USDA to Issue Disaster Assistance to Help Honeybee, Livestock and Farm-Raised Fish Producers

Farm Bill Program Offers Producers Relief for 2014 Losses in more than 40 States including Georgia

The U.S. Department of Agriculture’s (USDA) Farm Service Agency today announced that nearly 2,700 applicants will begin receiving disaster assistance through the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) for losses experienced from Oct. 1, 2013, through Sept. 30, 2014.

The program, re-authorized by the 2014 Farm Bill, provides disaster relief to livestock, honeybee, and farm-raised fish producers not covered by other agricultural disaster assistance programs. Eligible
losses may include excessive heat or winds, flooding, blizzards, hail, wildfires, lightning strikes, volcanic eruptions and diseases, or in the case of honeybees, losses due to colony collapse disorder. Beekeepers, most of whom suffered honeybee colony losses, represent more than half of ELAP recipients.

The farm bill caps ELAP disaster funding at $20 million per federal fiscal year and the Budget Control Act of 2011, passed by Congress, requires USDA to reduce payments by 7.3 percent, beginning Oct. 1, 2014. To accommodate the number of requests for ELAP assistance, which exceeded 2014 funding, payments will be reduced to ensure that all eligible applicants receive a prorated share.

Today's announcement was made possible by the 2014 Farm Bill, which builds on historic economic gains in rural America over the past six years, while achieving meaningful reform and billions of dollars in savings for the taxpayer. Since enactment, USDA has made significant progress to implement each provision of this critical legislation, including providing disaster relief to farmers and ranchers; strengthening risk management tools; expanding access to rural credit; funding critical research; establishing innovative public-private conservation partnerships; developing new markets for rural-made products; and investing in infrastructure, housing and community facilities to help improve quality of life in rural America. For more information, visit http://www.usda.gov/farmbill.

To learn more about ELAP, visit www.fsa.usda.gov/elap. For more information about USDA Farm Service Agency (FSA) disaster assistance programs, visit disaster.usda.fsa.gov or contact your local FSA office at http://offices.usda.gov.

USDA Implements 2014 Farm Bill Provision to Limit Payments to Non-Farmers

USDA proposed a rule to limit farm payments to non-farmers, consistent with requirements
Congress mandated in the 2014 Farm Bill. The proposed rule limits farm payments to individuals who may be designated as farm managers but are not actively engaged in farm management. In the Farm Bill, Congress gave USDA the authority to address this loophole for joint ventures and general partnerships, while exempting family farm operations from being impacted by the new rule USDA ultimately implements.

The current definition of "actively engaged" for managers, established in 1987, is broad, allowing individuals with little to no contributions to critical farm management decisions to receive safety-net payments if they are classified as farm managers, and for some operations there were an unlimited number of managers that could receive payments.

The proposed rule seeks to close this loophole to the extent possible within the guidelines required by the 2014 Farm Bill. Under the proposed rule, non-family joint ventures and general partnerships must document that their managers are making significant contributions to the farming operation, defined as 500 hours of substantial management work per year, or 25 percent of the critical management time necessary for the success of the farming operation. Many operations will be limited to only one manager who can receive a safety-net payment. Operators that can demonstrate they are large and complex could be allowed payments for up to three managers only if they can show all three are actively and substantially engaged in farm operations. The changes specified in the rule would apply to payment eligibility for 2016 and subsequent crop years for Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) Programs, loan deficiency payments and marketing loan gains realized via the Marketing Assistance Loan program.

As mandated by Congress, family farms will not be impacted. There will also be no change to existing rules for contributions to land, capital, equipment, or labor. Only non-family farm general partnerships or joint ventures comprised of more than one member will be impacted by this proposed rule.

Stakeholders interested in commenting on the proposed definition and changes are encouraged to provide written comments at www.regulations.gov by May 26, 2015. The proposed rule is available at http://go.usa.gov/3C6Kk.

### 2015 ACREAGE REPORTING DATES

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline. Crops reported after their established deadline will be assessed a “late fee” if reported after the dates shown below.

The following acreage reporting dates are applicable for the entire state of Georgia:

- **March 15, 2015**: Pecans, Cabbage (pltd 10/1/14 thru 2/22/15), Onions (pltd 10/21/14 thru 2/21/15)
- **May 15, 2015**: Tobacco, Sweet Corn (pltd 1/1/15 thru 5/15/15), Tomatoes (pltd 1/1/15 thru 5/15/15)
- **July 15, 2015**: ALL other crops for which a specific acreage reporting date is not listed – These include, but are not limited to Corn, Cotton, Grain Sorghum, Peanuts, Soybeans

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must
be reported no later than 15 calendar days after planting is completed.

· If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendars days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.

· If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

MAL and LDP Policy Changes for Crop Years 2015-2018

The Agricultural Act of 2014 authorized 2014-2018 crop year Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs), with a few minor policy changes.

