### USDA Reminds Farmers of 2014 Farm Bill Conservation Compliance Changes

The 2014 Farm Bill implements a change that requires farmers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 certification form must be on file with the FSA. The Risk Management Agency (RMA), through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility

**Administrative Officer:**

**Farm Loan Programs  
Chief**  
Frank Sligh

Producers can contact  
their [local FSA Office](#) for  
more information or to  
schedule an appointment.

for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes most financial assistance such as the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans and most programs implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs implemented by NRCS.

Many FSA and Natural Resource Conservation (NRCS) programs already have implemented this requirement and therefore most producers should already have an AD-1026 form on file for their associated lands. If an AD-1026 form has not been filed or is incomplete, then farmers are reminded of the deadline of June 1, 2015.

When a farmer completes and submits the AD-1026 certification form, FSA and NRCS staff will review the associated farm records and outline any additional actions that may be required to meet the required compliance with the conservation compliance provisions.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: [www.fsa.usda.gov](http://www.fsa.usda.gov). USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support. Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at [offices.usda.gov](http://offices.usda.gov).

## 2015 FSA County Committee Elections

The election of agricultural producer to Farm Service Agency (FSA) county committees is important to ALL farmers and ranchers, whether you are a beginning or longtime producer, or whether you have a large or small operation. Every eligible agricultural producer should participate in these elections because FSA county committees are a link between your agricultural community and the U. S. Department of Agriculture (USDA).

Farmers and ranchers who serve on FSA county committees apply their judgement and knowledge to help with the decisions necessary to administer FSA programs in their counties, ensuring the needs of local producers are met. FSA county committees operate within official federal regulations so that local input is provided on federal programs such as:

- Income safety-net loans and payments
- Conservation programs
- Incentive, indemnity and disaster payments for some commodities
- Emergency programs

- Payment eligibility

Agricultural producers of legal voting age may be eligible to vote if they participate or cooperate in any FSA program. Individuals may nominate themselves or others as a candidate. Organizations representing minority and women farmers or ranchers may nominate candidates. Nomination forms are filed for the county committee of the office that administers a producer's farm records.

To become a nominee, eligible individuals must sign nomination form FSA-669A. The form includes a statement that the nominee agrees to serve if elected.

### **COC Election 2015 Dates**

**June 15, 2015** - The nomination period begins. Request nomination forms from the local USDA Service Center or obtain online at <http://www.fsa.usda.gov/elections>

**Aug. 3, 2015** - Last day to file nomination forms at the local USDA Service Center

**Nov. 9, 2015** - Ballots mailed to eligible voters

**Dec. 7, 2015** - Last day to return voted ballots to the USDA Service Center

**Jan. 1, 2016** - Newly elected county committee members take office

## **USDA Announces New Support for Beginning Farmers and Ranchers**

*Department Implementing New Farm Bill Programs, Unveiling New Centralized Online Resource to Support Next Generation of Farmers*

USDA has announced the implementation of new Farm Bill measures and other policy changes to improve the financial security of new and beginning farmers and ranchers. USDA also unveiled [www.USDA.gov/newfarmers](http://www.USDA.gov/newfarmers), a new website that will provide a centralized, one-stop resource where beginning farmers and ranchers can explore the variety of USDA initiatives designed to help them succeed.

USDA's [www.usda.gov/newfarmers](http://www.usda.gov/newfarmers) has in depth information for new farmers and ranchers, including: how to increase access to land and capital; build new market opportunities; participate in conservation opportunities; select and use the right risk management tools; and access USDA education, and technical support programs. These issues have been identified as top priorities by new farmers. The website will also feature instructive case studies about beginning farmers who have successfully utilized USDA resources to start or expand their business operations.

Today's policy announcements in support of beginning farmers and ranchers include:

- Waiving service fees for new and beginning farmers or ranchers to enroll in the Non-Insured Crop Disaster Assistance Program (NAP) for the 2014 crop year. NAP provides risk management tools to farmers who grow crops for which there is no crop insurance product. Under this waiver, announced via an [official notice](#) to Farm Service Agency offices, farmers and ranchers whom already enrolled in NAP for the 2014 crop year and certified to being a beginning farmer or social disadvantaged farmer are eligible for a service fee refund.
- Eliminating payment reductions under the [Conservation Reserve Program](#) (CRP) for new and beginning farmers which will allow routine, prescribed, and emergency grazing outside

the primary nesting season on enrolled land consistent with approved conservation plans. Previously, farmers and ranchers grazing on CRP land were subject to a reduction in CRP payments of up to 25 percent. Waiving these reductions for new and beginning farmers will provide extra financial support during times of emergency like drought and other natural disasters.

- Increasing payment rates to beginning farmers and ranchers under Emergency Assistance for [Livestock, Honeybees and Farm-Raised Fish Program \(ELAP\)](#). Under this provision, beginning farmers can claim up to 90 percent of losses for lost livestock, such as bees, under ELAP. This is a fifty percent increase over previously available payment amounts to new and beginning farmers.

In the near future, USDA will also announce additional crop insurance program changes for beginning farmers and ranchers – including discounted premiums, waiver of administrative fees, and other benefits.

