### New Hampshire Farm Service Agency

James C. Cleveland Federal Building  
53 Pleasant Street, Room 1601  
Concord, NH 03301

Phone: 603-224-7941  
Fax: 855-428-0330

[www.fsa.usda.gov/nh](http://www.fsa.usda.gov/nh)

**State Executive Director:**  
Jeffrey Holmes

### Update Your Records

FSA is cleaning up our producer record database. If you have any unreported changes of address, zip code, phone number, email address or an incorrect name or business name on file they need to be reported to our office. Changes in your farm operation, like the addition of a farm by lease or purchase, need to be reported to our office as well. Producers participating in FSA and NRCS programs are required to timely report changes in their farming operation to the County Committee in writing and update their CCC-902 Farm Operating Plan.

If you have any updates or corrections, please call your local FSA office to update your records.

### Storage and Handling Trucks Eligible for Farm Storage Facility Loans

Farm Storage Facility Loans (FSFL) provide low-interest financing so producers can build or upgrade facilities to store commodities.

**State Committee:**

Kathy Sherman, Chair  
Gary LeClair  
Madison Hardy  
Scott Mason  
Kirk Scamman

To find contact information for your local office go to [www.fsa.usda.gov/nh](http://www.fsa.usda.gov/nh)

Some storage and handling trucks are eligible for the FSFL. These include:

- **Cold Storage Trucks**-A van or truck designed to carry perishable freight at specific temperatures. Cold storage trucks can be ice-cooled or equipped with any variety of mechanical refrigeration systems.
- **Flatbed Trucks**-Truck with an open body in the form of a platform with no side walls for easy loading and unloading. These trucks can be categorized into different sizes which range from light, medium, or heavy duty, compact or full-size, or short and expandable beds.
- **Grain Trucks**-A piece of farm equipment specially made to accommodate grain products and are traditionally truck chassis units with a mounted grain “dump” body where grain commodities are transported from a field to either a grain elevator or a storage bin.
- **Storage Trucks with a Chassis Unit**-Commonly referred to as a box truck, box van or straight truck, is a truck with a cargo body mounted on the same chassis with the engine and cab.

To be eligible for FSFL, the storage and handling truck must be less than 15 years old and have a maximum of four axles with a gross weight rating of 60,000 pounds or less. Pick-up trucks, semi-trucks, dump trucks, and simple insulated and ventilated vans are ineligible for FSFL.

FSFL for storage and handling trucks must be \$100,000 or less. FSFL-financed storage and handling trucks must be used for the purpose for which they were acquired for the entire FSFL term.

Eligible commodities include grains, oilseeds, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables, floriculture, hops, maple sap, milk, cheese, yogurt, butter, eggs, meat/poultry (unprocessed), rye and aquaculture.

For more information or to apply for a FSFL, contact your local [FSA Service Center](#).

## Malted Grains and Maple Syrup Eligible for Farm Storage Facility Loans

Malted small grains and maple syrup are now eligible for Farm Storage Facility Loans (FSFL) through the USDA Farm Service Agency (FSA).

FSFLs provide low-interest financing to producers to build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

The eligible commodities have been expanded to include malted small grains and maple syrup. Eligible malted small grains include barley, oats, rice, rye and wheat. Maple sap is used to produce maple syrup.

The low-interest funds can be used for:

- bottler or filling systems for maple syrup, excluding containers
- equipment to improve, maintain, or monitor the quality of stored FSFL commodities, such as cleaners, moisture testers, heat detectors, along with a proposed storage facility
- handling and drying equipment determined by the County Committee to be needed and essential to the proper functioning of a storage system
- electrical equipment, such as pumps, lighting, motors, and wiring, integral to the proper operation of the storage and handling equipment, excluding installing electric service to the electrical meter.

FSFLs are not available for the actual processing of the small grain into the malted commodity or maple sap into maple syrup. Additionally, purchased commodities are not eligible for FSFLs.

The following storage and handling equipment is ineligible for FSFLs:

- boiling equipment
- feed handling and processing equipment
- production and feed facilities
- structures of a temporary nature not having a useful life of the term of the loan
- maple sap tubing and pumping systems.

Loans up to \$50,000 can be secured by a promissory note/security agreement and loans between \$50,000 and \$100,000 may require additional security. Loans exceeding \$100,000 require additional security.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit [www.fsa.usda.gov/pricesupport](http://www.fsa.usda.gov/pricesupport) or contact your local FSA office.

## USDA Acreage Reporting Deadline for Perennial Forage Changes to July 15

USDA Farm Service Agency (FSA) has established a new acreage reporting deadline for perennial forage for 2019 and subsequent years. Previously set in the fall, the new deadline is July 15 for all states, except for Hawaii and Puerto Rico.

Timely and accurate acreage reports for all crops and land uses, including prevented planting or failed acreage, are the foundation for many FSA program benefits, including disaster programs for livestock owners. Producers must report their acreage to maintain program eligibility.

Producers who have coverage for perennial forage under the Noninsured Crop Disaster Assistance Program (NAP) must report their crop acreage by the earlier of any of the following:

- the established acreage reporting date (July 15)
- 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported
- the established normal harvest date for the end of the coverage period.

---

## Maintaining Good Credit History

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer's credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt.
- Keep your credit card balances low.
- Avoid suddenly opening or closing existing credit accounts.

FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.

For more information on FSA farm loan programs, visit [www.fsa.usda.gov](http://www.fsa.usda.gov).

## USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit [www.fsa.usda.gov/microloans](http://www.fsa.usda.gov/microloans).

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, visit [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans).
