June 15 and July 15, 2015 Acreage Reporting Deadlines

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local County FSA Office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Colorado:

- **June 15, 2015:** onions
- **July 15, 2015:** spring seeded crops and for CRP

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local County FSA office, [click here](#)

Producers Must Report Prevented Planting and Failed Acres

USDA Farm Service Agency (FSA) reminds producers to report prevented planting and failed acres in order to establish or retain FSA program eligibility.

Producers must report crop acreage they intended to plant, but due to natural disaster, were prevented from planting. Prevented planting acreage must be reported on form FSA-576, Notice of Loss, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

The final planting date for spring planted crops in Colorado varies depending on the crop and the county. The final planting dates can be found on the RMA website at: http://www.rma.usda.gov/fields/ks_rso/2015/final/.

If a producer is unable to report the prevented planting acreage within the 15 calendar days following the final planting date, a late-filed report can be submitted. Late-filed reports will only be accepted if FSA conducts a farm visit to assess the eligible disaster condition that prevented the crop from being planted. A measurement service fee will be charged.

Additionally, producers with failed acres should also use form FSA-576, Notice of Loss, to report failed acres.

For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, producers must file a Notice of Loss within 15 days of the occurrence of the disaster or when losses become apparent. Producers must timely file a Notice of Loss for failed acres on all crops including grasses.

Please contact your local County FSA Office to schedule an appointment to file a Notice of Loss. To find your local FSA office visit <http://offices.usda.gov>.

Farm Service Agency County Committee Nomination Period Begins June 15

The U.S. Department of Agriculture announced that the nomination period for local Farm Service Agency (FSA) County Committees begins on June 15, 2015.

It is important for County Committees to reflect America's diversity. All eligible farmers and ranchers, including beginning farmers are encouraged to get involved in this year's elections. FSA has seen an increase in the number of nominations for qualified candidates, especially among women and minorities – a trend the Agency would like to see continue.

To be eligible to serve on a FSA County Committee, a person must participate or cooperate in an agency administered program, be eligible to vote in a County Committee Election and reside in the local administrative area where they are nominated.

Farmers and Ranchers may nominate themselves or others. Organizations representing minorities and women also may nominate candidates. To become a candidate, an eligible individual must sign an FSA-669A nomination form. The form and other information about FSA County Committee elections are available at www.fsa.usda.gov/elections. **Nomination forms for the 2015 election must be postmarked or received in the local USDA Service Center by close of business on Aug. 3, 2015.**

FSA will mail election ballots to eligible voters beginning Nov. 9, 2015. Ballots will be due back to the local county office either via mail or in person by Dec. 7, 2015. Newly elected committee members and alternates will take office on Jan. 1, 2016.

While FSA County Committees do not approve or deny farm ownership or operating loans, they make decisions on disaster and conservation programs, emergency programs, commodity price support loan programs and other agricultural issues. Members serve three-year terms. Nationwide, there are about 7,800 farmers and ranchers serving on FSA County Committees. Committees consist of three to 11 members that are elected by eligible producers.

Secretary Vilsack Announces Additional 800,000 Acres Dedicated to Conservation Reserve Program for Wildlife Habitat and Wetlands

Secretary Hails Program's 30th Anniversary, Announces General Signup Period

Agriculture Secretary Tom Vilsack announced that an additional 800,000 acres of highly environmentally sensitive land may be enrolled in Conservation Reserve Program (CRP) under certain wetland and wildlife initiatives that provide multiple benefits on the same land.

The U.S. Department of Agriculture (USDA) will accept new offers to participate in CRP under a general signup to be held Dec. 1, 2015, through Feb. 26, 2016. Eligible existing program participants with contracts expiring Sept. 30, 2015, will be granted an option

for one-year extensions. Farmers and ranchers interested in removing sensitive land from agricultural production and planting grasses or trees to reduce soil erosion, improve water quality and restore wildlife habitat are encouraged to enroll.

