OVERVIEW

The U.S. Department of Agriculture (USDA) and the Commonwealth of Pennsylvania are partners in implementing a voluntary Conservation Reserve Enhancement Program (CREP) to enroll up to 20,000 acres of agricultural land in Pike, Monroe, Northampton, Lehigh, Bucks, Montgomery and Delaware counties to improve surface water quality, groundwater quality and wildlife habitat through establishment of riparian buffers, native and other grasses, shallow water areas for wildlife, grassed waterways and the restoration of wetlands.

BACKGROUND

CREP is a part of the USDA Conservation Reserve Program (CRP). CRP is a federally funded voluntary program that contracts with agricultural producers so that environmentally sensitive agricultural land is not farmed or ranched, but instead used for conservation benefits. CRP participants establish permanent, resource-conserving plant species, such as approved grasses or trees (known as “covers”) to control soil erosion, improve water quality and develop wildlife habitat. In return, the Farm Service Agency (FSA) provides participants with rental payments and cost-share assistance. CRP is authorized by the Food Security Act of 1985 and was reauthorized by the Agricultural Act of 2014.

With CREP, high-priority conservation goals are identified by local, state or tribal governments or non-governmental organizations, and federal funds are supplemented with non-federal funds to achieve those goals.

Through the Pennsylvania Delaware River Basin CREP, federal and state resources are made available to program participants to voluntarily enroll in CRP for 10-year to 15-year contracts. Participants remove cropland and marginal pastureland from agricultural production and convert the land to grasses, trees, other vegetation or water areas for wildlife. This will improve water quality by reducing sediment, nutrients and other pollutants entering the Delaware River and its tributaries.

GOALS

The goals of the Pennsylvania Delaware River Basin CREP are to:

• Restore and protect wetlands;
• Reduce the amount of sediment, nutrients and other pollutants entering the Delaware River;
• Establish riparian habitat corridors next to streams, estuaries and wetlands;
• Establish permanent cover on highly erodible land to reduce erosion, enhance water quality and create wildlife habitat; and
• Improve water quality to facilitate the health of fish and wildlife populations.

ELIGIBLE CONSERVATION PRACTICES

The following specific CRP conservation practices are available:

• CP1, Establishment of Permanent Introduced Grasses and Legumes;
• CP2, Establishment of Permanent Native Grasses;
• CP4D, Permanent Wildlife Habitat, Non-Easement;
• CP8A, Grass Waterways;
• CP9, Shallow Water Areas for Wildlife;
• CP12, Wildlife Food Plot;
• CP15A, Establishment of Permanent Vegetative Cover (Contour Grass Strips);
• CP21, Filter Strips;
• CP22, Riparian Buffer;
• CP23, Wetland Restoration;
• CP23A, Wetland Restoration, Non-Floodplain;
• CP29, Marginal Pastureland Wildlife Habitat Buffer;
FACT SHEET
CREP - Pennsylvania Delaware River Basin

ENROLLMENT AND ELIGIBILITY REQUIREMENTS

Enrollment for the Pennsylvania Delaware River Basin CREP is on a continuous basis. To be eligible, interested agricultural landowners must have land located in the project area and be either cropland or marginal pastureland. Cropland must meet cropping history criteria and be physically and legally capable of being planted in a normal manner to an agricultural commodity. Marginal pastureland is also eligible for enrollment provided it is suitable for use as an eligible riparian buffer. Persons who have an existing CRP contract are not eligible for CREP on that land until that contract expires.

PAYMENTS

Under the Pennsylvania Delaware River Basin CREP, eligible participants may receive the following payments:

• A one-time signing incentive payment (SIP) of $100 per acre for installing practice CP8A, CP21, CP22, CP29 and CP30, or $150 per acre for installing practice CP23, CP23A or CP33. Example: 30 acres enrolled to be devoted to practice CP33 results in a $4,500 (30 acres times $150) SIP. This payment is made soon after the contract has been signed and approved.

