UNITED STATES DEPARTMENT OF AGRICULTURE

Farm Service Agency Washington DC 20250 **Notice MPP-37**

For: State Offices

Intergenerational Production History Transfers Under the Margin Protection Program for Dairy Producers (MPP-Dairy)

Bradley Karmen

Approved by: Acting Deputy Administrator, Farm Programs

1 Overview

A Background

An amended MPP-Dairy regulation was published in the Federal Register on April 13, 2016, to provide provisions for a one-time restructuring of currently established production history when an eligible family member joins the dairy operation to accommodate the transfer of a dairy from one generation to the next generation.

A dairy operation may add production to their established CCC-approved production history for an intergenerational transfer when any of the following lineal descendants, or the spouses, thereof, joins a MPP-Dairy participating operation:

- son
- daughter
- grandchild
- adopted child.

County Offices will accept applications for an intergenerational transfer at the start of the 2017 registration and annual coverage election period beginning July 1, 2016.

B Purpose

This notice provides State and County Offices with the following:

- provisions for intergenerational transfers established by the publication of amended MPP-Dairy regulations in the Federal Register at 7 CFR Part 1430
- instructions for accepting requests for intergenerational transfers starting July 1, 2016.

Disposal Date	Distribution
January 1, 2017	State Offices; State Offices relay to County Offices

2 Intergenerational Production History Transfers

A Joining Family Members

Only lineal descendants that are a son, daughter, grandchild, or spouse of a son, daughter, or grandchild that meet the requirements of subparagraph D and join a participating dairy operation are eligible to have an additional quantity of production added to an established CCC-approved production history of a registered MPP-Dairy operation.

Non-lineal relatives such as, cousins, nieces, nephews, siblings, and spouses that join the operation **will not** result in eligibility for a production history increase.

B Additional Production History Calculation

The increase to the established production history calculation for the participating dairy operation will be determined based on multiplying both of the following:

- National rolling herd average data for the current year in effect at the time of the intergenerational transfer
- quantity of cows purchased by the joining family member.

Note: Intergenerational transfers will not be allowed if the participating dairy operation's current annual production and the increase in herd size by the joining family member is less than the dairy operation's established production history.

C Intergenerational Transfer Limitations

The increase to the established production history of the participating dairy operation is limited to the following:

- one-time increase of production history for the term of the program
- maximum increased quantity of 4 million pounds
- same elected coverage threshold and coverage percentage in effect for the participating dairy operation at the time the production history increase takes effect.

D Intergenerational Transfer Requirements

A dairy operation increasing production history through an intergenerational transfer must do the following:

- request the intergenerational transfer on CCC-781 Continuation Sheet according to Exhibit 1
- submit the completed request according to subparagraph F

2 Intergenerational Production History Transfers (Continued)

D Intergenerational Transfer Requirements (Continued)

- provide documentation of the following:
 - current annual marketings for the dairy operation as of the date of the intergenerational transfer
 - purchase(s) of the dairy cows being added to the dairy operation by the new family member
- certify the following for each new family member joining the operation:
 - the dairy operation will be their principal source of non-investment earned income
 - they are a lineal descendant of a current member of the participating dairy operation
 - has a significant equity ownership in the dairy operation of at least 10 percent individually or 25 percent collectively for multiple members
 - will contribute labor in the dairy operation at a minimum of 35 hours per week or have a plan for transition to full-time.

All documentation and certifications provided by the current members and joining family members of the dairy operation are subject to review and approval by COC. Documentation must be adequate proof and verifiable to the satisfaction of COC, according to 1-MPP, paragraph 53.

E Retroactive Intergenerational Transfers

Participating dairy operations will **only** have an opportunity to increase their established production history during the 2017 registration and annual coverage election period if they retroactively had an intergenerational transfer occur during any of the following time frames:

- 2014
- 2015
- January 1, 2016, through June 30, 2016.

Note: Retroactive payments based on the increase to the dairy operations established production history will **not** be issued.

2 Intergenerational Production History Transfers (Continued)

F FSA Notification of Intergenerational Transfers

Notification of an intergenerational transfer must be made manually on CCC-781 Continuation Sheet according to the following table.

IF the purchase of the dairy cows by	
the new family member occurred	THEN FSA notification must occur
in calendar year 2014 or 2015	by the close of the 2017 registration and annual
1 2015 1 20 2015	coverage election period (July 1, 2016, through
January 1, 2016 – June 30, 2016	September 30, 2016).
on or after July 1, 2016	within 60 calendar days of the cow purchase(s).

G Intergenerational Transfers Effective Date

A dairy operation requesting an intergenerational transfer has the option of the additional production history taking effect with either of the following:

- consecutive 2-month period following notification in the same coverage year
- January 1 of the next coverage year following notification.

H Intergenerational Transfers Premium Payment Due Date

An intergenerational transfer will affect the premium calculated for a dairy operation based on the additional quantity of production that will be added to the established production history. Payment for the additional quantity will be due according to the following table.

