\$164,459,314 - Direct and Counter Cyclical Program (DCP) Direct payments provide income support to producers of eligible commodities based on production history (acreage and yields) and do not depend on the current production choices. \$11,163,911 - Average Crop Revenue Election Program (ACRE) provides revenue-based payments as an alternative to receiving price-based counter-cyclical (CC) payments.

\$5,176,579 - Farm Storage Facility Loans (FSFL) The Commodity Credit Corporation (CCC), through FSA, may make loans to producers to build or upgrade farm storage and handling facilities for eligible commodities.

\$62,663,282 - Commodity Loans are available to eligible producers who use crops as collateral. The Commodity Credit Corporation (CCC) makes loans for eligible commodities that are farm or warehouse stored.

\$90,789 - Dairy Indemnity Payment Program (DIPP) provides payments to dairy producers and manufacturers of dairy products when they are directed to remove their raw milk or products from the market because of contamination.
