Farmers and Ranchers in Arizona Can Now Apply for Financial Assistance through USDA’s Coronavirus Food Assistance Program

Agricultural producers can now apply for USDA’s Coronavirus Food Assistance Program (CFAP), which provides direct payments to offset impacts from the coronavirus pandemic. The application and a payment calculator are now available online, and USDA’s Farm Service Agency (FSA) staff members are available via phone, fax and online tools to help producers complete applications. The agency set up a call center in order to simplify how they serve new customers across the nation.

Applications will be accepted through August 28, 2020. Through CFAP, USDA is making available $16 billion for vital financial assistance to producers of agricultural commodities who have
suffered a five-percent-or-greater price decline due to COVID-19 and face additional significant marketing costs as a result of lower demand, surplus production, and disruptions to shipping patterns and the orderly marketing of commodities.

We also want to remind producers that the program is structured to ensure the availability of funding for all eligible producers who apply.

In order to do this, producers will receive 80 percent of their maximum total payment upon approval of the application. The remaining portion of the payment, not to exceed the payment limit, will be paid at a later date nationwide, as funds remain available.

Producers can download the CFAP application and other eligibility forms from farmers.gov/cfap. Also, on that webpage, producers can find a payment calculator to help identify sales and inventory records needed to apply and calculate potential payments.

Additionally, producers in search of one-on-one support with the CFAP application process can call 877-508-8364 to speak directly with a USDA employee ready to offer assistance. This is a good first step before a producer engages the team at the FSA county office at their local USDA Service Center.

Applying for Assistance

Producers of all eligible commodities will apply through their local FSA office. Those who use the online calculator tool will be able to print off a pre-filled CFAP application, sign, and submit to your local FSA office either electronically or via hand delivery. Please contact your local office to determine the preferred method. Find contact information for your local office at farmers.gov/cfap.

Documentation to support the producer’s application and certification may be requested after the application is filed. FSA has streamlined the signup process to not require an acreage report at the time of application and a USDA farm number may not be immediately needed.

Additional Commodities

USDA is also establishing a process for the public to identify additional commodities for potential inclusion in CFAP. Specifically, USDA is looking for data on agricultural commodities, that are not currently eligible for CFAP, that the public believes to have either:

1. suffered a five percent-or-greater price decline between mid-January and mid-April as a result of the COVID-19 pandemic,
2. shipped but subsequently spoiled due to loss of marketing channel, or
3. Not left the farm or remained unharvested as mature crops.

More information about this process is available on farmers.gov/cfap.

More Information

To find the latest information on CFAP, visit farmers.gov/cfap or call 877-508-8364.

USDA Service Centers are open for business by phone appointment only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service, or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at farmers.gov/coronavirus.

Farm Service Agency to Host Webinars on Coronavirus Food Assistance Program

The USDA Farm Service Agency will host a series of webinars to discuss what producers should know to sign up for the Coronavirus Food Assistance Program (CFAP). USDA is making available $16 billion in financial assistance to producers of agricultural commodities who have suffered a five percent-or-greater price decline due to COVID-19 and face additional significant marketing costs as a result of lower demand, surplus production, and disruptions to shipping patterns and the orderly marketing of commodities.

In addition to hearing from CFAP National Program Specialists, webinar participants will also learn more about the Notice of Funding Availability (NOFA) process for submitting additional commodities for consideration to USDA for CFAP eligibility.

Tuesday, June 9, 3 p.m. EDT Specialty Crop Producers

Thursday, June 11, 3 p.m. EDT Dairy and Non-Specialty Crop Producers

Tuesday, June 16, 3 p.m. EDT Non-Specialty Crop and Livestock Producers

Thursday, June 18, 3 p.m. EDT FSA Programs in the Times of Coronavirus In addition to CFAP, this webinar will discuss FSA
programs with producer flexibilities during COVID-19 and also a review of targeted funding for beginning and other underserved farmers and ranchers in other programs. All webinars will be recorded and can be viewed at farmers.gov/cfap.

Learn more and register for the webinar of your choice.

FSA Reminds Producers of Ongoing Disaster Assistance Program Signup

The U.S. Department of Agriculture (USDA) has started making payments through the Wildfire and Hurricane Indemnity Program – Plus (WHIP+) to agricultural producers who suffered eligible losses because of drought or excess moisture in 2018 and 2019. Signup for these causes of loss opened March 23, and producers who suffered losses from drought (in counties designated D3 or above), excess moisture, hurricanes, floods, tornadoes, typhoons, volcanic activity, snowstorms or wildfires can still apply for assistance through WHIP+.

To be eligible for WHIP+, producers must have suffered losses of certain crops, trees, bushes or vines in counties with a Presidential Emergency Disaster Declaration or a Secretarial Disaster Designation (primary counties only) for qualifying natural disaster events that occurred in calendar years 2018 or 2019. Also, losses located in a county not designated by the Secretary as a primary county may be eligible if a producer provides documentation showing that the loss was due to a qualifying natural disaster event.

For losses due to drought, a producer is eligible if any area of the county in which the loss occurred was rated D3, or extreme drought, or higher on the U.S. Drought Monitor during calendar years 2018 or 2019. Producers who suffered losses should contact their FSA county office.

