## Maryland FSA Newsletter

---

### Maryland Farm Service Agency

339 Busch's Frontage Road, Suite 104  
Annapolis, MD 21409

Phone: (443) 482-2760

[www.fsa.usda.gov/md](http://www.fsa.usda.gov/md)

#### State Committee:

William Malkus,  
Chairperson  
Pamela S. Callahan  
David Patrick  
Sarah Rider  
William D. Walmsley

#### State Executive Director:

Linda D. Slacum

#### Farm Loan

##### Program Chief:

Cheryl Walker

##### Farm Programs Chief:

Bob Wevodau

Please contact your [local FSA Office](#) for questions specific to your operation or county.

### Changing Administrative Counties

Producers who wish to transfer their farm records to a different administrative county for Fiscal Year (FY) 2016 must file a request no later than August 1, 2016. Restrictions do apply when transferring to an office other than the county in which the land is physically located. Contact your local FSA office for more information.

---

### Double-Cropping

Each year, state committees will review and approve or disapprove county committee recommended changes or additions to specific combinations of crops.

Double-cropping is approved when the two specific crops have the capability to be planted and carried to maturity for the intended use, as reported by the producer, on the same acreage within a crop year under normal growing conditions. The specific combination of crops recommended by the county committee must be approved by the state committee.

Double-cropping is approved in Maryland on a county-by-county basis. Contact your local FSA Office for a list of approved double-cropping combinations for your county.

A crop following a cover crop terminated according to termination guidelines is approved double cropping and these combinations do not have to be approved by the state committee.

## USDA Expands Safety-Net for Dairy Operations Adding Next-Generation Family Members

Dairy farms participating in the Margin Protection Program (MPP) can now update their production history when an eligible family member joins the operation. The voluntary program, established by the 2014 Farm Bill, protects participating dairy producers when the margin – the difference between the price of milk and feed costs – falls below levels of protection selected by the applicant.

The U.S. Department of Agriculture's (USDA) Farm Service Agency (FSA) published a final rule which makes these changes effective on April 13, 2016. Any dairy operation already enrolled in the Margin Protection Program that had an intergenerational transfer occur will have an opportunity to increase the dairy operations production history during the 2017 registration and annual coverage election period. The next election period begins on July 1, 2016, and ends on Sept. 30, 2016. For intergenerational transfers occurring on or after July 1, 2016, notification must be made to the FSA within 60 days of purchasing the additional cows. Each participating dairy operation is authorized one intergenerational transfer at any time of its choosing until 2018.

For \$100 a year, dairy producers can receive basic catastrophic protection that covers 90 percent of milk production at a \$4 margin coverage level. For additional premiums, operations can protect 25 to 90 percent of production history with margin coverage levels from \$4.50 to \$8, in 50 cent increments. Annual enrollment in the program is required in order to receive margin protection. The final rule also provides improved risk protection for dairy farmers that pay premiums to buy-up higher levels of coverage by clarifying that 90 percent of production is covered below the \$4 level even if a lower percentage was selected above the \$4 margin.

Earlier this year, FSA gave producers the opportunity to pay their premium through additional options including via their milk cooperative or handler. This rule facilitates those options and also clarifies that the catastrophic level protection at \$4 will always cover 90 percent of the production history, even if a producer selected a less than a 90 percent percentage for the buy-up coverage.

Assuming current participation, had the Margin Protection Program existed from 2009 to 2014, premiums and fees would have totaled \$500 million while providing producers with \$2.5 billion in financial assistance, nearly \$1 billion more than provided by the old Milk Income Loss Contract program during the same period.

For more information, visit FSA online at [www.fsa.usda.gov/dairy](http://www.fsa.usda.gov/dairy) or stop by a local FSA office and ask about the Margin Protection Program. To find a local FSA office in your area, visit <http://offices.usda.gov>.

## CRP Payment Limitation

Payments and benefits received under the Conservation Reserve Program (CRP) are subject to the following:

- payment limitation by direct attribution
- foreign person rule
- average adjusted gross income (AGI) limitation

The 2014 Farm Bill continued the \$50,000 maximum CRP payment amount that can be received annually, directly or indirectly, by each person or legal entity. This payment limitation includes all annual rental payments and incentive payments (Sign-up Incentive Payments and Practice Incentive Payments). Annual rental payments are attributed (earned) in the fiscal year in which program performance occurs. Sign-up Incentive Payments (SIP) are attributed (earned) based on the fiscal year in which the contract is approved, not the fiscal year the contract is effective. Practice Incentive Payments (PIP) are attributed (earned) based on the fiscal year in which the cost-share documentation is completed and the producer or technical service provider certifies performance of practice completion to the county office.

Such limitation on payments is controlled by direct attribution.

- Program payments made directly or indirectly to a person are combined with the pro rata interest held in any legal entity that received payment, unless the payments to the legal entity have been reduced by the pro rata share of the person.
- Program payments made directly to a legal entity are attributed to those persons that have a direct and indirect interest in the legal entity, unless the payments to the legal entity have been reduced by the pro rata share of the person.
- Payment attribution to a legal entity is tracked through four levels of ownership. If any part of the ownership interest at the fourth level is owned by another legal entity, a reduction in payment will be applied to the payment entity in the amount that represents the indirect interest of the fourth level entity in the payment entity.

