USDA Builds Pandemic Support for Certified Organic and Transitioning Operations

The U.S. Department of Agriculture (USDA) will provide pandemic assistance to cover certification and education expenses to agricultural producers who are certified organic or transitioning to organic. USDA will make $20 million available through the new Organic and Transitional Education and Certification Program (OTECP) as part of USDA’s broader Pandemic Assistance for Producers initiative, which provides new, broader and more equitable opportunities for farmers, ranchers and producers.

During the COVID-19 pandemic, certified organic and transitional operations faced challenges due to loss of markets, and increased costs and labor shortages, in addition to costs related to obtaining or renewing their organic certification, which producers and handlers of conventionally grown commodities do not incur. Transitional operations also faced the financial challenge of implementing practices required to obtain organic certification without being able to obtain the premium prices normally received for certified organic commodities.

Eligible Expenses

OTECP funding is provided through the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). Certified operations and transitional operations may apply for OTECP for eligible expenses paid during the 2020, 2021 and 2022 fiscal years. For each year, OTECP covers 25% of a certified operation’s eligible certification expenses, up to $250 per certification category (crop, livestock, wild crop, handling and State Organic Program fee). This includes application fees, inspection fees, USDA organic certification costs, state organic program fees and more.
Crop and livestock operations transitioning to organic production may be eligible for 75% of a transitional operation’s eligible expenses, up to $750, for each year. This includes fees charged by a certifying agent or consultant for pre-certification inspections and development of an organic system plan.

For both certified operations and transitional operations, OTECP covers 75% of the registration fees, up to $200, per year, for educational events that include content related to organic production and handling in order to assist operations in increasing their knowledge of production and marketing practices that can improve their operations, increase resilience and expand available marketing opportunities. Additionally, both certified and transitional operations may be eligible for 75% of the expense of soil testing required under the National Organic Program (NOP) to document micronutrient deficiency, not to exceed $100 per year.

Applying for Assistance

Signup for 2020 and 2021 OTECP will be Nov. 8, 2021, through Jan. 7, 2022. Producers apply through their local Farm Service Agency (FSA) office and can also obtain one-on-one support with applications by calling 877-508-8364. Visit farmers.gov/otecp to learn more.

Additional Organic Support

OTECP builds upon USDA’s Organic Certification Cost Share Program (OCCSP) which provides cost share assistance of 50%, up to a maximum of $500 per scope, to producers and handlers of agricultural products who are obtaining or renewing their certification under the NOP. This year’s application period for OCCSP ended Nov. 1, 2021.

Additionally, USDA’s Risk Management Agency announced improvements to the Whole-Farm Revenue Program including increasing expansion limits for organic producers to the higher of $500,000 or 35%. Previously, small and medium size organic operations were held to the same 35% limit to expansion as conventional practice producers. Also, producers can now report acreage as certified organic, or as acreage in transition to organic, when the producer has requested an organic certification by the acreage reporting date.

To learn more about USDA’s assistance for organic producers, visit usda.gov/organic.

As USDA looks for long-term solutions to build back a better food system, the Department is committed to delivery of financial assistance to farmers, ranchers and agricultural producers and businesses who have been impacted by COVID-19 market disruptions. Since USDA rolled out the Pandemic Assistance for Producers initiative in March, the Department has provided support to America’s farmers and ranchers including:

- $18 billion in Coronavirus Food Assistance Program payments, including a fourfold increase in participation by historically underserved producers since the program reopened in April 2021.
- Over $35 million in assistance for those who had to depopulate livestock and poultry due to insufficient processing access (Pandemic Livestock Indemnity Program).
- Over $7 million to date for the logging and log hauling industry (Pandemic Assistance for Timber Harvesters and Haulers). Final payments are being calculated to be disbursed soon.
• $1 billion to purchase healthy food for food insecure Americans and build food bank capacity.
• $350 million in additional dairy assistance related to market volatility.
• $500 million deployed through existing USDA programs.

**USDA Expands Farmers.gov to Include Farm Records**

Producers with farmers.gov accounts can now access farm records and maps online, the latest self-service feature added to the U.S. Department of Agriculture (USDA) website.

