State Committee:
David Haugo, Chair
Kent Kantan, Member
Richard Peterson, Member
Roger Vogt, Member
Scott Winslow, Member

Acting State Executive Director:
Glenn Schafer

Division Chiefs:
Jane Ray
Wanda Garry
Stuart Shelstad

With mid-summer upon us, FSA offices are busy taking acreage reports from customers and conducting ARC/PLC enrollment. We encourage farmers to contact their local office as soon as possible to set up an appointment to report acreage and complete signup if they haven't done so already.

On a personal note, my tenure as acting State Executive Director (SED) and Executive Officer for FSA in Minnesota is ending, as I have accepted a position with the office of the FSA Deputy Administrator for Field Operations effective July 12. Chief Administrative Officer Jane Ray will assume the role of acting SED for Minnesota until a new SED is appointed by the Administration. Ms. Ray will provide excellent leadership for FSA in Minnesota.

I would like to thank the employees of FSA in Minnesota for their hard work and dedication to serving the farmers and ranchers of Minnesota. They do a great job for agriculture every day!

Glenn Schafer- Acting State Executive Director

Michelle Page
Laurie Moss

Reminders:

Acres certification deadline is July 15, 2015. Contact your [local FSA Office](#).

USDA Opens Enrollment Period for Agriculture Risk Coverage and Price Loss Coverage Safety-Net Programs

U.S. Department of Agriculture (USDA) announced that eligible producers may now formally enroll in the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs for 2014 and 2015. The enrollment period began June 17, 2015, and will end Sept. 30, 2015.

The new programs, established by the 2014 Farm Bill, trigger financial protections for agricultural producers when market forces cause substantial drops in crop prices or revenues. More than 1.76 million farmers have elected ARC or PLC. Previously, 1.7 million producers had enrolled to receive direct payments (the program replaced with ARC and PLC by the 2014 Farm Bill). This means more farms have elected ARC or PLC than previously enrolled under previously administered programs.

Nationwide, 96 percent of soybean farms, 91 percent of corn farms, and 66 percent of wheat farms elected ARC. 99 percent of long grain rice farms, 99 percent of peanut farms, and 94 percent of medium grain rice farms elected PLC. For data about other crops and state-by-state program election results go to www.fsa.usda.gov/arc-plc.

Covered commodities under ARC and PLC include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

For more information please contact your local FSA office <http://offices.usda.gov>.

USDA Packages Disaster Protection with Loans to Benefit Specialty Crop and Diversified Producers

Free basic coverage and discounted premiums available for new and underserved loan applicants

U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) today announced that producers who apply for FSA farm loans also will be offered the opportunity to enroll in new disaster loss protections created by the 2014 Farm Bill. The new coverage, available from the Noninsured Crop Disaster Assistance Program (NAP), is available to FSA loan applicants who grow non-insurable crops, so this is especially important to fruit and vegetable producers and other specialty crop growers.

New, underserved and limited income specialty growers who apply for farm loans could qualify for basic loss coverage at no cost, or higher coverage for a discounted premium.

The basic disaster coverage protects at 55 percent of the market price for crop losses that exceed 50 percent of production. Covered crops include "specialty" crops, for instance, vegetables, fruits, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, hay, forage, grazing and energy crops. FSA allows beginning, underserved or limited income producers to obtain NAP coverage up to 90 days after the normal application closing date when they also apply for FSA credit.

In addition to free basic coverage, beginning, underserved or limited income producers are eligible for a 50 percent discount on premiums for the higher levels of coverage that protect up to 65 percent of expected production at 100 percent of the average market price. Producers also may work with FSA to protect value-added production, such as organic or direct market crops, at their fair market value in those markets. Targeted underserved groups eligible for free or discounted coverage are American Indians or Alaskan Natives, Asians, Blacks or African Americans, Native Hawaiians or other Pacific Islanders, Hispanics, and women.

FSA offers a variety of loan products, including farm ownership loans, operating loans and microloans that have a streamlined application process.

Growers need not apply for an FSA loan, nor be a beginning, limited resource, or underserved farmer, to be eligible for Noninsured Crop Disaster Assistance Program assistance. To learn more, visit www.fsa.usda.gov/nap or www.fsa.usda.gov/farmloans, or contact your local FSA office at <http://offices.usda.gov>.

Agricultural Producers in Minnesota Still Have Time to Apply for Direct Farm Ownership Loan Program

Low-Interest Loans Can Help Producers Start or Expand Farms

The U.S. Department of Agriculture (USDA) Minnesota Farm Service Agency (FSA) today announced that farmers and ranchers still have time to apply for low interest loans available through the FSA direct farm ownership program. Applications must be approved by Sept. 30, 2015, to take advantage of the funding available.

Eligible farmers and ranchers can borrow up to \$300,000 to buy farmland, construct or repair buildings, pay closing costs, or promote soil and water conservation. The interest rate can be as low as 1.5 percent with up to 40 years to repay.

New farmers and ranchers, military veterans, and underserved farmers and ranchers also are encouraged to apply. Each year Congress targets 80 percent of available loan funds to beginning and targeted underserved farmers and ranchers. Targeted underserved groups include American Indians or Alaskan Natives, Asians, Blacks or African Americans, Native Hawaiians, or other Pacific Islanders, Hispanics and women.