Among the changes, farm-stored MAL collateral transferred to warehouse storage will retain the original loan rate, be allowed to transfer only the outstanding farm-stored quantity with no additional quantity allowed and will no longer require producers to have a paid for measurement service when moving or commingling loan collateral.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2015 MALs and LDPs for wool as well as LDPs for unshorn pelts. MAL and LDP requests for all other eligible commodities will be accepted after harvest. FSA continues to accept MAL and LDP requests for 2014 crops with upcoming deadlines.

Before MAL repayments and LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Additionally, form CCC-902 and CCC-901 must be submitted for the 2014 crop year, if applicable, with a county committee determination and updated subsidiary files.

To be considered eligible for an LDP, producers must have form CCC-633EZ, Page 1 on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed $125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds $900,000 is not eligible to receive
an MLG or LDP.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA’s website www.fsa.usda.gov.

**Final Availability Dates for Marketing Assistance Loans & Loan Deficiency Payments**

- May 31, 2015 - Corn, Grain Sorghum, Soybeans, and Cotton.

**USDA Enhances Farm Storage Facility Loan Program**

The U.S. Department of Agriculture (USDA) expanded the Farm Storage and Facility Loan program, which provides low-interest financing to producers. The enhanced program includes 22 new categories of eligible equipment for fruit and vegetable producers.

Producers with small and mid-sized operations, and specialty crop fruit and vegetable growers, now have access to needed capital for a variety of supplies including sorting bins, wash stations and other food safety-related equipment. A new more flexible alternative is also provided for determining storage needs for fruit and vegetable producers, and waivers are available on a case-by-case basis for disaster assistance or insurance coverage if available products are not relevant or feasible for a particular producer.

Additionally, Farm Storage Facility Loan security requirements have been eased for loans up to $100,000. Previously, all loans in excess of $50,000 and any loan with little resale value required a promissory note/security agreement and additional security, such as a lien on real estate. Now loans up to $50,000 can be secured by only a promissory note/security agreement and some loans between $50,000 and $100,000 will no longer require additional security.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include grains, oilseeds, peanuts, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables. Qualified facilities include grain bins, hay barns and cold storage facilities for fruits and vegetables.

Contact your local FSA office or visit www.fsa.usda.gov for more about FSA programs and loans, including the Farm Storage Facility Loan Program.

The AGI verification and compliance reviews for 2011, 2012, 2013 and 2014 are conducted on producers who the IRS indicated may have exceeded the adjusted gross income limitations described in [7 CFR 1400.500]. Based on this review, producers will receive determinations of eligibility or ineligibility.

If the producer is determined to have exceeded the average AGI limitation of $900,000, receivables will be established for payments earned directly or indirectly (through an entity) by the producer subject to the $900,000 limitation. The Georgia FSA Office has begun notifying producers selected for review. If you have any questions about the review process or determinations, please contact Jennifer B. Carter, Agricultural Program Specialist, with the Georgia FSA Office at 706/546-2262. Producers who receive initial debt notification letters may only appeal the amount of the debt to their
local FSA office. Adverse determinations become administratively final 30 days from the date of the adverse determination letter and can only be reopened if exceptional circumstances exist that prevented the producer from timely filing the appeal.

New Farm Bill Offers Increased Opportunities for Producers

The 2014 Farm Bill offers increased opportunities for producers including farm loan program modifications that create flexibility for new and existing farmers. A fact sheet outlining modifications to the U.S. Department of Agriculture’s (USDA) Farm Service Agency (FSA) Farm Loan Programs is available here.

The Farm Bill expands lending opportunities for thousands of farmers and ranchers to begin and continue operations, including greater flexibility in determining eligibility, raising loan limits, and emphasizing beginning and socially disadvantaged producers.

Changes that will take effect immediately include:

- Elimination of the 15 year term limit for guaranteed operating loans.
- Modification of the definition of beginning farmer, using the average farm size for the county as a qualifier instead of the median farm size.
- Modification of the Joint Financing Direct Farm Ownership Interest Rate to 2 percent less than regular Direct Farm Ownership rate, with a floor of 2.5 percent. Previously, the rate was established at 5 percent.
- Increase of the maximum loan amount for Direct Farm Ownership Down Payment Loan Program from $225,000 to $300,000.
- Elimination of rural residency requirement for Youth Loans, allowing urban youth to benefit.
- Debt forgiveness on Youth Loans, which will not prevent borrowers from obtaining additional loans from the federal government.
- Increase of the guaranteed percentage on Conservation Loans from 75 to 80 percent and 90 percent for socially disadvantaged borrowers and beginning farmers.
- Microloans will not count toward direct operating loan term limits for veterans and beginning farmers.

Additional modifications must be implemented through the rulemaking processes. Visit the FSA Farm Bill website for detailed information and updates to farm loan programs.

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is $5000.
Youth Loan Eligibility Requirements:

Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien

- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

Loans for the Historically Underserved

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.
