Greetings!

On April 17, U.S. Secretary of Agriculture Sonny Perdue announced the Coronavirus Food Assistance Program (CFAP). This $19 billion immediate relief program will provide critical support to farmers and ranchers and maintain the integrity of our food supply chain, and ensure every American continues to receive and have access to the food they need. CFAP will use the funding and authorities provided in the Coronavirus Aid, Relief, and Economic Security Act (CARES), the Families First Coronavirus Response Act (FFCRA), and other USDA existing authorities. The program includes two major elements to achieve these goals, including
State Committee Members:
Sarah Dorsey, Bixby
Karen Eifert Jones, Waukomis
Don Allen Parsons, Idabel
J.B. Stewart, Keyes
David Bush, Altus

State Staff:

Phil Estes
Farm Loan Programs

J.D. Elwood
Production & Payment Eligibility

Joy Alspach
Conservation

Danny Lee
Compliance & Price Support

Janlyn Hannah
Administration & Public Relations/Outreach

Please contact your local FSA Office for questions specific to your operation or county. FSA Office contact information can be located on our online Directory.

Our county office staff is anxious to aid your operations and families during this difficult time. At present, we are waiting on rules and procedures to be finalized. Once CFAP signup begins, our offices will send out GovDelivery and texting notifications to alert you. If you or your neighbors are not subscribed to those services, I encourage you to sign up. Your local staff will gladly assist you in doing this. When signup is announced, offices will begin taking phone appointments. You will be asked to provide needed information, records and eligibility documents by phone, e-mail, and Microsoft Teams. Our mission is to serve you as accurately and timely as possible, so we will be utilizing all tools and services at our disposal. We understand how important this aid is to your business. Please be prepared for conducting business with us in these creative ways amid present health concerns. The safety of your families and our employees are our top priority. We will get through this as Oklahomans do – Together.

Visit farmers.gov/coronavirus to keep up-to-date on temporary program flexibilities available as a result of the COVID-19 pandemic.

Best Wishes,
Scott Biggs State Executive Director Oklahoma FSA

USDA’s Conservation Reserve Program Grasslands Signup

Farmers and ranchers may apply to enroll grasslands in the Conservation Reserve Program (CRP) Grasslands signup. The signup runs through May 15.

Through CRP Grasslands, participants retain the right to conduct common grazing practices, such as haying, mowing or harvesting seed from the enrolled land. Timing of some activities may be restricted by the primary nesting season of birds.

Participants will receive an annual rental payment and may receive up to 50 percent cost-share for establishing approved conservation practices. The duration of the CRP contract is either 10 or 15 years. FSA will rank applications using a number of factors including existence of expiring CRP land, threat of conversion or development, existing grassland, and predominance of native species cover, and cost.
The 2018 Farm Bill set aside 2 million acres for CRP Grassland enrollment. CRP is one of the largest conservation programs at USDA. CRP marks its 35-year anniversary in 2020 with 22 million acres currently enrolled.

For more information or to enroll in CRP Grasslands, contact your local FSA county office or visit fsa.usda.gov/crp. To locate your local FSA office, visit farmers.gov/service-locator.

**Higher Limits Now Available on USDA Farm Loans**

Higher limits are now available for borrowers interested in USDA's farm loans, which help agricultural producers purchase farms or cover operating expenses. The 2018 Farm Bill increased the amount that producers can borrow through direct and guaranteed loans available through USDA's Farm Service Agency (FSA) and made changes to other loans, such as microloans and emergency loans.

Key changes include:

- The Direct Operating Loan limit increased from $300,000 to $400,000, and the Guaranteed Operating Loan limit increased from $1.429 million to $1.75 million. Operating loans help producers pay for normal operating expenses, including machinery and equipment, seed, livestock feed, and more.
- The Direct Farm Ownership Loan limit increased from $300,000 to $600,000, and the Guaranteed Farm Ownership Loan limit increased from $1.429 million to $1.75 million. Farm ownership loans help producers become owner-operators of family farms as well as improve and expand current operations.
- Producers can now receive both a $50,000 Farm Ownership Microloan and a $50,000 Operating Microloan. Previously, microloans were limited to a combined $50,000. Microloans provide flexible access to credit for small, beginning, niche, and non-traditional farm operations.
- Producers who previously received debt forgiveness as part of an approved FSA restructuring plan are now eligible to apply for emergency loans. Previously, these producers were ineligible.
- Beginning and socially disadvantaged producers can now receive up to a 95 percent guarantee against the loss of principal and interest on a loan, up from 90 percent.

**About Farm Loans**

Direct farm loans, which include microloans and emergency loans, are financed and serviced by FSA, while guaranteed farm loans are financed and serviced by commercial lenders. For guaranteed loans, FSA provides a guarantee against possible financial loss of principal and interest.

