New Actively Engaged Provisions for Non-Family Joint Operations or Entities

Many Farm Service Agency programs require all program participants, either individuals or legal entities, to be "actively engaged in farming". This means participants provide a significant contribution to the farming operation, whether it is capital, land, equipment, active personal labor and/or management. For entities, each partner, stockholder or member with an ownership interest, must contribute active personal labor and/or management to the operation on a regular basis.

The 2014 Farm Bill established additional payment eligibility provisions relating to the farm management component of meeting "actively engaged in farming". These new provisions apply to joint operations comprised of non-family members or partners, stockholders or persons

Division Managers:
Owen Fagerhaug-Conservation
Lynn Stoltenburg-Price Support
Paul Hanson-Commodity
LaDonna Hupp-Farm Loan

To find contact information for your local office go to www.fsa.usda.gov/sd

~~Sidebar~~

with an ownership in the farming operation. Effective for 2016 and subsequent crop years, non-family joint operations are afforded to one member that may use a significant contribution of active personal management exclusively to meet the requirements to be determined "actively engaged in farming". The person or member will be defined as the Farm Manager for the purposes of administering these new management provisions.

In some instances, additional persons or members of a non-family member joint operation who meet the definition of Farm Manager may also be allowed to use such a contribution of active personal management to meet the eligibility requirements. However, under no circumstances may the number of Farm Managers in a non-family joint operation exceed a total of three in any given crop and program year.

Final Planting Dates

All producers are encouraged to contact their local FSA office for more information on the final planting date for specific crops. The final planting dates vary by crop, planting period and county so please contact your local FSA office for a list of county-specific planting deadlines. The timely planting of a crop, by the final planting date, may prevent loss of program benefits.

Cover Crop Guidelines

Recently the Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS) and Risk Management Agency (RMA) worked together to develop consistent, simple and a flexible policy for cover crop practices.

The termination and reporting guidelines were updated for cover crops.

Termination:

The cover crop termination guidelines provide the timeline for terminating cover crops, are based on zones and apply to non-irrigated cropland. To view the zones and additional guidelines visit https://www.nrcs.usda.gov/wps/portal/nrcs/main/national/landuse/crops/ and click "Cover Crop Termination Guidelines."

Reporting:

The intended use of cover only will be used to report cover crops. This includes crops that were terminated by tillage and reported with an intended use code of green manure. An FSA policy change will allow cover crops to be hayed and grazed. Program eligibility for the cover crop that is being hayed or grazed will be determined by each specific program.

If the crop reported as cover only is harvested for any use other than forage or grazing and is not terminated properly, then that crop will no longer be considered a cover crop.

Crops reported with an intended use of cover only will not count toward the total cropland on the farm. In these situations a subsequent crop will be reported to account for all cropland on the farm.

Cover crops include grasses, legumes, and forbs, for seasonal cover and other conservation purposes. Cover crops are primarily used for erosion control, soil health Improvement, and water quality improvement. The cover crop may be terminated by natural causes, such as frost, or intentionally terminated through chemical application, crimping, rolling, tillage or cutting. A cover crop managed and terminated according to NRCS Cover Crop Termination Guidelines is **not** considered a crop for crop insurance purposes.

Cover crops can be planted: with no subsequent crop planted, before a subsequent crop, after prevented planting acreage, after a planted crop, or into a standing crop.

CRP Payment Limitation

Payments and benefits received under the Conservation Reserve Program (CRP) are subject to the following:

- payment limitation by direct attribution
- foreign person rule
- average adjusted gross income (AGI) limitation The 2014 Farm Bill continued the $50,000 maximum CRP payment amount that can be received annually, directly or indirectly, by each person or legal entity. This payment limitation includes all annual rental payments and incentive payments (Sign-up Incentive Payments and Practice Incentive Payments). Annual rental payments are attributed (earned) in the fiscal year in which program performance occurs. Sign-up Incentive Payments (SIP) are attributed (earned) based on the fiscal year in which the contract is approved, not the fiscal year the contract is effective. Practice Incentive Payments (PIP) are attributed (earned) based on the fiscal year in which the cost-share documentation is completed and the producer or technical service provider certifies performance of practice completion to the county office. Such limitation on payments is controlled by direct attribution.

- Program payments made directly or indirectly to a person are combined with the pro rata interest held in any legal entity that received payment, unless the payments to the legal entity have been reduced by the pro rata share of the person.
- Program payments made directly to a legal entity are attributed to those persons that have a direct and indirect interest in the legal entity, unless the payments to the legal entity have been reduced by the pro rata share of the person.
- Payment attribution to a legal entity is tracked through four levels of ownership. If any part of the ownership interest at the fourth level is owned by another legal entity, a reduction in payment will be applied to the payment entity in the amount that represents the indirect interest of the fourth level entity in the payment entity. Essentially, all payments will be "attributed" to a person's Social Security Number. Given the current CRP annual rental rates in many areas, it is important producers are aware of how CRP offered acreages impact their $50,000 annual payment limitation. Producers should contact their local FSA office for additional information. NOTE: The information in the above article only applies to contracts subject to 4-PL and 5-PL regulations. It does not apply to contacts subject to 1-PL regulations.

Enrollment Period for 2017 Safety Net Coverage Continues Through Aug. 1

Producers on farms with base acres under the safety net programs established by the 2014 Farm Bill, known as the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs, can visit their local FSA office to sign contracts and enroll for the 2017 crop year. The enrollment period will continue until Aug. 1, 2017.

