Extending the 2008 DCP Sign-Up Deadline for Farms with 10.0 or Less Base Acres

On October 13, 2008, H.R. 6849 was enacted and provides for an extension of the 2008 DCP enrollment deadline for farms with 10.0 base acres or less covered commodities not previously enrolled. Producers on farms with 10.0 base acres or less **have until November 26, 2008** to initiate and complete enrollment of a farm for 2008 DCP. H.R. 6849 **does not extend** the DCP sign-up deadline for farms **with greater than** 10.0 base acres.

With the extension of the 2008 DCP enrollment deadline for farms with 10.0 base acres or less to Nov. 26, 2008, late filed crop acreage report requirement and fees will be waived on farms with 10.0 base acres or less if filed **by COB, December 1, 2008**. This **does not waive** late filed crop acreage report requirements or fees for farms **with greater than** 10.0 base acres.

Visit your local FSA office, if you are interested in signing-up.

Voting for County Committee Begins

Ballots for this year's county committee election were mailed to eligible voters on November 3, 2008. Voters must complete their ballots and return them to the Farm Service Agency county office by the close of business on December 1, 2008. If mailed, ballots must be postmarked by midnight December 1st.

The candidate in this year's election is: Burrel Nelson Harris. Mr. Harris is nominated in LAA 2, Adair County, to serve as their committee member. Harris resides North of Kirksville and produces cattle, corn, and soybeans. Eligible voters in the local administrative area 2 who have not received a ballot should contact the FSA county office staff.

Voter Requirements Persons meeting requirements in **1 or 2, plus 3**, below, are eligible to vote:
1. Be of legal voting age and have an interest in a farm or ranch as either of the following: an owner, operator, tenant or sharecropper, *or* a partner in a general partnership or member of a joint venture that has an interest in a farm as an

- owner, operator, tenant or sharecropper; or
- 2.** Not of legal voting age, but supervises and conducts the farming operations on an entire farm; *and*
- 3.** Eligible to participate in any FSA program that is provided by law, regardless of the status of funding.

Discrimination Prohibited No person shall be denied the right to vote because of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation or marital or family status.

Marketing Assistance Loans

Marketing Assistance loans are available for producers who share in the risk of producing the crop. To be eligible, you must maintain beneficial interest in the crop. Beneficial interest means retaining the ability to make decisions about the commodity; and retain title to the commodity. Once beneficial interest in a commodity is lost, the commodity is ineligible for loan — even if you regain beneficial interest.

Commodity loan eligibility also requires you comply with conservation and wetland protection requirements; beneficial interest requirements, report how you use cropland acreage on the farm and ensure that the commodity meets CCC minimum grade and quality standards. For commodities to be eligible they must have been produced by an eligible producer, be in existence and in a storable condition and be merchantable for food, feed or other uses as determined by CCC. Producers do not have to participate in the Direct and Counter-Cyclical Program to be eligible for commodity loans. The quality of the commodity in farm storage must be maintained throughout the term of the loan.

Violating provisions of a marketing assistance loan may result in administrative actions, such as assessing liquidated damages, calling the loan and denial of future farm-stored loans. The most common violations are removing or disposing of a commodity being used as loan collateral without prior authorization and providing an incorrect quantity certification.

Removing CCC Loan Collateral

Producers are reminded, if you have grain under Commodity Credit Corporation loan it cannot be removed or disposed of without prior county office staff authorization or repayment. The county office staff may issue release authorizations based on a telephone or in person request when you are ready to move the grain. A loan violation is subject to monetary and administrative penalties, such as repaying the loan at principal plus interest, liquidated damages, calling the loan and denial of future farm-stored loans and loan deficiency payments. All commodity loans are subject to spot check. Locking in a market loan repayment rate is not a marketing authorization. If you are planning to move CCC loan grain, call the county office staff, before you HAUL!

Farm Loan Year End Reviews

Producers who have a farm loan with FSA are reminded they must provide data for their Year-End Analysis (YEA) to their loan officer each year. Borrowers are urged to provide this information timely so that their files can be maintained. The office will contact you for the data you will need to provide us.

Operating Loan Applications Needed Now

Farmers who plan to apply to the Farm Service Agency for annual operating loan assistance next year are encouraged to apply as soon as possible. The earlier an application for loan assistance is filed, the quicker the FSA staff can process your request. In addition, due to budget constraints, farmers who wait until later in the year to apply, often run the risk of finding out that our funding allocations have been utilized already. Farmers should also contact their local FSA office to setup an appointment with a Farm Loan Official for information as to what is required in order to have a complete loan application on file. Decisions on loans can not be made until a complete application is received.

Changing Banks

Almost all Farm Service Agency payments are made electronically using Direct Deposit. This innovation has cut down on the number of missing and late payments and reduced the time required to move funds. It has been calculated that having a problem with a payment is 20 times greater with checks than with Direct Deposit. Another benefit is that Direct Deposit to your account can be made within 48 hours.

To keep the system running smoothly, it's critical to keep the county office staff up to date on changes you might make in

your financial institutions.

If you have changed accounts or institutions that might affect the direct deposit of your FSA payments, contact the FSA county office so we can update our files to insure continued uninterrupted service.

Check writing by county offices will cease later this year. Producers requiring checks will incur additional delays in payments due to this office ordering their payments from the National Finance Center. This could take an additional two plus weeks.

