USDA Farm Service Agency County Committee Elections Began Nov. 3

USDA encourages farmers and ranchers to make their voices heard by voting in the upcoming Farm Service Agency (FSA) County Committee elections. Beginning Nov. 3, 2014, USDA mailed ballots for the 2014 elections to eligible producers across the country. Producers must return ballots to their local FSA offices by the Dec. 1, 2014, deadline to ensure that their vote is counted.

FSA County Committee members provide an important link between the local agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity support programs; conservation programs; indemnity and disaster programs; emergency programs and eligibility. County committees operate within official regulations designed to carry out federal laws.

To be an eligible voter, farmers and ranchers must participate or cooperate in an FSA program. A person who is not of legal voting age, but supervises and conducts the farming operations of an entire farm may also be eligible to vote.

Eligible voters who do not receive ballots in the coming week may pick one up at their local USDA Service Center or FSA office. The deadline to submit ballots is Dec. 1, 2014. Ballots returned by mail must be postmarked no later than Dec. 1, 2014. Newly elected committee members and their alternates will take office Jan. 1, 2015.

More information on county committees, such as the new 2014 fact sheet and brochures, can be found on the FSA website at www.fsa.usda.gov/elections. You may also contact your local USDA Service Center or FSA office. Visit <http://go.usa.gov/pYV3> to find an FSA office near you.

Coverage Selection for New 2014 Farm Bill Safety Net Programs Began Nov. 17

Producers have Until March 31, 2015, to Choose the Program Best for their Operation

Farm owners and producers are reminded that the opportunity to choose between the new 2014 Farm Bill established programs, Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC), began Nov. 17, 2014, and continues through March 31, 2015. The new programs, designed to help producers better manage risk, usher in one of the most significant reforms to U.S. farm programs in decades.

USDA helped create online tools to assist in the decision process, allowing farm owners and producers to enter information about their operation and see projections that show what ARC and/or PLC will mean for them under possible future scenarios. Farm owners and producers can access the online resources, available at www.fsa.usda.gov/arc-plc, from the convenience of their home computer or mobile device at any time.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

Dates associated with ARC and PLC that farm owners and producers need to know:

- Now through Feb. 27, 2015: Farm owners may visit their local Farm Service Agency office to update yield history and/or reallocate base acres.
- Nov. 17, 2014 to March 31, 2015: Producers make a one-time election between ARC and PLC for the 2014 through 2018 crop years.
- Mid-April 2015 through summer 2015: Producers sign contracts for 2014 and 2015 crop years.
- October 2015: Payments issued for 2014 crop year, if needed.

To learn more about which safety net options are most appropriate for specific farming operations, farmers can use new Web tools at www.fsa.usda.gov/arc-plc, which can be accessed from the convenience of a home computer or a mobile device at any time. To learn more about upcoming educational meetings, farmers can contact their local Farm Service Agency county office at <http://offices.sc.egov.usda.gov/locator/app>.

USDA Extends Dairy Margin Protection Program Deadlines

Enrollment Continues Through Dec. 5; Comments Accepted Until Dec. 15

USDA is extending the deadlines for the dairy Margin Protection Program. Farmers now have until Dec. 5, 2014, to enroll in the voluntary program for 2014 and 2015 coverage, established by the 2014 Farm Bill. Enrollment period for 2016 begins July 1 and continues through Sept. 30, 2015. The program provides financial assistance to participating farmers

when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the farmer.

Producers are encouraged to use the online Web resource at www.fsa.usda.gov/mpptool to calculate the best levels of coverage for their dairy operation. The secure website can be accessed via computer, smartphone or tablet.

The U.S. Department of Agriculture (USDA) also extended the opportunity for public comments on both the Margin Protection Program and the Dairy Product Donation Program until Dec. 15, 2014.

Comments can be submitted to USDA via the regulations.gov website at <http://go.usa.gov/GJSA>.

Producers Invited to Attend County Farm Bill Meetings

The Kentucky Farm Service Agency and the Kentucky Cooperative Extension Service are hosting Farm Bill meetings throughout the Commonwealth. The meetings are free and open to the public. To view a list of counties hosting the meetings click www.fsa.usda.gov/KY/state_events.

Meeting attendees will learn about Farm Service Agency (FSA) Farm Bill programs including ARC/PLC, Conservation Compliance, and the online decision-making tools that are available to help make important enrollment decisions regarding the Agricultural Risk Coverage (ARC) and Price Loss Coverage (PLC) programs.

Learning more about ARC and PLC is extremely important for producers who must make a one-time decision about base and yield updates as well as ARC or PLC election and enrollment decisions. An FSA representative will be in attendance to answer any questions on ARC and PLC policy and procedure.

For more information about the meetings, please contact Marcinda Kester at 859-224-7637.

Persons with disabilities who require accommodations to attend or participate in this meeting/event/function should contact Marcinda Kester at 859-224-7637 or Federal Relay Service at 1-800-877-8339.

USDA Releases New State-by-State "Made in Rural America" Report

As part of the US Department of Agriculture's (USDA) commitment to strengthening rural economies, Secretary Tom Vilsack announced a new state-by-state "Made in Rural America" report illustrating the impact of USDA investments in rural communities. Each state factsheet highlights specific USDA investments in rural businesses, manufacturing, energy, water and other infrastructure development. They also outline how USDA is helping rural communities attract businesses and families by investing in housing and broadband.

These fact sheets reflect Secretary Vilsack's efforts to strengthen the "four pillars" of a new economy in rural America: developing a robust bio-based economy; promoting exports and production agriculture fueled by increased productivity and research; encouraging conservation including land management, stewardship and outdoor recreational opportunities; and building a strong local and regional food system to harness entrepreneurial innovation and help small and medium-sized family farms succeed in rural America.

The report's state by state fact sheets are available at www.usda.gov/opportunities.

USDA Expands Access to Credit to Help More Beginning and Family Farmers

The U.S. Department of Agriculture (USDA) announced improvements to farm loan programs by expanding eligibility and increasing lending limits to help more beginning and family farmers. As part of this effort, USDA is raising the borrowing limit for the microloan program from \$35,000 to \$50,000; simplify the lending processes; updating required "farming experience" to include other valuable experiences; and expanding eligible business entities to reflect changes in the way family farms are owned and operated. The changes become effective Nov. 7.

The microloan changes will allow beginning, small and mid-sized farmers to access an additional \$15,000 in loans using a simplified application process with up to seven years to repay. Microloans are part of USDA's continued commitment to [small and midsized farming operations](#).

In addition to farm related experience, other types of skills may be considered to meet the direct farming experience required for farm loan eligibility such as

operation or management of a non-farm business, leadership positions while serving in the military, or advanced education in an agricultural field. Also, individuals who own farmland under a different legal entity operating the farm now may be eligible for loans administered by USDA's Farm Service Agency (FSA). Producers will have an opportunity to share suggestions on the microloan process, and the definitions of farming experience and business structures through Dec. 8, 2014, the public open comment period.

FSA is also publishing a Federal Register notice to solicit ideas from the public for pilot projects to help increase the efficiency and effectiveness of farm loan programs. Comments and ideas regarding potential pilot projects will be accepted through Nov. 7, 2014.

For more information on farm loans, please visit www.fsa.usda.gov or contact your local Farm Service Agency office.

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.