Additional information about USDA actions in support of beginning farmers and ranchers is available [here](#).

---

## Livestock Indemnity Program (LIP)

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2015, eligible losses must occur on or after Jan. 1, 2015, and before December 31, 2015. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 30 calendar days after the end of the calendar year for which benefits are requested:

Proof of death documentation

- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock. These established percentages reflect losses that are considered expected or typical under “normal” conditions. Producers who suffer livestock losses in 2015 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent or by January 30, 2016
- An application for payment by January 30, 2016.

Additional Information about LIP is available at your local FSA office or online at: [www.fsa.usda.gov](http://www.fsa.usda.gov).

---

## ARC, PLC and CTAP Acreage Maintenance

Producers enrolled in Agriculture Risk Coverage (ARC), Price Loss Coverage (PLC) or the Cotton Transition Assistance Program (CTAP) must protect all cropland and noncropland acres on the farm

from wind and water erosion and noxious weeds. Producers who sign ARC county or individual contracts and PLC contracts agree to effectively control noxious weeds on the farm according to sound agricultural practices. If a producer fails to take necessary actions to correct a maintenance problem on a farm that is enrolled in ARC, PLC or CTAP, the County Committee may elect to terminate the contract for the program year.

A list of noxious weeds can be found on the following website:  
<http://plants.usda.gov/java/noxiousDriver>.

---

## **USDA Enhances Farm Storage Facility Loan Program**

The U.S. Department of Agriculture (USDA) expanded the Farm Storage and Facility Loan program, which provides low-interest financing to producers. The enhanced program includes 22 new categories of eligible equipment for fruit and vegetable producers.

Producers with small and mid-sized operations, and specialty crop fruit and vegetable growers, now have access to needed capital for a variety of supplies including sorting bins, wash stations and other food safety-related equipment. A new more flexible alternative is also provided for determining storage needs for fruit and vegetable producers, and waivers are available on a case-by-case basis for disaster assistance or insurance coverage if available products are not relevant or feasible for a particular producer.

Additionally, Farm Storage Facility Loan security requirements have been eased for loans up to \$100,000. Previously, all loans in excess of \$50,000 and any loan with little resale value required a promissory note/security agreement and additional security, such as a lien on real estate. Now loans up to \$50,000 can be secured by only a promissory note/security agreement and some loans between \$50,000 and \$100,000 will no longer require additional security.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include grains, oilseeds, peanuts, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables. Qualified facilities include grain bins, hay barns and cold storage facilities for fruits and vegetables.

Contact your local FSA office or visit [www.fsa.usda.gov](http://www.fsa.usda.gov) for more about FSA programs and loans, including the Farm Storage Facility Loan Program.

---

## **USDA Creates More Bird Habitat Opportunities on Irrigated Farmland**

USDA's Farm Service Agency (FSA) announces more bird habitats to be established in irrigated farmland regions through the Conservation Reserve Program (CRP).

Declines in upland bird populations, such as the northern bobwhite, pheasant, and prairie chicken, led to the creation of new Conservation Reserve Program features to help restore habitats for these species in these agricultural areas. Since the program's creation in 2004, more than 240,000 acres of marginal cropland has been converted to native grasslands, spurring an increase in upland bird populations.

In recent years, however, applications for this type of habitat creation have slowed. To encourage more participation, USDA's new policy focuses on farmland with center-pivot irrigation systems where there are circular areas of cropland with patches of land beyond the reach of irrigation. Until now, these patches – known as pivot corners – were only eligible for habitat creation when

connected by a linear strip of grassland also enrolled in the program. The new policy allows producers interested in habitat creation to use disconnected pivot corners to help increase the population of upland birds.

Other species that can benefit from today's change include the mourning dove, wild turkey, several sparrows, meadowlark and bobolinks.

The Conservation Reserve Program is a voluntary program. FSA contracts with agricultural landowners so that environmentally sensitive land is not farmed but instead used for conservation. Participants establish long-term plant species that control soil erosion, sequester carbon, improve water quality, and strengthen declining wildlife populations. In return, participants receive annual rental payments between 10 and 15 years.

Interested landowners can enroll pivot corners in the Conservation Reserve Program at any time. Participants and land must meet certain eligibility requirements. Other restrictions may apply. For additional details, contact your local Farm Service Agency office at [offices.usda.gov](https://www.offices.usda.gov) or visit the website at [www.fsa.usda.gov/conservation](https://www.fsa.usda.gov/conservation).

## Loans for Targeted Underserved Producers

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or to purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.

---

## Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

### Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements

- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

---

## **2015 Acreage Reporting Dates**

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit your local county FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for South Carolina:

### **May 15, 2015**

- Tomatoes (Planted 3/15 - 4/30)

### **July 15, 2015**

- Corn
- Cotton
- Flue-Cured Tobacco
- Grain Sorghum
- Peanuts
- Soybeans
- CRP
- Trees
- all other NAP crops and all other crops and land uses.

### **August 15, 2015**

- Tomatoes (Planted 7/1 – 7/15)

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local county FSA office.
