Secretary Vilsack Announces Additional 800,000 Acres Dedicated to Conservation Reserve Program for Wildlife Habitat and Wetlands

Secretary Hails Program's 30th Anniversary, Announces General Signup Period

Agriculture Secretary Tom Vilsack announced that an additional 800,000 acres of highly environmentally sensitive land may be enrolled in Conservation Reserve Program (CRP) under certain wetland and wildlife initiatives that provide multiple benefits on the same land.

The U.S. Department of Agriculture (USDA) will accept new offers to participate in CRP under a general signup to be held Dec. 1, 2015, through Feb. 26, 2016. Eligible existing program participants with contracts expiring Sept. 30, 2015, will be granted an option for one-year extensions. Farmers and ranchers interested in removing sensitive land from agricultural production and planting grasses or trees to reduce soil erosion, improve water quality and restore wildlife habitat are encouraged to enroll.

For 30 years, the Conservation Reserve Program has helped farmers and ranchers prevent more than 8 billion tons of soil from eroding, reduce nitrogen and phosphorous runoff relative to cropland by 95 and 85 percent respectively, and even sequester 43 million tons of greenhouse gases annually, equal to taking 8 million cars off the road.

The voluntary Conservation Reserve Program allows USDA to contract with agricultural producers so that environmentally sensitive land is conserved. Participants establish long-term, resource-conserving plant species to control soil erosion, improve

water quality and develop wildlife habitat. In return, USDA's Farm Service Agency (FSA) provides participants with rental payments and cost-share assistance. Contract duration is between 10 and 15 years.

CRP protects water quality and restores significant habitat for ducks, pheasants, turkey, quail, deer and other important wildlife which spurs economic development like hunting and fishing, outdoor recreation and tourism across rural America. Today's announcement allows an additional 800,000 acres for duck nesting habitat and other wetland and wildlife habitat initiatives to be enrolled in the program.

Farmers and ranchers should consider the various CRP continuous sign-up initiatives that may help target specific resource concerns. Financial assistance is offered for many practices including conservation buffers and pollinator habitat plantings, and initiatives such as the highly erodible lands, bottomland hardwood tree and longleaf pine.

Farmers and ranchers may visit their FSA county office for additional information. The 2014 Farm Bill authorized the enrollment of grasslands in CRP and information on grasslands enrollment will be available after the regulation is published later this summer.

For more information on CRP and other FSA programs, please visit www.fsa.usda.gov.

Farm Service Agency County Committee Nomination Period Begins June 15

The U.S. Department of Agriculture announced that the nomination period for local Farm Service Agency (FSA) county committees begins on Monday, June 15, 2015.

It is important for county committees to reflect America's diversity, all eligible farmers and ranchers, including beginning farmers are encouraged to get involved in this year's elections. FSA has seen an increase in the number of nominations for qualified candidates, especially among women and minorities – a trend the Agency would like to see continue.

To be eligible to serve on a FSA county committee, a person must participate or cooperate in an agency administered program, be eligible to vote in a county committee election and reside in the local administrative area where they are nominated.

Farmers and ranchers may nominate themselves or others. Organizations representing minorities and women also may nominate candidates. To become a candidate, an eligible individual must sign an FSA-669A nomination form. The form and other information about FSA county committee elections are available at www.fsa.usda.gov/elections. Nomination forms for the 2015 election must be postmarked or received in the local USDA Service Center by close of business on Aug. 3, 2015.

FSA will mail election ballots to eligible voters beginning Nov. 9, 2015. Ballots will be due back to the local county office either via mail or in person by Dec. 7, 2015. Newly elected committee members and alternates will take office on Jan. 1, 2016.

While FSA county committees do not approve or deny farm ownership or operating loans, they make decisions on disaster and conservation programs, emergency programs, commodity price support loan programs and other agricultural issues. Members serve three-year terms. Nationwide, there are about 7,800 farmers and ranchers serving on FSA county committees. Committees consist of three to 11 members that are elected by eligible producers.

