### **MN Farm Service Agency**

375 Jackson St, Ste 400  
St. Paul, MN 55101

Phone: 651-602-7700  
Fax: 855-719-9917

[www.fsa.usda.gov/mn](http://www.fsa.usda.gov/mn)

**State Executive Director:**  
Joe Martin

**Executive Officer:**  
Michelle Page

**Division Leaders:**  
Cassie Buck

### **Voting Begins for the 2019 Farm Service Agency County Committee Elections**

*Eligible Voters to Receive Ballots Week of Nov. 4*

The U.S. Department of Agriculture (USDA) will begin mailing ballots on November 4 to eligible farmers and ranchers across the country for the Farm Service Agency (FSA) county committee elections.

County committee members play a key role at FSA. Over 7,000 members nationwide provide their valuable knowledge and judgment on decisions made about FSA services, including disaster and emergency programs.

To be counted, ballots must be returned to the local FSA county office or postmarked by December 2.

Angela Hanson  
Brian Hartman  
Laurie Moss  
Glenn Schafer

**State Committee:**

Scott Winslow, Chair  
Kurt Blomgren, Member  
Jim Kukowski, Member  
Jay Nord, Member  
Mike Yost, Member

To find contact information for  
your local office go to  
[www.fsa.usda.gov/mn](http://www.fsa.usda.gov/mn)

Each committee has three to 11 elected members who serve three-year terms of office. One-third of county committee seats are up for election each year. Newly elected committee members will take office January 1, 2020. County committee members help FSA make important decisions on its commodity support programs, conservation programs, indemnity and disaster programs, and emergency programs and eligibility.

Producers must participate or cooperate in an FSA program to be eligible to vote in the county committee election. Producers who supervise and conduct the farming operations of an entire farm, but are not of legal voting age, also may be eligible to vote.

Producers can find out if their local administrative area is up for election and if they are eligible to vote by contacting their local FSA county office. Eligible voters who did not receive a ballot in the mail can pick one up at their local FSA county office. Visit [fsa.usda.gov/elections](http://fsa.usda.gov/elections) for more information.

---

## USDA Opens 2020 Enrollment for Dairy Margin Coverage Program; Ends Dec. 13, 2019

Dairy producers can now enroll in the [Dairy Margin Coverage \(DMC\)](#) for calendar year 2020. USDA's Farm Service Agency (FSA) opened signup for the program that helps producers manage economic risk brought on by milk price and feed cost disparities.

The DMC program offers reasonably priced protection to dairy producers when the difference between the all-milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer. The deadline to enroll in DMC for 2020 is Dec. 13, 2019.

Dairy farmers earned more than \$300 million dollars from the program in 2019 so far. Producers are encouraged to take advantage of this very important risk management tool for 2020.

All producers who want 2020 coverage, even those who took advantage of the 25 percent premium discount by locking in the coverage level for five years of margin protection coverage are required to visit the office during this signup period to pay the annual administrative fee.

Dairy producers should definitely consider coverage for 2020 as even the slightest drop in the margin can trigger payments.

### More Information

The 2018 Farm Bill created DMC, improving on the previous safety net for dairy producers. DMC is one of many programs that FSA and other USDA agencies are implementing to support America's farmers.

For more information on enrolling in DMC and taking advantage of an online dairy decision tool that assists producers in selecting coverage for 2020, visit the [DMC webpage](#).

For additional questions and assistance, contact your local USDA service center. To locate your local FSA office, visit [farmers.gov/service-locator](https://farmers.gov/service-locator).

## Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)

The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from Oct. 1, 2018 to Dec. 31, 2019 must file:

- A notice of loss within 30 calendar days after the loss is apparent.
- An application for payment by Jan. 30, 2020

The following ELAP Fact Sheets (by topic) are available online:

- [ELAP for Farm-Raised Fish Fact Sheet](#)
- [ELAP for Livestock Fact Sheet](#)
- [ELAP for Honeybees Fact Sheet](#)

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at [www.fsa.usda.gov/factsheets](https://www.fsa.usda.gov/factsheets).

## MAL and LDP Policy

The 2018 Farm Bill extends loan authority through 2023 for Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs).

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan,

but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2019 MALs and LDPs for all eligible commodities after harvest. Requests for loans and LDPs shall be made on or before the final availability date for the respective commodities.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to Adjusted Gross Income provisions.