Essentially, all payments will be “attributed” to a person’s Social Security Number. Given the current CRP annual rental rates in many areas, it is important producers are aware of how CRP offered acreages impact their \$50,000 annual payment limitation. Producers should contact their local FSA office for additional information.

NOTE: The information in the above article only applies to contracts subject to 4-PL and 5-PL regulations. It does not apply to contracts subject to 1-PL regulations.

## USDA Regional Climate Change Hubs

Agriculture Secretary Tom Vilsack established the first ever USDA Regional Climate Change Hubs in February 2014 at seven locations around the country to provide more information to farmers, ranchers and forest landowners on the increasing risks of fires, pests, floods, and droughts associated with a changing climate. For general information on Climate Hubs,

visit <http://www.climatehubs.oce.usda.gov/sites/default/files/USDA%20Regional%20Hubs%20for%20Risk%20Adaptation%20and%20Mitigation%20to%20Climate%20Change%202015.pdf> For information on the Climate Hub in your Region, visit <http://climatehubs.oce.usda.gov> and Click on the region to learn more.

---

## Guaranteed Conservation Loans

Guaranteed Conservation Loans are available for applicants to install a conservation practice. These funds may be used for any conservation activities included in a conservation plan or Forest Stewardship Management plan. A copy of the conservation plan is required to complete the application. These loans are not limited to just family farmers. In some cases, applicants can operate non-eligible enterprises. Loan funds are issued by a participating commercial lender and guaranteed up to 80 percent by FSA or up to 90 percent for beginning and historically underserved producers.

---

## USDA Packages Disaster Protection with Loans to Benefit Specialty Crop and Diversified Producers

*Free basic coverage and discounted premiums available for new and underserved loan applicants*

Producers who apply for FSA farm loans will be offered the opportunity to enroll in new disaster loss protections created by the 2014 Farm Bill. The new coverage, available from the Noninsured Crop Disaster Assistance Program (NAP), is available to FSA loan applicants who grow non-insurable crops, so this is especially important to fruit and vegetable producers and other specialty crop growers.

New, underserved and limited income specialty growers who apply for farm loans could qualify for basic loss coverage at no cost, or higher coverage for a discounted premium.

The basic disaster coverage protects at 55 percent of the market price for crop losses that exceed 50 percent of production. Covered crops include “specialty” crops, for instance, vegetables, fruits, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, hay, forage, grazing and energy crops. FSA allows beginning, underserved or limited income producers to obtain NAP coverage up to 90 days after the normal application closing date when they also apply for FSA credit.

In addition to free basic coverage, beginning, underserved or limited income producers are eligible for a 50 percent discount on premiums for the higher levels of coverage that protect up to 65 percent of expected production at 100 percent of the average market price. Producers also may work with FSA to protect value-added production, such as organic or direct market crops, at their fair market value in those markets. Targeted underserved groups eligible for free or discounted coverage are American Indians or Alaskan Natives, Asians, Blacks or African Americans, Native Hawaiians or other Pacific Islanders, Hispanics, and women.

FSA offers a variety of loan products, including farm ownership loans, operating loans and microloans that have a streamlined application process.

Growers need not apply for an FSA loan, nor be a beginning, limited resource, or underserved farmer, to be eligible for Noninsured Crop Disaster Assistance Program assistance. To learn more, visit [www.fsa.usda.gov/nap](http://www.fsa.usda.gov/nap) or [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans), or contact your local FSA office at <http://offices.usda.gov>.

Selected Interest Rates for April 2016		Dates to Remember	
90-Day Treasury Bill	.250%	May 15	Crop reporting deadline for spring forage seeding, peas (green only), potatoes
Farm Operating Loans — Direct	2.25%	May 31	Final availability date for MALs and LDPs for corn, dry peas, grain sorghum, lentils, mustard seed, rice, safflower seed, chickpeas, soybeans, sunflower seed
Farm Ownership Loans — Direct	3.50%	May 31	Crop reporting deadline for ornamental nursery
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher	1.50%	June 15	Crop reporting deadline for tomatoes
Emergency Loans	3.25%	July 15	Crop reporting deadline for beans (limas only), cucumbers (planted 4/20-6/25 in Caroline, Dorchester, Kent and Talbot Counties), <b>All Other Crops</b>
Farm Storage Facility Loans (7 years)	1.625%	Aug 1	Enrollment deadline for 2016 Safety Net Coverage (ARC/PLC)
Farm Storage Facility Loans (10 years)	1.875%	Aug 1	Deadline to request transfer of farm records to different administrative county for FY2016
Farm Storage Facility Loans (12 years)	2.00%	Aug 15	Crop reporting deadline for beans (all types except limas), cucumbers (planted 6/26-8/10 in Caroline, Dorchester, Kent and Talbot Counties)
Commodity Loans 1996-Present	1.625%