IF the effective date option		THEN the additional
selected is	AND notification occurs	premium is due
consecutive 2-month period	January 1 through August 31	September 1.
following notification	September 1 through	immediately.
	December 31	
January 1 of the next		September 1.
coverage year		

2 Intergenerational Production History Transfers (Continued)

I Determining Current Annual Marketings Less Than Established Production History

Intergenerational transfers will **not** be allowed if the participating dairy operation's current annual production and the increase in herd size by the new family member(s) is **less than** the dairy operation's established production history. To determine if current annual marketings for the dairy operation are less than the dairy operation's established production history, County Offices **must** do the following:

- calculate the additional quantity of production history according to subparagraph 2 B
- if complete annual 12-month calendar year marketings are unavailable, determine current annual marketings as of the date of the intergenerational transfer by averaging available monthly marketings provided by the dairy operation and attributing the average pounds to the remaining months in the year
- compare the total of the calculated additional quantity and the current annual production determined with the CCC-approved established production history for the dairy operation
- disapprove the intergenerational transfer if the total of the calculated additional quantity
 and the current annual marketings is less than the dairy operation's established
 production history.

Example: ABC Dairy Operation has a CCC-approved established production history of 1 million pounds. However, their current annual marketings have decreased to 800,000 pounds. The additional quantity of production from the cows bought in to the operation by the new family member totals 100,000 pounds. The total of the current annual marketings (800,000 lbs.) plus the additional production from the new family member (100,000 lbs.) results in 900,000 lbs., which is less than the established production history of 1 million lbs. Therefore, this intergenerational transfer is not approved.

J Approving Intergenerational Transfers

COC or designee shall:

- be satisfied that all requirements in subparagraph D have been met before approving CCC-781 Continuation Sheet for an intergenerational transfer
- compare CCC-781 Continuation Sheet entries for intergenerational transfers with applicable verifiable documentation
- review calculations to ensure they are computed correctly according to subparagraphs B and I

2 Intergenerational Production History Transfers (Continued)

J Approving Intergenerational Transfers (Continued)

- **not** approve CCC-781 Continuation Sheet for an intergenerational transfer not made timely according to subparagraph F
- **not** approve CCC-781 Continuation Sheet for an intergenerational transfer when the participating dairy operation's current annual production and the increase in herd size by the new family member(s) is less than the dairy operation's established production history according to subparagraph I
- notify participants of the adverse decision according to 1-APP
- forward approved CCC-781 Continuation Sheets and all supporting documentation to the State Office MPP-Dairy specialist.

K Updating Production History for Intergenerational Transfers

MPP-Dairy automated software does not include an option for intergenerational transfers. As a result, manual adjustment of the established production history is required by the National Office. Therefore, to have the established production history adjusted, State Offices **must** submit the COC approved CCC-781 Continuation Sheet request for intergenerational transfers to the MPP-Dairy Application and Payment Problems SharePoint located at https://sharepoint.fsa.usda.net/mgr/dafp/PECD/Payment Issues/default.aspx.

3 Action

A State Office Action

State Offices shall ensure that County Offices:

- are immediately informed of the contents of this notice
- immediately publicize the contents of this notice by all available means
- post COC-approved requests for an intergenerational transfer received from the County Office to the MPP-Dairy Application and Payment Problems SharePoint site according to subparagraph 2 K
- direct questions about MPP-Dairy Program policy and procedure to the National Office according to subparagraph C.

3 Action (Continued)

B County Office Action

County Offices shall:

- immediately notify producers, by all available means, of new provisions for intergenerational transfers
- begin accepting requests for intergenerational transfers on CCC-781 Continuation Sheet starting July 1, 2016
- approve/disapprove requests for intergenerational transfers according to subparagraph 2 J
- submit COC approved requests for intergenerational transfers to the State Office MPP-Dairy specialist
- forward questions about the contents of this notice to the State Office MPP-Dairy specialist.

C Contact

If there are questions about this notice, State Offices shall contact either of the following in PSD according to this table.

Name	Telephone	E-mail
Dani Cooke	202-720-1919	danielle.cooke@wdc.usda.gov
Angela Payton	202-720-0482	angela.payton@wdc.usda.gov

A Completing CCC-781 Continuation Sheet

Complete CCC-781 Continuation Sheet for intergenerational transfers according to Part CCC-781I, items 6A through 17 and Part D in the following table.

