Perdue Announces Additional Hurricane and Wildfire Recovery Details

Under the direction of President Donald J. Trump, U.S. Secretary of Agriculture Sonny Perdue today announced new details on eligibility for a new U.S. Department of Agriculture (USDA) disaster program, 2017 Wildfires and Hurricanes Indemnity Program (2017 WHIP). In total, USDA’s Farm Service Agency (FSA) will deploy the up to $2.36 billion that Congress appropriated through the Bipartisan Budget Act of 2018 to help producers with recovery of their agricultural operations in at least nine states with hurricane damage and states impacted by wildfire. Following the announcement, Secretary Perdue issued this statement:

"Last year our nation experienced some of the most significant disasters we have seen in decades, some back-to-back, at the most critical time in their production year. While USDA has a suite
of disaster programs as well as crop insurance available to help producers manage their risk, Congress felt it was important to provide extra assistance to our nation's farms and ranches that were the hardest hit last year,” Secretary Perdue said. “At President Trump’s direction, our team is working as quickly as possible to make this new program available to farmers in need. Our aim is to provide excellent customer service, building on efforts which began the day the storm hit.”

Key Updates Include:

- **Hurricane Recovery:** To be eligible a crop, tree, bush or vine must be located in a primary disaster county with either a Presidential declaration or a Secretarial designation due to a 2017 hurricane. Crops, trees, bushes or vines located in other counties may also be eligible if the producer provides documentation the loss was caused by a 2017 hurricane.

- **Wildfire Recovery:** Any crop, tree, bush or vine, damaged by a 2017 wildfire is eligible.

- **Eligible Producers:** Eligibility will be determined on an individual basis, using the level of insurance coverage purchased for 2017 for the total crop acres on the area for which the WHIP application is made. Eligible producers who certify to an average adjusted gross income (AGI) of at least 75 percent derived from farming or ranching, including other agriculture and forestry-based businesses during the tax years 2013, 2014 and 2015, will be eligible for a $900,000 payment limitation with verification. All other eligible producers requesting 2017 WHIP benefits will be subject to a $125,000 payment limitation.

- **Crop Insurance Requirement:** Both insured and uninsured producers are eligible to apply for WHIP. However, all producers opting to receive 2017 WHIP payments will be required to purchase crop insurance at the 60% coverage level, or Noninsured Crop Disaster Assistance Program (NAP) at the 60% buy up coverage level if crop insurance is not available. Coverage must be in place for the next two applicable crop years to meet program requirements.

- **Acreage Reporting Requirements:** In addition, for the applicable crop years, all producers are required to file an acreage report and report production (if applicable).

- **Payment Formula:** FSA will calculate WHIP payments with this formula:

  Payment = Expected Value of the Crop x WHIP Factor - Value of Crop Harvested - Insurance Indemnity
The WHIP factor ranges from 65 percent to 95 percent. Producers who did not insure their crops in 2017 will receive a 65 percent WHIP Factor. Insured producers, or producers who had NAP, will receive between 70 percent and 95 percent WHIP Factors; those purchasing higher levels of coverage will receive higher WHIP Factors.

---

**Georgia Farmers and Ranchers: Time is Running Out to Complete the 2017 Census of Agriculture**

The U.S. Department of Agriculture’s (USDA) National Agricultural Statistics Service (NASS) is reminding Georgia farmers and ranchers that the window is closing on the opportunity to participate in the 2017 Census of Agriculture.

“NASS is grateful for the response from producers to date, but it is important that others who received a Census questionnaire join their neighbors, colleagues, friends, and family in being part of the Census count,” said NASS Southern Regional Director Jim Ewing.

“If you produced and sold $1,000 or more of agricultural product in 2017, or normally would have produced and sold that much, we need to hear from you,” said Ewing. “If you’re a landowner who leases your land to a producer, we need to hear from you. If you received a census but do not fit this definition of a farm, please write your status on the form and send it back.” Ewing noted that NASS has already begun to follow up with producers who have not yet completed the questionnaire. “We sent the questionnaire to many potential farmers and ranchers who may not be familiar with it,” said Ewing.

The Census of Agriculture is the only comprehensive source of Georgia county level data. Georgia agriculture has changed since 2012 and this is the opportunity to quantify that change.

Georgia producers can respond to the 2017 Census of Agriculture online at [www.agcounts.usda.gov](http://www.agcounts.usda.gov) or by mail. The same law, Title 7 USC 2204(g) Public Law 105-113, that requires response also requires NASS to keep all information confidential, to use the data only for statistical purposes, and to only publish in aggregate form to prevent disclosing the identity of any individual producer or farm operation. NASS will release Census results in February 2019.

For more information about the 2017 Census of Agriculture or for assistance with the questionnaire, visit [www.agcensus.usda.gov](http://www.agcensus.usda.gov) or call toll-free (888) 424-7828.