USDA Packages Disaster Protection with Loans to Benefit Specialty Crop and Diversified Producers

Free basic coverage and discounted premiums available for new and underserved loan applicants

U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) announced that producers who apply for FSA farm loans also will be offered the opportunity to enroll in new disaster loss protections created by the 2014 Farm Bill. The new coverage, available from the Noninsured Crop Disaster Assistance Program (NAP), is available to FSA loan applicants who grow non-insurable crops, so this is especially important to fruit and vegetable producers and other specialty crop growers.

New, underserved and limited income specialty growers who apply for farm loans could qualify for basic loss coverage at no cost, or higher coverage for a discounted premium.

The basic disaster coverage protects at 55 percent of the market price for crop losses that exceed 50 percent of production. Covered crops include “specialty” crops, for instance, vegetables, fruits, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, hay, forage, grazing and energy crops. FSA allows beginning, underserved or limited income producers to obtain NAP coverage up to 90 days after the normal application closing date when they also apply for FSA credit.

In addition to free basic coverage, beginning, underserved or limited income producers are eligible for a 50 percent discount on premiums for the higher levels of coverage that protect up to 65 percent of expected production at 100 percent of the average market price. Producers also may work with FSA to protect value-added production, such as organic or direct market crops, at their fair market value in those markets. Targeted underserved groups eligible for free or discounted coverage are American Indians or Alaskan Natives, Asians, Blacks or African Americans, Native Hawaiians or other Pacific Islanders, Hispanics, and women.

FSA offers a variety of loan products, including farm ownership loans, operating loans and microloans that have a streamlined application process.

Growers need not apply for an FSA loan, nor be a beginning, limited resource, or underserved farmer, to be eligible for Noninsured Crop Disaster Assistance Program assistance. To learn more, visit www.fsa.usda.gov/nap or www.fsa.usda.gov/farmloans, or contact your local FSA office at <https://offices.usda.gov>.

Filing a Notice of Loss

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a *Notice of Loss* is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576, *Notice of Loss*, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, *Notice of Loss*, within the required 15 calendar days.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

Agricultural Producers in Maryland Still Have Time to Apply for Direct Farm Ownership Loan Program

Low-Interest Loans Can Help Producers Start or Expand Farms

The U.S. Department of Agriculture (USDA) Maryland Farm Service Agency (FSA) announced that farmers and ranchers still have time to apply for low interest loans available through the FSA direct farm ownership program. Applications must be approved by Sept. 30, 2015, to take advantage of the funding available.

Eligible farmers and ranchers can borrow up to \$300,000 to buy farmland, construct or repair buildings, pay closing costs, or promote soil and water conservation. The interest rate can be as low as 1.5 percent with up to 40 years to repay.

New farmers and ranchers, military veterans, and underserved farmers and ranchers also are encouraged to apply. Each year Congress targets 80 percent of available loan funds to beginning and targeted underserved farmers and ranchers. Targeted underserved groups include American Indians or Alaskan Natives, Asians, Blacks or African Americans, Native Hawaiians, or other Pacific Islanders, Hispanics and women.

For more information about farm loan, visit www.fsa.usda.gov/farmloans, or contact your local FSA office. To find your local FSA county office, visit <https://offices.usda.gov>.

Farm Service Agency (FSA) and Risk Management Agency (RMA) to Prevent Fraud, Waste, and Abuse

FSA supports the RMA in the prevention of fraud, waste and abuse of the Federal Crop Insurance Program. FSA has been, and will continue to, assist RMA and insurance providers by monitoring crop conditions throughout the growing season. FSA will continue to refer all suspected cases of fraud, waste and abuse directly to RMA. Producers can report suspected cases to the county office staff, the RMA office, or the Office of the Inspector General.

Save Time – Make an Appointment with FSA

To insure maximum use of your time and to insure that you are afforded our full attention to your important business needs, please call our office ahead of your visit to set an appointment and to discuss any records or documentation that you may need to have with you when you arrive for your appointment. For local FSA Service Center contact information, please visit:
