### State Committee:

David Duncan, Chair  
Lee Robey  
James Kay  
Joe Spalding  
Carrie Divine

### State Executive Director:

John W. McCauley  
Phone: 859-224-7601

### Executive Officer:

Robert W. Finch  
Phone: 859-224-7696

### Administrative Officer:

Debbie Wakefield  
Phone: 859-224-7622

### Acting, Program Chief:

Jason Issac  
Janelle Gardner-Cox  
Phone: 859-224-7637

### Farm Loan Chief:

Mike Hoyt  
Phone: 859-224-7440

## USDA's Building Blocks for Climate Smart Agriculture and Forestry

The U.S. Department of Agriculture announced a comprehensive and detailed approach to support farmers, ranchers, and forest land owners in their response to address the causes of climate change in April 2015. The framework consists of 10 building blocks that span a range of technologies and practices to reduce greenhouse gas emissions, increase carbon storage, and generate clean renewable energy through mitigation.

USDA's strategy focuses on climate-smart practices designed for working production systems that provide multiple economic and environmental benefits in addition to supporting resilience to extreme weather, reduced emissions and increased carbon storage.

Through this comprehensive set of voluntary programs and initiatives spanning its programs, USDA expects to reduce net emissions and enhance carbon sequestration by over 120 million metric tons of CO<sub>2</sub> equivalent (MMTCO<sub>2</sub>e) per year – about 2% of economy-wide net greenhouse emissions – by 2025. That's the equivalent of taking 25 million cars off the road, or offsetting the emissions produced by powering nearly 11 million homes last year.

For more information on the Building Blocks for Climate Smart Agriculture and Forestry click the following link: <http://www.usda.gov/documents/climate-smart-fact-sheet.pdf>. For additional information on ways to consider greenhouse gases when managing land, refer to the USDA Climate Hub webpage: <http://www.climatehubs.oce.usda.gov/>.

## FSA Unveils Monthly Webinar Series

The FSA Outreach and Education Division will host a series of webinars each month to inform producers about FSA programs and initiatives. To register for any of the below listed webinars, visit [www.fsa.usda.gov/outreach](http://www.fsa.usda.gov/outreach) and click on "Outreach Webinars."

### July 19 @ 2 p.m. EDT

#### Understanding Receipt for Service

To ensure that all USDA customers and potential customers are being served properly in local offices, the 2014 Farm Bill requires that a receipt be provided. Learn more about Receipt for Service, how it affects you and what you can expect when you visit a local Farm Service Agency county office.

### Aug. 9 @ 2 p.m. EDT

#### Need Commodity Storage? The Farm Storage Facility Loan (FSFL) Can Help

The Farm Storage Facility Loan Program provides low-interest financing so producers can build or upgrade permanent or portable facilities to

*Continued on page 2*

store commodities. Learn how this program may be able to help your operation.

*Persons with disabilities who require accommodations to attend or participate in these webinars should contact Tanya Brown at 202-690-1700 or Federal Relay Service at 1-800-877-8339 at least three business days prior to the webinar.*

The webinars will be recorded for future viewing and can be accessed on [www.fsa.usda.gov/outreach](http://www.fsa.usda.gov/outreach).

### **FSA Offers Improved Program to Limit Losses on Forages**

Reduced forage quality is now considered a production loss for weather disaster assistance coverage under the new buy-up provisions of the Farm Service Agency (FSA) Noninsured Crop Disaster Assistance Program (NAP).

This safety net is important for cattlemen who produce non-insurable forages for feeding livestock. Previously, FSA only considered a decrease in overall forage tonnage produced when determining if the producer suffered a compensable loss after a qualifying weather event. Under FSA's new NAP buy-up provisions, a decrease in forage quality – such as protein content – is also considered.

To receive coverage for the 2017 crop year, producers must enroll their eligible wheat, rye, oats and triticale for forage in NAP by September 1, 2016. Beginning, limited resource and targeted underserved farmers or ranchers are eligible for a waiver of the NAP service fee and a 50 percent premium reduction in buy-up provisions.

For more information on NAP, visit [www.fsa.usda.gov/nap](http://www.fsa.usda.gov/nap).