Since shares and ownership of a farm can change year-to-year, producers on the farm must enroll by signing a contract each program year.

If a farm is not enrolled during the 2017 enrollment period, the producers on that farm will not be eligible for financial assistance from the ARC or PLC programs for the 2017 crop should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program. Producers who made their elections in 2015 must still enroll during the 2017 enrollment period.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit http://offices.usda.gov.

USDA Announces Changes to Fruit, Vegetable and Wild Rice Planting Rules

Farm Service Agency (FSA) has announced fruit, vegetable and wild rice provisions that affect producers who intend to participate in certain programs authorized by the Agricultural Act of 2014.

Producers who intend to participate in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs are subject to an acre-for-acre payment reduction when fruits and nuts, vegetables or wild rice are planted on the payment acres of a farm. Payment reductions do not apply to mung beans, dry peas, lentils or chickpeas. Planting fruits, vegetables or wild rice on acres that are not considered payment acres will not result in a payment reduction. Farms that are eligible to participate in ARC/PLC but are not enrolled for a particular year may plant unlimited fruits, vegetables and wild rice for that year but will not receive ARC/PLC payments for that year. Eligibility for succeeding years is not affected.

Planting and harvesting fruits, vegetables and wild rice on ARC/PLC acreage is subject to the acre-for-acre payment reduction when those crops are planted on either more than 15 percent of the base acres of a farm enrolled in ARC using the county coverage or PLC, or more than 35 percent of the base acres of a farm enrolled in ARC using the individual coverage.

Fruits, vegetables and wild rice that are planted in a double-cropping practice will not cause a payment reduction if the farm is in a double-cropping region as designated by the USDA's Commodity Credit Corporation.

Report Livestock Losses

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2017, eligible losses must occur on or after Jan. 1, 2017, and no later than 60 calendar days from the ending date of the applicable adverse weather event or attack. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year in which the eligible loss condition occurred.

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 400 pounds) = 5%. These established percentages reflect losses that are considered expected or typical under "normal" conditions. Producers who suffer livestock losses in 2017 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent
- An application for payment by March 31, 2018.

Additional Information about LIP is available at your local FSA office or online at: www.fsa.usda.gov.

Maintaining Good Credit History

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer's credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt.
- Keep your credit card balances low.
- Avoid suddenly opening or closing existing credit accounts.FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.For more information on FSA farm loan programs, visit www.fsa.usda.gov.

USDA Expands Farm Loans for Native Americans Farming and Ranching on Tribal Land

Department Awards First Loan Under Highly Fractionated Indian Land Program

USDA has approved and obligated the first loan under the Highly Fractionated Indian Land Loan program (HFIL). The program, made possible by the 2014 Farm Bill, provides revolving loan funds to qualified intermediary lenders, allowing qualified tribes and individuals the ability to purchase tribal farmland that has multiple owners.

The first recipient, the Native American Community Development Corporation Financial Services, Inc. (NACDCFS) of Browning, Mont., will lend funds directly to tribal members through a $10 million intermediary HFIL loan from USDA's Farm Service Agency (FSA). NACDCFS addresses critical needs in Native American communities related to the growth of family assets, supports economic development, and enhances the quality of life for communities and residents located on or near Montana's seven Indian reservations. NACDCFS provides one-on-one technical assistance to Native American entrepreneurs and agricultural producers. NACDCFS is a 501(c) (3), certified Native Community Development Financial Institution (CDFI), through the U.S. Department of Treasury.

Under the 1887 Dawes Act, Indian reservation land was divided and allotted to individual tribal members such that with the passing of each generation, title ownership was divided and parceled among heirs, while the land was not. As a result, land once owned by a single person could today be owned by hundreds or thousands of individuals, resulting in what is known as "highly fractionated Indian land." In many instances, landowners are unknown or cannot be located, which complicates the coordination of ownership or prevents the use of the property altogether. There are more than 245,000 owners of three million fractionated land interests, spanning approximately 150 Indian reservations.

Under HFIL, tribes and tribal members can submit an application directly to an intermediary lender. To participate, intermediary lenders first must be approved by USDA. The lenders may be private and tribal nonprofit corporations, public agencies, Indian tribes or lenders subject to federal or state regulation (such as a credit union or other financial institution). FSA will lend to the intermediary, which will relend to the applicant. The intermediary lender also will administer the loan for the applicant.

For more information on the program, visit www.fsa.usda.gov/farmloans or contact the local FSA county office. To find the local FSA office, visit http://offices.usda.gov.

Civil Rights/Discrimination Complaint Process

As a participant or applicant for programs or activities operated or sponsored by USDA you have a right to be treated fairly. If you believe you have been discriminated against because of your race, color, national origin, gender, age, religion, disability, or marital or familial status, you may file a discrimination complaint. The complaint should be filed with the USDA Office of Civil Rights within 180 days of the date you became aware of the alleged discrimination. To file a complaint of discrimination write USDA, Director, Office of Civil Rights, Room 326W, Whitten Building, 14th and Independence Avenue, SW, Washington DC 20250-9410 or call 202-720-5964 (voice or TDD), USDA is an equal opportunity provider, employer and lender. A complaint must be filed within 180 calendar days from the date the complainant knew, or should have known, of the alleged discrimination.
