### New York State Farm Service Agency

441 S. Salina St.  
Suite #536  
Syracuse, NY 13202

[www.fsa.usda.gov/ny](http://www.fsa.usda.gov/ny)

**State Executive Director:**  
Clark Putman

**State Committee:**  
Judi Whittaker, Chair  
Michael Bittel  
Lawrence Eckhardt  
Theodore Furber  
Barbara Hanselman

### USDA Opens Signup for Market Facilitation Program

*Enrollment Now Open through Dec. 6*

Signup is open for the Market Facilitation Program (MFP), a U.S. Department of Agriculture (USDA) program to assist farmers who continue to suffer from damages because of unjustified trade retaliation from foreign nations. Through MFP, USDA will provide up to \$14.5 billion in direct payments to impacted producers, part of a broader trade relief package announced in late July. The sign-up period runs through Dec. 6.

MFP payments will be made to producers of certain non-specialty and specialty crops as well as dairy and hog producers.

#### **Non-Specialty Crops**

MFP payments will be made to producers of alfalfa hay, barley, canola, corn, crambe, dried beans, dry peas, extra-long staple

**Executive Officer:**  
Mark Dennis

**Farm Program Chief:**  
Vacant

**Farm Loan Chief:**  
John Liddington

[To find contact information for your local New York office click here.](#)

**August Interest Rates:**

**Farm Storage Facility Loans:**

3 year: 1.75%  
5 year: 1.75%  
7 year: 1.875%  
10 year: 2.0%  
12 year: 2.125%

**Commodity Loans:** 3.0%

**Farm Loan Programs:**

Farm Operating: 2.875%  
Farm Ownership: 3.625%  
Conservation Loans: 3.625%  
Direct Down Payment: 1.5%  
Joint Financing: 2.5%

cotton, flaxseed, lentils, long grain and medium grain rice, millet, mustard seed, oats, peanuts, rapeseed, rye, safflower, sesame seed, small and large chickpeas, sorghum, soybeans, sunflower seed, temperate japonica rice, triticale, upland cotton, and wheat.

MFP assistance for 2019 crops is based on a single county payment rate multiplied by a farm's total plantings to the MFP-eligible crops in aggregate in 2019. Those per acre payments are not dependent on which of those crops are planted in 2019. A producer's total payment-eligible plantings cannot exceed total 2018 plantings. [View payment rates by county.](#)

**Dairy and Hogs**

Dairy producers who were in business as of June 1, 2019, will receive a per hundredweight payment on production history, and hog producers will receive a payment based on the number of live hogs owned on a day selected by the producer between April 1 and May 15, 2019.

**Specialty Crops**

MFP payments will also be made to producers of almonds, cranberries, cultivated ginseng, fresh grapes, fresh sweet cherries, hazelnuts, macadamia nuts, pecans, pistachios, and walnuts. Each specialty crop will receive a payment based on 2019 acres of fruit or nut bearing plants, or in the case of ginseng, based on harvested acres in 2019.

**More Information**

Payments will be made in up to three tranches, with the second and third tranches evaluated as market conditions and trade opportunities dictate. If conditions warrant, the second and third tranches will be made in November and early January.

MFP payments are limited to a combined \$250,000 for non-specialty crops per person or legal entity. MFP payments are also limited to a combined \$250,000 for dairy and hog producers and a combined \$250,000 for specialty crop producers. However, no applicant can receive more than \$500,000. Eligible applicants must also have an average adjusted gross income (AGI) for tax years 2015, 2016, and 2017 of less than \$900,000, or 75 percent of the person's or legal entity's average AGI for those tax years must have been derived from farming and ranching. Applicants must also comply with the provisions of the Highly Erodible Land and Wetland Conservation regulations.

More information can be found on [farmers.gov/mfp](http://farmers.gov/mfp), including payment information and a program application.

**Dates To Remember**

<b>Aug 15</b>	<b>Acreage Reporting Deadline</b> for cabbage and beans
<b>Aug 23</b>	<b>Continuous-CRP Sign-up Deadline</b>
<b>Sep 2</b>	All Offices Closed for Labor Day
<b>Sep 3</b>	<b>NAP Application Deadline</b> for Garlic, Aquaculture, Christmas Trees, Finfish, Floriculture, Ginseng Root, Ginseng Seed, Mollusk, Mushrooms & Turf Grass Sod
<b>Sep 20</b>	<b>Dairy Margin Coverage (DMC) Sign-up Deadline</b>
<b>Sep 20</b>	<b>Margin Protection Program (MPP) Repayment Decision Deadline</b>
<b>Sep 30</b>	<b>NAP Application Deadline</b> for All Grasses, Mixed Forage Clover & Alfalfa
<b>Sep 30</b>	<b>NAP Deadline</b> for All Fall & Spring Small Grains

---

## Report Noninsured Crop Disaster Assistance Program (NAP) Losses

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters including freeze, hail, excessive moisture, excessive wind or hurricanes, flood, excessive heat and qualifying drought (includes native grass for grazing), among others.

