## Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

Farmers and ranchers can use the *Farm Loan Discovery Tool* on farmers.gov to find information on USDA farm loans that may best fit their operations.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

### How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will receive information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting [farmers.gov/fund](https://farmers.gov/fund) and clicking the "Start" button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

## About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit [farmers.gov/recover/disaster-assistance-tool#step-1](https://farmers.gov/recover/disaster-assistance-tool#step-1) to find disaster assistance programs that can help their operation recover from natural disasters.

For more information, contact your local USDA Service Center or visit [farmers.gov](https://farmers.gov).

## Ask the Expert: A Q&A on Farm Storage Facility Loans

**In this *Ask the Expert*, Toni Williams answers questions about how Farm Storage Facility Loans (FSFLs) provide low-interest financing to help producers build or upgrade commodity storage facilities. Toni is the Agricultural Program Manager for FSFLs at the Farm Service Agency (FSA).**

Toni has worked for FSA for more than 32 years and is responsible for providing national policy and guidance for Farm Storage Facility Loans.

### What are Farm Storage Facility Loans?

Farm Storage Facility Loans provide low-interest financing for eligible producers to build or upgrade facilities to store commodities.

The FSFL program was created in May 2000 to address an existing grain shortage. Historically, FSFLs benefitted grain farmers, but a change in the 2008 Farm Bill extended the program to fruit and vegetable producers for cold storage. An additional change extended the program to washing and packing sheds, where fresh produce is washed, sorted, graded, labeled, boxed up, and stored before it heads to market. Since May 2000, FSA has made more than 40,000 loans for on-farm storage.

Eligible facility types include grain bins, hay barns, bulk tanks, and facilities for cold storage. Drying and handling and storage equipment including storage and handling trucks are also eligible. Eligible facilities and equipment may be new or used, permanently affixed or portable.

## USDA Offers Farmers.gov Features to Help Farmers Hire Workers

The U.S. Department of Agriculture (USDA) offers features on the [farmers.gov](https://www.farmers.gov) website designed to help facilitate the employment of H-2A workers.

USDA's goal is to help farmers navigate the complex H-2A program that is administered by Department of Labor, Department of Homeland Security, and the State Department so hiring a farm worker is an easier process.

The primary new H-2A features on Farmers.gov include:

- A real-time dashboard that enables farmers to track the status of their eligible employer application and visa applications for temporary nonimmigrant workers;
- Streamlining the login information so if a farmer has an existing login.gov account they can save multiple applications tracking numbers for quick look-up at any time;
- Enables easy access to the Department of Labor's (DOL) Foreign Labor Application Gateway (FLAG);
- Allows farmers to track time-sensitive actions taken in the course of Office of Foreign Labor Certification's (OFLC) adjudication of temporary labor certification applications;
- Allowing for farmers to access all application forms on-line.

All information can be found at [www.farmers.gov/manage/h2a](https://www.farmers.gov/manage/h2a).

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where customers can apply for programs, process transactions and manage accounts. With feedback from customers and field employees who serve those customers, [farmers.gov](https://www.farmers.gov) delivers farmer-focused features through an agile, iterative process to deliver the greatest immediate value to America's agricultural producers – helping farmers and ranchers do right, and feed everyone.

## Guide Available for Underserved Farmers, Ranchers

A multi-agency guide for USDA assistance for underserved farmers and ranchers is now available. If you are a farmer or rancher and are a minority, woman, veteran, beginning, or limited resource producer, you can use this booklet to learn about assistance and targeted opportunities available to you. This includes programs offered through the Farm Service Agency, Natural Resources Conservation Service, and Risk Management Agency. [Download the guide here](#). The guide is also available in Spanish, Hmong, Korean, Vietnamese, Thai and Chinese on [farmers.gov/translations](https://farmers.gov/translations).
