Eligibility for Nominations for the 2018 County Committee Elections

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) county committees are a critical component of the day-to-day operations of FSA and allow grassroots input and local administration of federal farm programs.

Committees are comprised of locally elected agricultural producers responsible for the fair and equitable administration of FSA farm programs in their counties. Committee members are accountable to the Secretary of Agriculture. If elected, members become part of a local decision making and farm program delivery process.

A county committee is composed of three to 11 elected members from local administrative areas (LAA). Each member serves a three-year term. To be eligible for nomination and hold office as a committee member or alternate, a person must fulfill each of the following requirements: (1) be a producer with an interest in farming or ranching operations, (2) participate or cooperate in any FSA program provided for by law, (3) be a U.S. citizen, (4) be of legal voting age, (5) meet the basic eligibility requirements, and (6)

To find contact information for your local office go to www.fsa.usda.gov/ms

reside in the county or multi-county jurisdiction in which they will be serving.

All nomination forms for the 2018 election must be postmarked or received in the local USDA service center by Aug. 1, 2018. For more information on FSA county committee elections and appointments, refer to the FSA fact sheet: Eligibility to Vote and Hold Office as a COC Member available online at: www.fsa.usda.gov/elections

Acreage Crop Reporting Streamlining Initiative (ACRSI)

Farmers and ranchers filing crop acreage reports with the Farm Service Agency (FSA) and participating insurance providers approved by the Risk Management Agency (RMA) now can provide the common information from their acreage reports at one office and the information will be electronically shared with the other location. This new process is part of the USDA Acreage Crop Reporting Streamlining Initiative (ACRSI).

Producers must still visit both their local FSA office and their insurance provider to validate and sign acreage reports, complete maps, or provide program-specific information, including reporting uninsured crops to FSA. The common data from the first-filed acreage report will now be available to pre-populate and accelerate completion of the second report.

USDA Resumes Continuous Conservation Reserve Program Enrollment

One-Year Extension Available to Holders of Many Expiring Contracts through Continuous Signup

As part of a 33-year effort to protect sensitive lands and improve water quality and wildlife habitat on private lands, the U.S. Department of Agriculture (USDA) will resume accepting applications for the voluntary [Conservation Reserve Program](#) (CRP). Eligible farmers, ranchers, and private landowners can sign up at their local [Farm Service Agency \(FSA\)](#) office between June 4 and Aug. 17, 2018.

FSA stopped accepting applications last fall for the CRP continuous signup (excluding applications for the Conservation Reserve Enhancement Program (CREP) and CRP grasslands). This pause allowed USDA to review available acres and avoid exceeding the 24 million-acre CRP cap set by the 2014 Farm Bill. New limited practice availability and short sign up period helps ensure that landowners with the most sensitive acreage will enroll in the program and avoid unintended competition with new and beginning farmers seeking leases. CRP enrollment currently is about 22.7 million acres.

2018 Signup for CRP

For this year's signup, limited priority practices are available for continuous enrollment. They include grassed waterways, filter strips, riparian buffers, wetland restoration and others. [View a full list of practices.](#)

FSA will use updated soil rental rates to make annual rental payments, reflecting current values. It will not offer incentive payments as part of the new signup.

USDA will not open a general signup this year, however, a one-year extension will be offered to existing CRP participants with expiring CRP contracts of 14 years or less. Producers eligible for an extension will receive a letter with more information.

Beginning Farmer Loans

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's average size farm.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit www.fsa.usda.gov

USDA Reopens Application Period for Producers Recovering from Cattle Loss, Other Disasters

USDA's [Farm Service Agency](#) (FSA) is reopening the application period for two disaster assistance programs in response to statutory changes made by Congress earlier this year.

Beginning June 4, FSA will accept new applications for losses for calendar year 2017 or 2018 filed under the [Livestock Indemnity Program](#) (LIP) or [Emergency Assistance for Livestock, Honey Bees, and Farm-raised Fish Program](#) (ELAP). Producers who already submitted applications and received decisions on their applications for these years do not need to file again, but they can reapply if they have additional losses or their application was disapproved because it was filed late.

In February, Congress passed the Bipartisan Budget Act of 2018, which made several changes to these two disaster programs, including:

- Removing ELAP's \$20 million fiscal year funding cap, enabling FSA to pay producers' 2017 applications in full and their 2018 applications as soon as they are approved.
- Removing the per-person and legal entity annual program payment limitation of \$125,000 for LIP for 2017 and future years. (The income limitation applies as it did before, meaning producers with an adjusted gross income of more than \$900,000 are not eligible.)
- Changing LIP to allow producers to receive a payment for injured livestock that are sold for a reduced price due to an eligible event. Previously, the program only covered financial loss for livestock death above normal mortality.

Producers interested in LIP or ELAP should contact their [local USDA service center](#). To apply, producers will need to provide verifiable and reliable production records and other information about their operation. Learn more at <https://www.usda.gov/disaster>.

USDA to Help Producers Prepare for Addition of Seed Cotton to Two Key Safety Net Programs

The U.S. Department of Agriculture (USDA) is sending acreage history and yield reports to agricultural producers with generic base acres covered by the [Agriculture Risk Coverage \(ARC\) and Price Loss Coverage \(PLC\) programs](#).

The Bipartisan Budget Act of 2018 amended the 2014 Farm Bill, adding seed cotton as a covered commodity under the ARC and PLC programs. This week, FSA will start sending information on current generic base acres, yields, and 2008-2012 planting history.

The updates are an important part of preparing agricultural producers to make decisions on allocating generic base acres and updating yields for seed cotton. This summer, producers will have an opportunity to allocate their generic base acres and update their seed cotton yield.

All producers electing to participate in either the ARC or PLC program will be required to make a one-time, unanimous and irrevocable election, choosing between price protection and county revenue protection for the 2018 crop year for seed cotton only. Producers who elected ARC with the individual farm option will continue with that option since that election is applicable to all base acre on the farm. The final step to participate requires producers with farms with seed cotton base acres to sign contracts for ARC or PLC for 2018 this summer.

The anticipated timeline is:

- June 29: Producers are mailed letters notifying them of current generic base acres and yields and 2008 to 2012 planting history.
- July: An online decision tool for ARC and PLC becomes available. Producers have the opportunity to update yields and allocate generic base acres for ARC and PLC.
- August: ARC and PLC one-time elections occur for seed cotton.
- August: ARC and PLC sign-up for 2018 starts for farms with seed cotton base acres.

For more information, contact your local Farm Service Agency. To find an FSA office near you, visit: <http://offices.usda.gov>.

Selected Interest Rates for July 2018

90-Day Treasury Bill -----1.875%
Farm Operating Loans — Direct 3.875%
Farm Ownership Loans — Direct 4.125%
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher --1.5%
Emergency Loans ----- 3.75%

Special Accommodations
