SED's Comments

Aloha Producers,

Farmers, ranchers and agricultural producers have new online options to access U.S. Department of Agriculture (USDA) programs. I’d like to strongly encourage all FSA customers to establish online Level 2 access accounts with USDA to facilitate easier application submissions and verification of information and program requirements. The time producers take now to establish access to our online systems will save everyone time and eliminate confusion when applying for current farm programs and future ones that may be implemented and integrated for customer direct access. Through USDA's new streamlined process, producers can now register, track and manage their applications for the Market Facilitation Program (MFP) on the secure and convenient www.farmers.gov. Hawaii and Pacific Basin producers are not authorized for WHIP 2017, but signing up now for on-line access will help streamline applications for new programs that Hawaii and Pacific Basin producers might qualify to receive in the future – sign up now to save time later and get paid quicker. Enrolling is easy! To sign up for eAuthentication Level 2 access producers need to:

- Step 1: Create and online account at www.eauth.usda.gov, select “Request Level 2 Access” or “Changing from Level 1 Access to Level 2 Access”.

**Organic Certification Cost Share Program**

The Organic Certification Cost Share Program (OCCSP) provides cost share assistance to producers and handlers of agricultural products who are obtaining or renewing their certification under the National Organic Program (NOP). Certified operations may receive up to 75 percent of their certification costs paid from Oct. 1, 2017, through Sept. 30, 2018, not to exceed $750 per certification scope. The application deadline for the 2018 program year is Oct. 31, 2018.

Eligible costs include application fees, inspection costs, fees related to equivalency agreement/arrangement requirements, travel/per diem for inspectors, user fees, sales assessments and postage.

Ineligible costs include equipment, materials, supplies, transitional certification fees, late fees and inspections necessary to address National Organic Program regulatory violations.

Producers and handlers may submit OCCSP applications to FSA county offices.

The FSA OCCSP application form is available at USDA’s eForms site, by selecting “Browse forms” and entering "OCCSP" in the "title or keywords" field on the search page.

To learn more about organic certification cost share, visit www.fsa.usda.gov/organic or contact a local FSA office by visiting http://offices.usda.gov.

**Hawaii and Maui County Producers May be Eligible for Emergency Conservation Program Assistance**

Farms and ranches suffering severe damage may be eligible for assistance under the Emergency Conservation Program (ECP) administered by the Hawaii and Maui County Farm Service Agency (FSA).

For land to be eligible, the natural disaster must create new conservation problems that, if untreated, would:

- be so costly to rehabilitate that Federal assistance is or will be needed to return the land to productive agricultural use
- is unusual and is not the type that would recur frequently in the same area
A producer qualifying for ECP assistance may receive cost-share levels not to exceed 75 percent of the eligible cost of restoration measures. No producer is eligible for more than $200,000 cost sharing per natural disaster occurrence. The following types of measures may be eligible:

- removing debris from farmland
- grading, shaping, or releveling severely damaged farmland
- restoring permanent fences
- restoring conservation structures and other similar installations

Producers who have suffered a loss from a natural disaster may contact the local FSA County Office and request assistance from September 21, 2018 to October 23, 2018.

To be eligible for assistance, practices must not be started until all of the following are met:

- an application for cost-share assistance has been filed
- the local FSA County Committee (COC) or its representative has conducted an onsite inspection of the damaged area
- the Agency responsible for technical assistance, such as the Natural Resource Conservation Service (NRCS), has made a needs determination, which may include cubic yards of earthmoving, etc., required for rehabilitation

For more information about ECP, please contact your local county FSA office.

---

**RTCP Deadline Reminder**

Producers are reminded that November 2, 2018 is the last day to submit receipts for the Reimbursement of Transportation Cost Payment Program.

**USDA Market Facilitation Program**

USDA launched the trade mitigation package aimed at assisting farmers suffering from damage due to unjustified trade retaliation by foreign nations. Producers of certain commodities can now sign up for the Market Facilitation Program (MFP).

USDA’s Farm Service Agency (FSA) will administer MFP to provide payments to corn, cotton, dairy, hog, sorghum, soybean, wheat, shelled almond, and fresh sweet cherry producers. An announcement about further payments will be made in the coming months, if warranted.

The sign-up period for MFP runs through Jan. 15, 2019, with information and instructions provided at [www.farmers.gov/mfp](http://www.farmers.gov/mfp). MFP provides payments to producers of eligible commodities who have been significantly impacted by actions of foreign governments resulting in the loss of traditional exports. Eligible producers should apply after harvest is complete, as payments will only be issued once production is reported.
A payment will be issued on 50 percent of the producer’s total production, multiplied by the MFP rate for a specific commodity. A second payment period, if warranted, will be determined by the USDA.

For a list of initial MFP payments rates, view the [MFP Fact Sheet](#).

MFP payments are capped per person or legal entity as follows:

- A combined $125,000 for eligible crop commodities
- A combined $125,000 for dairy production and hogs
- A combined $125,000 for fresh sweet cherries and almonds

Applicants must also have an average adjusted gross income for tax years 2014, 2015, and 2016 of less than $900,000. Applicants must also comply with the provisions of the Highly Erodible Land and Wetland Conservation regulations.

