October 2009

Emergency Livestock Assistance Program (ELAP)

ELAP provides compensation to eligible producers of livestock, honey bees, and farm-raised fish for losses due to disease, adverse weather, or other loss conditions, including losses due to blizzards and wildfires. ELAP is for losses that are not covered by Livestock Indemnity Program (LIP), Livestock Forage Disaster Program (LFP), or Supplemental Revenue Assistance Program (SURE).

Eligible producers under ELAP may receive assistance for losses that occur on or after January 1, 2008, and before October 1, 2011, during the calendar year in which the loss occurs. Eligible losses include feed losses, physical losses and additional costs incurred in providing feed to eligible livestock.

In order for an ELAP applicant to qualify for program benefits, the applicant must have purchased insurance through FSA's Noninsured Crop Disaster Assistance Program (NAP) or the Pasture, Rangeland and Forage Insurance (PRF-RI) program offered through the Risk Management Agency (RMA).

There are two parts to the ELAP application process:

1. A notice of loss
2. Application for payment

An application for payment cannot be filed without a notice of loss.

Signup, for producers with eligible losses during 2008 and 2009, began September 14, 2009. Producers who suffered losses in calendar year 2008 must provide a notice of loss and application for payment in their administrative county office no later than December 10, 2009. An application for payment shall be filed no later than January 30, 2010.

Producers who suffer losses September 14, 2009, through December 31, 2009, shall file a notice of loss within 30 days of when the loss is apparent to the participant, but no later than January 30, 2010.

There are no late filed provisions for ELAP. Producers with eligible losses must timely file an acreage report on grazing land acres, honey bee colonies and farm-raised fish pond acres.

Eligible physical losses of honey bees and honey bee hives, lost due to adverse weather or loss conditions are eligible under ELAP. Producers will be required to provide documentation of beginning and ending inventory of honey bee colonies when claiming a physical loss of honey bees or honey bee hives. Physical losses are compensated at 60 percent of the actual replacement cost of honey bees or honey bee hives.

Contact your County FSA Office for additional information on the ELAP program.
