

For: State and County Offices

CBCWin Version 1.6 Software Certified for Use on NT Workstations

Approved by: Deputy Administrator, Farm Loan Programs

1 Using CBCWin Version 1.6 Software

A

Background

Notice FLP-78 authorized State Offices to obtain electronic mortgage reports through GSA-approved vendors. Several State Offices expressed an interest in moving to electronic reports; however, FSA's migration to NT workstations delayed State Offices' attempts to obtain mortgage reports electronically.

Additionally, the Agency also requires that all software loaded on the NT workstations be certified by USDA Service Center Initiative's Inter-Operability Lab.

B

Purpose

This notice informs State Offices that CBCWin Version 1.6 software has been certified for use on NT workstations.

C

**State Office
Action**

State Offices shall:

- determine whether to use CBCWin Version 1.6 software
- contact Tina Waychoff of Credit Bureau Reports, Inc., at 412-429-6756 to receive instructions on downloading this software from the vendor website
- direct questions about this notice to Ann Smith, LMD, at 202-720-1656.
