Microloans

Microloans are a simplified loan program that will provide up to \$50,000 to eligible applicants. These loans, targeted for smaller operations and non-traditional operations, can be used for operating expenses, starting a new agricultural enterprise, purchasing equipment, and other needs associated with a farming operation. The staff at your local County FSA office can provide more details on farm operating and microloans and provide loan applications. Loans to beginning farmers and members of underserved groups are a priority.

Other types of loans available include:

Marketing Assistance Loans

Marketing Assistance Loans allow producers to use eligible commodities as loan collateral and obtain a 9-month loan while the crop is in storage. These loans provide cash flow to the producer and allow them to market the crop when prices may be more advantageous.

Farm Storage Facility Loans can be used to build permanent structures used to store eligible commodities, or for storage and

To find contact information for your local office go to www.fsa.usda.gov/ms

handling trucks, or portable or permanent handling equipment. A variety of structures are eligible under this loan, including bunker silos, grain bins, hay storage structures and refrigerated structures for vegetables and fruit. A producer may borrow up to \$500,000 per loan.

Please call your local FSA County office if you have questions about any of the loans available through FSA.

2015, 2016 and 2017 Average Adjusted Gross Income Compliance Reviews

The AGI verification and compliance reviews for 2015, 2016 and 2017 are conducted on producers who the IRS indicated may have exceeded the adjusted gross income limitations described in [7 CFR 1400.500]. Based on this review, producers will receive determinations of eligibility or ineligibility.

If the producer is determined to have exceeded the average AGI limitation of \$900,000, receivables will be established for payments earned directly or indirectly by the producer subject to the \$900,000 limitation. The State FSA Office has begun notifying producers selected for review. If you have any questions about the review process or determinations, please contact the Mississippi FSA Office at 601-965-4300. Producers who receive initial debt notification letters may only appeal the amount of the debt to their local FSA office. Payment eligibility adverse determinations become administratively final 30 days from the date of the payment eligibility adverse determination letter and can only be reopened if exceptional circumstances exist that prevented the producer from timely filing the appeal.

Update Your Records

FSA is cleaning up our producer record database. If you have any unreported changes of address, zip code, phone number, email address or an incorrect name or business name on file they need to be reported to our office. Changes in your farm operation, like the addition of a farm by lease or purchase, need to be reported to our office as well. Producers participating in FSA and NRCS programs are required to timely report changes in their farming operation to the County Committee in writing and update their CCC-902 Farm Operating Plan.

If you have any updates or corrections, please call your local FSA office to update your records.

Report Noninsured Crop Disaster Assistance Program (NAP) Losses

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters including freeze, hail, excessive moisture, excessive wind or hurricanes, flood, excessive heat and qualifying drought (includes native grass for grazing), among others.

Eligible producers must have purchased NAP coverage for 2018 crops. A notice of loss must be filed the earlier of 15 days of the occurrence of the disaster or when losses become apparent or 15 days of the final harvest date.

Producers of hand-harvested crops and certain perishable crops must notify FSA within 72 hours of when a loss becomes apparent.

Eligible crops must be commercially produced agricultural commodities for which crop insurance is not available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms,

floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

For more information on NAP, contact your local FSA office or visit www.fsa.usda.gov/nap.

Emergency Disaster Declarations and Designations

Farmers and ranchers know all too well that natural disasters can be a common, and likely a costly, variable to their operation. The Farm Service Agency (FSA) has emergency assistance programs to provide assistance when disasters strike, and for some of those programs, a disaster designation may be the eligibility trigger. When natural disaster occurs, there is a process for requesting a USDA Secretarial disaster designation for a county. Agricultural producers can play a vital role in this process.

If you have experienced a production loss as a result of a natural disaster you may submit a request to your local FSA county office for your county to be evaluated for a Secretarial disaster designation. Once a request is received, the county office will collect disaster data and create a Loss Assessment Report. The County Emergency Board will review the Loss Assessment Report and determine if a recommendation is sent forward to the U.S. Secretary of Agriculture for the designation.

For more information on FSA disaster programs and disaster designations, visit www.fsa.usda.gov/disaster.

2017 Wildfires and Hurricane Indemnity Program (2017 WHIP)

Mississippi agricultural producers of crops directly affected by Hurricane Harvey and/or Hurricane Nate in 2017 now may apply for assistance to help recover and rebuild their farming operations. The 2017 Wildfires and Hurricanes Indemnity Program (2017 WHIP), authorized by Congress by the Bipartisan Budget Act of 2018, provides disaster assistance to agricultural producers to offset losses from hurricanes and wildfires during the 2017 crop year.

Eligible crops, trees, bushes, or vines, located in a county declared in a Presidential Emergency Disaster Declaration or Secretarial Disaster Designation as a primary county are eligible for assistance if the producer suffered a loss as a result of a 2017 hurricane. Five Mississippi Counties were issued a Presidential Emergency Disaster Declaration due to Hurricane Nate, which affected crops in production in counties along the Mississippi Gulf Coast October 6, through October 10, 2017. These counties include Harrison, Hancock, George, Greene, and Jackson. No Mississippi county was issued a Secretarial Disaster Designation due to a named hurricane. However, crop losses that occurred in a county without a Presidential Emergency Disaster Declaration or a Secretarial Disaster Designation may be eligible for 2017 if producer provides supporting documentation from which FSA can determine the loss was directly caused by a qualifying disaster event. Eligibility is determined by Farm Service Agency (FSA) county committees.

For applications to be considered timely filed, producers must apply no later than Friday, November 16, 2018. To help expedite payments, a producer who does not have records established at the [local USDA service center](#) are encouraged to do so early in the process. To establish a record for a farm, a producer needs:

- Proof of identity: driver's license and Social Security number/card;
- Copy of recorder deed, survey plat, rental, or lease agreement of the land. A producer does not have to own property to participate in FSA programs;
- Corporation, estate, or trust documents, if applicable

Producers will be asked to provide verifiable and reliable production records. If a producer is unable to provide production records, USDA will calculate the yield based on the county average yield. A producer with this information on file does not need to provide the information again.

For more information on FSA disaster assistance programs, please contact your local USDA service center or visit <https://www.farmers.gov/recover/whip>.

Report Noninsured Crop Disaster Assistance Program (NAP) Losses

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of noninsurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters.

Eligible producers must have purchased NAP coverage for 2018 crops. A notice of loss must be filed the earlier of 15 days of the occurrence of the disaster or when losses become apparent or 15 days of the final harvest date.

Producers of hand-harvested crops and certain perishable crops must notify FSA within 72 hours of when a loss becomes apparent.

Eligible crops must be commercially produced agricultural commodities for which crop insurance is not available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

For more information on NAP, contact your local FSA office or visit www.fsa.usda.gov/nap.
