#### Acting State Executive Director:

Jamie White

#### State Committee:

Mark Gross, *Chairman*

Tiffani Robertson, *Member*

### FSA is Accepting CRP Continuous Enrollment Offers

The Farm Service Agency (FSA) is accepting offers for specific conservation practices under the [Conservation Reserve Program \(CRP\) Continuous Signup](#).

In exchange for a yearly rental payment, farmers enrolled in the program agree to remove environmentally sensitive land from agricultural production and to plant species that will improve environmental health and quality. The program's long-term goal is to re-establish valuable land cover to improve water quality, prevent soil erosion, and reduce loss of wildlife habitat. Contracts for land enrolled in CRP are 10-15 years in length.

Under continuous CRP signup, environmentally sensitive land devoted to certain conservation practices can be enrolled in CRP at any time. Offers for continuous enrollment are not subject to competitive bidding during specific periods. Instead they are automatically accepted provided the land and producer meet certain eligibility requirements and the enrollment levels do not exceed the statutory cap.

Bill Simonson, *Member*

Gwen Kitzan, *Member*

Kelsey Scott, *Member*

For more information, including a list of acceptable practices, contact your local county USDA Service Center or visit [fsa.usda.gov/crp](https://fsa.usda.gov/crp).

## Disaster Assistance Available for Livestock Losses

### Program Managers:

Owen Fagerhaug  
*Conservation*

Logan Kopfmann  
*Disaster Relief*

Theresa Hoadley  
*Program Delivery/Price Support*

Ryan Vanden Berge  
*Farm Loan Program*

The Livestock Indemnity Program (LIP) provides assistance to you for livestock deaths in excess of normal mortality caused by adverse weather, disease and attacks by animals reintroduced into the wild by the federal government or protected by federal law.

For disease losses, FSA county committees can accept veterinarian certifications that livestock deaths were directly related to adverse weather and unpreventable through good animal husbandry and management.

For 2021 livestock losses, you must file a notice within 30 calendar days of when the loss is first apparent. You then must provide the following supporting documentation to your local FSA office no later than 60 calendar days after the end of the calendar year in which the eligible loss condition occurred.

- Proof of death documentation
- Copy of grower's contracts
- Proof of normal mortality documentation

To find contact information for your local office go to [www.fsa.usda.gov/sd](https://www.fsa.usda.gov/sd)

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 250 pounds) = 5%. These established percentages reflect losses that are considered expected or typical under "normal" conditions.

In addition to filing a notice of loss, you must also submit an application for payment by March 1, 2022.

For more information, contact your local county USDA Service Center or visit [fsa.usda.gov](https://fsa.usda.gov).

---

## Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)

ELAP provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible losses include:

- **Livestock** - grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.
- **Honeybee** - loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of

normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

- **Farm-Raised Fish** - death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

If you've suffered eligible livestock, honeybee, or farm-raised fish losses during calendar year 2021, you must file:

- A notice of loss within 30 calendar days after the loss is apparent (15 days for honeybee losses)
- An application for payment by Jan. 30, 2022

---

## Keeping Livestock Inventory Records

Livestock inventory records are necessary in the event of a natural disaster, so remember to keep them updated.

When disasters strike, the USDA Farm Service Agency (FSA) can help you if you've suffered excessive livestock death losses and grazing or feed losses due to eligible natural disasters.

To participate in livestock disaster assistance programs, you'll be required to provide verifiable documentation of death losses resulting from an eligible adverse weather event and must submit a notice of loss to your local FSA office within 30 calendar days of when the loss of livestock is apparent. For grazing or feed losses, you must submit a notice of loss to your local FSA office within 30 calendar days of when the loss is apparent and should maintain documentation and receipts.

You should record all pertinent information regarding livestock inventory records including:

- Documentation of the number, kind, type, and weight range of livestock
- Beginning inventory supported by birth recordings or purchase receipts.

For more information on documentation requirements, contact your local county USDA Service Center or visit [fsa.usda.gov](https://fsa.usda.gov).

---

## Report Noninsured Crop Disaster Assistance Program (NAP) Losses

NAP provides financial assistance to you for crops that aren't eligible for crop insurance to protect against lower yields or crops unable to be planted due to natural disasters including freeze, hail, excessive moisture, excessive wind or hurricanes, flood, excessive heat and qualifying drought (includes native grass for grazing), among others.

To receive payment, you had to purchase NAP coverage for 2021 crops and file a notice of loss the earlier of 15 days of the occurrence of the disaster or when losses become apparent or 15 days of the final harvest date.

For hand-harvested crops and certain perishable crops, you must notify FSA within 72 hours of when a loss becomes apparent.

Eligible crops must be commercially produced agricultural commodities for which crop insurance is not available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

For more information on NAP, contact your local county USDA Service Center or visit [fsa.usda.gov/nap](https://fsa.usda.gov/nap).