For 30 years, the Conservation Reserve Program (CRP) has helped farmers and ranchers prevent more than 8 billion tons of soil from eroding, reduce nitrogen and phosphorous runoff relative to cropland by 95 and 85 percent respectively, and even sequester 43 million tons of greenhouse gases annually, equal to taking 8 million cars off the road.

The voluntary Conservation Reserve Program allows USDA to contract with agricultural producers so that environmentally sensitive land is conserved. Participants establish long-term, resource-conserving plant species to control soil erosion, improve water quality and develop wildlife habitat. In return, USDA's Farm Service Agency (FSA) provides participants with rental payments and cost-share assistance. Contract duration is between 10 and 15 years.

CRP protects water quality and restores significant habitat for ducks, pheasants, turkey, quail, deer and other important wildlife which spurs economic development like hunting and fishing, outdoor recreation and tourism across rural America. Today's announcement allows an additional 800,000 acres for duck nesting habitat and other wetland and wildlife habitat initiatives to be enrolled in the program.

Farmers and ranchers should consider the various CRP continuous sign-up initiatives that may help target specific resource concerns. Financial assistance is offered for many practices including conservation buffers and pollinator habitat plantings, and initiatives such as the highly erodible lands, bottomland hardwood tree and longleaf pine.

Farmers and ranchers may visit their FSA County Office for additional information. The 2014 Farm Bill authorized the enrollment of grasslands in CRP and information on grasslands enrollment will be available after the regulation is published later this summer.

For more information on CRP and other FSA programs, please visit www.fsa.usda.gov.

USDA Packages Disaster Protection with Loans to Benefit Specialty Crop and Diversified Producers

Free basic coverage and discounted premiums available for new and underserved loan applicants

U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) announced that producers who apply for FSA farm loans also will be offered the opportunity to enroll in new disaster loss protections created by the 2014 Farm Bill. The new coverage, available from the Noninsured Crop Disaster Assistance Program (NAP), is available to FSA loan applicants who grow non-insurable crops, so this is especially important to fruit and vegetable producers and other specialty crop growers.

New, underserved and limited income specialty growers who apply for farm loans could qualify for basic loss coverage at no cost, or higher coverage for a discounted premium.

The basic disaster coverage protects at 55 percent of the market price for crop losses that exceed 50 percent of production. Covered crops include "specialty" crops, for instance, vegetables, fruits, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, hay, forage, grazing and energy crops. FSA allows beginning, underserved or limited income producers to obtain NAP coverage up to 90 days after the normal application closing date when they also apply for FSA credit.

In addition to free basic coverage, beginning, underserved or limited income producers are eligible for a 50 percent discount on premiums for the higher levels of coverage that protect up to 65 percent of expected production at 100 percent of the average market price. Producers also may work with FSA to protect value-added production, such as organic or direct market crops, at their fair market value in those markets. Targeted underserved groups eligible for free or discounted coverage are American Indians or Alaskan Natives, Asians, Blacks or African Americans, Native Hawaiians or other Pacific Islanders, Hispanics, and women.

FSA offers a variety of loan products, including farm ownership loans, operating loans and microloans that have a streamlined application process.

Growers need not apply for an FSA loan, nor be a beginning, limited resource, or underserved farmer, to be eligible for Noninsured Crop Disaster Assistance Program (NAP) assistance. To learn more, visit www.fsa.usda.gov/nap or www.fsa.usda.gov/farmloans, or contact your local FSA office at <https://offices.usda.gov>.

USDA Offers Flood Impacted Colorado Farmers and Ranchers Immediate Disaster Assistance

Farm Service Agency Stands Ready to Assist Agricultural Producers Slammed by Recent Heavy Rains

Colorado Farm Service Agency (FSA) reminds farmers and ranchers across the state of federal farm program benefits that may be available to help eligible producers recover from recent heavy rains and flooding.