---

**Farm Service Agency Makes Administrative Change to the Livestock Indemnity Program**

Starting today, agricultural producers who have lost livestock to disease, resulting from a weather disaster, have an additional way to become eligible for the [Livestock Indemnity Program](https://www.fsa.usda.gov/livestockindemnity).

In the event of disease, this change by USDA’s Farm Service Agency (FSA) authorizes local FSA county committees to accept veterinarian certifications that livestock deaths were directly related to adverse weather and unpreventable through good animal husbandry and management. The committees may then use this certification to allow eligibility for producers on a case-by-case basis for LIP.
LIP provides benefits to agricultural producers for livestock deaths in excess of normal mortality caused by adverse weather, disease or by attacks by animals reintroduced into the wild by the federal government. Eligible weather events include earthquakes, hail, tornadoes, hurricanes, storms, blizzard and flooding.

Producers interested in LIP or other USDA disaster assistance programs should contact their local USDA service center.

---

**FSA County Committee Elections for 2018**

As the planting, reporting, and harvesting season begins, Georgia State Farm Service Agency (FSA) is initiating the 2018 County Committee Elections. FSA County Committees are a critical component of the day-to-day operations of FSA and allow grassroots input and local administration of federal farm programs. Farmers and ranchers who are elected to serve on FSA County Committees apply their judgment and knowledge to help with the decisions necessary to administer FSA programs in their counties, ensuring the needs of local producers are met. FSA County Committees operate within official federal regulations and provide local input on:

- Income safety-net loans and payments, including setting county average yields for commodities;
- Conservation programs;
- Incentive, indemnity and disaster payments for some commodities;
- Emergency programs; and
- Payment eligibility.

Every eligible agricultural producer should participate in FSA County Committee Elections – whether you are a beginning or established producer, historically underserved producer, or whether you have a large or small operation – because FSA County Committees are your link with the U.S. Department of Agriculture.

Here are some important Election Dates to consider:

**June 15, 2018** – The nomination period begins for specific LAA’s in your local FSA County Office. Forms can be requested by your local FSA County Office.

**August 1, 2018** – Last day to file nomination forms at your local FSA County Office

**November 5, 2018** – Ballots mailed to eligible voters

**December 3, 2018** – Last day to return voted ballots to your local FSA County Office.

**January 1, 2019** – Newly elected county committee members take office.

If you have any questions or would like to nominate a fellow producer or yourself, please contact your local FSA County office.
USDA Reopens Enrollment for Improved Dairy Safety Net Tool

USDA’s Farm Service Agency encourages dairy producers to consider enrolling in the new and improved Margin Protection Program for Dairy (MPP-Dairy), which will provide better protections for dairy producers from shifting milk and feed prices. With changes authorized under the Bipartisan Budget Act of 2018, the U.S. Department of Agriculture’s (USDA) Farm Service Agency (FSA) has set the enrollment period to run from April 9, 2018 to June 1, 2018.

About the Program:

The program protects dairy producers by paying them when the difference between the national all-milk price and the national average feed cost (the margin) falls below a certain dollar amount elected by the producer.

Changes include:

- Calculations of the margin period are monthly rather than bi-monthly.
- Covered production is increased to 5 million pounds on the Tier 1 premium schedule, and premium rates for Tier 1 are substantially lowered.
- An exemption from paying an administrative fee for limited resource, beginning, veteran, and disadvantaged producers. Dairy operators enrolled in the previous 2018 enrollment period that qualify for this exemption under the new provisions may request a refund.

Dairy operations must make a new coverage election for 2018, even if you enrolled during the previous 2018 signup period. Coverage elections made for 2018 will be retroactive to January 1, 2018. All dairy operations desiring coverage must sign up during the enrollment period and submit an appropriate form (CCC-782) and dairy operations may still “opt out” by not submitting a form. All outstanding balances for 2017 and prior years must be paid in full before 2018 coverage is approved.

Dairy producers can participate in FSA’s MPP-Dairy or the Risk Management Agency’s Livestock Gross Margin Insurance Plan for Dairy Cattle (LGM-Dairy), but not both. During the 2018 enrollment period, only producers with an active LGM-Dairy policy who have targeted marketings insured in 2018 months will be allowed to enroll in MPP-Dairy by June 1, 2018; however, their coverage will start only after active target marketings conclude under LGM-Dairy.

USDA has a web tool to help producers determine the level of coverage under the MPP-Dairy that will provide them with the strongest safety net under a variety of conditions. The online resource, which has been updated and available since April 9 at www.fsa.usda.gov/mpptool, allows dairy farmers to quickly and easily combine unique operation data and other key variables to calculate their coverage needs based on price projections. Producers can also review historical data or estimate future coverage based on data projections. The secure site can be accessed via computer, smartphone, tablet or any other platform.