Item	Instructions
1	FSA representative shall enter the applicable coverage year.
2	FSA representative shall enter the new dairy operation number, if applicable for
	succession-in-interest or merger action items.
	Part CCC-781T – Transfer/Relocation Action Item 1B on CCC-781
6A	Dairy operation shall enter name.
6C	Dairy operation shall enter the effective date of the transfer/relocation which will be either
	the date the dairy operation began commercially marketing milk at the new location or in the
	case of a farm transfer or farm/tract reconstitition, the date the actual farm transfer or
	farm/tract reconstitution was approved by COC, or designee.
7A-	FSA representative shall enter the following for the original dairy operation location:
7D	
	applicable administrative State
	applicable administrative county
	applicable farm number
	applicable tract number.
8A-	FSA representative shall enter the following for the new dairy operation location:
8D	
	applicable administrative State
	applicable administrative county
	applicable farm number
	applicable tract number.
	Part CCC-781M – Merger Action Item 1C on CCC-781
6A	Enter the name of the dairy operation resulting from the merger.
6C	Dairy operation shall enter the effective date of ther merger, which is the date the operation
	first began producing and commercially marketing milk as the merged dairy operation.
9A-	Dairy operation shall enter the following for each dairy operation involved in the merger:
9C	
	dairy operation name
	assigned dairy operation number
	established production history.

A Completing CCC-781 Continuation Sheet (Continued)

Item	Instructions
	Part CCC-781S – Succession-In-Interest Action Item 1D on CCC-781
6A	Succeeding dairy operation shall enter name.
6C	FSA representative shall enter the effective date of the succession-in-interest which will be
	either of the following:
	date the last producer signature was obtained
	• postmark date if the CCC-781 Continuation Sheet was submitted by mail.
10	Enter the name of the original dairy operation from which the established production history
	at the farm and tract location where the dairy operation is located will be succeeding from.
11	Enter the dairy operation number assigned to the original dairy operation from which the
	established production history at the farm and tract location where the dairy oepation is
	located will be succeding from.
	Part CCC-781I – Intergenerational Transfer Action Item E on CCC-781
Note:	CCC-781(01-14-16) manual form will be updated to add as action item 1E in forthcoming
	amendment to 1-MPP.
6A	Dairy operation shall enter name.
6C	Dairy operation shall enter a check in the appropriate box to indicate if they desire the
	intergenerational transfer to become effective with either the next consecutive 2-month
	period following submission of the CCC-781 Continuation Sheet or the following January 1.
	Note: If I myory 1 is calcuted the drive approximation may the last 2 mymbers of the
	Note : If January 1 is selected the dairy operation must enter the last 2 numbers of the applicable coverage year.
12	FSA representative shall enter the applicable farm number.
13	FSA representative shall enter the applicable tract number.
14	Dairy operation shall enter a check in the appropriate box "Yes" or "No", to indicate if they
1 7	are a family member of an MPP-Dairy participant. If "Yes", the dairy operation must specify
	the relationship in the space provided.
15	Dairy operation shall enter a check in the appropriate box "Yes" or "No", to indicate if they
	contribute a minimum of 35 labor hours per week to the operation of the dairy.
16	Dairy operation shall enter a check in the appropriate box "Yes" or "No", to indicate if the
	revenue earned from the dairy operation is their principal source of non-investment income.
17	Enter the current annual marketings for the dairy operation.
18	Dairy operation shall enter the total number of cows purchased that are being added to the
	dairy operation.
19	FSA representative shall enter the national annual milk production per cow applicable to the
	year of the intergenerational transfer.
20	FSA representative shall calculate the annual production history by multiplying the entries in
	item 18 and item 19, and enter the result in the space provided.
21	FSA representative shall enter the applicable production history established to date, including
	all bump adjustments, for the dairy operation that the family member is joining.

A Completing CCC-781 Continuation Sheet (Continued)

Item	Instructions
	Part CCC-781R – Re-Establishment Action Item F on CCC-781
	CC-781(01-14-16) manual form will be updated to add as action item 1F in forthcoming
ar	mendment to 1-MPP.
4A	FSA representative shall enter applicable farm number.
4B	FSA representative shall enter applicable tract number.
6A	Dairy operation shall enter name.
6B	FSA representative shall enter the effective date of the production history re-establishment.
9	Dairy operation shall enter month, day, and year the operation again began to market milk.
21	Dairy operation must check the appropriate box to select the desired option of either:
through	(1)
22	(1) a new dairy operation that is re-establishing the production history previously assigned
	to and established by the dairy operation that previously occupied the dairy operation
	facility associated with the farm tract location in items 4A and 4B; or
	(2) re-establishing the production history at the farm tract location in items 4A and 4B
	because the producer was previously affiliated with the dairy operation that established the
	production history at this farm tract location.
	Part D – Dairy Operation's Established Production History and Certification
15	FSA representative shall enter the new established production history for the dairy
	operation provided by the National Office.
16A	Dairy operation shall enter signature of authorized representative, title, and the date of
through	signature.
16C	
	Note : If signature authority is on file for the legal entity, only the signature of the person
	signing in a representative capacity is required according to 1-CM.
17A	Enter signature of COC or designee.
17B	COC or designee shall check (X) appropriate box to recommend approval or not
	recommend approval.
17C	COC or designee shall enter the date of signature and recommendation from items 17A and
	17B.
18	COC or designee shall enter any noteworthy remarks.

Note: CCC-781 Continuation Sheet Parts CCC-781T, CCC-781M, CCC-781S, CCC-781I, and CCC-781R will print out as separate parts with Part D on the automated CCC-781 from the MPP-Dairy automated software.
