**427 Measurement Service for Loan or LDP****A Requesting Measurement Service**

Items obtained through the requested measurement service are:

- Test weight of the commodity as determined by the commodity inspection. The test weight is used to obtain a test weight and pack factor used to determine the quantity.
- \*--Moisture content if there is reason to believe the moisture exceeds the standard level applicable to the commodity.--\*  
Reduce the quantity for any excess moisture for nonrecourse loans according to paragraph 430C and 432.

**Note:** Reduce the loan rate as required in paragraph 422B and 432.

**448 General Warehouse Receipt Requirements****A General Requirements**

[7CFR 1421.107] All warehouse receipts shall:

- represent eligible commodity actually stored in the UGRSA warehouse
- be negotiable
- be issued to the eligible producer or CCC, as applicable, or in the case of loans made to CMA's, the receipt should be issued to CMA
- be endorsed in blank to vest title in the holder, if issued to the eligible producer or CMA

**Note:** Most grain warehouse receipts contain a Statement of Ownership and Encumbrance, and an Endorsements section. The producer or their designated representative, by power-of-attorney, need to sign both the Statement of Ownership and Encumbrance section and the Endorsements section to vest title in the holder.

- show ownership, if commodity is owned by the warehouse operator, solely, jointly, or in common with others
- contain a statement that commodity is insured.

If the warehouse receipt is accompanied by applicable KC-350, KC-350 shall contain the insured statement if not stated as such on the warehouse receipt.
