Chair, Alisa Ogden Vice Chair, Matthew Lansford Member, John M. Romero Member, Dustin K. Johnson Member, Monte Anderson

To find contact information for your local office go to www.fsa.usda.gov/NM

Message from the State Executive Director

Michael S. White, New Mexico State Executive Director wants to remind everyone of the upcoming deadlines:

Acreage reporting

• August 15, 2020 - Bean, Hemp

For the **2020 crop year only**, a 30day extension has been approved; thus, reports for the above crops must be submitted by COB September 14

Exceptions to acreage reporting dates:

- If the crop has not been planted by the acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the acreage reporting date, then the acreage must be reported no later than 30 calendars days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.

The 2020 acreage reporting deadlines have passed for all other crops. If you find yourself in that situation, acreage reports can be late filed until the 2021 acreage reporting date for that specific crop. A late filed fee will be assessed starting at \$15 base, plus \$16 for the first hour and \$8 for every 30 minutes after that. Please contact your local FSA County Office.

Coronavirus Food Assistance Program (CFAP)

The deadline to submit an application for CFAP has been extended to Friday, September 11, 2020.

One-Time PLC Yield Updates – Deadline September 30

Farm owners have a one-time opportunity to update PLC yields of covered commodities on the farm, regardless of Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC)program election. The deadline to request a PLC yield update is September 30, 2020.

The updated yield will be equal to 90 percent of the average yield per planted acre in crop years 2013-2017 (excluding any year where the applicable covered commodity was not planted), subject to the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for the covered commodity. If the reported yield in any year is less than 75 percent of the 2013-2017 average county yield, then the yield will be substituted with 75 percent of the county average yield.

The chart below provides the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for each covered commodity.

Covered CommodityNational Yield Factor

Barley	0.9437
Canola	0.9643
Chickpeas, Large	1.0000
Chickpeas, Small	0.9760
Corn	0.9000
Crambe	1.0000
Flaxseed	1.0000
Grain Sorghum	0.9077
Lentils	1.0000
Mustard Seed	0.9460
Oats	0.9524
Peanuts	0.9273
Peas, Dry	0.9988
Rapeseed	1.0000
Rice, Long	0.9330
Rice, Medium	0.9887
Rice, Temp Japonica	0.9591
Safflower	1.0000
Seed Cotton	0.9000
Sesame Seed	0.9673

Soybeans	0.9000
Sunflower	0.9396
Wheat	0.9545

It is the owner's choice whether to update or keep existing PLC yields. If a yield update is not made, then no action is required to maintain the existing PLC yield. An existing or updated PLC yield will be maintained and effective for crop years 2020 through 2023 (life of the 2018 Farm Bill).

PLC yields may be updated on a covered commodity-by-covered commodity basis using FSA form CCC-867.

For more information, reference resources and decision tools, visit farmers.gov/arc-plc. Contact your local Farm Service Agency Office for assistance – farmers.gov/service-center-locator.

USDA Launches New Farmers.gov Features to Help Farmers Hire Workers

U.S. Department of Agriculture (USDA) announced new features on the <u>farmers.gov</u> website designed to help facilitate the employment of H-2A workers.

USDA's goal is to help farmers navigate the complex H-2A program that is administered by Department of Labor, Department of Homeland Security, and the State Department so hiring a farm worker is an easier process.

The primary new H-2A features on Farmers.gov include:

- A real-time dashboard that enables farmers to track the status of their eligible employer application and visa applications for temporary nonimmigrant workers;
- Streamlining the login information so if a farmer has an existing login.gov account they can save multiple applications tracking numbers for quick look-up at any time;
- Enables easy access to the Department of Labor's (DOL) Foreign Labor Application Gateway (FLAG);
- Allows farmers to track time-sensitive actions taken in the course of Office of Foreign Labor Certification's (OFLC) adjudication of temporary labor certification applications;
- Allowing for farmers to access all application forms on-line.

All information can be found at <u>www.farmers.gov/manage/h2a</u>.

In 2018, <u>Secretary Perdue unveiled farmers.gov</u>, a dynamic, mobile-friendly public website combined with an authenticated portal where customers can apply for programs, process transactions and manage accounts. With feedback from customers and field employees who serve those customers, <u>farmers.gov</u> delivers farmer-focused features through an agile, iterative process to deliver the greatest immediate value to America's agricultural producers – helping farmers and ranchers do right, and feed everyone.

USDA Investigates Packages of Unsolicited Seeds from China

USDA is aware that people across the country have received suspicious, unsolicited packages of seed that appear to be coming from China. USDA's Animal and Plant Health Inspection Service (APHIS) is working closely with the Department of Homeland Security's Customs and Border Protection, other federal agencies, and State departments of agriculture to investigate the situation.

USDA urges anyone who receives an unsolicited package of seeds to immediately contact their <u>State plant regulatory official</u> or <u>APHIS State plant health director</u>. Please hold onto the seeds

and packaging, including the mailing label, until someone from your State department of agriculture or APHIS contacts you with further instructions. Do not plant seeds from unknown origins.

At this time, we don't have any evidence indicating this is something other than a "brushing scam" where people receive unsolicited items from a seller who then posts false customer reviews to boost sales. USDA is currently collecting seed packages from recipients and will test their contents and determine if they contain anything that could be of concern to U.S. agriculture or the environment.

USDA is committed to preventing the unlawful entry of prohibited seeds and protecting U.S. agriculture from invasive pests and noxious weeds. Visit the <u>APHIS' website</u> to learn more about USDA's efforts to stop agricultural smuggling and promote trade compliance.

