

Conservation Reserve Program (CRP) Continuous Sign-Up

Overview

USDA Farm Service Agency's (FSA) Conservation Reserve Program (CRP) is a voluntary program that helps agricultural producers use environmentally sensitive land for conservation benefits. CRP participants plant long-term, resource-conserving covers to improve the quality of water and air, control soil erosion and enhance wildlife habitat. In return, FSA provides participants with rental payments and cost-share assistance.

FSA administers CRP while other USDA agencies and partners provide technical support. More detailed information on CRP is available in the FSA fact sheet "Conservation Reserve Program."

CRP Continuous Sign-Up

Environmentally sensitive land devoted to certain conservation practices may be enrolled in CRP at any time under continuous sign-up. Offers are automatically accepted provided the land and producer meet certain eligibility requirements. Offers for continuous sign-up are not subject to competitive bidding. Continuous sign-up contracts are 10 to 15 years in duration.

To offer land for continuous sign-up, producers should contact their local FSA office. To find your local office, visit FSA's website at: <http://offices.sc.egov.usda.gov/locator/app>

Contract Effective Date

For continuous sign-up, the effective date of the CRP contract is the first day of the month following the month of approval. In certain circumstances, producers may defer the effective date for up to six months.

If the acreage is currently under CRP contract and is within one year of the scheduled expiration date, the effective date is Oct. 1 following the expiration date.

Eligible Producers

To be eligible for CRP continuous sign-up enrollment, a producer must have owned or operated the land for at least 12 months prior to submitting the offer, unless:

- The new owner acquired the land due to the previous owner's death;
- The ownership change occurred due to foreclosure where the owner exercised a timely right of redemption in accordance with state law; or
- The circumstances of the acquisition present adequate assurance to FSA that the new owner did not acquire the land for the purpose of placing it in CRP.

Eligible Land

To be eligible for placement in CRP, land must be cropland that is planted or considered planted to an agricultural commodity four of the previous six crop years from 2002 to 2007, and is physically and legally capable of being planted (no planting restrictions due to an easement or other legally binding

instrument) in a normal manner to an agricultural commodity.

Eligible Practices

The land must be eligible and suitable for any of the following conservation practices:

- Riparian buffers;
- Wildlife habitat buffers;
- Wetland buffers;
- Filter strips;
- Wetland restoration;
- Grass waterways;
- Shelterbelts;
- Living snow fences;
- Contour grass strips;
- Constructed Wetlands;
- Restoration of Aquaculture Wetlands;
- Wildlife Habitat Restoration within approved State Areas for wildlife Enhancement Projects;
- Salt tolerant vegetation; and
- Shallow water areas for wildlife.

Land within an Environmental Protection Agency (EPA) designated public wellhead area also may be eligible for enrollment on a continuous basis.

CRP Continuous Sign-Up Payments

FSA provides CRP continuous sign-up participants with annual rental payments, including certain incentives and cost-share assistance:

- Rental Payments

In return for establishing long-term, resource-conserving covers,

FACT SHEET

CRP Continuous Sign-up

July 2010

FSA provides annual rental payments to participants. FSA bases rental rates on the relative productivity of the soils within each county and the average dryland cash rent (using data provided by National Agricultural Statistical Service) or cash rent equivalent as guidelines. The maximum CRP rental rate for each offer is calculated in advance of enrollment.

The per-acre annual rental rate may not exceed the calculated rate determined in advance of enrollment. While continuous sign-up acceptance is not determined by a competitive offer process, producers may elect to receive an amount less than the maximum payment rate.

- Cost-Share Assistance
 - An upfront signing incentive payment (CRP-SIP) up to \$100 per acre for eligible participants who enroll certain practices. The one-time SIP will be made after the contract is approved and all payment eligibility criteria are met; and
 - A practice incentive payment (PIP) equal to 40 percent of the eligible installation costs for eligible participants who enroll certain practices. The one-time PIP will be issued after the practice is installed, eligible costs are verified and other payment eligibility criteria are met.

For More Information

For more information on CRP continuous sign-up, contact your local FSA office or visit FSA's website at: <http://www.fsa.usda.gov/crp>
