USDA Extends Deadline to Apply for Pandemic Assistance to Livestock Producers with Animal Losses

The U.S. Department of Agriculture (USDA) is providing additional time for livestock and poultry producers to apply for the Pandemic Livestock Indemnity Program (PLIP). Producers who suffered losses during the pandemic due to insufficient access to processing may now apply for assistance for those losses and the cost of depopulation and disposal of the animals through Oct. 12, 2021, rather than the original deadline of Sept. 17, 2021. PLIP is part of USDA's Pandemic Assistance for Producers initiative.

PLIP provides payments to producers for losses of livestock or poultry depopulated from March 1, 2020 through Dec. 26, 2020, due to insufficient processing access as a result of the pandemic. Payments are based on 80% of the fair market value of the livestock and poultry and for the cost of depopulation and disposal of the animal. Eligible livestock and poultry include swine, chickens and turkeys.

PLIP Program Details

PLIP payments are calculated by multiplying the number of head of eligible livestock or poultry by the payment rate per head, and then subtracting the amount of any payments the eligible livestock or poultry owner has received for disposal of the livestock or poultry under the Natural Resources Conservation Service (NRCS) Environmental Quality Incentives Program (EQIP) or a state program. The payments will also be reduced by any Coronavirus Food Assistance Program (CFAP 1 and 2) payments paid on the same inventory of swine that were depopulated.

Eligible livestock and poultry producers can apply for PLIP through the Oct. 12, 2021 deadline by completing the FSA-620, Pandemic Livestock Indemnity Program application, and submitting it to any Farm Service Agency county office. Additional documentation may be required. Visit farmers.gov/plip more information on how to apply.

Additional Pandemic Assistance

Other programs within the Pandemic Assistance for Producer initiative with upcoming deadlines include:

- 12 - Coronavirus Food Assistance Program 2, which provides critical support to agricultural producers impacted by COVID-19 market disruptions.
- 15 – Pandemic Assistance for Timber Harvesters and Haulers, which provides financial relief to timber harvesting and timber hauling businesses that experienced losses in 2020 due to COVID-19.

To learn more about USDA’s commitment to delivery of financial assistance to farmers, ranchers and agricultural producers and businesses who have been impacted by COVID-19 market disruptions, visit farmers.gov/pandemic-assistance.
USDA Expands Farmers.gov to Include Farm Records

Access Your Land Information in Real Time

Producers with farmers.gov accounts can now access farm records and maps online, the latest self-service feature added to the U.S. Department of Agriculture (USDA) website.

You can quickly and easily access your land information in real time by desktop computer, tablet or phone. Capabilities include:

- View, print and export detailed farm records such as cropland, base acres, yields, CRP acres, land ownership details, and much more;
- View, print and export farm/tract maps that can be provided to lenders, chemical or fertilizer providers, and FSA for reporting acreage and crop insurance agents; and
- Export common land unit (field) boundaries as ESRI shapefiles.

The ability to access these records on demand without a visit to the service center saves you time and money.

Farmers.gov now includes the most popular functionalities from FSAFarm+, the FSA portal for producers, while providing enhanced functionality and an improved user experience. A new enhancement expands the scope of accessibility to include farmers and ranchers who are members of an entity, as well as people with a power of attorney form (FSA-211) on file with FSA.

Managing USDA Business Online

Using farmers.gov, producers, entities and those acting on their behalf can also:

- View, upload, download, and e-sign conservation documents.
- Request financial assistance, including submitting a program application.
- View and submit conservation requests.
- View technical references and submit questions.
- Access information on current and past conservation practices, plans and contracts.
- Report practice completion and request practice certification.
- View farm loan and interest information (producers only).

Future plans include adding the ability to import and view other shapefiles, such as precision agriculture planting boundaries.

To access your information, you'll will need a USDA eAuth account to login to farmers.gov. After obtaining an eAuth account, producers should visit farmers.gov and sign into the site's authenticated portal via the Sign In/Sign Up link at the top right of the website. Google Chrome, Mozilla Firefox or Microsoft Edge are the recommended browsers to access the feature.

In addition to the self-service features available by logging into farmers.gov, the website also has ample information on USDA programs, including pandemic assistance, farm loans, disaster assistance, conservation programs and crop insurance. Recently, USDA updated the navigation and organization of the site as well as added some new webpages, including "Get Involved," "Common Forms," and "Translations." Learn more about these changes.
Farm Records & Banking Information

Keeping your farm records up to date with FSA is important in preventing delays in benefits and service. Please promptly report any changes such as:

- Address, zip code, phone number, email address or an incorrect name or business name on file to our office.
- Farm operations, like the addition of a farm by lease or purchase.
- Reorganization to form a Trust, LLC or other legal entity.
- Adding/removing members or share revisions within your entity.
- Banking information - account closed or your financial institution merging with another financial institution.

FSA and NRCS program participants are required to promptly report changes in their farming operation to the County Committee in writing and to update their Farm Operating Plan on form CCC-902.

FSA program payments are issued electronically into your bank account. Payments can be delayed if FSA is not notified of changes to account and bank routing numbers.

For some programs, payments are not made until the following year. For example, payments for crop year 2019 through the Agriculture Risk Coverage and Price Loss Coverage program weren’t paid until 2020. If the bank account has closed due to the death of an individual or dissolution of an entity or partnership before the payment was issued, please notify your local FSA office as soon as possible to claim your payment.

To update your records, contact your local USDA Service Center.
