USDA Issues Farm Safety Net and Conservation Payments

USDA Farm Service Agency announced that over $9.6 billion in payments will be made to producers through the Agriculture Risk Coverage (ARC), Price Loss Coverage (PLC) and Conservation Reserve (CRP) programs. The USDA is issuing approximately $8 billion in payments under the ARC and PLC programs for the 2016 crop year, and $1.6 billion under CRP for 2017.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in revenue or prices for covered commodities. Over half a million producers will receive ARC payments and over a quarter million producers will receive PLC payments for 2016 crops, starting the first week of October and continuing over the next several months.

Payments are being made to producers who enrolled base acres of barley, corn, grain sorghum, lentils, oats, peanuts, dry peas, soybeans, wheat and canola. In the upcoming months, payments will be announced after marketing year average prices are published by USDA's National Agricultural Statistics Service for the
The USDA Farm Service Agency (FSA) offices will be closed on Monday, October 9, 2017 in observance of Columbus Day.

Please contact your local FSA Office for questions specific to your operation or county.

Selected Interest Rates for October 2017

• Farm Operating Loans — Direct – 2.75%
• Farm Ownership Loans — Direct – 3.75%
• Farm Ownership Loans — Direct Down Payment - 1.50%
• Farm Storage Facility Loans (7 yr. term) - 2.0%
• Commodity Loans – 2.250%

Also, as part of an ongoing effort to protect sensitive lands and improve water quality and wildlife habitat, USDA will begin issuing 2017 CRP payments in October to over 375,000 Americans.

Signed into law by President Reagan in 1985, CRP is one of the largest private-lands conservation programs in the United States. Thanks to voluntary participation by farmers and landowners, CRP has improved water quality, reduced soil erosion and increased habitat for endangered and threatened species. In return for enrolling in CRP, USDA, through the Farm Service Agency (FSA) on behalf of the Commodity Credit Corporation, provides participants with rental payments and cost-share assistance. Participants enter into contracts that last between 10 and 15 years. CRP payments are made to participants who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat.

For more details regarding ARC and PLC programs, go to www.fsa.usda.gov/arc-plc. For more information about CRP, contact your local FSA office or visit www.fsa.usda.gov/crp.

Payments to Deceased Producers

In order to claim a Farm Service Agency (FSA) payment on behalf of a deceased producer, all program conditions for the payment must have been met before the applicable producer’s date of death.

If a producer earned a FSA payment prior to becoming deceased, the following is the order of precedence of the representatives of the producer:

- administrator or executor of the estate
- the surviving spouse
- surviving sons and daughters, including adopted children
- surviving father and mother
- surviving brothers and sisters
- heirs of the deceased person who would be entitled to payment according to the State law

In order for FSA to release the payment, the legal representative of the deceased producer must file a form FSA-325, to claim the payment for themselves or an estate. The county office will verify and determine that the application, contract, loan agreement, or other similar form requesting payment issuance, was signed by the applicable deadline for such form, by the deceased or a person legally authorized to act on their behalf at that time of application.
If the application, contract or loan agreement form was signed by someone other than the participant who is deceased, FSA will determine whether the person submitting the form has the legal authority to submit the form to compel FSA to pay the deceased participant.

Payments will be issued to the respective representative’s name using the deceased program participant’s tax identification number. Payments made to representatives are subject to offset regulations for debts owed by the deceased.

FSA is not responsible for advising persons in obtaining legal advice on how to obtain program benefits that may be due to a participant who has died, disappeared or who has been declared incompetent.

**Payment Limitations by Program**

The 2014 Farm Bill established a maximum dollar amount for each program that can be received annually, directly or indirectly, by each person or legal entity. Payment limitations vary by program for 2014 through 2018.

Below is an overview of payment limitations by program.

**Commodity and Price Support Programs**
The annual limitation for the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs, Loan Deficiency Payments (LDPs) and Market Loan Gains is $125,000 total.

**Conservation Programs**
The Conservation Reserve Program (CRP) annual rental payment and incentive payment is limited to $50,000. CRP contracts approved before Oct. 1, 2008, may exceed the limitation, subject to payment limitation rules in effect on the date of contract approval.

**Disaster Assistance Programs**
The annual limitation of $125,000 applies to the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP), Livestock Forage Disaster Program (LFP) and Livestock Indemnity Program (LIP). The total payments received under ELAP, LFP and LIP may not exceed $125,000. A separate limitation of $125,000 applies to Tree Assistance Program (TAP) payments. There is also a separate $125,000 payment limit for the Noninsured Crop Disaster Assistance Program (NAP).

Payment limitations also apply to Natural Resources Conservation Service (NRCS) programs. Contact your local NRCS office for more information.

**Guaranteed Loan Program**

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender’s normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.
FSA can guarantee farm ownership and operating loans up to $1,399,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans.

**Environmental Review Required Before Project Implementation**

The National Environmental Policy Act (NEPA) requires Federal agencies to consider all potential environmental impacts for federally-funded projects before the project is approved.

For all Farm Service Agency (FSA) programs, an environmental review must be completed before actions are approved, such as site preparation or ground disturbance. These programs include, **but are not limited to**, the Emergency Conservation Program (ECP), Farm Storage Facility Loan (FSFL) program and farm loans. If project implementation begins before FSA has completed an environmental review, this will result in a denial of the request. There are exceptions regarding the Stafford Act and emergencies. It is important to wait until you receive written approval of your project proposal before starting any actions, including, but not limited to, vegetation clearing, site preparation or ground disturbance.

Remember to contact your local FSA office early in your planning process to determine what level of environmental review is required for your program application so that it can be completed timely.

Applications cannot be approved contingent upon the completion of an environmental review. FSA must have copies of all permits and plans before an application can be approved.