USDA is mailing postcards advising dairy producers of the changes. For more information, visit www.fsa.usda.gov/dairy or contact your local USDA service center.
2018 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their Local County FSA Office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Georgia:

- **May 15, 2018**: Sweet Corn (Planted 8/26-5/15), Tobacco, Tomatoes (Planted 8/16-4/5)
- **July 15, 2018**: All other crops
- **August 15, 2018**: Tomatoes (Planted 7/1-8/15)
- **September 15, 2018**: Sweet Corn (Planted 7/15-8/25)
- **October 15, 2018**: Cabbage (Planted 7/16-9/30)

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the County Office.
- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15. Noninsured Crop Disaster Assistance Program (NAP) policyholders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins. For questions regarding crop certification and crop loss reports, please contact the Local FSA Office.

Other USDA Disaster Assistance Programs

The Bipartisan Budget Act of 2018 removed program year payment limitations and increased the acreage cap for the Tree Assistance Program (TAP), a nationwide program that provides owners of orchards, vineyards and nurseries with cost share assistance to replant eligible trees, bushes, and vines following a natural disaster. For example, the program will help owners of citrus groves in Florida, avocado trees in California, coffee plantations in Puerto Rico and vineyards reduce the cost of replanting, and speed recovery from the loss of fruit and nut trees, bushes, and vines.

Prior to the Act, there was a combined program year payment limitation of $125,000 for ELAP, LIP and LFP per person or legal entity. The Tree Assistance Program (TAP) had its own $125,000 payment limitation. The Act removed the program year per person and legal entity payment limitation for LIP and TAP. As a result of the Act, a $125,000 per person and legal entity single payment limitation applies to the total amount of program year payments received under both ELAP and the Livestock Forage Disaster Program (LFP) and program payments under LIP and TAP no longer have payment limits.

Under the updated program, as amended by the Act, growers are eligible to be partly reimbursed for losses on up to 1,000 acres per program year, double the previous acreage limit of 500 acres.
In total, it is estimated that the Act will enable USDA to provide more than $3 billion in disaster assistance, including the $2.36 billion announced last week to be made available through FSA's new 2017 Wildfires and Hurricanes Indemnity Program. This includes $400 million made available for the Emergency Conservation Program, which helps farmers and ranchers repair damage to farmlands caused by natural disasters. As signups across the country are completed, additional applications will be funded.

According to the U.S. National Oceanic and Atmospheric Administration (NOAA), the United States was impacted by 16 separate billion-dollar disaster events in 2017 including: three tropical cyclones, eight severe storms, two inland floods, a crop freeze, drought and wildfire. More than 25 million people – almost eight percent of the population – were affected by major disasters. From severe flooding in Puerto Rico and Texas to mudslides and wildfires in California, major natural disasters caused catastrophic damages, with an economic impact totaling more than $300 billion.

**For Assistance**

Producers with operations impacted by natural disasters and diseases in 2018 are encouraged to contact their local USDA service center to apply for assistance through ELAP, TAP, LIP and LFP.

### USDA Microloans Help Farmers Purchase Farmland and Improve Property

The U.S. Department of Agriculture (USDA) is offering farm ownership microloans, creating a new financing avenue for farmers to buy and improve property. These microloans are especially helpful to beginning or underserved farmers, U.S. veterans looking for a career in farming, and those who have small and mid-sized farming operations.

The microloan program has been hugely successful, providing more than 16,800 low-interest loans, totaling over $373 million to producers across the country. Microloans have helped farmers and ranchers with operating costs, such as feed, fertilizer, tools, fencing, equipment, and living expenses since 2013. Seventy percent of loans have gone to new farmers.

Now, microloans will be available to also help with farm land and building purchases, and soil and water conservation improvements. FSA designed the expanded program to simplify the application process, expand eligibility requirements and expedite smaller real estate loans to help farmers strengthen their operations. Microloans provide up to $50,000 to qualified producers, and can be issued to the applicant directly from the USDA Farm Service Agency (FSA).

To learn more about the FSA microloan program visit [www.fsa.usda.gov/microloans](http://www.fsa.usda.gov/microloans), or contact your local FSA office.

### FSA Offers Joint Financing Option on Direct Farm Ownership Loans

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](http://www.fsa.usda.gov/direct) are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.
Depending on the applicant’s needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a Direct Farm Ownership Microloan option for smaller financial needs up to $50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a Joint Financing loan is $300,000 and the repayment period for the loan is up to 40 years.

To be eligible, the operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

For more information about FSA Loan programs, contact your local FSA office or visit www.fsa.usda.gov. To find your local FSA office, visit http://offices.usda.gov.

**Maintaining Good Credit History**

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer’s credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt.
- Keep your credit card balances low.
- Avoid suddenly opening or closing existing credit accounts. FSA’s farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report. For more information on FSA farm loan programs, visit www.fsa.usda.gov.

**Nondiscrimination Statement**

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual’s income is derived from any public assistance
program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA’s TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider, employer and lender.

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
