Eligibility for Nominations for the 2017 County Committee Elections

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) county committees are a critical component of the day-to-day operations of FSA and allow grassroots input and local administration of federal farm programs.

Committees are comprised of locally elected agricultural producers responsible for the fair and equitable administration of FSA farm programs in their counties. Committee members are accountable to the Secretary of Agriculture. If elected, members become part of a local decision making and farm program delivery process.

A county committee is composed of three to 11 elected members from local administrative areas (LAA). Each member serves a three-year term. To be eligible for nomination and hold office as a committee member or alternate, a person must fulfill each of the following requirements: (1) be a producer with an interest in farming operations, (2) participate or cooperate in any FSA program provided for by law, (3) be a U.S. citizen, (4) be of legal
your operation or county at offices.usda.gov.

voting age, (5) meet the basic eligibility requirements, and (6)
reside in the county or multi-county jurisdiction in which they will be
serving.

All nomination forms for the 2017 election must be postmarked or
received in the local USDA service center by Aug. 1, 2017. For
more information on FSA county committee elections and
appointments, refer to the FSA fact sheet: Eligibility to Vote and
Hold Office as a COC Member available online at:

New Actively Engaged Provisions for
Non-Family Joint Operations or Entities

Many Farm Service Agency programs require all program
participants, either individuals or legal entities, to be “actively
engaged in farming”. This means participants provide a significant
contribution to the farming operation, whether it is capital, land,
equipment, active personal labor and/or management. For entities,
each partner, stockholder or member with an ownership interest,
must contribute active personal labor and/or management to the
operation on a regular basis.

The 2014 Farm Bill established additional payment eligibility
provisions relating to the farm management component of meeting
“actively engaged in farming”. These new provisions apply to joint
operations comprised of non-family members or partners,
stockholders or persons with an ownership in the farming operation.
Effective for 2016 and subsequent crop years, non-family joint
operations are afforded to one member that may use a significant
contribution of active personal management exclusively to meet the
requirements to be determined “actively engaged in farming”. The
person or member will be defined as the Farm Manager for the
purposes of administering these new management provisions.

In some instances, additional persons or members of a non-family
member joint operation who meet the definition of Farm Manager
may also be allowed to use such a contribution of active personal
management to meet the eligibility requirements. However, under
no circumstances may the number of Farm Managers in a non-
family joint operation exceed a total of three in any given crop and
program year.

Nominations Open for the 2017 County Committee Elections

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) encourages all farmers
and FSA program participants to take part in the County Committee election nomination process.

FSA’s county committees are a critical component of the day-to-day operations of FSA and allow
grassroots input and local administration of federal farm programs.

Committee are comprised of locally elected agricultural producers responsible for the fair and equitable administration of FSA farm programs in their counties. Committee members are accountable to the Secretary of Agriculture. If elected, members become part of a local decision making and farm program delivery process.

A county committee is composed of three to 11 elected members from local administrative areas (LAA). Each member serves a three-year term. One-third of the seats on these committees are open for election each year. County committees may have one or more appointed advisors to further represent the local interests of underserved farmers and ranchers. Underserved producers are beginning, women and other minority farmers and ranchers and land owners and/or operators who have limited resources. Other minority groups including Native American and Alaska Natives; persons under the poverty level, and persons that have disabilities are also considered underserved.

All nomination forms for the 2017 election must be postmarked or received in the local USDA service center by Aug. 1, 2017. For more information on FSA county committee elections and appointments, refer to the FSA fact sheet: Eligibility to Vote and Hold Office as a COC Member available online at: [www.fsa.usda.gov/elections](http://www.fsa.usda.gov/elections).

**Filing CCC-941 Adjusted Gross Income (AGI) Certifications**

Many producers have experienced delays in receiving Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) payments, Loan Deficiency Payments (LDPs) and Market Gains on Marketing Assistance Loans (MALs) because they have not filed form CCC-941, Adjusted Gross Income Certification. LDPs will not be paid until all eligible producers, including landowners who share in the crop, have filed a valid CCC-941.

Producers without a valid CCC-941 certifying their compliance with the average adjusted gross income provisions will not receive payments that have been processed. All farm operator/tenants/owners who have not filed a CCC-941 and have pending payments should IMMEDIATELY file the form with their recording county FSA office. Farm operators and tenants are encouraged to ensure that their landowners have filed the form. FSA has been issuing 2016 LDPs and Market Gains.

FSA can accept the CCC-941 for 2015, 2016 and 2017. Unlike in the past, producers must have the CCC-941 certifying their AGI compliance before any payments can be issued.

---

**Beginning Farmer Loans**

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county’s average size farm. Additional program information, loan applications, and other materials are available at your local
Policy Updates for Acreage Reporting

The USDA Farm Service Agency (FSA) recently made several policy updates for acreage reporting for cover crops, revising intended use, late-filed provisions, grazing allotments as well as updated the definitions of “idle” and “fallow.”

Reporting Cover Crops:

FSA made changes to the types of cover crops. Cover crop types can be chosen from the following four categories:

- **Cereals and other grasses** - Any cover crop that is classified as a grass plant or cereal grain, and would include, but not be limited to, the following cover crops: cereal rye, wheat, barley, oats, black oats, triticale, annual ryegrass, pearl millet, foxtail millet (also called German, Italian or Hungarian millet), sorghum sudan grass, sorghum and other millets and grasses.
- **Legumes** - Any cover crop that is classified as a legume, including, but not limited to, clovers, vetches, peas, sun hemp, cowpeas, lentils and other legumes.
- **Brassicas and other broadleaves** - Any cover crop that is classified as a non-legume broadleaf, including, but not limited to, Brassicas such as radishes, turnips, canola, rapeseed, oilseed rape, and mustards, as well as other broadleaf plants such as phacelia, flax, sunflower, buckwheat, and safflower.
- **Mixtures** - Mixes of two or more cover crop species planted at the same time, for example, oats and radishes. If the cover crop is harvested for any use other than forage or grazing and is not terminated according to policy guidelines, then that crop will no longer be considered a cover crop and the acreage report must be revised to reflect the actual crop.
