

# FSA At Work Across New Jersey - FY 2009

The USDA Farm Service Agency delivered over \$16.3 billion in federal program payments to U.S. farmers and ranchers during FY 2009. New Jersey agriculture benefits greatly from the tireless efforts of our dedicated employees and locally elected County Committees.

*State Executive Director Paul Hlubik*

## **Commodity Program Payments: \$4.8 million**

*New Jersey producers received substantial monetary support during FY 2009 in the form of commodity and price support program payments.*

**\$2,735,669 - Direct and Counter Cyclical Program (DCP)** Direct payments provide income support to producers of eligible commodities based on production history (acreage and yields) and do not depend on the current production choices. Counter-cyclical payments are made when the effective price for eligible commodities is less than the target price.

**\$1,347,315 - Milk Income Loss Contract (MILC)** provides compensation to dairy producers when domestic milk prices fall below a specified level.

**\$72,480 - Farm Storage Facility Loan Program (FSFLP)** The Commodity Credit Corporation (CCC), through FSA, makes loans to producers for building or upgrading farm storage and handling facilities used for eligible commodities.

**\$685,404 - Price Support and LDPs** - Commodity loans are available to eligible producers who use crops as collateral. The Commodity Credit Corporation (CCC) makes loans for eligible commodities that are farm or warehouse stored. Loan Deficiency Payments (LDPs) benefit producers who agree to forgo a commodity loan in return for a payment on the eligible commodity. LDP provisions allow compensation when market prices are low, as long as the producer maintains beneficial interest in the commodity.

## **Conservation: \$758,747**

*FSA continues to make strides toward conserving and improving soil, water, and wildlife resources in New Jersey. The Conservation Reserve Program is the USDA's single largest, most effective environmental program. Conservation investments for New Jersey in FY 2009 include:*

**\$758,747 - Conservation Reserve Program (CRP)** provides financial incentives, cost-share and rental payments to producers who convert highly erodible cropland or environmentally sensitive acreage to long-term vegetative cover.

## Disaster Assistance: \$678,805

*From drought to flood, freeze to tornadoes and hurricanes - no production agriculture operation is immune to the effects of natural disasters. New Jersey FSA was financially responsive to the state's producers.*

**\$608,067 - Non-Insured Crop Disaster Assistance Program (NAP)** - FSA's NAP program provides financial assistance to producers of noninsurable crops when low yields, loss of inventory, or prevented planting occurs due to natural disasters.

**\$70,738 - Crop Disaster Assistance Program (CDP)** - The Farm Service Agency's (FSA) Crop Disaster Program (CDP) provides benefits to eligible farmers who suffered losses from natural disasters and related conditions.

## Farm Loans: \$13.0 million
