To find contact information for your local office go to www.fsa.usda.gov/NM
FSA Direct and Guaranteed Loan Borrowers

Please be sure to contact your local FSA Farm Loan Office or your Guaranteed Loan Lender BEFORE entering into ANY lease on real estate that is pledged as security for a loan. The proposed lease agreement(s) will need to be reviewed by FSA to ensure that your loan(s) will remain compliant with program regulations if the lease goes into effect.

The New Mexico Farm Service Agency is committed to your success! Please visit your local Service Center if you have questions or to learn more about how we may be of further assistance.

Maintaining Current Records

From Farm Records to Business and Eligibility Files to Direct Deposits, if there are any changes that need to be made to your records, please reach out to your local FSA office. By keeping updated records, it helps ensure acreage reports and application calculations are accurate, payments are issued to the correct account, and eligibility flags are correct. Accurate records ensure accurate and timely payments.

Buying/Selling land, change in leases, whether private, state, or federal, moving – change in address and/or phone number, successions, changing banks, or switching from participating Individual to Entity, please provide FSA with the current information.

Sign in/Sign up!

Farmers, ranchers and agricultural producers have new online options to access U.S. Department of Agriculture (USDA) programs. Through USDA’s new streamlined process, producers doing business as an individual can now register, track and manage their applications for the Market Facilitation Program (MFP) on the secure and convenient [www.farmers.gov](http://www.farmers.gov). Producers doing business as an individual first need to sign up for the Level 2 eAuthentication access. Currently USDA eAuthentication does not have the mechanism to issue accounts to businesses, corporations, other entities or for anyone acting on behalf of another individual or entity.

- **Step 1:** Create online account at [www.eauth.usda.gov](http://www.eauth.usda.gov)
Step 2: Complete identity verification by either using the online self-service identity verification method or by completing the identity verification in-person at your USDA Service Center.

Step 3: You’re enrolled

Step 4: Contact your local USDA Service Center to have your new Level 2 account linked with your USDA customer record

Step 5: You’re ready to Log In

Or go to your local USDA Service Center and our supportive staff will help you sign up for Level 2 Access right in the office! They will get you online so you can create an online account at https://www.farmers.gov/sign-in. You’ll complete identity verification right on the spot. You’re enrolled! Users with a secure Level 2 eAuthentication ID linked to their USDA customer record can apply for select USDA programs, view and print farm maps and farm records data. Enrolling is easy! Visit farmers.gov/sign-in to learn more.

To locate a service center near you or use online services not requiring eAuthentication access, visit www.farmers.gov. For technical assistance, call the eAuthentication help desk at 1-800-457-3642.

---

**Is the Noninsured Crop Disaster Assistance Program Right for You?**

Farmers and ranchers rely on crop insurance to protect themselves from disasters and unforeseen events, but not all crops are insurable through the USDA’s Risk Management Agency. The Farm Service Agency’s (FSA) Noninsured Crop Disaster Assistance Program (NAP) provides producers another option to obtain coverage against disaster for these crops. NAP provides financial assistance to producers of non-insured crops impacted by natural disasters that result in lower yields, crop losses, or prevents crop planting.

Commercially produced crops and agricultural commodities for which crop insurance is not available are generally eligible for NAP. Eligible crops include those grown specifically for food, fiber, livestock consumption, biofuel or biobased products, or be commodities such as value loss crops like Christmas trees and ornamental nursery, honey, maple sap, and many others. Contact your FSA office to see which crops are eligible in your state and county.

Eligible causes of loss include drought, freeze, hail, excessive moisture, excessive wind or hurricanes, earthquake, flood. These events must occur during the NAP policy coverage period, before or during harvest, and the disaster must directly affect the eligible crop. For guidance on causes of loss not listed, contact your local FSA county office.

Interested producers must apply for coverage using FSA form CCC-471, “Application for Coverage,” and pay the applicable service fee at the FSA office where their farm records are maintained. These must be filed by the application closing date. Closing dates vary by crop, so it is important to contact your local FSA county office as soon as possible to ensure you don’t miss an application closing date.

