USDA Encourages Producers to Consider Risk Protection Coverage before Crop Sales Deadlines

The Farm Service Agency encourages producers to examine available USDA crop risk protection options, including federal crop insurance and Noninsured Crop Disaster Assistance Program (NAP) coverage, before the applicable crop sales deadline.

Producers are reminded that crops not covered by insurance may be eligible for the Noninsured Crop Disaster Assistance Program (NAP). The 2014 Farm Bill expanded NAP to include higher levels of protection. Beginning, underserved and limited resource farmers are now eligible for free catastrophic level coverage, as well as discounted premiums for additional levels of protection.

Federal crop insurance covers crop losses from natural adversities such as drought, hail and excessive moisture. NAP covers losses from natural disasters on crops for which no permanent federal crop insurance program is available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.
USDA has partnered with Michigan State University and the University of Illinois to create an online tool at www.fsa.usda.gov/nap that allows producers to determine whether their crops are eligible for federal crop insurance or NAP and to explore the best level of protection for their operation. NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production, with higher levels of coverage, up to 65 percent of their expected production at 100 percent of the average market price, including coverage for organics and crops marketed directly to consumers.

Deadlines for coverage vary by state and crop. To learn more about NAP visit www.fsa.usda.gov/nap or contact your local USDA Service Center. To find your local USDA Service Centers go to http://offices.usda.gov.

Federal crop insurance coverage is sold and delivered solely through private insurance agents. Agent lists are available at all USDA Service Centers or at USDA’s online Agent Locator: http://prodwebnlb.rma.usda.gov/apps/AgentLocator/#. Producers can use the USDA Cost Estimator, https://ewebapp.rma.usda.gov/apps/costestimator/Default.aspx, to predict insurance premium costs.

Beginning Farmer Loans

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's average size farm.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit www.fsa.usda.gov.

Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or to purchase or improve farms or ranches.
While all qualified producers are eligible to apply for these loan programs, FSA has provided priority funding for members of targeted underserved applicants.

A targeted underserved applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, targeted underserved groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

**USDA Improves Access to Capital for Tribal Farmlands with Multiple Owners**

New Program Allows More Farm Loans for “Highly Fractionated” Tribal Land

USDA announced that it is expanding the availability of farm loans for Indian tribes and members to purchase tribal farmland that has multiple owners. The improved lending opportunities are possible due to new authority granted by the 2014 Farm Bill, which allows USDA to provide revolving loan funds to qualified intermediary lenders that can relend the funds to qualified tribes and individuals. The program becomes available today, Dec. 1, 2015.

As a direct result of more than a dozen tribal meetings across the country, USDA is able to implement a solution to a longstanding barrier to financing, which will increase the availability of farm loans to Native Americans who want to start or expand a farming or ranching operation on Indian lands.

Under the **1887 Dawes Act**, Indian reservation land was divided and allotted to individual tribal members such that with the passing of each generation, title ownership was divided and parceled among heirs, while the land was not. As a result, land once owned by a single person could today be owned by hundreds or thousands of individuals, resulting in what is known as “highly fractionated Indian land.” In many instances, landowners are unknown or cannot be located, which complicates the coordination of ownership or prevents the use of the property altogether. There are more than 245,000 owners of three million fractionated land interests, spanning approximately 150 Indian reservations.

Under the rules published today, USDA will now allow tribes and tribal members to submit a farm loan application to an intermediary lender. To participate, intermediary lenders first must be approved by USDA. The lenders may be private and tribal nonprofit corporations, public agencies, Indian tribes, or lenders subject to federal or state regulation (such as a credit union or other financial institution). FSA will lend to the intermediary, which will relend the funds to the applicant. The intermediary lender also will administer the loan for the applicant.

Additional information on guidelines and criteria for intermediate lenders and how to file a loan application under Highly Fractionated Indian Land loan program will be shared Dec. 7, 2015 at the Intertribal Agriculture Council (IAC) meeting and Tribal consultation in Las Vegas, Nev. For more information, visit www.fsa.usda.gov/farmloans or contact the local FSA county office. To find the local FSA office, visit http://offices.usda.gov.
USDA also has opened a 90-day period for the public to submit comments on this program. Written comments must be submitted by Feb. 29, 2016, at www.regulations.gov, using Regulation Identifier Number 0560-AL32.

Firearms and Dangerous Weapons Forbidden in Federal Facilities

USDA Service Centers and Farm Service Agency Offices are Off Limits for Firearms

This is an important reminder to all customers and patrons of USDA Farm Service Agency (FSA) offices and USDA Service Centers statewide that firearms are forbidden (even with a permit/license) in Federal Buildings. A Federal Building by definition is any building owned, leased or rented by the Federal Government, where Federal employees are regularly present for the purpose of performing their official duties.

The items that are prohibited in Federal facilities include any item prohibited by any applicable Federal, State, local, and tribal law and/or ordinance, as well as firearms, dangerous weapons, explosives, or other destructive devices (including their individual parts or components) designed, redesigned, used, intended for use, or readily converted to cause injury, death, or property damage. Possession of firearms and dangerous weapons in Federal facilities as outlined above is a crime punishable by fines and imprisonment.

If you have questions or concerns regarding this notification, please contact your local Farm Service Agency Office—http://offices.usda.gov.

Farmers to Receive Documentation of USDA Services

Local Offices Issue Receipts for Services Provided

Farm Service Agency (FSA) reminds agricultural producers that FSA provides a receipt to customers who request or receive assistance or information on FSA programs.

As part of FSA’s mission to provide enhanced customer service, producers who visit FSA will receive documentation of services requested and provided. From December through June, FSA issued more than 327,000 electronic receipts.

The 2014 Farm Bill requires a receipt to be issued for any agricultural program assistance requested from FSA, the National Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity.
In some cases, a form or document – such as a completed and signed program enrollment form – serve as the customer receipt instead of a printed or electronic receipt. A service is any information, program or loan assistance provided whether through a visit, email, fax or letter.

To learn more about FSA, visit [www.fsa.usda.gov](http://www.fsa.usda.gov) or contact this office at 509-397-4301.
