested:

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 2.0% and Non-Adult Beef Cattle (less than 400 pounds) = 5%. These established percentages reflect losses that are considered expected or typical under “normal” conditions. Producers who suffer livestock losses in 2016 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent or by Jan. 30, 2017
- An application for payment by Jan. 30, 2017.

Additional Information about LIP is available at your local FSA office or online at: [www.fsa.usda.gov](http://www.fsa.usda.gov).

## USDA Removes Farm Program Payments to Managers Not Actively Engaged in Farming

USDA finalized a rule to ensure that farm safety-net payments are issued only to active managers of farms that operate as joint ventures or general partnerships, consistent with the direction and authority provide by Congress in the 2014 Farm Bill. The action, which exempts family farm operations, closes a loophole where individuals who were not actively part of farm management still received payments.

Since 1987, the broad definition of “actively engaged” resulted in some general partnerships and joint ventures adding managers to the farming operation, qualifying for more payments, that did not substantially contribute to management. The rule applies to operations seeking more than one farm manager, and requires measureable, documented hours and key management activities each year. Some operations of certain sizes and complexity may be allowed up to three qualifying managers under limited conditions. The changes apply to payments for 2016 and subsequent crop years for Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) Programs, Loan Deficiency Payments (LDP) and Marketing Loan Gains (MLG) realized via the Marketing Assistance Loan Program.

As required by Congress, the new rule does not apply to family farms, or change regulations related to contributions of land, capital, equipment, or labor. The changes go into effect for the 2016 crop year for most farms. Farms that have already planted fall crops for 2016 have until the 2017 crop year to comply. For more details, producers are encouraged to consult their local Farm Service Agency office.

---

## Deadline reminders

- May 31, 2016 - Final Availability Dates for Marketing Assistance Loans & Loan Deficiency Payments for Corn, Dry Peas, Grain Sorghum, Lentils, Mustard Seed, Rice, Safflower Seed, Chickpeas, Soybeans, Sunflower
  - July 15, 2016 is the deadline to report acreage for all spring-seeded crops
  - Aug 1, 2016 is the deadline to enroll in ARCPLC coverage for 2016
- 

## Loan Servicing

There are options for Farm Service Agency loan customers during financial stress. If you are a borrower who is unable to make payments on a loan, contact your local FSA Farm Loan Manager to learn about the options available to you.

---

## Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

### Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.