Continuous CRP

The Continuous Conservation Reserve Program is a private lands environmental improvement program that allows participants the opportunity to enroll acres in conservation practices that will reduce soil erosion, improve water and soil quality and provide wildlife habitat and food sources.

The Continuous CRP program is a voluntary enrollment program. Eligible landowners enter into contracts that range from 10 to 15 years in length. In return, the landowners will receive annual rental and maintenance payments, incentive payments for certain activities, and cost share for establishment.

To be eligible for enrollment in the Continuous CRP, participants and acreage must meet certain requirements. Provided the eligibility requirements are met, FSA will automatically accept enrollments of acreage into Continuous CRP. Landowners may enroll in the program at any time during the year. Continuous CRP practices include; grassed waterways, filter strips, quail buffers and wetland restorations.

For more information on Continuous CRP enrollments or local Conservation Reserve Enhancement Program (CREP) availability, please contact your local FSA office.

Reasonable Accommodations

Reasonable accommodations will be made, upon request, for individuals with disabilities, vision impairment, or hearing impairment to attend or participate in meetings or events sponsored by the Farm Service Agency. If you require special accommodations to attend or participate in one of our events, please call the FSA county office and we will be happy to make any needed arrangements.

Online Services

Producers, if you have Internet access you can electronically log on, fill out and print a variety of FSA paper forms in the comfort of your home as your schedule allows. You can also register for secure electronic access that will allow you to electronically sign and transmit some forms directly to the county office staff. If you are new to the website, first you will want to obtain a Level 2 USDA Service Center Customer ID and password at: <http://www.eauth.egov.usda.gov/> and then click on "Create an Account Page" link.

USDA eAuthentication is the system used by USDA agencies to enable customers to obtain accounts that will allow them to access USDA Web applications and services via the Internet. This includes things such as submitting forms electronically, completing surveys online, and checking the status of your USDA accounts.

If you already have a Customer ID and password, then click on the following eForms website at: <http://forms.sc.egov.usda.gov/eforms/mainservlet> and then click on the "Sign In" button. A disclaimer window will open and after you read the "Warning message" click on the "Continue" button.

Then the USDA Web services page will open to the eAuthentication login page. Enter your login User ID and password and then click on the "Login" button. To sign and transmit forms electronically, you must have a Level 2 eAuth ID.

Submitting an e-Form is convenient. You can access information anytime day or night seven days a week. It's faster and forms and applications can be submitted and received in the county office in a matter of minutes, not days or weeks.

NAP Coverage Closing Date is Dec. 1

Since the Food, Conservation and Energy Act of 2008 was announced so late defining the 2009 risk management NAP Coverage requirement for the Supplemental Disaster Programs, the National Farm Service Agency (FSA) office has extended the Non-Insured Crop Disaster Assistance Program (NAP) coverage purchase date for 2009 only. As a result, the State Committee established NAP application closing dates that fall before December 1, 2008 have been extended to December 1, 2008, for the 2009 application crop year.

Please note that extending the 2009 NAP application deadlines to December 1, 2008, does not modify the definition of coverage period. NAP coverage will not begin until the later of the following dates:

- 30 calendar days after the date CCC-471 is filed; and
- The date the crop is planted not to exceed the final planting date.

NAP was designed to reduce financial losses that occur when natural disasters cause a catastrophic loss of production or prevented planting of an eligible crop by providing coverage equivalent to catastrophic (CAT) insurance. Statute limits NAP to each commercial crop or agricultural commodity, except livestock, produced for food or fiber, for which CAT

is not available.

The application deadline date for the 2009 NAP coverage for wheat, apples, barley, canola, honey, grapes, peaches, greens, ornamental nursery crops, Christmas trees, aquaculture, ginseng root, turf grass sod, mushrooms and floriculture in Missouri is **December 1, 2008**. For 2009-2012, the NAP Service Fees have increased from: \$100 to \$250 per crop; \$300 to \$750 per county; \$900 to \$1,875 per producer for all counties.

Producers who already have coverage on 2008 NAP crops may choose to continue coverage on the same crop or crops for 2009, if the applicable service fee is submitted by the application closing date. A new CCC-471, application for coverage is not required to be signed when applying for continuous coverage of the same crop or crops.

Producers who choose to add a new crop(s) or delete a crop(s) from previous year's coverage or changing crop shares must file a new CCC-471 with signatures and pay the applicable service fee.

For more information on NAP coverage, please contact your local FSA office.

Selected Interest Rates for November 2008	
90-Day Treasury Bill	1.375%
Farm Operating Loans — Direct	3.375%
Farm Ownership Loans — Direct	4.875%
Farm Ownership Loans — Beginning Farmer Down Payment	1.500%
Emergency Loans	3.750%
Farm Storage Facility Loans	3.250%
Sugar Storage Facility Loans	4.375%
Commodity Loans 1996-Present	2.500%

Adair County SWCD News

The Adair County Soil & Water Conservation District is in the process of writing a needs assessment as it pertains to cost-share dollars for conservation practices. This needs assessment will be submitted to the State Soil and Water Conservation Districts Commission to assist in determining our district's cost-share dollar allotment for next year. We will be holding a meeting to get your input on what is needed in Adair County.

Please plan to join us:

Thursday, November 20th from 7:00—9:00 p.m.

Adair County Annex Building at the corner of Missouri and Franklin

For more information call us at 660-665-3274 Ext. 3 or visit us at