Eligible producers must have purchased NAP coverage for 2019 crops. A notice of loss must be filed the earlier of 15 days of the occurrence of the disaster or when losses become apparent or 15 days of the final harvest date.

Producers of hand-harvested crops and certain perishable crops must notify FSA within 72 hours of when a loss becomes apparent.

Eligible crops must be commercially produced agricultural commodities for which crop insurance is not available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

For more information on NAP, contact your local FSA office or visit [www.fsa.usda.gov/nap](http://www.fsa.usda.gov/nap).

---

## Producers Urged to Consider NAP Risk Protection Coverage - Deadlines Approaching

The USDA Farm Service Agency (FSA) reminds producers to review available USDA crop risk protection options, including federal crop insurance and Noninsured Crop Disaster Assistance Program (NAP) coverage, before the upcoming crop deadlines.

Federal crop insurance covers crop losses from natural adversities such as drought, hail and excessive moisture. NAP covers losses from natural disasters on crops for which no permanent federal crop insurance program is available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

***The following crops in New York have NAP application deadlines:***

**September 3:** Garlic, Aquaculture, Christmas Trees, Floriculture, Mollusk, and Mushrooms.

**September 30:** All Grasses, Mixed Forage, Clover, and Alfalfa, and All Fall & Spring Small Grains.

Producers can determine if crops are eligible for federal crop insurance or NAP by visiting <https://webapp.rma.usda.gov/apps/ActuarialInformationBrowser2018/CropCriteria.aspx>.

The 2018 Farm Bill reinstates higher levels of coverage, from 50 to 65 percent of expected production in 5 percent increments, at 100 percent of the average market price. Producers of organics and crops marketed directly to consumers also may exercise the “buy-up” option to obtain NAP coverage of 100 percent of the average market price at the coverage levels of between 50 and 65 percent of expected production. NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production.

For all coverage levels, the NAP service fee is the lesser of \$325 per crop or \$825 per producer per county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties.

Federal crop insurance coverage is sold and delivered solely through private insurance agents. Agent lists are available at all USDA Service Centers or at USDA’s online Agent Locator: <http://prodwebnlb.rma.usda.gov/apps/AgentLocator/#>. Producers can use the USDA Cost Estimator, <https://ewebapp.rma.usda.gov/apps/costestimator/Default.aspx>, to predict insurance premium costs.

For more information on NAP, contact your local FSA office or visit [www.fsa.usda.gov/nap](http://www.fsa.usda.gov/nap).

## **USDA Offers Producers Options to Re-enroll or Extend Expiring CRP Contracts - Due August 23**

Farmers and ranchers with expiring [Conservation Reserve Program](#) (CRP) contracts may now re-enroll in certain CRP continuous signup practices or, if eligible, select a one-year contract extension. USDA’s Farm Service Agency (FSA) is also accepting offers from landowners who want to enroll for the first time in one of the country’s largest conservation programs. FSA’s 52<sup>nd</sup> signup for CRP runs from June 3 to August 23.

This year’s CRP continuous signup includes practices such as grass waterways, filter strips, riparian buffers, wetland restoration and others. [View a full list of practices approved for this signup](#). Continuous signup contracts last for 10 to 15 years. Soil rental rates are set at 90 percent of 2018 rates. Incentive payments are not offered for these practices.

Producers interested in applying for CRP continuous practices, including those under existing CREP agreements, **or who want to extend their contract, should contact their USDA service center by August 23.**

To locate your local FSA office, visit [www.farmers.gov](http://www.farmers.gov). More information on CRP can be found at [www.fsa.usda.gov/crp](http://www.fsa.usda.gov/crp).

---

## **USDA Now Making Payments for New Dairy Margin Coverage Program**

*Income-over-feed margin for June triggers sixth payment for 2019*

The U.S. Department of Agriculture's Farm Service Agency (FSA) opened enrollment for the [Dairy Margin Coverage](#) (DMC) program on June 17 and has started issuing payments to producers who purchased coverage. Producers can enroll through Sept. 20, 2019.

Authorized by the 2018 Farm Bill, DMC replaces the Margin Protection Program for Dairy (MPP-Dairy). The program offers protection to dairy producers when the difference between the all-milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer. To date, nearly 10,000 operations have signed up for the new program, and FSA has begun paying approximately \$100 million to producers for January through May.

### **June Margin Payment**

DMC provides coverage retroactive to January 1, 2019, with applicable payments following soon after enrollment.

The June 2019 income over feed cost margin was \$8.63 per hundredweight (cwt.), triggering the sixth payment for eligible dairy producers who purchase the \$9.50 level of coverage under DMC. Payments for January, February, March, April and May also were triggered.