For more information on FSA farm loans, visit www.fsa.usda.gov or contact your local USDA service center.

**FSA Offers Joint Financing Option on Direct Farm Ownership Loans**

The USDA Farm Service Agency's (FSA) Direct Farm Ownership loans are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current
operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

Depending on the applicant’s needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a Direct Farm Ownership Microloan option for smaller financial needs up to $50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a Joint Financing loan is $600,000 and the repayment period for the loan is up to 40 years.

To be eligible, the operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

For more information about FSA Loan programs, contact your local FSA office or visit fsa.usda.gov. To find your local FSA office, visit offices.usda.gov.

**Agriculture Risk Coverage and Price Loss Coverage Enrollment for 2020**

USDA’s Farm Service Agency (FSA) encourages agricultural producers to enroll now in the Agriculture Risk Loss (ARC) and Price Loss Coverage (PLC) programs. The deadline to enroll for the 2020 crop year is June 30, 2020. By enrolling soon, producers can beat the rush as the deadline nears.

FSA offices have multiple programs competing for the time and attention of our staff. Because of the importance and complexities of the ARC and PLC programs; and to ensure FSA meets your program delivery expectations, please do not wait to start the enrollment process. Contact your FSA county office and make an appointment soon to ensure your elections are made and contracts signed well ahead of the deadline.

ARC and PLC provide financial protections to farmers from substantial drops in crop prices or revenues and are vital economic safety nets for most American farms.

The programs cover the following commodities: barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium and short grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

Farm owners have a one-time opportunity to update PLC payment yields that take effect beginning with crop year 2020. If the owner accompanies the producer to the office, the yield update and enrollments may be completed during the same office visit.

**More Information**
For more information on ARC and PLC, download our program fact sheet or our 2014-2018 farm bills comparison fact sheet. Online ARC and PLC election decision tools are available at fsa.usda.gov/arc/plc. To enroll, contact your FSA county office for an appointment.

**USDA Announces Grants for Urban Agriculture and Innovative Production**

The U.S. Department of Agriculture (USDA) today announced the availability of $3 million for grants through its new Office of Urban Agriculture and Innovative Production. The competitive grants will support the development of urban agriculture and innovative production projects through two categories, Planning Projects and Implementation Projects. USDA will accept applications on Grants.gov until midnight July 6, 2020.

**Planning Projects**

$1 million is available for Planning Projects that initiate or expand efforts of farmers, gardeners, citizens, government officials, schools, and other stakeholders in urban areas and suburbs. Projects may target areas of food access; education; business and start-up costs for new farmers; and development of policies related to zoning and other needs of urban production.

**Implementation Projects**

$2 million is available for Implementation Projects that accelerate existing and emerging models of urban, indoor, and other agricultural practices that serve multiple farmers. Projects will improve local food access and collaborate with partner organizations and may support infrastructure needs; emerging technologies; educational endeavors; and urban farming policy development.

**Webinar**

A webinar will be held on June 3, 2020 from 2 p.m. – 4 p.m. Eastern Daylight Time. The webinar will provide an overview of the grants’ purpose, project types, eligibility, and basic requirements for the submission of an application. Information on how participate in the webinar, or listen to the recording, will be posted on the farmers.gov/urban webpage.

**More Information**

The Office of Urban Agriculture and Innovative Technology was established through the 2018 Farm Bill.

Applications must be submitted through Grants.gov by 11:59 p.m. Eastern Daylight Time on July 6, 2020.

More information is available at farmers.gov/urban.

For more information or to apply for Urban Agriculture Innovative grants, contact your local FSA county office or visit [farmers.gov/service-locator](http://farmers.gov/service-locator).

**Livestock Inventory Records**
Producers are reminded to keep updated livestock inventory records. These records are necessary in the event of a natural disaster.

When disasters strike, the USDA Farm Service Agency (FSA) can assist producers who suffered excessive livestock death losses and grazing or feed losses due to eligible natural disasters.

To participate in livestock disaster assistance programs, producers will be required to provide verifiable documentation of death losses resulting from an eligible adverse weather event and must submit a notice of loss to their local FSA office within 30 calendar days of when the loss of livestock is apparent. For grazing or feed losses, producers must submit a notice of loss to their local FSA office within 30 calendar days of when the loss is apparent and should maintain documentation and receipts.

Producers should record all pertinent information regarding livestock inventory records including:

- Documentation of the number, kind, type, and weight range of livestock
- Beginning inventory supported by birth recordings or purchase receipts;

For more information on documentation requirements, contact your local FSA office.

