USDA Implements 2014 Farm Bill Provision to Limit Payments to Non-Farmers

USDA proposed a rule to limit farm payments to non-farmers, consistent with requirements Congress mandated in the 2014 Farm Bill. The proposed rule limits farm payments to individuals who may be designated as farm managers but are not actively engaged in farm management. In the Farm Bill, Congress gave USDA the authority to address this loophole for joint ventures and general partnerships, while exempting family farm operations from being impacted by the new rule USDA ultimately implements.

The current definition of "actively engaged" for managers, established in 1987, is broad, allowing individuals with little to no contributions to critical farm management decisions to receive safety-net payments if they are classified as farm managers, and for some operations there were an unlimited

Please contact your local FSA Office for questions specific to your operation or county.

number of managers that could receive payments.

The proposed rule seeks to close this loophole to the extent possible within the guidelines required by the 2014 Farm Bill. Under the proposed rule, non-family joint ventures and general partnerships must document that their managers are making significant contributions to the farming operation, defined as 500 hours of substantial management work per year, or 25 percent of the critical management time necessary for the success of the farming operation. Many operations will be limited to only one manager who can receive a safety-net payment. Operators that can demonstrate they are large and complex could be allowed payments for up to three managers only if they can show all three are actively and substantially engaged in farm operations. The changes specified in the rule would apply to payment eligibility for 2016 and subsequent crop years for Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) Programs, loan deficiency payments and marketing loan gains realized via the Marketing Assistance Loan program.

As mandated by Congress, family farms will not be impacted. There will also be no change to existing rules for contributions to land, capital, equipment, or labor. Only non-family farm general partnerships or joint ventures comprised of more than one member will be impacted by this proposed rule.

Stakeholders interested in commenting on the proposed definition and changes are encouraged to provide written comments at www.regulations.gov by May 26, 2015. The proposed rule is available at <http://go.usa.gov/3C6Kk>.

Beginning Farm Loans

FSA has a program to assist beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

Has operated a farm for not more than 10 years.

Will materially and substantially participate in the operation of the farm

Agrees to participate in a loan assessment, borrower training and financial management

program sponsored by FSA.

Except for operating loan assistance, does not own farm acreage in excess of 30 percent of the county's average size farm, in the county where the farm is located.

Each member of an entity must meet the eligibility requirements. Loan approval is also dependent on acceptable feasibility and security determinations.

Additional program information, loan applications, and other materials are available at the local USDA Service Center or visit www.fsa.usda.gov.

USDA Reminds Farmers of 2014 Farm Bill Conservation Compliance Changes

The 2014 Farm Bill implements a change that requires farmers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 certification form must be on file with the FSA. The Risk Management Agency (RMA), through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes most financial assistance such as the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans and most programs implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs implemented by NRCS.

Many FSA and Natural Resource Conservation Service (NRCS) programs already have implemented this requirement and therefore most producers should already have an AD-1026 form on file for their associated lands. If an AD-1026 form has not been filed or is incomplete, then farmers are reminded of the deadline of June 1, 2015.

When a farmer completes and submits the AD-1026 certification form, FSA and NRCS staff will review the associated farm records and outline any additional actions that may be required to meet the required compliance with the conservation compliance provisions.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov/. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at offices.usda.gov.

April Interest Rates

90-Day Treasury Bill	.125%
Farm Operating Loans — Direct	2.375%
Farm Ownership Loans — Direct	3.375%

USDA Enhances Farm Storage Facility Loan Program

The U.S. Department of Agriculture (USDA) expanded the Farm Storage and Facility Loan program, which provides low-interest financing to producers. The enhanced program includes 22 new categories of eligible equipment for fruit and vegetable producers.

Producers with small and mid-sized operations, and specialty crop fruit and vegetable growers, now have access to needed capital for a variety of supplies including sorting bins, wash stations and other food safety-related equipment. A new more flexible alternative is also provided for determining storage needs for fruit and vegetable producers, and waivers are available on a case-by-case basis for disaster assistance or insurance coverage if available products are not relevant or feasible for a particular producer.

Additionally, Farm Storage Facility Loan security requirements have been eased for loans up to \$100,000. Previously, all loans in excess of \$50,000 and any loan with little resale value required a promissory note/security agreement and additional security, such as a lien on real estate. Now loans up to \$50,000 can be secured by only a promissory note/security agreement and some loans between \$50,000 and \$100,000 will no longer require additional security.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include grains, oilseeds, peanuts, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables. Qualified facilities include grain bins, hay barns and cold storage facilities for fruits and vegetables.

Contact your local FSA office or visit www.fsa.usda.gov for more about FSA programs and loans, including the Farm Storage Facility Loan Program.