At the time of application, each producer will be provided a copy of the NAP Basic Provisions, which describes how NAP works and all the requirements you must follow to maintain NAP coverage. NAP participants must provide accurate annual reports of their production in non-loss years to ensure their NAP coverage is beneficial to their individual operation.

Producers are required to pay service fees which vary depending on the number of crops and number of counties your operation is located in. The NAP service fee is the lesser of $325 per crop or $825 per producer per administrative county, not to exceed a total of $1,950 for a producer with farming interests in multiple counties. Premiums also apply when producers elect higher levels of coverage with a maximum premium of $15,750 per person or legal entity depending on the maximum payment limitation that may apply to the NAP covered producer. The service fee can be waived for beginning, qualifying veteran, and limited resource farmers and rancher,. These farmers and ranchers can also receive a 50 percent reduction in the premium.

For more detailed information on NAP, download the NAP Fact Sheet. To get started with NAP, we recommend you contact your local USDA service center.
Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

Farmers and ranchers can use the *Farm Loan Discovery Tool* on farmers.gov to find information on USDA farm loans that may best fit their operations.

USDA’s Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

**How the Tool Works**

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will receive information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting [farmers.gov/fund](http://farmers.gov/fund) and clicking the “Start” button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

**About Farmers.gov**

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit [farmers.gov/recover/disaster-assistance-tool#step-1](http://farmers.gov/recover/disaster-assistance-tool#step-1) to find disaster assistance programs that can help their operation recover from natural disasters.

**Communication is Key in Lending**

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be successful. FSA staff will provide guidance and counsel from the loan application process through the borrower’s graduation to commercial credit. While it is FSA’s commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower’s responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation
- Any significant changes to family income or expenses
- The development of problem situations
Any losses or proposed significant changes in security

If a farm loan borrower can’t make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

**Signature Policy**

Using the correct signature when doing business with FSA can save time and prevent a delay in program benefits.

The following are FSA signature guidelines:

- A married woman must sign her given name: Mrs. Mary Doe, not Mrs. John Doe
- For a minor, FSA requires the minor’s signature and one from the minor’s parent

Note, by signing a document with a minor, the parent is liable for actions of the minor and may be liable for refunds, liquidated damages, etc.

When signing on one’s behalf the signature must agree with the name typed or printed on the form or be a variation that does not cause the name and signature to be in disagreement. Example - John W. Smith is on the form. The signature may be John W. Smith or J.W. Smith or J. Smith. Or Mary J. Smith may be signed as Mrs. Mary Joe Smith, M.J. Smith, Mary Smith, etc.

FAXED signatures will be accepted for certain forms and other documents provided the acceptable program forms are approved for FAXED signatures. Producers are responsible for the successful transmission and receipt of FAXED information.

Examples of documents not approved for FAXED signatures include:

- Promissory note
- Assignment of payment
- Joint payment authorization
- Acknowledgement of commodity certificate purchase

Spouses may sign documents on behalf of each other for FSA and CCC programs in which either has an interest, unless written notification denying a spouse this authority has been provided to the county office.

Spouses cannot sign on behalf of each other as an authorized signatory for partnerships, joint ventures, corporations or other similar entities. Likewise, a spouse cannot sign a document on behalf of the other in order to affirm the eligibility of oneself.

Any member of a general partnership can sign on behalf of the general partnership and bind all members unless the Articles of Partnership are more restrictive. Spouses may sign on behalf of each other's individual interest in a partnership, unless notification denying a spouse that authority is provided to the county office. Acceptable signatures for general partnerships, joint ventures, corporations, estates, and trusts must consist of an indicator “by” or “for” the individual’s name, individual's name and capacity, or individual's name, capacity, and name of entity.