You can quickly and easily access your land information in real time by desktop computer, tablet or phone. Capabilities include:

• View, print and export detailed farm records such as cropland, base acres, yields, CRP acres, land ownership details, and much more;
• View, print and export farm/tract maps that can be provided to lenders, chemical or fertilizer providers, and FSA for reporting acreage and crop insurance agents; and
• Export common land unit (field) boundaries as ESRI shapefiles.

The ability to access these records on demand without a visit to the service center saves you time and money.

*Farmers.gov* now includes the most popular functionalities from FSAFarm+, the FSA portal for producers, while providing enhanced functionality and an improved user experience. A new enhancement expands the scope of accessibility to include farmers and ranchers who are members of an entity, as well as people with a power of attorney form (FSA-211) on file with FSA.

**Managing USDA Business Online**

Using farmers.gov, producers, entities and those acting on their behalf can also:

• View, upload, download, and e-sign conservation documents.
• Request financial assistance, including submitting a program application.
• View and submit conservation requests.
• View technical references and submit questions.
• Access information on current and past conservation practices, plans and contracts.
• Report practice completion and request practice certification.
• View farm loan and interest information (producers only).
Future plans include adding the ability to import and view other shapefiles, such as precision agriculture planting boundaries.

To access your information, you’ll will need a USDA eAuth account to login to farmers.gov. After obtaining an eAuth account, producers should visit farmers.gov and sign into the site’s authenticated portal via the Sign In/Sign Up link at the top right of the website. Google Chrome, Mozilla Firefox or Microsoft Edge are the recommended browsers to access the feature.

In addition to the self-service features available by logging into farmers.gov, the website also has ample information on USDA programs, including pandemic assistance, farm loans, disaster assistance, conservation programs and crop insurance. Recently, USDA updated the navigation and organization of the site as well as added some new webpages, including “Get Involved,” “Common Forms,” and “Translations.” Learn more about these changes.

**Save Time – Make an Appointment with FSA**

Producers are encouraged to call their local FSA office to schedule an appointment to ensure maximum use of their time and to make sure FSA staff is available to tend to their important business needs. Please call your local FSA office ahead to set an appointment and to discuss any records or documentation that might be needed during your appointment. To find your local FSA office, visit: offices.sc.egov.usda.gov/locator/app.

**Farmers to Receive Documentation of USDA Services**

The Farm Service Agency (FSA) provides a receipt to customers who request or receive assistance or information on FSA programs.

The 2014 Farm Bill requires a customer receipt to be issued for any agricultural program assistance requested from FSA, the Natural Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity. Electronic receipts for acreage reports began on Aug. 1, 2016.

A service is any information, program, or loan assistance provided whether through an office visit, email, fax, or letter.

**Disaster Set-Aside Extension**

USDA has additional support available to producers given the recent outbreaks of the COVID-19 Delta variant and has extended the availability of COVID-19 Disaster Set-Aside (DSA) for installments due through Jan. 31, 2022. In addition, FSA will permit a second DSA for COVID-19 and a second DSA for natural disasters for those who had an initial COVID-19 DSA. Requests for a COVID-19 DSA or a second DSA must be received no later than May 1, 2022.
Last year, FSA broadened the use of the DSA. Normally used in the wake of natural disasters, the DSA can now allow farmers with USDA farm loans who are affected by COVID-19 and determined to be eligible, to have their next payment set aside. The set-aside payment’s due date is moved to the final maturity date of the loan or extended up to twelve months in the case of an annual operating loan. Any principal set-aside will continue to accrue interest until it is repaid. This will improve the borrower’s cashflow in the current production cycle.

More Information

Producers can explore available options on all FSA loan options at fsa.usda.gov or by contacting their local USDA Service Center. Service Center staff continue to work with agricultural producers via phone, email, and other digital tools. Because of the pandemic, some USDA Service Centers are open to limited visitors. Contact your Service Center to set up an in-person or phone appointment. Additionally, more information related to USDA’s response and relief for producers can be found at farmers.gov/coronavirus.

Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

Farmers and ranchers can use the Farm Loan Discovery Tool on farmers.gov to find information on USDA farm loans that may best fit their operations.

USDA’s Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will receive information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the Farm Loan Discovery Tool by visiting farmers.gov/fund and clicking the “Start” button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

About Farmers.gov
In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit farmers.gov/recover/disaster-assistance-tool#step-1 to find disaster assistance programs that can help their operation recover from natural disasters.

For more information, contact the Farm Loan Team at 603-223-6003 or visit farmers.gov.
