OVERVIEW

The Emergency Forest Restoration Program (EFRP), administered by the U.S. Department of Agriculture (USDA) Farm Service Agency (FSA), provides payments to eligible owners of nonindustrial private forest (NIPF) land in order to carry out emergency measures to restore land damaged by a natural disaster.

- Site preparation, planting materials and labor to replant forest stand;
- Restoration of forestland roads, fire lanes, fuel breaks or erosion control structures;
- Fencing, tree shelters and tree tubes to protect trees from wildlife damage; and
- Wildlife enhancement to provide cover openings and wildlife habitat.

PROGRAM ADMINISTRATION

EFRP enrollment is administered by FSA state and county committees and county offices. Producers should inquire with their local FSA county office regarding EFRP enrollment periods and eligibility.