**USDA Encourages Completion of Cash Rents and Leases Survey**

You may have received a *Cash Rents and Leases* survey from the U.S. Department of Agriculture’s National Agricultural Statistics Service (NASS). This survey provides the basis for estimates of the current year’s cash rents paid for irrigated cropland, non-irrigated cropland, and permanent pasture. Please complete your Cash Rents and Leases survey by June 21. This survey can be completed and returned by mail, over the phone, or at agcounts.usda.gov.
Information from this survey is used in the Farm Service Agency (FSA) Conservation Reserve Program (CRP) as an alternative soil rental rate prior to finalizing new rates each year. Survey responses from as many localities as possible help calculate more accurate rental rates. Completion of the survey ensures cash rental rates accurately represent your locality. Survey results will also give you a useful tool in negotiating your rental agreements, and financial planning for your agricultural operation.

In accordance with federal law, survey responses are kept confidential. Survey results will be available in aggregate form only to ensure that no individual producer or operation can be identified. NASS will publish the survey results on August 27 at quickstats.nass.usda.gov/.

If you have any questions about this survey, please call 888-424-7828, or visit: https://www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Cash_Rents_by_County/index.php.

USDA Offers Secure New Options for Signing and Sharing Documents Online

Farmers and ranchers working with USDA’s Farm Service Agency or Natural Resources Conservation Service can now sign and share documents online in just a few clicks. By using Box or OneSpan, producers can digitally complete business transactions without leaving their homes or agricultural operations. Both services are free, secure, and available for multiple FSA and NRCS programs.

Box is a secure, cloud-based site where FSA or NRCS documents can be managed and shared. Producers who choose to use Box can create a username and password to access their secure Box account, where documents can be downloaded, printed, manually signed, scanned, uploaded, and shared digitally with Service Center staff. This service is available to any FSA or NRCS customer with access to a mobile device or computer with printer connectivity.

OneSpan is a secure eSignature solution for FSA and NRCS customers. Like Box, no software downloads or eAuthentication is required for OneSpan. Instead, producers interested in eSignature through OneSpan can confirm their identity through two-factor authentication using a verification code sent to their mobile device or a personalized question and answer. Once identity is confirmed, documents can be reviewed and e-signed through OneSpan via the producer's personal email address. Signed documents immediately become available to the appropriate Service Center staff.

Box and OneSpan are both optional services for customers interested in improved efficiency in signing and sharing documents with USDA, and they do not replace existing systems using eAuthentication for digital signature. Instead, these tools provide additional digital options for producers to use when conducting business with FSA or NRCS.

USDA Service Center staff are available to help producers get started with Box and OneSpan through a few simple steps. Please visit farmers.gov/service-locator to find your local office and let Service Center staff know you’re interested in signing and sharing documents through these new features. In most cases, one quick phone call will be all that is needed to initiate the process.

Visit farmers.gov/mydocs to learn more about Box and OneSpan, steps for getting started, and additional resources for conducting business with USDA online.

To learn more about program flexibilities and Service Center status during the coronavirus pandemic, visit farmers.gov/coronavirus

USDA Extends General Signup for Conservation Reserve Program

The USDA is extending the Conservation Reserve Program (CRP) General Signup period, which had previously been announced as ending on Feb. 12, 2021. USDA will continue to accept offers as it takes this opportunity for the incoming Administration to evaluate ways to increase enrollment. Under the previous Administration, incentives and rental payment rates were reduced resulting in an enrollment shortfall of over 4 million acres. The program, administered by USDA’s Farm Service Agency (FSA),
provides annual rental payments for 10 to 15 years for land devoted to conservation purposes, as well as other types of payments. Before the General CRP Signup period ends, producers will have the opportunity to adjust or resubmit their offers to take advantage of planned improvements to the program.

This signup for CRP gives producers an opportunity to enroll land for the first time or re-enroll land under existing contracts that will be expiring Sept. 30, 2021. All interested producers, including those on Indian reservations and with trust lands, are encouraged to contact their local USDA Service Center for more information.