---

**FSA Reminds Producers of Ongoing Disaster Assistance Program Signup**

The U.S. Department of Agriculture (USDA) has started making payments through the Wildfire and Hurricane Indemnity Program – Plus (WHIP+) to agricultural producers who suffered eligible losses because of drought or excess moisture in 2018 and 2019. Signup for these causes of loss opened March 23, and producers who suffered losses from drought (in counties designated D3 or above), excess moisture, hurricanes, floods, tornadoes, typhoons, volcanic activity, snowstorms or wildfires can still apply for assistance through WHIP+.

To be eligible for WHIP+, producers must have suffered losses of certain crops, trees, bushes or vines in counties with a Presidential Emergency Disaster Declaration or a Secretarial Disaster Designation (primary counties only) for qualifying natural disaster events that occurred in calendar years 2018 or 2019. Also, losses located in a county not designated by the Secretary as a primary county may be eligible if a producer provides documentation showing that the loss was due to a qualifying natural disaster event.

For losses due to drought, a producer is eligible if any area of the county in which the loss occurred was rated D3, or extreme drought, or higher on the U.S. Drought Monitor during calendar years 2018 or 2019. Producers who suffered losses should contact their FSA county office.

In addition to the recently added eligible losses of drought and excess moisture, FSA will implement a WHIP+ provision for crop quality loss that resulted in price deductions or penalties when marketing crops damaged by eligible disaster events. To ensure an effective program for all impacted farmers, the Agency is currently gathering information on the extent of quality loss from producers and stakeholder organizations.

USDA Service Centers, including FSA county offices, are open for business by phone only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools.
whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information on Service Centers can be found at farmers.gov/coronavirus, and more information on WHIP+ can be found at farmers.gov/whip-plus.

**USDA Accepting Proposals for State Acres for Wildlife Enhancement Initiative**

The U.S. Department of Agriculture’s Farm Service Agency (FSA) is now accepting new or modified proposals from state governments for its State Acres for Wildlife Enhancement (SAFE) Initiative. Through SAFE, vital habitat is restored to meet high-priority state wildlife conservation goals. The deadline to submit proposals is June 19.

SAFE practices must be used to restore animal habitats for the following categories:

- rare, threatened and endangered species
- species that have suffered a significant population decline
- species that provide significant social or economic value to the community.

SAFE grass and tree practices were moved to the Conservation Reserve Program (CRP) General Signup in 2019 and competed against other offers, while buffer and wetland practices remain under continuous CRP signup.

When submitted, proposals must include an overview of the project accomplishments, a list of all practices planned, the commitment of the state and participants and the planned outreach efforts.

For more information about SAFE and submitting a proposal, contact your FSA state office at 405-742-1130.

---

**USDA Announces Cooperative Agreements for Community Compost and Food Waste Reduction**

The U.S. Department of Agriculture (USDA) today announced the availability of $900,000 for local governments to host a Community Compost and Food Waste Reduction (CCFWR) pilot project for fiscal year (FY) 2020. The cooperative agreements will support projects that develop and test strategies for planning and implementing municipal compost plans and food waste reduction plans. The agreements are offered through USDA’s Office of Urban Agriculture and Innovative Production.

USDA will accept applications on Grants.gov until midnight June 26, 2020. Projects should span two years with a start date of October 1, 2020 and completion date of September 29, 2022.

Cooperative agreements support projects led by local governments that: 1) generate compost; 2) increase access to compost for agricultural producers; 3) reduce reliance on, and limit the use of, fertilizer; 4) improve soil quality; 5) encourage waste management and permaculture business development; 6) increase rainwater absorption; 7) reduce municipal food waste; and 8) divert food waste from landfills. USDA’s Natural Resources Conservation Service will provide assistance for conservation related activities.
Priority will be given to projects that anticipate or demonstrate economic benefits; incorporate plans to make compost easily accessible to farmers, including community gardeners; integrate other food waste strategies, including food recovery efforts; and collaborate with multiple partners.

A webinar, which will be held on June 4, 2020, from 2 to 4 p.m. Eastern Daylight Time, will provide an overview of the cooperative agreements’ purpose, project types, eligibility and basic requirements for submitting an application. Information on how to register and participate in the webinar, or listen to the recording, will be posted at farmers.gov/urban.

More Information

Comments can be sent to UrbanAgriculture@usda.gov within 90 days, with the subject line “Community Compost and Food Waste Reduction Project.”

Questions about this cooperative agreement opportunity can be sent to UrbanAgriculture@usda.gov.

The Office of Urban Agriculture and Innovative Production was established through the 2018 Farm Bill. It includes representatives from many USDA agencies, including Farm Service Agency and Agricultural Marketing Service, and is led by the Natural Resources Conservation Service. Its mission is to encourage and promote urban, indoor, and other emerging agricultural practices, including community composting and food waste reduction. More information is available at farmers.gov/urban.

Additional resources that may be of interest to urban agriculture entities include AMS grants to improve domestic and international opportunities for U.S. growers and producers and FSA loans.
