Overriding Generic Shares for 2014 and 2015 Contracts With Alternative Enrollment Option

Approved by: Acting Deputy Administrator, Farm Programs

1 Overview

A Background

1-ARCPLC, paragraph 267 provides procedure for the Alternative Enrollment option for 2014 and 2015 contracts with generic base acres.

The software application has been updated to allow users to adjust attributed generic base acre shares for contracts that were enrolled using the alternative enrollment option.

B Purpose

This notice provides instructions for County Offices on adjusting attributed generic base acre shares for contracts that were enrolled using the alternative enrollment option.

2 Generic Share Override Screen

A Overview

After users access the ARC/PLC contract software according to 2-ARCPLC, paragraph 11, CLICK “Generic Share Override”, on the left navigation menu. The Generic Share Override Search Screen will be displayed with the option to search by the applicable farm number or by producer name.

Farm Number	Farm number as selected.	
Operator	Operator on farm selected.	
Generic Acres	Number of generic base acres present on the farm.	
State	State as selected and State code.	
County	County as selected and county code.	
Program	Elections recorded for the farm.	
Producer	Name of the producer.	
Producer ID	Last 4 of the tax ID for owners, operators, and other tenants that are linked to the selected farm in FRS.	
Crop	This field will display all covered commodities reported on FSA-578 for the selected farm.	
Override Attributed Shares	The first time this screen is accessed, the default values based on generic acres attribution from the data recorded on FSA-578 will be displayed. If the user visits this screen after adjusting the shares, the adjusted shares that were entered will be displayed.	Enter the share between 0.00-100.00 for each producer that enrolled using the Alternative Enrollment option.
Attributed Shares	The default values based on generic acres attribution for crops reported on FSA-578 will be displayed.	
Attributed Acres	The base acres attributed to each crop will be displayed.	
PLC Yield	PLC yield associated with each crop.	
Election	Program election associated with each crop.	
All Producer Crop Share Totals	The crop name, override attributed shares, and attributed shares for the contract will be displayed.	
Reset Override Attributed Data	This option will be grayed out until an adjustment is entered for the Override Attributed Shares.	Select this option to remove the shares entered to override attributed shares. This will return the attributed acres to the values based on FSA-578.
New Search	User will be returned to the Generic Override Search Screen.	
Submit	Data is stored. The Generic Share Override Contract Submission Screen will be displayed.	“Submit” must be clicked to save the data entered.