**After Identifying Gaps in Previous Aid, USDA Announces ‘Pandemic Assistance for Producers’ to Distribute Resources More Equitably**

**USDA Reopens Program Sign-Up to a Larger Share of Producers with Plans to Expand Outreach and New Programming**

Agriculture Secretary Tom Vilsack announced today that USDA is establishing new programs and efforts to bring financial assistance to farmers, ranchers and producers who felt the impact of COVID-19 market disruptions. The new initiative—USDA Pandemic Assistance for Producers—will reach a broader set of producers than in previous COVID-19 aid programs. USDA is dedicating at least $6 billion toward the new programs. The Department will also develop rules for new programs that will put a greater emphasis on outreach to small and socially disadvantaged producers, specialty crop and organic producers, timber harvesters, as well as provide support for the food supply chain and producers of renewable fuel, among others. Existing programs like the Coronavirus Food Assistance Program (CFAP) will fall within the new initiative and, where statutory authority allows, will be refined to better address the needs of producers.

**USDA Pandemic Assistance for Producers** was needed, said Vilsack, after a review of previous COVID-19 assistance programs targeting farmers identified a number of gaps and disparities in how assistance was distributed as well as inadequate outreach to underserved producers and smaller and medium operations.

USDA will reopen sign-up for CFAP 2 for at least 60 days beginning on April 5, 2021. The USDA Farm Service Agency (FSA) has committed at least $2.5 million to improve outreach for CFAP 2 and will establish partnerships with organizations with strong connections to socially disadvantaged communities to ensure they are informed and aware of the application process.

The payments announced today (under Part 3, below) will go out under the existing CFAP rules; however, future opportunities for USDA Pandemic Assistance will be reviewed for verified need and during the rulemaking process, USDA will look to make eligibility more consistent with the Farm Bill. Moving forward, USDA Pandemic Assistance for Producers will utilize existing programs, such as the Local Agricultural Marketing Program, Farming Opportunities Training and Outreach, and Specialty Crop Block Grant Program, and others to enhance educational and market opportunities for agricultural producers.

**USDA Pandemic Assistance for Producers**

*Investing $6 Billion to Expand Help & Assistance to More Producers*

USDA will dedicate at least $6 billion to develop a number of new programs or modify existing proposals using discretionary funding from the Consolidated Appropriations Act and other coronavirus funding that went unspent by the previous administration. Where rulemaking is required, it will commence this spring. These efforts will include assistance for:

- Dairy farmers through the Dairy Donation Program or other means;
- Euthanized livestock and poultry;
- Biofuels;
- Specialty crops, beginning farmers, local, urban and organic farms;
- Costs for organic certification or to continue or add conservation activities
• Other possible expansion and corrections to CFAP that were not part of today’s announcement such as to support dairy or other livestock producers;
• Timber harvesting and hauling;
• Personal Protective Equipment (PPE) and other protective measures for food and farm workers and specialty crop and seafood producers, processors and distributors;
• Improving the resilience of the food supply chain, including assistance to meat and poultry operations to facilitate interstate shipment;
• Developing infrastructure to support donation and distribution of perishable commodities, including food donation and distribution through farm-to-school, restaurants or other community organizations; and
• Reducing food waste.

Adding $500 Million of New Funding to Existing Programs

USDA expects to begin investing approximately $500 million in expedited assistance through several existing programs this spring, with most by April 30. This new assistance includes:

• $100 million in additional funding for the Specialty Crop Block Grant Program, administered by the Agricultural Marketing Service (AMS), which enhances the competitiveness of fruits, vegetables, tree nuts, dried fruits, horticulture, and nursery crops.

• $75 million in additional funding for the Farmers Opportunities Training and Outreach program, administered by the National Institute of Food and Agriculture (NIFA) and the Office of Partnerships and Public Engagement, which encourages and assists socially disadvantaged, veteran, and beginning farmers and ranchers in the ownership and operation of farms and ranches.

• $100 million in additional funding for the Local Agricultural Marketing Program, administered by the AMS and Rural Development, which supports the development, coordination and expansion of direct producer-to-consumer marketing, local and regional food markets and enterprises and value-added agricultural products.

• $75 million in additional funding for the Gus Schumacher Nutrition Incentive Program, administered by the NIFA, which provides funding opportunities to conduct and evaluate projects providing incentives to increase the purchase of fruits and vegetables by low-income consumers.