Final Availability Dates for Marketing Assistance Loans & Loan Deficiency Payments

USDA to Issue Disaster Assistance to Help Honeybee, Livestock and Farm-Raised Fish Producers

Farm Bill Program Offers Producers Relief for 2014 Losses in more than 40 States including Illinois

The U.S. Department of Agriculture's (USDA) Farm Service Agency today announced that nearly 2,700 applicants will begin receiving disaster assistance through the Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) for losses experienced from Oct. 1, 2013, through Sept. 30, 2014.

The program, re-authorized by the 2014 Farm Bill, provides disaster relief to livestock, honeybee, and farm-raised fish producers not covered by other agricultural disaster assistance programs. Eligible losses may include excessive heat or winds, flooding, blizzards, hail, wildfires, lightning strikes, and diseases, or in the case of honeybees, losses due to colony collapse disorder. Beekeepers, most of whom suffered honeybee colony losses, represent more than half of ELAP recipients.

The farm bill caps ELAP disaster funding at \$20 million per federal fiscal year and the Budget Control Act of 2011, passed by Congress, requires USDA to reduce payments by 7.3 percent, beginning Oct. 1, 2014. To accommodate the number of requests for ELAP assistance, which exceeded 2014 funding, payments will be reduced to ensure that all eligible applicants receive a prorated share.

Today's announcement was made possible by the 2014 Farm Bill, which builds on historic economic gains in rural America over the past six years, while achieving meaningful reform and billions of dollars in savings for the taxpayer. Since enactment, USDA has made significant progress to implement each provision of this critical legislation, including providing disaster relief to farmers and ranchers; strengthening risk management tools; expanding access to rural credit; funding critical research; establishing innovative public-private conservation partnerships; developing new markets for rural-made products; and investing in infrastructure, housing and community facilities to help improve quality of life in rural America. For more information, visit <http://www.usda.gov/farmbill>.

To learn more about ELAP, visit www.fsa.usda.gov/elap. For more information about USDA Farm Service Agency (FSA) disaster assistance programs, visit disaster.usda.fsa.gov or contact your local FSA office at <http://offices.usda.gov>.

Conduct USDA Business Online by Creating an eAuthentication Account

The Internet allows you, the customer, access to USDA information 24 hours a day, seven days a week. You can fill out and submit electronic forms (eForms) any time of the day or night from anywhere you have Internet access. This new service delivery option allows you to complete and file your own forms or applications online, because your signature is already electronically "on file."

Information submitted to the Federal Government remains safe and secure because every customer has a unique User ID and password; only authorized USDA employees can access your information. It's safe, saves paper, saves a visit to your local USDA Service Center and provides electronic tracking of all your USDA transactions.

How to Sign Up for eAuth :

Begin the process by reviewing the information at the USDA Website <https://www.eauth.usda.gov>. This website describes the services available for Level 1 and Level 2 Accounts. Level 1 and Level 2 accounts require that you have an email address so you can register, create a customer profile, and be able to respond to a confirmation email. Level 1 Accounts do not require you to provide proof of your identity at a local USDA Service Center. Level 1 Accounts provide limited access to certain USDA Web site portals that require no authentication or authorization. A Level 2 Account does require a visit to a USDA Service Center with proof of your identity. That is because a Level 2 account allows you access to complete and submit documents and forms electronically.

LEVEL 1 ACCOUNT

STEP 1. To obtain a Level 1 Account, you may self-register online at www.eauth.egov.usda.gov.

Scroll down and click on the button that says "Sign Up for a Level 1 Account." Complete the brief customer profile.

STEP 2. You will receive a confirmation email, and you must respond to it within 7 days to activate your account.

LEVEL 2 ACCOUNT

STEP 1. To obtain a Level 2 Account, you must complete an 18 question customer profile and prove your identity by presenting state or federal photo ID at a local USDA Service Center. Go to www.eauth.egov.usda.gov, scroll down and click on "Sign Up for a Level 2 Account." Complete your customer profile, which includes designating your user ID and password created by you, contact information and email information. The data you enter in your customer profile must match the data on the document you use as identification at your local USDA Service Center. Example: Your first and last names and address must match the government-issued photo ID you plan to use to prove your identity. Identify proof can only be verified by one of the following documents: Current State Driver's License, State Photo ID, US Military ID, or United States Passport.

STEP 2. After completing your customer profile and submitting it online, you will receive a confirmation email, and you must respond to it within 7 days to activate your account.

STEP 3. Then you must complete the "Identify Proofing" process by visiting a local USDA Service Center. You will be required to present the eligible photo ID to an USDA employee who will verify your identity and enter the expiration date of the ID document used.

STEP 4. The USDA employee then will update your customer profile to a Level 2 Account. You will

have access to USDA online applications and forms within one hour of your account being updated.

You now have access to complete and submit documents and forms electronically. USDA continues to update and make more forms and programs available electronically.

USDA is an equal opportunity provider and employer. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