In addition to the recently added eligible losses of drought and excess moisture, FSA will implement a WHIP+ provision for crop quality loss that resulted in price deductions or penalties when marketing crops damaged by eligible disaster events. To ensure an effective program for all impacted farmers, the Agency is currently gathering information on the extent of quality loss from producers and stakeholder organizations.

USDA Service Centers, including FSA county offices, are open for business by phone only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information on Service Centers can be found at farmers.gov/coronavirus, and more information on WHIP+ can be found at farmers.gov/whip-plus.

FSA Implements Set-Aside Loan Provision for Customers Impacted by COVID-19

USDA’s Farm Service Agency (FSA) will broaden the use of the Disaster Set-Aside (DSA) loan provision, normally used in the wake of natural disasters, to allow farmers with USDA farm loans who are affected by COVID-19, and are determined eligible, to have their next payment set aside. In
some cases, FSA may also set aside a second payment for farmers who have already had one payment set aside because of a prior designated disaster.

FSA direct loan borrowers will receive a letter with the details of the expanded Disaster Set-Aside authorities, which includes the possible set-aside of annual operating loans, as well as explanations of the additional loan servicing options that are available. To discuss or request a loan payment Set-Aside, borrowers should call or email the farm loan staff at their local FSA county office.

The set-aside payment’s due date is moved to the final maturity date of the loan or extended up to twelve months in the case of an annual operating loan. Any principal set-aside will continue to accrue interest until it is repaid. This aims to improve the borrower’s cashflow in the current production cycle.

FSA previously announced it was relaxing the loan-making process and adding flexibilities for servicing direct and guaranteed loans to provide credit to producers in need. Direct loan applicants and borrowers are encouraged to contact their local FSA county office to discuss loan making and servicing flexibilities and other needs or concerns. Customers participating in FSA’s guaranteed loan programs are encouraged to contact their lender. Information on these flexibilities, and office contact information, can be found on farmers.gov/coronavirus.

FSA will be accepting most forms and applications by facsimile or electronic signature. Some services are also available online to customers with an eAuth account, which provides access to the farmers.gov portal where producers can view USDA farm loan information and certain program applications and payments. Customers can track payments, report completed practices, request conservation assistance and electronically sign documents. Customers who do not already have an eAuth account can enroll at farmers.gov/sign-in.

USDA Service Centers are open for business by phone appointment only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at farmers.gov/coronavirus.

USDA Announces Details of Direct Assistance to Farmers through the Coronavirus Food Assistance Program

U.S. Secretary of Agriculture Sonny Perdue today announced the USDA Farm Service Agency (FSA) has already approved more than $545 million in payments to producers who have applied for the Coronavirus Food Assistance Program. FSA began taking applications May 26, and the agency has received over 86,000 applications for this important relief program.

In the first six days of the application period, FSA has already made payments to more than 35,000 producers. Out of the gate, the top five states for CFAP payments are Illinois, Kansas, Wisconsin, Nebraska, and South Dakota. USDA has released data on application progress and program payments and will release further updates each Monday at 2:00pm ET. The report can be viewed at farmers.gov/cfap.

FSA will accept applications through August 28, 2020. Through CFAP, USDA is making available $16 billion in financial assistance to producers of agricultural commodities who have suffered a five percent-or-greater price decline due to COVID-19 and face additional significant marketing costs as
a result of lower demand, surplus production, and disruptions to shipping patterns and the orderly marketing of commodities.

In order to do this, producers will receive 80 percent of their maximum total payment upon approval of the application. The remaining portion of the payment, not to exceed the payment limit, will be paid at a later date nationwide, as funds remain available.

**Getting Help from FSA**

New customers seeking one-on-one support with the CFAP application process can call 877-508-8364 to speak directly with a USDA employee ready to offer general assistance. This is a recommended first step before a producer engages the team at the FSA county office at their local USDA Service Center.

Producers can download the CFAP application and other eligibility forms from farmers.gov/cfap. Also, on that webpage, producers can find a payment calculator to help producers identify sales and inventory records needed to apply and calculate potential payments. Producers self-certify their records when applying for CFAP and that documentation is not submitted with the application. However, producers may be asked for their documentation to support the certification of eligible commodities, so producers should retain the information used to complete their application.

Those who use the online calculator tool will be able to print a pre-filled CFAP application, sign it, and submit it to your local FSA office either electronically or via hand delivery through an office drop box. Please contact your local office to determine the preferred delivery method for your local office. Team members at FSA county offices will be able to answer detailed questions and help producers apply quickly and efficiently through phone and online tools. Find contact information for your local office at farmers.gov/cfap.

**Policy Clarifications**

FSA has been working with stakeholder groups to provide further clarification to producers on the CFAP program. For example, the agency has published a matrix of common marketing contracts that impact eligibility for non-specialty crops and has provided a table that crosswalks common livestock terms to CFAP cattle categories. Updated information can be found in the frequently asked questions section of the CFAP website.

**More Information**

To find the latest information on CFAP, visit farmers.gov/CFAP or call 877-508-8364.©

**Communication is Key in Lending**

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be a success. A part of ensuring this success is providing guidance and counsel from the loan application process through the borrower’s graduation to commercial lending institutions. While it is FSA’s commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower’s responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation;
- Any significant changes to family income or expenses;
The development of problem situations;
- Any losses or proposed significant changes in security

In addition, if a farm loan borrower cannot make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

For more information on FSA farm loan programs, visit fsa.usda.gov.
