Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)

The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from Oct. 1, 2018 to Sept. 30, 2019 must file:

- A notice of loss within 30 calendar days after the loss is apparent.
- An application for payment by Nov. 1, 2019

The following ELAP Fact Sheets (by topic) are available online:

USDA Outlines Eligibility for 2019 Supplemental Coverage Option Regarding Elections for Agriculture Risk Coverage and Price Loss Coverage

The U.S. Department of Agriculture’s Risk Management Agency (RMA) announced that producers who purchased or plan to purchase the 2019 Supplemental Coverage Option (SCO) policy should report Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) election intentions to their crop insurance agent by March 15, 2019, or the acreage reporting date, whichever is later.

Producers have the option to elect either ARC or PLC through the Farm Service Agency (FSA) to receive benefits. The 2018 Farm Bill allows producers to make an election in 2019, which covers the 2019 and 2020 crop years.

The Federal Crop Insurance Act prohibits producers from having SCO on farms where they elect ARC. Because of the timing of the Farm Bill, FSA’s ARC/PLC election period will not occur until after the SCO sales closing dates and acreage reporting dates.

Producers who purchased SCO policies with sales closing dates of Feb. 28, 2019, or earlier may cancel their SCO policy by March 15, 2019. This allows producers, particularly those who intend to elect ARC for all their acres, to no longer incur crop insurance costs for coverage for which they will not be eligible.

Producers with SCO coverage now have the option to file an ARC/PLC acreage intention report with their crop insurance agent by the later of the acreage reporting date or March 15, 2019. This report will adjust the acreage report by specifying the intended ARC or PLC election by FSA Farm Number. The number of eligible acres on farms with an intention of PLC will be the number of acres insured for SCO regardless of any actual elections made with FSA. If a producer does not file an ARC/PLC acreage intention report, SCO will cover all acres as though the producer elected PLC.

The existing penalties for misreporting eligible acreage on the SCO endorsement will not apply in 2019.

Additional details about SCO can be found at www.rma.usda.gov.

USDA Announces January Income over Feed Cost Margin Triggers First 2019 Dairy Safety Net Payment

The U.S. Department of Agriculture’s Farm Service Agency (FSA) announced that the January 2019 income over feed cost margin was $7.99 per hundredweight, triggering the first payment for eligible dairy producers who purchase the appropriate level of coverage under the new but yet-to-be established Dairy Margin Coverage (DMC) program.

DMC, which replaces the Margin Protection Program for Dairy, is a voluntary risk management program for dairy producers that was authorized by the 2018 Farm Bill. DMC offers protection to dairy producers when the difference between the all milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer.

Agriculture Secretary Sonny Perdue announced that sign up for DMC will open by mid-June of this year. At the time of sign up, producers who elect a DMC coverage level between $8.00 and $9.50 would be eligible for a payment for January 2019.
For example, a dairy operation with an established production history of 3 million pounds (30,000 cwt.) that elects the $9.50 coverage level for 50 percent of its production could potentially be eligible to receive $1,887.50 for January.

Sample calculation:

$9.50 - $7.99 margin = $1.51 difference

$1.51 times 50 percent of production times 2,500 cwt. (30,000 cwt./12) = $1,887.50

The calculated annual premium for coverage at $9.50 on 50 percent of a 3-million-pound production history for this example would be $2,250.

Sample calculation:

3,000,000 times 50 percent = 1,500,000/100 = 15,000 cwt. times 0.150 premium fee = $2,250

Operations making a one-time election to participate in DMC through 2023 are eligible to receive a 25 percent discount on their premium for the existing margin coverage rates.

Additional details about DMC and other FSA farm bill program changes can be found at farmers.gov/farmbill.

Reminder to FSA Direct and Guaranteed Borrowers with Real Estate Security

Farm Service Agency would like to remind farm loan borrowers who have pledged real estate as security for their loans, of key items for maintaining loan collateral. It is required that borrowers must obtain prior consent, or approval, by either FSA, for direct loans, or by a guaranteed lender, for any transaction affecting real estate security. Examples of these transactions include, but are not limited to:

- Leases of any kind;
- Easements of any kind;
- Subordinations;
- Partial releases, and
- Sales

Failure to meet or follow the requirements set forth in the loan agreement, promissory note, and other security instruments could lead to nonmonetary default which could jeopardize your current and future loans.

It is critical that borrowers keep an open line of communication with their FSA loan staff or guaranteed lender when it comes to changes in their operation. For more information on borrower responsibilities, read Your FSA Farm Loan Compass.

USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women,
African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit www.fsa.usda.gov/microloans.

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA’s farm loan programs and targeted underserved and beginning farmer guidelines, visit www.fsa.usda.gov/farmloans.

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