USDA Announces More Eligible Commodities for CFAP

Application Deadline Extended to Sept. 11, and Producers Who Have Approved Applications to Receive Final Payments.

USDA announced today that additional commodities are covered by the Coronavirus Food Assistance Program (CFAP) in response to public comments and data. Additionally, the U.S. Department of Agriculture (USDA) is extending the deadline to apply for the program to September 11th, and producers with approved applications will receive their final payment. After reviewing over 1,700 responses, even more farmers and ranchers will have the opportunity for assistance to help keep operations afloat during these tough times.

Background:

USDA collected comments and supporting data for consideration of additional commodities through June 22, 2020. The following additional commodities are now eligible for CFAP:

- **Specialty Crops** aloe leaves, bananas, batatas, bok choy, carambola (star fruit), cherimoya, chervil (french parsley), citron, curry leaves, daikon, dates, dill, donqua (winter melon), dragon fruit (red pitaya), endive, escarole, filberts, frisee, horseradish, kohlrabi, kumquats, leeks, mamey sapote, maple sap (for maple syrup), mesculin mix, microgreens, nectarines, parsley, persimmons, plantains, pomegranates, pummelos, pumpkins, rutabagas, shallots, tangelos, turnips/celeriac, turmeric, upland/winter cress, water cress, yautia/malanga, and yuca/cassava.
- Non-Specialty Crops and Livestock liquid eggs, frozen eggs and all sheep. Only lambs and yearlings (sheep less than two years old) were previously eligible.
- Aquaculture catfish, crawfish, largemouth bass and carp sold live as foodfish, hybrid striped bass, red drum, salmon, sturgeon, tilapia, trout, ornamental/tropical fish, and recreational sportfish.
- Nursery Crops and Flowers nursery crops and cut flowers.

Other changes to CFAP include:

- Seven commodities onions (green), pistachios, peppermint, spearmint, walnuts and watermelons – are now eligible for Coronavirus Aid, Relief, and Economic Stability (CARES) Act funding for sales losses. Originally, these commodities were only eligible for payments on marketing adjustments.
- Correcting payment rates for onions (green), pistachios, peppermint, spearmint, walnuts, and watermelons.

Additional details can be found in the Federal Register in the <u>Notice of Funding Availability</u> and <u>Final</u> <u>Rule Correction</u> and at <u>www.farmers.gov/cfap</u>.

Producers Who Have Applied:

To ensure availability of funding, producers with approved applications initially received 80 percent of their payments. The Farm Service Agency (FSA) will automatically issue the remaining 20 percent of the calculated payment to eligible producers. Going forward, producers who apply for

CFAP will receive 100 percent of their total payment, not to exceed the payment limit, when their applications are approved.

Applying for CFAP:

Producers, especially those who have not worked with FSA previously, are recommended to call 877-508-8364 to begin the application process. An FSA staff member can help producers start their application during the phone call.

On farmers.gov/cfap, producers can:

- Download the AD-3114 application form and manually complete the form to submit to their local USDA Service Center by mail, electronically or by hand delivery to their local office or office drop box.
- Complete the application form using the CFAP Application Generator and Payment Calculator. This Excel workbook allows customers to input information specific to their operation to determine estimated payments and populate the application form, which can be printed, then signed and submitted to their local USDA Service Center.
- If producers have login credentials known as eAuthentication, they can use the online CFAP Application Portal to certify eligible commodities online, digitally sign applications and submit directly to the local USDA Service Center.

All other eligibility forms, such as those related to adjusted gross income and payment information, can be downloaded from <u>farmers.gov/cfap</u>. For existing FSA customers, these documents are likely already on file.

Application Deadline Extended to Sept. 11, and Producers Who Have Approved Applications to Receive Final Payments.

Farm Service Agency (FSA) loans require applicants to have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, see if bills are paid timely and to determine the impact on cash flow.

Information on your credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score:

- Make sure to pay bills on time
 - Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt
- Keep your credit card balances low
- Avoid suddenly opening or closing existing credit accounts

FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.

Double-Cropping

Each year, state committees will review and approve or disapprove county committee recommended changes or additions to specific combinations of crops.

Double-cropping is approved when the two specific crops have the capability to be planted and carried to maturity for the intended use, as reported by the producer, on the same acreage within a crop year under normal growing conditions. The specific combination of crops recommended by the county committee must be approved by the state committee.

Double-cropping is approved in New Mexico on a county-by-county basis. Contact your local FSA Office for a list of approved double-cropping combinations for your county.

A crop following a cover crop terminated according to termination guidelines is approved double cropping and these combinations do not have to be approved by the state committee.

Filing CCC-941 Adjusted Gross Income (AGI) Certifications

If you have experienced delays in receiving Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) payments, Loan Deficiency Payments (LDPs) and Market Gains on Marketing Assistance Loans (MALs), it may be because you have not filed form CCC-941, *Adjusted Gross Income Certification*.

If you don't have a valid CCC-941 on file for the applicable crop year you will not receive payments. All farm operator/tenants/owners who have not filed a CCC-941 and have pending payments should IMMEDIATELY file the form with their recording county FSA office. Farm operators and tenants are encouraged to ensure that their landowners have filed the form.

FSA can accept the CCC-941 for 2017, 2018, and 2019. Unlike the past, you must have the CCC-941 certifying your AGI compliance before any payments can be issued.

Update Your Records

FSA is cleaning up our producer record database and needs your help. Please report any changes of address, zip code, phone number, email address or an incorrect name or business name on file to our office. You should also report changes in your farm operation, like the addition of a farm by lease or purchase.

FSA and NRCS program participants are required to promptly report changes in their farming operation to the County Committee in writing and to update their *Farm Operating Plan* on form CCC-902.

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
