Aerial Imagery Catalog collection at:

USDA – Farm Production and Conservation Business Center
Aerial Photography Field Office (APFO)
125 So. State Street
Suite 6416
Salt Lake City, UT 84138

apfo.sales@slc.usda.gov
http://www.apfo.usda.gov

This catalog listing indicates the various imagery coverage used by the U.S. Department of Agriculture (USDA) from 1955 to the present. It shows imagery used primarily by the Farm Service Agency (FSA) and the Natural Resources and Conservation Service (NRCS). For imagery prior to 1955, please contact the National Archives & Records Administration:

Cartographic & Architectural References (NWCS-Cartographic)
Aerial Photographs Team
carto@nara.gov

Coverage is listed alphabetically by county. A Federal Information Processing Standard (FIPS) numerical code was assigned to each county after July 1, 1971. The prior years of imagery were assigned an alpha code, shown in parenthesis. Visit the FIPS Index at:

Some form of an index (i.e. digital, line, photo, spot) is available for most imagery projects. The number of index sheets required for each project is shown on this listing.

Current aerial imagery is now obtainable in digital format on CD, DVD, flash or hard drive media. Compressed County Mosaics (CCM) and associated Quarter Quads (QQ) are available as indicated in the listing. NAIP 2002 will have no CCM's.

Scanning aerial imagery film on repository at the APFO (1955 – present) can also produce digital imagery products. Contact our Customer Service Section for ordering information, instructions and further details on available products at:

Offered in the catalog listing at each state and county heading is a link to locate the state or county office address and phone number at:

http://offices.sc.egov.usda.gov/locator/app

Square mile land area figures compiled from the US Census Bureau at:

### Important Notes
- The land area measurements are provided in square miles.
- The resolution (RES SCL) and scale are specified for each dataset.
- The band type (BAND TYPE) includes various spectral bands for each program (PROG).
- The format (FMT) and quantity (QTY) vary depending on the specific program and year.
- Remarks (REMARKS) may include details about the nature of the data or specific conditions.