### **USDA Unveils New Improvement to Streamline Crop Reporting**

*Update Lets Farmers and Ranchers Report Common Acreage Information Once*

Farmers and ranchers filing crop acreage reports with the Farm Service Agency (FSA) and participating insurance providers approved by the Risk Management Agency (RMA) now can provide the common information from their acreage reports at one office and the information will be electronically shared with the other location.

This new process is part of the USDA Acreage Crop

Reporting Streamlining Initiative (ACRSI). This inter-agency collaboration also includes participating private crop insurance agents and insurance companies, all working to streamline the information collected from farmers and ranchers who participate in USDA programs.

Once filing at one location, data that's important to both FSA and RMA will be securely and electronically shared with the other location avoiding redundant and duplicative reporting, as well as saving farmers and ranchers time.

Since 2009, USDA has been working to streamline the crop reporting process for agricultural producers, who have expressed concerns with providing the same basic common information for multiple locations. In 2013, USDA consolidated the deadlines to 15 dates for submitting these reports, down from the previous 54 dates at RMA and 17 dates for FSA. USDA representatives believe farmers and ranchers will experience a notable improvement in the coming weeks as they approach the peak season for crop reporting later this summer.

More than 93 percent of all annual reported acres to FSA and RMA now are eligible for the common data reporting, and USDA is exploring adding more crops. Producers must still visit both locations to validate and sign acreage reports, complete maps or provide program-specific information. The common data from the first-filed acreage report will now be available to pre-populate and accelerate completion of the second report. Plans are underway at USDA to continue building upon the framework with additional efficiencies at a future date.

Farmers and ranchers are also reminded that they can now access their FSA farm information from the convenience of their home computer. Producers can see field boundaries, images of the farm, conservation status, operator and owner information and much more.

The new customer self-service portal, known as **FSAFarm+**, gives farmers and ranchers online access to securely view, print or export their personal farm data. To enroll in the online service, producers are encouraged to contact their local FSA office for details. To find a local FSA office in your area, visit <http://offices.usda.gov>.

## **Farm Service Agency (FSA) and Risk Management Agency (RMA) to Prevent Fraud, Waste, and Abuse**

FSA supports the RMA in the prevention of fraud, waste and abuse of the Federal Crop Insurance Program. FSA has been, and will continue to, assist RMA and insurance providers by monitoring crop conditions throughout the growing season. FSA will continue to refer all suspected cases of fraud, waste and abuse directly to RMA. Producers can report suspected cases to the county office staff, the RMA office, or the Office of the Inspector General.

### **Producers are Encouraged to Report Prevented Planting and Failed Acres**

USDA Farm Service Agency (FSA) reminds producers to report prevented planting and failed acres in order to establish or retain FSA program eligibility for some programs.

Producers should report crop acreage they intended to plant, but due to natural disaster, were prevented from planting. Prevented planting acreage must be reported on form CCC-576, *Notice of Loss*, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

Contact your local FSA office for a list of final planting dates by crop.

If a producer is unable to report the prevented planting acreage within the 15 calendar days following the final planting date, a late-filed report can be submitted. Late-filed reports will only be accepted if FSA conducts a farm visit to assess the eligible disaster condition that prevented the crop from being planted. A measurement service fee will be charged.

Additionally, producers with failed acres should also use form CCC-576, *Notice of Loss*, to report failed acres.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, *Notice of Loss*, within the required 15 calendar days.

For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), producers must file a *Notice of Loss* within 15 days of the occurrence of the disaster or when losses become apparent. Producers must timely file a *Notice of Loss* for failed acres on all crops including grasses.

### **Farmers to Receive Documentation of USDA Services**

Farm Service Agency (FSA) reminds agricultural producers that FSA provides a receipt to customers who request or receive assistance or information on FSA programs.

The 2014 Farm Bill requires a customer receipt to be issued for any agricultural program assistance requested from FSA, the National Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity. Electronic receipts for acreage reports will begin on August 1, 2016.

A service is any information, program or loan assistance provided whether through a visit, email, fax or letter.

### **USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers**

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal under-

writing criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit [www.fsa.usda.gov/microloans](http://www.fsa.usda.gov/microloans).

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, visit [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans).

## Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

### Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

USDA is an equal opportunity provider, employer, and lender.