### **Coverage Levels and MPP Reimbursements**

Dairy producers can choose coverage levels from \$4 up to \$9.50 at the time of signup. More than 98 percent of the producers currently enrolled have elected \$9.50 coverage on up to 95 percent of their production history.

### **More Information**

On December 20, 2018, President Trump signed into law the 2018 Farm Bill, which provides support, certainty and stability to our nation's farmers, ranchers and land stewards by enhancing farm support programs, improving crop insurance, maintaining disaster programs and promoting and supporting voluntary conservation. FSA is committed to implementing these changes as quickly and effectively as possible, and today's updates are part of meeting that goal.

For more information, visit [farmers.gov](http://farmers.gov) [DMC webpage](#) or contact your local USDA service center. To locate your local FSA office, visit [farmers.gov/service-locator](http://farmers.gov/service-locator).

## **New Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation**

A new online tool can help farmers and ranchers find information on U.S. Department of Agriculture (USDA) farm loans that may best fit their operations. USDA has launched the new *Farm Loan Discovery Tool* as the newest feature on farmers.gov, the Department's self-service website for farmers.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help. Compared to this time last year, FSA has seen an 18 percent increase in the amount it has obligated for direct farm ownership loans, and through the 2018 Farm Bill, has [increased the limits](#) for several loan products.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

### **How the Tool Works**

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will be provided information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting [farmers.gov/fund](https://farmers.gov/fund) and clicking the “Start” button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

### **About Farmers.gov**

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit [farmers.gov/recover/disaster-assistance-tool#step-1](https://farmers.gov/recover/disaster-assistance-tool#step-1) to find disaster assistance programs that can help their operation recover from natural disasters.

With feedback from customers and field employees who serve those customers, farmers.gov delivers farmer-focused features through an agile, iterative process to deliver the greatest immediate value to America’s agricultural producers – helping farmers and ranchers do right, and feed everyone.

For more information or to locate your USDA Service Center, visit [farmers.gov](https://farmers.gov).

---

## **Report: Farmers Prevented from Planting Crops on More than 19 Million Acres**

Agricultural producers reported they were not able to plant crops on more than 19.4 million acres in 2019, according to a [new report](#) released by the U.S. Department of Agriculture (USDA). This marks the most prevented plant acres reported since USDA’s Farm Service Agency (FSA) began releasing the report in 2007 and 17.49 million acres more than reported at this time last year.

Of those prevented plant acres, more than 73 percent were in 12 Midwestern states, where heavy rainfall and flooding this year has prevented many producers from planting mostly corn, soybeans and wheat.

### **Cover Crops**

USDA supported planting of cover crops on fields where farmers were not able to plant because of their benefits in preventing soil erosion, protecting water quality and boosting soil health. The report

showed where producers planted 2.71 million acres of cover crops so far in 2019, compared with 2.14 million acres at this time in 2018 and 1.88 million at this time in 2017.

To help make cover crops a more viable option, USDA's Risk Management Agency (RMA) adjusted the haying and grazing date of cover crops, and USDA's Natural Resources Conservation Service held signups in select states that offered producers assistance in planting cover crops. Meanwhile, USDA added other flexibilities to help impacted producers, including adjusting the deadline to file acreage reports in select states.

### **About the Report**

This data report aggregates information from crop acreage reports as of August 1, 2019, which producers file with FSA to maintain program eligibility and to calculate losses for various disaster assistance programs. The crop acreage data report outlines the number of acres planted, prevented from planting, and failed by crop, county and state. To find more information, view the [Aug. 12 report](#).

Because some producers have not completed their filing and data are still being processed, FSA will make available subsequent data reports in September, October, November, December and January. You can find reports from 2007 to the present on FSA's [Crop Acreage Data webpage](#).

To receive FSA program benefits, producers are required to submit crop acreage reports annually regarding all cropland uses on their farm. This report includes data for producers who had already filed for all deadlines in 2019, including the mid-July deadlines, which are for spring-seeded crops in many locations.

### **Other Prevented Planting Indicators**

In addition to acreage reports filed with FSA, producers with crop insurance coverage for prevented planting file claims with their insurance providers. These claims are provided to RMA and may differ from the prevented planted acres reported to FSA. More information on prevented plant coverage is available on the [RMA website](#).

Official USDA estimates of total acres planted, harvested and to be harvested, yield, and production are available from USDA's National Agricultural Statistics Service at [nass.usda.gov](#).

---

## **Youth Loans**

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5,000.

### **Youth Loan Eligibility Requirements:**

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor.

project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

---

## **Every Season is #scamseason**

Remember to only discuss your USDA Farm Service Agency (FSA) account information with people you recognize and trust.

If you have questions about your FSA accounts, contact your local County FSA office.