FSA offers disaster assistance and low-interest loan programs to assist agricultural producers in their recovery efforts following floods or similar qualifying natural disasters. Available programs and loans include:

- **Non-Insured Crop Disaster Assistance Program (NAP)** - provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters (includes native grass for grazing). Eligible producers must have purchased NAP coverage for 2015 crops.
- **Livestock Indemnity Program (LIP)** - offers payments to eligible producers for livestock death losses in excess of normal mortality due to adverse weather. Eligible losses may include those determined by FSA to have been caused by hurricanes, floods, blizzards, wildfires, tropical storms, tornados, lightning, extreme heat, and extreme cold. Producers will be required to provide verifiable documentation of death losses resulting from an eligible adverse weather event and must submit a notice of loss to their local FSA office within 30 calendar days of when the loss of livestock is apparent.
- **Tree Assistance Program (TAP)** – provides assistance to eligible orchardists and nursery tree growers for qualifying tree, shrub and vine losses due to natural disaster.
- **Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP)** - provides emergency relief for losses due to feed or water shortages, disease, adverse weather, or other conditions, which are not adequately addressed by other disaster programs. ELAP covers physically damaged or destroyed livestock feed that was purchased or mechanically harvested forage or feedstuffs intended for use as feed for the **producer's** eligible livestock. In order to be considered eligible, harvested forage must be baled; forage that is only cut, raked or windrowed is not eligible. Producers must submit a notice of loss to their local FSA office within 30 calendar days of when the loss is apparent.

ELAP also covers up to 150 lost grazing days in instances when a producer has been forced to remove livestock from a grazing pasture due to floodwaters.

For beekeepers, ELAP covers beehive losses (the physical structure) in instances where the hive has been destroyed by a natural disaster including flooding, high winds and tornadoes.

- **Farm Loans** - Available to producers with agricultural operations who are unable to obtain other financing and are in need of low interest loan assistance to recover from the disaster. Producers who can obtain other financing from a commercial lender may also qualify to have the loan guaranteed by the FSA.
- **Emergency Conservation Program (ECP)** - provides emergency funding for farmers and ranchers to rehabilitate land severely damaged by natural disasters; includes fence loss.
- **HayNet** - is an Internet-based Hay and Grazing Net Ad Service allowing farmers and ranchers to share 'Need Hay' ads and 'Have Hay' ads online. Farmers also can use another feature to post advertisements for grazing land, specifically ads announcing the availability of grazing land or ads requesting a need for land to graze at www.fsa.usda.gov/haynet.

To establish or retain FSA program eligibility, farmers and ranchers must report prevented planting and failed acres (crops and grasses). Prevented planting acreage must be reported on form FSA-576, Notice of Loss, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

For more information on disaster assistance programs and loans visit www.fsa.usda.gov/ or contact your local FSA Office. To find your local FSA county office, visit <http://offices.usda.gov>.

Save Time – Make an Appointment with FSA

To ensure maximum use of your time and to ensure that you are afforded our full attention to your important business needs, please call our office ahead of your visit to set an appointment and to discuss any records or documentation that you may need to have with you when you arrive for your appointment. For local FSA Service Center contact information, please visit:

<http://offices.sc.egov.usda.gov/locator/app>.

Direct Loans

FSA offers direct farm ownership and direct farm operating loans to producers who want to establish, maintain or strengthen their farm or ranch. FSA loan officers process, approve and service direct loans.

Direct farm operating loans can be used to purchase livestock and feed, farm equipment, fuel, farm chemicals, insurance and other costs including family living expenses. Operating loans can also be used to finance minor improvements or repairs to buildings and to refinance some farm-related debts, excluding real estate.

Direct farm ownership loans can be used to purchase farmland, enlarge an existing farm, construct and repair buildings, and to make farm improvements.

The maximum loan amount for both direct farm ownership and operating loans is \$300,000 and a down payment is not required. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your local FSA office for more information or to apply for a direct farm ownership or operating loan.

Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or to purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are Women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

Farm Service Agency (FSA) and Risk Management Agency (RMA) to Prevent Fraud, Waste, and Abuse

FSA supports the RMA in the prevention of fraud, waste and abuse of the Federal Crop Insurance Program. FSA has been, and will continue to, assist RMA and insurance providers by monitoring crop conditions throughout the growing season. FSA will continue to refer all suspected cases of fraud, waste and abuse directly to RMA. Producers can report suspected cases to the county office staff, the RMA office, or the Office of the Inspector General.