• $20 million for the Animal and Plant Health Inspection Service to improve and maintain animal disease prevention and response capacity, including the National Animal Health Laboratory Network.

• $20 million for the Agricultural Research Service to work collaboratively with Texas A&M on the critical intersection between responsive agriculture, food production, and human nutrition and health.

• $28 million for NIFA to provide grants to state departments of agriculture to expand or sustain existing farm stress assistance programs.

• Approximately $80 million in additional payments to domestic users of upland and extra-long staple cotton based on a formula set in the Consolidated Appropriations Act, 2021 that USDA plans to deliver through the Economic Adjustment Assistance for Textile Mills program.

Carrying Out Formula Payments under CFAP 1, CFAP 2, CFAP AA

The Consolidated Appropriations Act, 2021, enacted December 2020 requires FSA to make certain payments to producers according to a mandated formula. USDA is now expediting these provisions because there is no discretion involved in interpreting such directives, they are self-enacting.

• An increase in CFAP 1 payment rates for cattle. Cattle producers with approved CFAP 1 applications will automatically receive these payments beginning in April. Information on the additional payment rates for cattle can be found on farmers.gov/cfap. Eligible producers do not need to submit new applications, since payments are based on previously approved CFAP 1 applications. USDA estimates additional payments of more than $1.1 billion to more than 410,000 producers, according to the mandated formula.

• Additional CFAP assistance of $20 per acre for producers of eligible crops identified as CFAP 2 flat-rate or price-trigger crops beginning in April. This includes alfalfa, corn, cotton, hemp, peanuts, rice, sorghum, soybeans, sugar beets and wheat, among other crops. FSA will automatically issue payments to eligible price trigger and flat-rate crop producers based on the eligible acres included on their CFAP 2 applications. Eligible producers do not need to submit a
new CFAP 2 application. For a list of all eligible row-crops, visit farmers.gov/cfap. USDA estimates additional payments of more than $4.5 billion to more than 560,000 producers, according to the mandated formula.

- USDA will finalize routine decisions and minor formula adjustments on applications and begin processing payments for certain applications filed as part of the CFAP Additional Assistance program in the following categories:
  - Applications filed for pullets and turf grass sod;
  - A formula correction for row-crop producer applications to allow producers with a non-Actual Production History (APH) insurance policy to use 100% of the 2019 Agriculture Risk Coverage-County Option (ARC-CO) benchmark yield in the calculation;
  - Sales commodity applications revised to include insurance indemnities, Noninsured Crop Disaster Assistance Program payments, and Wildfire and Hurricane Indemnity Program Plus payments, as required by statute; and
  - Additional payments for swine producers and contract growers under CFAP Additional Assistance remain on hold and are likely to require modifications to the regulation as part of the broader evaluation and future assistance; however, FSA will continue to accept applications from interested producers.

Reopening CFAP 2 Sign-Up to Improve Access & Outreach to Underserved Producers

As noted above, USDA will re-open sign-up for CFAP 2 for at least 60 days beginning on April 5, 2021.

- FSA has committed at least $2.5 million to establish partnerships and direct outreach efforts intended to improve outreach for CFAP 2 and will cooperate with grassroots organizations with strong connections to socially disadvantaged communities to ensure they are informed and aware of the application process.

Please stay tuned for additional information and announcements under the USDA Pandemic Assistance to Producers initiative, which will help to expand and more equitably distribute financial assistance to producers and farming operations during the COVID-19 national emergency. Please visit www.farmers.gov for more information on the details of today’s announcement.

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris administration, USDA is transforming America’s food system with a greater focus on more resilient local and regional food production, ensuring access to healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate-smart food and forestry practices, making historic investments in infrastructure and clean-energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America. To learn more, visit www.usda.gov.

USDA is an equal opportunity provider, employer and lender. To file a complaint of discrimination, write: USDA, Office of the Assistant Secretary for Civil Rights, Office of Adjudication, 1400 Independence Ave., SW, Washington, DC 20250-9410 or call (866) 632-9992 (Toll-free Customer Service), (800) 877-8339 (Local or Federal relay), (866) 377-8642 (Relay voice users).