---

## FSA Opens CFAP 2 Signup for Additional Enrollment; Updates Additional CFAP Provisions

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) announced that signup has reopened for the Coronavirus Food Assistance Program 2 (CFAP 2) as part of the Pandemic Assistance for Producers initiative. The initial CFAP 2 signup ended on Dec. 11, 2020, but USDA has reopened sign-up for CFAP 2 for at least 60 days beginning April 5, 2021, for producers to apply or make modifications to existing CFAP 2 applications.

CFAP 2 provides direct financial relief to producers due to market disruptions and associated costs because of COVID-19. CFAP 2 payments will be made for three categories of commodities – Price Trigger Commodities, Flat-rate Crops and Sales Commodities. Visit [farmers.gov/cfap/commodities](https://farmers.gov/cfap/commodities) for a full list of eligible commodities for each category.

**Price Trigger Commodities** Price trigger commodities are major commodities that meet a minimum 5-percent price decline over a specified period of time. Eligible price trigger crops include barley, corn, sorghum, soybeans, sunflowers, upland cotton, and all classes of wheat. Payments will be based on 2020 planted acres of the crop, excluding prevented planting and experimental acres.

For broilers and eggs, payments will be based on 75 percent of the producers' 2019 production.

Dairy (cow's milk) payments will be based on actual milk production from April 1 to Aug. 31, 2020. The milk production for Sept. 1, 2020, to Dec. 31, 2020, will be estimated by FSA.

Eligible beef cattle, hogs and pigs, and lambs and sheep payments will be based on the maximum owned inventory of eligible livestock, excluding breeding stock, on a date selected by the producer, between April 16, 2020, and Aug. 31, 2020.

**Flat-rate Crops** Crops that either do not meet the 5-percent price decline trigger or do not have data available to calculate a price change will have payments calculated based on eligible 2020 acres multiplied by \$15 per acre. These crops include alfalfa, extra long staple (ELS) cotton, oats, peanuts, rice, hemp, millet, mustard, safflower, sesame, triticale, rapeseed, and several others.

**Sales Commodities** Sales commodities include specialty crops; aquaculture; nursery crops and floriculture; other commodities not included in the price trigger and flat-rate categories, turfgrass sod; pullets; goat milk; mink (including pelts); mohair; wool; and other livestock (excluding breeding stock), not included under the price trigger category that were grown for food, fiber, fur, or feathers. Payment calculations will use a sales-based approach, where producers are paid based on five payment gradations associated with their 2019 sales, and crop insurance indemnities, Noninsured Crop Disaster Assistance Program (NAP), and Wildfire and Hurricane Indemnity Program Plus (WHIP+) payments for crop year 2019.

## Applying for CFAP 2

Visit [farmers.gov/cfap](https://farmers.gov/cfap) for details on all eligible commodities, producer eligibility, payment limitations and structure and additional program resources.

Producers have multiple options to apply for CFAP 2, including through an online application portal and by working directly with the FSA office. Customers seeking one-on-one support with the CFAP 2 application process can call 877-508-8364 to speak directly with a USDA employee ready to offer assistance.

## Additional CFAP Payments for Beef and Row-Crop Producers

The Consolidated Appropriations Act, 2021, authorizes an increase in CFAP 1 payment rates for cattle. Cattle producers with approved CFAP 1 applications will automatically receive these payments and do not need to submit a new application since payments are based on previously approved CFAP 1 applications. Producers may be asked for additional information depending on how they filed the original application. Information on the additional payment rates for cattle can be found on [farmers.gov/cfap](https://farmers.gov/cfap).

This act also authorized additional CFAP assistance of \$20 per acre for producers of eligible CFAP 2 flat-rate or price trigger commodities. FSA will automatically issue payments to eligible producers based on the eligible acres included on their CFAP 2 applications. Eligible producers do not need to submit a new CFAP 2 application.

**Additional CFAP Actions** FSA has also begun payment processing applications filed as part of the CFAP Additional Assistance program in the following categories:

- Applications filed for pullets and turfgrass sod;
- A formula correction for row-crop producer applications to allow producers with a non-Actual Production History (APH) insurance policy to use 100% of the 2019 Agriculture Risk Coverage-County Option (ARC-CO) benchmark yield in the calculation; and
- Sales commodity applications revised to include insurance indemnities, Noninsured Crop Disaster Assistance Program payments, and Wildfire and Hurricane Indemnity Program Plus payments.

Additional payments for swine producers and contract growers under CFAP Additional Assistance remain on hold and are likely to require modifications to the regulation as part of the broader evaluation and future assistance; however, FSA will continue to accept applications from interested producers.

---

## Communication is Key in Lending

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be successful. FSA staff will provide guidance and counsel from the loan application process through the borrower's graduation to commercial credit. While it is FSA's commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower's responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation
- Any significant changes to family income or expenses
- The development of problem situations
- Any losses or proposed significant changes in security

If a farm loan borrower can't make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

For more information on FSA farm loan programs, contact your local county USDA Service Center or visit [fsa.usda.gov](https://fsa.usda.gov).

---

## Applying for Beginning Farmer Loans

The Farm Service Agency (FSA) assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's average size farm.

For more information contact, contact your local county USDA Service Center or visit [fsa.usda.gov](https://fsa.usda.gov).