To be considered eligible for an LDP, producers must have form [CCC-633EZ, Page 1](#) on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

Marketing loan gains (MLGs) and loan deficiency payments (LDPs) are no longer subject to payment limitations, actively engaged in farming and cash-rent tenant rules.

Adjusted Gross Income (AGI) provisions state that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP. Producers must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA's website [fsa.usda.gov](http://fsa.usda.gov).

---

## Environmental Review Required Before Project Implementation

The National Environmental Policy Act (NEPA) requires Federal agencies to consider all potential environmental impacts for federally-funded projects before the project is approved.

For all Farm Service Agency (FSA) programs, an environmental review must be completed before actions are approved, such as site preparation or ground disturbance. These programs include, **but are not limited to**, the Emergency Conservation Program (ECP), Farm Storage Facility Loan (FSFL) program and farm loans. If project implementation begins before FSA has completed an environmental review, this will result in a denial of the request. There are exceptions regarding the Stafford Act and emergencies. It is important to wait until you receive written approval of your project proposal before starting any actions, including, but not limited to, vegetation clearing, site preparation or ground disturbance.

Remember to contact your local FSA office early in your planning process to determine what level of environmental review is required for your program application so that it can be completed timely.

Applications cannot be approved contingent upon the completion of an environmental review. FSA must have copies of all permits and plans before an application can be approved.

---

## Guaranteed Conservation Loans

Guaranteed Conservation Loans are available for applicants to install a conservation practice. These funds may be used for any conservation activities included in a conservation plan or Forest Stewardship Management plan. A copy of the conservation plan is required to complete the application. These loans are not limited to just family farmers. In some cases, applicants can operate non-eligible enterprises. Loan funds are issued by a participating commercial lender and guaranteed up to 80 percent by FSA or up to 90 percent for beginning and historically underserved producers.

---

## Using FSA Direct Farm Ownership Loans for Construction

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](#) are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

Depending on the applicant's needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a [Direct Farm Ownership Microloan](#) option for smaller financial needs up to \$50,000.

Amongst other purposes, Direct Farm Ownership Loans can be used to construct, purchase or improve farm dwellings, service buildings or other facilities and improvements essential to an operation.

To do this, applicants must provide FSA with an estimate of the total cost of all planned development that completely describe the work, prior to loan approval and must show proof of sufficient funds to pay for the total cost of all planned development at or before loan closing. In some instances, applicants may be asked to provide certified plans, specifications or contract documents. The applicant cannot incur any debts for materials or labor or make any expenditures for development purposes prior to loan closing with the expectation of being reimbursed from FSA funds.

Construction and development work may be performed either by the contract method or the borrower method. Under the contract method, construction and development contractors perform work according to a written contract with the applicant or borrower. An applicant for a direct loan to finance a construction project must obtain a surety bond that guarantees both payment and performance in the amount of the construction contract from a construction contractor.

A surety bond is required when a contract exceeds \$100,000, an authorized agency official determines that a surety bond appears advisable to protect the borrower against default of the contractor or a contract provides for partial payments in excess of the amount of 60 percent of the value of the work in place.

Under the borrower method, the applicant or borrower will perform the construction and development work. The borrower method may only be used when the authorized agency official determines, based on information from the applicant, that the applicant possesses or arranges to obtain the necessary skill and managerial ability to complete the work satisfactorily and that such work will not interfere with the applicant's farming operation or work schedule.

Potential applicants should visit with FSA early in the initial project planning process to ensure environmental compliance.

For more eligibility requirements and information about FSA Loan programs, contact your local FSA office or visit [www.fsa.usda.gov](http://www.fsa.usda.gov). To find your local FSA office, visit <http://offices.usda.gov>.

---

## 2020 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline.

Acreage reporting dates vary by crop and by county so please contact your local FSA office for a list of county-specific deadlines.

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the applicable acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- 
- If a producer acquires additional acreage after the applicable acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the applicable dates or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

---

## Update Your Records

FSA is cleaning up our producer record database. If you have any unreported changes of address, zip code, phone number, email address or an incorrect name or business name on file they need to be reported to our office. Changes in your farm operation, like the addition of a farm by lease or purchase, need to be reported to our office as well. Producers participating in FSA and NRCS programs are required to timely report changes in their farming operation to the County Committee in writing and update their CCC-902 Farm Operating Plan.

If you have any updates or corrections, please call your local FSA office to update your records.