**Expanded Hog Timeline**

USDA has expanded the timeline for producers with whom the Aug. 1, 2018, date does not accurately represent the number of head of live hogs they own. Producers may now choose any date between July 15 to Aug. 15, 2018 that correctly reflects their actual operation.

MFP applications are available online at [www.farmers.gov/mfp](http://www.farmers.gov/mfp). Applications can be completed at a local FSA office or submitted electronically either by scanning, emailing, or faxing. To locate or contact your local FSA office, visit [www.farmers.gov](http://www.farmers.gov).

---

**FSA Offers Joint Financing Option on Direct Farm Ownership Loans**

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](http://directfarmownership.usda.gov/) are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

Depending on the applicant’s needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a [Direct Farm Ownership Microloan](http://directfarmownership.usda.gov/microloan) option for smaller financial needs up to $50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a Joint Financing loan is $300,000 and the repayment period for the loan is up to 40 years.

To be eligible, the operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

USDA Encourages Producers to Consider NAP Risk Protection Coverage

The Farm Service Agency encourages producers to examine available USDA crop risk protection options, including federal crop insurance and Noninsured Crop Disaster Assistance Program (NAP) coverage, before the applicable crop sales deadline.

Producers are reminded that crops not covered by insurance may be eligible for NAP. Beginning, underserved and limited resource farmers are now eligible for free catastrophic level coverage.

Federal crop insurance covers crop losses from natural adversities such as drought, hail and excessive moisture. NAP covers losses from natural disasters on crops for which no permanent federal crop insurance program is available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

Producers can determine if crops are eligible for federal crop insurance or NAP by visiting https://webapp.rma.usda.gov/apps/ActuarialInformationBrowser2018/CropCriteria.aspx.

NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production.

Deadlines for coverage vary by state and crop. To learn more about NAP visit www.fsa.usda.gov/nap or contact your local USDA Service Center. To find your local USDA Service Centers go to http://offices.usda.gov.

Federal crop insurance coverage is sold and delivered solely through private insurance agents. Agent lists are available at all USDA Service Centers or at USDA’s online Agent Locator: http://prodwebnlb.rma.usda.gov/apps/AgentLocator/#. Producers can use the USDA Cost Estimator, https://ewebapp.rma.usda.gov/apps/costestimator/Default.aspx, to predict insurance premium costs.

Hawaii County Eligible for Emergency Loans Following Presidential Disaster Declaration

Hawaii County was declared a primary disaster due to Kilauea Volcanic Eruption and Earthquakes. Under this designation, producers with operations in any primary or contiguous county are eligible to apply for low interest emergency loans.

Emergency loans help producers recover from production and physical losses due to drought, flooding and other natural disasters or quarantine.

Producers have eight months from the date of the declaration to apply for emergency loan assistance. FSA will consider each loan application on its own merits, taking into account the extent of losses, security available and repayment ability. Producers can borrow up to 100 percent of actual production or physical losses, to a maximum amount of $500,000.

For more information about emergency loans, please contact your local FSA office or visit www.fsa.usda.gov.

2019 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local County FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable:
December 16, 2018 - Grazed Forage - 15 days before the onset of grazing

January 2 - Honey

March 15 - Coffee

March 31 - All other non-insurable crops covered by Non-Insured Disaster Assistance Program not listed in this table. Acreage reporting date is by March 31 of the subsequent crop year.

May 31 - Nursery for the ensuing crop year

July 15 - Banana, Papaya, Conservation Reserve Enhancement Program (CREP)

September 30 - Aquaculture, Floriculture, Ginseng, Mushrooms, Turfgrass Sod for the ensuing year

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.

- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.

- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local County FSA office.

**October 2018 Interest Rates**

Farm Operating Loans  3.75%
Farm Operating Microloans  3.75%
Farm Ownership Loans  4.125%
Farm Ownership Microloans  4.125%
Farm Ownership Loans Direct Down Payment for Beginning Farmer or Rancher  1.50%
Emergency Loans  3.750%

**Sign Up Today for Text Alerts from FSA**

Subscribers Can Receive Important Program Reminders and Updates
USDA Farm Service Agency (FSA) farmers and ranchers now can receive notifications from their county office through text messages on their cell phone.

Whether producers are in the field, on a tractor or even on horseback, this service enables FSA customers and stakeholders to receive notifications while on the go. Producers will receive text messages regarding important program deadlines, reporting requirements, outreach events and updates.

Producers can text the short codes below to FSANOW (372-669) to subscribe to text message alerts from their respective counties. Standard text messaging rates apply. Contact your wireless carrier for details associated with your particular data plan. Participants may unsubscribe at any time.

Hawaii County: HPBHawaii
Honolulu County: HPBHonolulu
Kauai County: HPBKauai
Maui County: HPBMaui

Please contact your local FSA office if you have questions regarding FSA’s email news service or the text message option.