• A one-time practice incentive payment (PIP) for installing practices CP8A, CP9, CP15A, CP21, CP22, CP23, CP23A, CP29, CP30 and CP33. The PIP is equal to 40 percent of the total eligible cost of installing the practice. Example: Producer’s total eligible cost of installing the practice is $2,000. The PIP would be $800 ($2,000 times .40).

• An annual rental payment based on the land offered and practice installed. The annual payment consists of:
  o A base soil rental rate, determined by the land offered;
  o An incentive payment, based on the practice and land offered; and
  o A maintenance rate, determined by the practice offered.

• For practices CP1, CP2, CP4D and CP12, the incentive payment is based on the erodibility index (EI) of the land offered, as follows:
  o 0.75 times the base soil rental rate for land with $8 \leq EI \leq 12;
  o 1.5 times the base soil rental rate for land with $12 < EI \leq 20;
  o 1.75 times the base soil rental rate for land with $20 < EI \leq 25;
  o 2.0 times the base soil rental rate for land with $25 < EI \leq 30; and
  o 2.25 times the base soil rental rate for land with $30 < EI.

• For practices CP8A, CP9, CP15A, CP21, CP22, CP23, CP23A, CP29, CP30 and CP33, the incentive payment is 1.5 times the base soil rental rate.

• A cost-share payment of up to 50 percent of the eligible cost to install the approved conservation practice.

In addition, the Commonwealth of Pennsylvania provides eligible participants a cost-share payment up to 50 percent of the practice installation cost, subject to certain limits, for most of the eligible practices.

EXAMPLES

A Pike County producer elects to enroll 40 acres of highly erodible cropland to be devoted to permanent native grasses (practice CP2) in a 15-year contract. The EI of the land is 15. The base soil rental rate for the land is $42 per acre. The incentive payment is $63 per acre ($42 times 1.5). The producer’s annual rental rate will be $105 per acre, for a total annual rental payment of $4,200 ($105 times 40 acres). The producer will receive a total of $63,000 in annual rental payments over the 15-year life of the contract. The producer will have no out-of-pocket costs for installing the practice because of the federal and state cost-share payments. In addition, the producer received $2,000 from the Commonwealth of Pennsylvania for enrolling the land in the Pennsylvania Game Commission Program.
A Montgomery County producer elects to enroll 10 acres of cropland to be devoted to a riparian buffer (practice CP22) in a 15-year contract. The base soil rental rate for the land is $56. The incentive payment is $84 per acre ($56 times 1.5). The annual maintenance rate is $10 per acre. The producer’s annual rental rate will be $150 per acre ($56 + $84 + 10) for a total annual rental rate of $1,500 ($150 times 10 acres). In addition, the producer will receive a one-time SIP of $1,000. The producer will have no out-of-pocket costs for installing the riparian buffer because of the federal and state cost-share payments.

**Note:** The preceding are examples only.

**ENROLLMENT OPTIONS**

CREP is another option under CRP that farmers and ranchers may select to enhance their land. Eligible producers may still enroll land in CRP through general or continuous signup; however, the Pennsylvania Delaware River Basin CREP provides additional benefits not available through general and/or continuous enrollment. Under the Pennsylvania Delaware River Basin CREP, producers receive higher incentive payments and have longer contract lengths that increases the total amount of rental payments received.

**HAYING AND GRAZING**

Haying and grazing are not allowed during the CRP contract period unless authorized by USDA. Contact your local FSA office for information about authorized haying and grazing activities.

**FOR MORE INFORMATION**

This fact sheet is provided for informational purposes only; other restrictions or requirements may apply. For more information on CREP, contact your local FSA office. To find your local FSA county office, visit [http://offices.usda.gov](http://offices.usda.gov). To learn more about FSA conservation programs, visit [www.fsa.usda.gov/conservation](http://www.fsa.usda.gov/conservation).

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [http://www.ascr.usda.gov/complaint_filing_cust.html](http://www.ascr.usda.gov/complaint_filing_cust.html) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by:

1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410;

2) fax: (202) 690-7442; or

3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.