For more information about farm loan, visit www.fsa.usda.gov/farmloans, or contact your local FSA office. To find your local FSA county office, visit <http://offices.usda.gov>.

USDA Energy Biomass Retrieval Incentives Started June 30

Owners of Forestry and Farm Residues Can Apply for Biomass Crop Assistance Program

The USDA Farm Service Agency (FSA) began accepting applications on June 30, 2015, from foresters and farmers seeking financial assistance to harvest and deliver biomass to generate clean energy. The support comes through the Biomass Crop Assistance Program (BCAP), which was re-authorized by the 2014 Farm Bill.

For 2015, USDA has reserved up to \$11.5 million to assist with the cost of removing woody or herbaceous residues from farm fields or national forests and woodlands for delivery to energy generation facilities. A majority of the funds are expected to support the removal of dead or diseased trees from National Forest and Bureau of Land Management public lands. Orchard wastes, and agriculture residues such as corn cobs and stalks, also qualify as energy-producing feedstock.

To be eligible for the retrieval incentives, the biomass must be delivered to FSA-approved biomass conversion facilities. For a list of approved facilities, visit www.fsa.usda.gov/bcap.

The Biomass Crop Assistance Program also provides financial assistance to farmers and ranchers who produce new sources of energy biomass by growing eligible crops on contract acres within approved BCAP project areas. Funding for this portion of the program, known as Project Areas, will be announced later this summer. In addition, FSA is preparing an environmental review of BCAP and has proposed improvements to Project Area requirements, including crop eligibility, contract duration, and processes to offset the lack of biomass insurance. Interested stakeholders may attend the public education meetings at the locations listed below.

July 14, 2015 - Sacramento, California
July 15, 2015 - Honolulu, Hawaii
August 3, 2015 - Raleigh, North Carolina
August 4, 2015 - Orlando, Florida
August 5, 2015 - Sioux City, Iowa

For more details on the environmental review, proposed changes to BCAP, and meeting locations, visit www.bcappeis.com, www.fsa.usda.gov/bcap or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

Farmers to Receive Documentation of USDA Services

Local Offices Issue Receipts for Services Provided

Farm Service Agency (FSA) reminds agricultural producers that FSA provides a receipt to customers who request or receive assistance or information on FSA programs.

As part of FSA's mission to provide enhanced customer service, producers who visit FSA will receive documentation of services requested and provided. From December through June, FSA issued more than 327,000 electronic receipts.

The 2014 Farm Bill requires a receipt to be issued for any agricultural program assistance requested from FSA, the Natural Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity.

In some cases, a form or document – such as a completed and signed program enrollment form – serve as the customer receipt instead of a printed or electronic receipt. A service is any information, program or loan assistance provided whether through a visit, email, fax or letter.

To learn more about FSA, visit www.fsa.usda.gov or to find your local USDA office, visit <http://offices.usda.gov>.

Filing a Notice of Loss

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, Notice of Loss, within the required 15 calendar days.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

Producers Must Report Prevented Planting and Failed Acres

USDA Farm Service Agency (FSA) reminds producers to report prevented planting and failed acres in order to establish or retain FSA program eligibility.

Producers must report crop acreage they intended to plant, but due to natural disaster, were prevented from planting. Prevented planting acreage must be reported on form CCC-576, Notice of Loss, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

If a producer is unable to report the prevented planting acreage within the 15 calendar days following the final planting date, a late-filed report can be submitted. Late-filed reports will only be accepted if FSA conducts a farm visit to assess the eligible disaster condition that prevented the crop from being planted. A measurement service fee will be charged.

Additionally, producers with failed acres should also use form CCC-576, Notice of Loss, to report failed acres.

For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), producers must file a Notice of Loss within 15 days of the occurrence of the disaster or when losses become apparent. Producers must timely file a Notice of Loss for failed acres on all crops including grasses.

Please contact your local Service Center to schedule an appointment to file a Notice of Loss. To find your local FSA office visit <http://offices.usda.gov>.

MAL and LDP Policy Changes for Crop Years 2015-2018

The Agricultural Act of 2014 authorized 2014-2018 crop year Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs), with a few minor policy changes.

Among the changes, farm-stored MAL collateral transferred to warehouse storage will retain the original loan rate, be allowed to transfer only the outstanding farm-stored quantity with no additional quantity allowed and will no longer require producers to have a paid for measurement service when moving or commingling loan collateral.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2015 MALs and LDPs for wool as well as LDPs for unshorn pelts. MAL and LDP requests for all other eligible commodities will be accepted after harvest. FSA continues to accept MAL and LDP requests for 2014 crops with upcoming deadlines.

Before MAL repayments and LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Additionally, form CCC-902 and CCC-901 must be submitted for the 2014 crop year, if applicable, with a county committee determination and updated subsidiary files.

To be considered eligible for an LDP, producers must have form [CCC-633EZ](#), Page 1 on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA's website www.fsa.usda.gov.

July 2015 Interest Rates

Farm Operating Loans- Direct: 2.5%

Farm Ownership Loans- Direct: 3.75%

Farm Ownership Loans- Direct Down Payment, Beginning Farmer or Rancher: 1.5%

Emergency Loans: 3.5%

Farm Storage Facility Loans (7 yr term): 2%

Sugar Storage Facility Loans (15 yr term): 2.625%

Commodity Loans: 1.25%
