### USDA Extends Dairy Margin Protection Program Deadline

USDA's Farm Service Agency (FSA) announced that the deadline to enroll for the dairy Margin Protection Program for coverage in 2016 has been extended until Nov. 20, 2015. The voluntary program, established by the 2014 Farm Bill, provides financial assistance to participating farmers when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the farmer.

Producers are encouraged to use the online Web resource at [www.fsa.usda.gov/mpptool](http://www.fsa.usda.gov/mpptool) to calculate the best levels of coverage for their dairy operation. The secure website can be accessed via computer, smartphone or tablet.

Producers who were enrolled in 2015 will need to make a coverage election for 2016 and pay the \$100 administration fee. Although any unpaid premium balances for 2015 must be paid in full by the enrollment deadline to remain eligible for higher coverage levels in 2016, premiums for 2016 are not due until Sept. 1, 2016. Also, producers can work with milk marketing companies to remit premiums on their behalf.

To enroll in the Margin Protection Program for Dairy, contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

Payments under the program may be reduced by a certain percentage due to a sequester order required by Congress and issued pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985. Should a payment reduction be necessary, FSA will reduce the payment by the required amount.

## 2016 Acreage Reporting of PRF and Perennial Forage

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA Office to file an accurate crop certification report by the applicable deadline for PRF/Perennial Forage (grass intended for grazing or hay). Programs that require certification of PRF and/or Perennial Forage include the Noninsured Crop Disaster Assistance Program (NAP), Livestock Forage Disaster Program (LFP) and the Agriculture Risk Coverage (ARC) and Price Loss Coverage Program (PLC).

Perennial Forage includes but is not limited to grass, alfalfa, birdsfoot trefoil, clover and mixed forage intended for hay or grazing. PRF includes acreage insured as PRF with crop insurance.

The acreage reporting deadline for PRF/Perennial Forage is **December 15, 2015**.

The following exceptions apply to the above acreage reporting date:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is complete.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing" or "seed," then the acreage must be reported by July 15th.

NAP policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

## USDA Commits \$2.5 Million to Expand New Farmer Education

*Training Will also Help Returning Service Members, Underserved, and Urban Producers*

U.S. Department of Agriculture (USDA) has announced that \$2.5 million in grants is now available for projects to educate new and underserved farmers about more than 20 Farm Service Agency (FSA) programs that can provide financial, disaster or technical assistance to the agricultural community.

The grants will be awarded to nonprofits and public higher education institutions that develop proposals to improve farmer education on topics such as financial training, value-added production, recordkeeping, property inheritance, and crop production practices.

USDA will conduct four evaluation periods to review applications, with the deadlines of Nov. 20, 2015, Jan. 22, 2015, Mar. 18, 2016, and May 27, 2016. Awards between \$20,000 and \$100,000 per applicant will be available. To learn more about the funding solicitation and the related Farm Service Agency programs, details can be found at [www.grants.gov](http://www.grants.gov) with the reference number USDA-FSA-CA-2015-001. Additional information is posted on the Web at [www.fsa.usda.gov/outreach](http://www.fsa.usda.gov/outreach).

## Breaking New Ground

Agricultural producers are reminded to consult with FSA and NRCS before breaking out new ground for production purposes as doing so without prior authorization may put a producer's federal farm program benefits in jeopardy. This is especially true for land that must meet Highly Erodible Land (HEL) and Wetland Conservation (WC) provisions.

Producers with HEL determined soils are required to apply tillage, crop residue and rotational requirements as specified in their conservation plan.

Producers should notify FSA as a first point of contact prior to conducting land clearing or drainage type projects to ensure the proposed actions meet compliance criteria such as clearing any trees to create new cropland, then these areas will need to be reviewed to ensure such work will not risk your eligibility for benefits.

Landowners and operators complete the form AD-1026 - Highly Erodible Land Conservation (HEL) and Wetland Conservation (WC) Certification to identify the proposed action and allow FSA to determine whether a referral to Natural Resources Conservation Service (NRCS) for further review is necessary.

---

## Unauthorized Disposition of Grain

If loan grain has been disposed of through feeding, selling or any other form of disposal without prior written authorization from the county office staff, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer's name will be placed on a loan violation list for a two-year period. Always call before you haul any grain under loan.

---

## Direct Loans

FSA offers direct farm ownership and direct farm operating Loans to producers who want to establish, maintain or strengthen their farm or ranch. FSA loan officers process, approve and service direct loans.

Direct farm operating loans can be used to purchase livestock and feed, farm equipment, fuel, farm chemicals, insurance and other costs including family living expenses. Operating loans can also be used to finance minor improvements or repairs to buildings and to refinance some farm-related debts, excluding real estate.

Direct farm ownership loans can be used to purchase farmland, enlarge an existing farm, construct and repair buildings, and to make farm improvements.

The maximum loan amount for both direct farm ownership and operating loans is \$300,000 and a down payment is not required. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your local FSA office for more information or to apply for a direct farm ownership or operating loan.

## Guaranteed Loan Program

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.

FSA can guarantee farm ownership and operating loans up to \$1,392,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans.

Selected Interest Rates for October 2015		Dates to Remember	
90-Day Treasury Bill	.125%		
Farm Operating Loans — Direct	2.625%	Nov 20	Sales Closing Date for 2016 NAP Coverage for perennial crops (other than those intended for forage), peaches, apples, cherries, grapes and berries
Farm Ownership Loans — Direct	3.75%	Nov 20	Enrollment Deadline for the dairy Margin Protection Program for coverage in 2016
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher	1.50%	Dec 1	Sales Closing Date for 2016 NAP Coverage for honey and maple sap
Emergency Loans	3.625%	Dec 15	Acreage reporting deadline for fall forage seeding, perennial forage, and fall-seeded small grains
Farm Storage Facility Loans (7 years)	1.875%	Dec 31	Sales Closing Date for 2016 NAP Coverage for potatoes