ASKFSA

Are you looking for answers to your FSA questions? Then ask FSA at askfsa.custhelp.com.

AskFSA is an online resource that helps you easily find information and answers to your FSA questions no matter where you are or what device you use. It is for ALL customers, including underserved farmers and ranchers who wish to be enrolled in FSA loans, farm, and conservation programs.

Through ASKFSA you can:

- Access our knowledge base 24/7
 - Receive answers to your questions faster
 - Submit a question and receive a timely response from an FSA expert
 - Get notifications when answers important to you and your farming operation are updated
 - Customize your account settings and view responses at any time
-

USDA Farm Service Agency (FSA) Online Hay and Grazing Acres Locator Tool

FSA's **Hay Net** website www.fsa.usda.gov/haynet is the "go to" online resource for agricultural producers to list information concerning the need for hay and grazing acres or the availability of hay and grazing acres.

If, due to extenuating circumstances, producers are in need of hay and/or grazing acres to support livestock, please use **Hay Net** to post an advertisement seeking these resources. Likewise, landowners who have hay and/or grazing acres available for livestock producers should post a Hay Net advertisement as well.

A few things to remember when using the **Hay Net** website:

- There is a one-time registration process that should be completed by all users who want to post an ad online.
- Users who just want to browse ads DO NOT NEED to have an eAuthentication user id.
- Hay and grazing acre ads will be automatically removed after a period of 13 months.
- Please help your fellow farmer and rancher by keeping ads current and up to date and remove ads you no longer need or want advertised on **Hay Net**. Please, no corporate advertisements on this site.

Hay Net is brought to you by FSA as a public service. The sole purpose of this online resource is to provide a site for the exchange of information. FSA does not endorse, guarantee, or otherwise make representations of any kind regarding any user of this site and FSA is not responsible for defining the terms of grazing agreements or lease contracts.

For more information about **Hay Net** and other FSA services and programs, please contact your local FSA office.

Important FSA Dates to Remember

- **June 15:** Nomination Period Begins for County Committee Elections. Request Nomination forms from FSA at the local USDA Service Center or obtain online at <http://www.fsa.usda.gov/elections>.
- **July 1 to Sept. 30:** Registration/Coverage Election Period for 2016 Margin Protection Program - Dairy (MPP-Dairy)
- **July 15:** Final 2014 Noninsured Crop Disaster Assistance Program (NAP) Production Reports are due
- **July 15:** 2015 Acreage Reporting Deadline for Spring Seeded Alfalfa Seed, Forage Seeding, Conservation Reserve Program (CRP), Fruit (except Cherries), Vegetables, Christmas Trees, and all Spring-Seeded Crops and any other crops not required to be reported by previously announced deadlines.
- **July 15:** End of Primary and Brood Rearing Nesting Season
- **July 16:** CRP Summer/Fall Managed Haying and Grazing begins (with County Committee Approval of Request)
- **August 1:** Deadline to Request a Reconstitution or Farm Transfer for 2015
- **August 3:** Deadline to Submit County Committee Election Nomination Form (FSA-669A) to FSA (or postmarked) at the local USDA Service Center
- **September 1:** 2016 NAP Application Closing Date for Asparagus, Canola, Caneberries, Garlic, Rye, Speltz, Triticale, Value-Loss Crops, Aquaculture, Turf Grass, Flowers, and Christmas Trees.
- **September 30:** 2016 NAP Application Closing Date for Barley and Wheat
- **September 30:** Last day of the Registration/Coverage Election Period for 2016 MPP-Dairy Program

Reasonable Accommodations:

People with disabilities who require accommodations to participate in FSA programs should contact the County Executive Director in the FSA Office in your area or Federal Service at 1-800-877-8339. Alternatively, you may also contact Colorado FSA Civil Rights Coordinator Patti Finke at (720) 544-2889 or patti.finke@co.usda.gov

USDA is an equal opportunity provider and employer. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
